This New Morning Glory

SCARLETT O'HARA

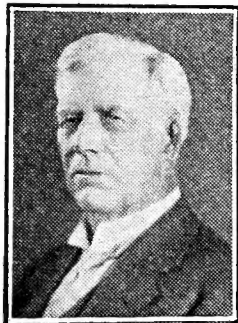

won the All
America Gold
Medal for 1939
but is still so
new that only a
limited amount
of seed is avail-
able. We sug-
gest you order
early so as not
to be without it
in your garden.
No other Morn-
ing Glory has
this unusual
shade.

Morning Glory
2425 Scarlett O'Hara.

To Our Customer Friends:-

How have you been since last we heard from you? Well and happy, with no more than your share of trouble or illness, I trust! All of us have been well with plenty of work to keep us busy.

Business has been good, too. Last fall, we sold out every last bulb of all the Tulips, Hyacinths, Daffodils and Crocuses we imported from Holland and could have sold many more, had we had them. That showed us better than anything else that our friends found money a bit easier, whether working for others or in business for themselves.

This makes me look forward to good demand for our seeds and bulbs this coming season. The early seed and bulb orders from California, (you know folks out there plant while we in the north are snowed in), are larger and there are more of them than for several years. This adds to my confidence.

We had a grand seed producing season last summer with more favorable weather for seed development than for several years. That means the gardeners who use these seeds and bulbs will have the best possible start this season.

You will notice the cream of the All America Selections are included in the catalog this year, along with all the other new varieties on which I have been working to get ready to introduce to you for some time back. That new Scarlett O'Hara Morning Glory hit me between the eyes in 1937. I just hope there will be enough seed to go around, because on the fence at my home in Lakewood it made a tremendous impression on an unusually large number of summer visitors who called on me while I was limping around after an accident, and I know it will sell fast.

Scarlett O'Hara has an unusual color, different from any Morning Glory I ever saw and the leaves, with their two broad thumbs overlap so well they make a complete screen where one is desired. I know you will like it.

Many write me that they get more out of their gardening by sitting down with my catalog when it arrives and making a rough sketch or plan of the various spots where they wish to plant, and of their garden, (some dignify it by calling it "planning"). But plan or sketch or whatever, this sort of preliminary study leads in the end to greater satisfaction with the whole gardening project. I know they are right because it works with me here, and at home, and in our Test Garden.

The less room you have, the more important. For example, our front yard at our building is 50 x 60 feet. It has 26 fairly good sized beds over the whole creeping-bent lawn. We start by making a paper plan and assign each of the more than 300 lots of 24 Tulip bulbs, to a definite place, so that the more than 8,000 bulbs will be in entire harmony as to color combinations, periods of bloom, height and balance. All this was done before a single bulb was planted. Now that the planting is done, we have used the maximum amount of space for Tulips and still have left, good paths of grass for the thousands of visitors who will want to walk among the beds to study and enjoy the flowers in April and May. (Incidentally, if you can possibly get here when they are in bloom, come by all means, for there is no sight like it in America. Be sure to ask for one of us, for we like to meet our customers and get better acquainted).

Naturally, I would like to receive your order for seeds and bulbs this year. (Otherwise, I wouldn't send you this catalog). I have tried to make the catalog truly helpful, accurate in descriptions and illustrations and hope you find this has been accomplished.

The top quality seeds and bulbs I will use in filling your orders will please you, whether you be an amateur or professional gardener. After Mr. Templin had been in this business for 36 years, I joined him and learned the business and the policies of the firm under his careful guidance. That was 26 years ago, so you have the benefit of what we have learned about the needs of gardeners in the combined periods totalling 63 years of continuously serving our customers.

If at any time anything does not please you in treatment, service or quality I will consider it a privilege if you will let me know by letter or card and I will try my best to adjust to your satisfaction. If, on the other hand, you buy and are well pleased with those things mentioned, a few well chosen words to that effect to your friends and neighbors, will not only proclaim your own gardening interests to others but will help build GOOD WILL, which is so necessary for the success of any business.

Now it is your turn to write me and I would not only appreciate your order for seeds and bulbs but a note about your garden plans as well. Best wishes for a grand garden this year,

FB:B

Floyd Bradley
President.

See Index on Page 60.

PRICES INCLUDE DELIVERY

On everything in this catalog except where noted, prices include delivery to your mailbox or express office. This means you have no extras when you buy here.

HOW TO ORDER

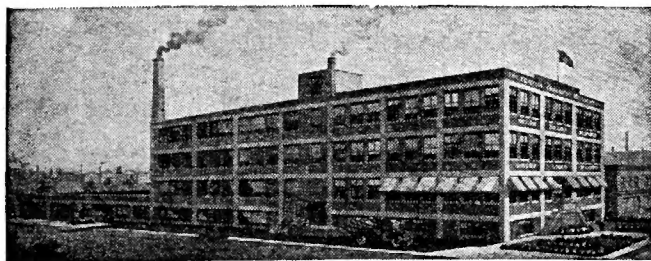

Use the printed order blank bound in between pages 2 and 3. Fill in the form at the top first. Then list the seeds and bulbs, price and add. Note the column for "Variety Numbers" on all seeds and also on collections of bulbs. By using the "Variety Numbers" when you order it will increase accuracy all around. Use the enclosed tough, safe, self-addressed envelope, when you mail us your order. You may pay by Money Order, Check or if you must send cash or stamps, be sure to register the envelope.

WHEN TO ORDER

Catalogs are mailed early so you can order as early as possible. We appreciate early orders because it enables us to fill them with most experienced help before the rush hits us, at which time we can fill 7,500 orders per day. We like to fill all orders within 24 hours of arrival here. Our customers like this service.

WHEN DO WE DELIVER?

Seeds will be shipped as soon as your order is received. Begonias, Gladiolus, Dahlias, Cannas and other bulbs will be shipped from here, either with the seeds, or if there is danger of freezing them, later.

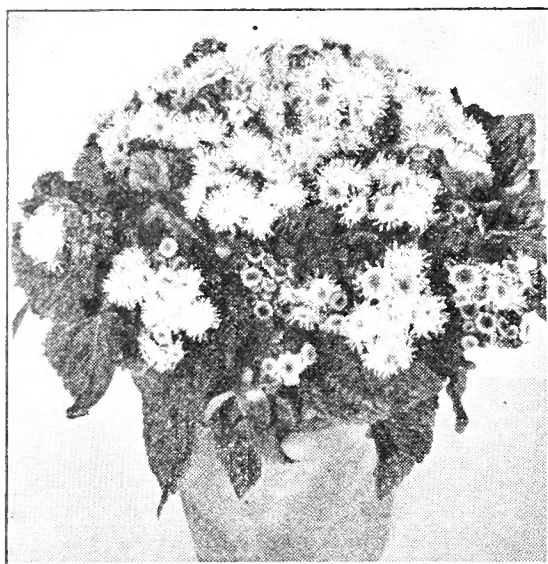

Our Own Building at 5700 Detroit Ave.,
Cleveland, Ohio

Only the best is good enough for Templin-Bradley customers

Annual Flower Novelties

New Introductions and All America Selections

Ageratum, Fairy Pink

Each year many new varieties of annual flowers and many new developments or improvements of older varieties are offered you for use in your gardens. Most of these have much merit and are well worthy your trial if you are interested in the new flowers. The varieties which we offer on our three novelty pages, have been selected as the most interesting, most deserving and most worthy of a place in your garden.

Two New Ageratums

17-A KING OF THE BLUES. The flowers of this new Ageratum are the nearest to true blue of any yet grown. The plants are neat, dwarf, compact, very free flowering and exceptionally uniform in growth. Distinct in both habit and color, King of the Blues has just the qualities you desire. **Pkt. 35c.**

18 FAIRY PINK. This new Ageratum is a dwarf compact type, seldom growing over 5 or 6 inches tall, producing a mass of delightful soft salmon-rose-pink flowers. Plants begin blooming when a few inches tall and continue as the plant grows until it forms a solid mass of bloom. **Pkt. 20c.**

New Color In Alyssum

23-A VIOLET QUEEN. Flowers of this new variety have a character peculiarly their own, being of a pretty bright violet tint. Plants are dwarf and neatly compact and just as free flowering as the white varieties. Violet Queen offers a pleasant alternative to the old favorite white flowering varieties for edging and borders. **Pkt. 35c.**

27 SNOW CLOTH. A new and most desirable white variety of the Procumbens type, being very dwarf, very free flowering and very uniform in plant growth. A most outstanding variety for edging beds or for carpet bedding because of its neat growth and continuous bloom. **Pkt. 10c; 1/4 oz. 30c.**

Balsam, Bush Flowered

The New Balsam

309 BUSH FLOWERED MIXED. This new type of Balsam will grow only 15 to 18 inches tall forming dense, shapely, compact plants with rich dark foliage. The lovely double blooms are borne above the foliage like miniature bouquets. With its delightful array of color this variety will add much interest and beauty to your garden. **Pkt. 15c; 1/8 oz. 40c.**

Celosia Cockscomb, Royal Velvet

A Cockscomb for Cutting

494 ROYAL VELVET. All-America. A fine new Cockscomb branching from the base, the extra large center head is surrounded by numerous medium sized Combs just right for cutting. Combs are of rich ruby-red and foliage is bronzy-green with reddish margin. Plants are two feet tall and bloom very early. **Pkt. 25c.**

New Double Cornflowers

536 JUBILEE GEM. A fine new dwarf variety of Double Bachelor Button or Cornflower. The plant grows very compact, 12 inches high, the foliage forms little tufts of bright green, contrasting beautifully with the strikingly vivid, double flowers. The color is so intense, and the well-shaped plant is literally covered with its true-blue flowers. **Pkt. 15c.**

See Jubilee Gem in Color on Page 50.

537 LILAC LADY. A counterpart of Jubilee Gem in form and habit, this lovely variety bears an abundance of flowers of bright lilac-mauve color. These dwarf varieties are admirably adapted to use as an edging plant or in clumps. Also a fine pot plant. **Pkt. 25c.**

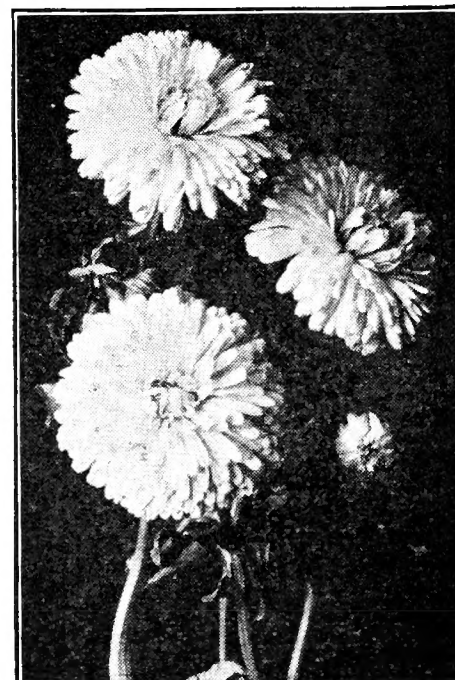

See Lilac Lady in Color on Page 29.

Two Fine Calendulas

430 LEMON SHAGGY. A very deserving companion to Orange Shaggy which still holds its popularity. The flowers are very beautiful with their bright lemon colored petals overlaying each other in a rather irregular fashion. The effect is to build up a bloom with the shaggy appearance of some Chrysanthemums. **Pkt. 15c; 1/8 oz. 30c.**

431 ORANGE SUNSHINE. This rich golden-orange Calendula of the Chrysanth type produces flowers of informal loose formation with long slender incurved petals. Flowers are of good size and on long stems. A very welcome companion to the Lemon Chrysanth which has proven so popular and satisfactory. **Pkt. 10c; 1/4 oz. 35c.**

See Orange Sunshine in Color on Page 50.

Calendula, Orange Sunshine

Snapdragons—Antirrhinums

80 SUPER MAJESTIC MIXED. These new rust-proof Majestics produce larger flowers and better spikes than the former Majestic group and the color range included in this mixture contains many marvelous new colors. (These are offered in separate colors on Page 25.) **Mixed Colors. Pkt. 15c; 1/2 oz. 35c.**

92 MAGIC CARPET. This attractive dwarf Snap-dragon is very useful and desirable in every garden. Its dwarf compact plants fit most anywhere, in the rock garden, as a bedding sort and are most attractive as an edging variety. Their flowers, freely produced, come in a variety of soft pleasing colors and are fine for cut-flowers. **Shown in color on Page 31. Pkt. 20c.**

Two Fine Asters

Both Shown in Color on Page 11.

152 EARLY BEAUTY PURPLE. This fine variety of the Early Beauty type is an especially desirable cut-flower subject. Its beauty of form, richness of color and long strong stems are unexcelled among Asters. **Pkt. 10c; 1/8 oz. 30c.**

219 GIANTS OF CALIFORNIA CRIMSON. Another of the best and most satisfactory Asters for cutting material. Fine form, excellent substance, strong stems and a very rich color. Bloom until killed by frost. **Pkt. 10c; 1/8 oz. 35c.**

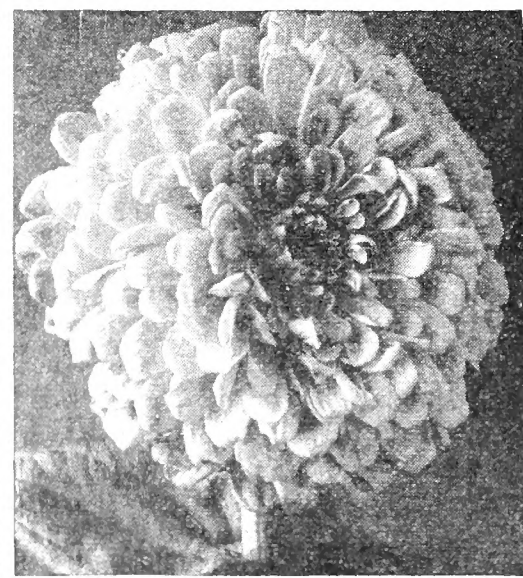

Aster of Unusual Color

293 SURPRISE GOLDEN SALMON. Opens pure salmon-yellow, changes to salmon-rose. The blooms resemble the Peony-Flowered Asters, fully double, round, 3 inches across. Good keeping qualities, making them valuable for bouquets. Plants are long stemmed, 15 inches tall, and bloom profusely in mid-summer. **Pkt. 10c; 1/8 oz. 30c.**

See this Aster in Color on Page 11.

The Best Plume Celosia

514 FLAME OF FIRE. Decidedly the best and most colorful of the Plume Celosias for garden decoration or cutting material. 18 to 20 inches tall, of upright pyramidal form, it bears many terminal plumes both large and small, that are most attractive, alone or in mixed bouquets. **Illustrated on Page 14. Pkt. 15c; 1/8 oz. 40c.**

Zinnia Dahlia Flowered

Our Front Cover

Gold Medal Dahlia Flowered Zinnias

The Zinnia is still the most popular of all flowers and it is also the most satisfactory under nearly all garden conditions. And of all Zinnias the huge Dahlia Flowered type is the outstanding variety for size, form, color and general all purpose usefulness.

On our Front Cover we offer five of the most popular and desirable colors of this fine variety at a very special low price which allows you to have a grand display at very low cost.

No. 2220 Collection Dahlia Flowered Zinnias

5 Colors in this collection (Value 50c) for 35c.

Included in this collection, is a generous packet of each of the following five colors:

Crimson Monarch
Polar Bear

Golden State

Exquisite Pink
Purple Prince

Other colors of this grand Zinnia and many other types of Zinnias are offered on pages 28 and 33.

Annual Flower Novelties

By including each year a number of the new introductions, your garden becomes a spot of never ending interest and enchantment both to yourself and your garden visitors. You at the same time discover many new and worthy varieties which will become your permanent choice for annual planting.

Dwarf Cynoglossum

652 FIRMAMENT. All-America. This fine new Cynoglossum or Summer Forget-Me-Not produces plants of dwarf, compact, shapely growth, that overcomes the objection to previous varieties for garden use. The 12 to 15 inch plants bear a profusion of vivid indigo-blue blooms on well branched stems, make excellent cutting material, as well as attractive garden flowers. **Pkt. 25c.**

See Cynoglossum Firmament in Color on Page 2.

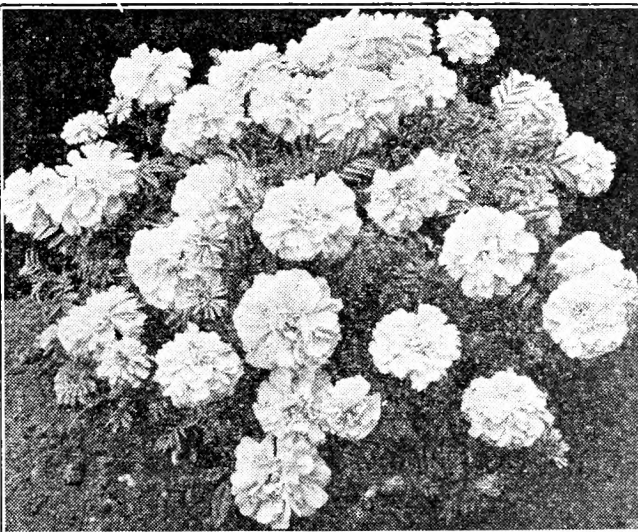

A New Blue Nolana

1495 BLUE ENSIGN. This new form of the Chilean Bellflower has very attractive blue flowers enhanced by a large pure white center. Grows about 12 inches tall and spreading, throwing up its ultra marine blue flowers on 5 to 6 inch stems. Blue Ensign is also fine for pots, urns or window boxes. Sow early inside for transplanting or sow directly in the garden in May. **Pkt. 15c.**

Nierembergia

1489 HIPPOMANICA. These dwarf compact plants grow not over 5 to 6 inches tall with a spread of 8 to 10 inches forming a neat tidy plant which is fairly covered with bloom from the time it is 2 or 3 inches high. Flowers are lovely lavender-blue with yellow center and very freely produced. (See color plate on page 50.) **Pkt. 20c.**

Nierembergia Hippomanica in Color on page 50.

Marigold, Tom Thumb Golden Crown

Beautiful Livingston Daisy

1399 MESEMBRYANTHEMUM CRINIFLORUM. Plants of spreading habit and literally covered with lovely daisy-like flowers in the most delightful shades imaginable. Pure white, rose, pink, crimson, apricot, primrose and gold, and some delightfully tinted and edged, are the colors that run riot in this strain. **Pkt. 15c; 1/8 oz. 30c.**

Cuphea Firefly

The New Cuphea

648 FIREFLY. Neat dwarf compact plants, with beautiful dark rich green foliage and many delicately formed fiery cerise-red flowers, make this new plant a very interesting and attractive subject for the rockery, window boxes, pots, or as an edging plant. Grows about 10 inches tall blooming continuously. **Pkt. 20c.**

New Dwarf Double Dahlias

653 NEW DWARF DOUBLE HYBRIDS. A great improvement over present existing strains, this grand variety contains a very high percentage of true double flowers. The color range has also been broadened and includes shades of canary-yellow, scarlet, terra-cotta, apricot, crimson, lavender-pink, purple, maroon, buff, cream, white and many intermediate shades. An excellent cut-flower variety, growing about 30 inches tall. **Pkt. 20c; 1/8 oz. 60c.**

A Fine Eschscholtzia

809 NEW DOUBLE MIXED. These new double Poppy-like flowers are greatly improved in form, doubleness and in their grand color range. Their beautiful foliage and abundance of bloom, make them a most desirable and colorful garden subject in almost any situation. If cut just as they are opening they make very useful cut-flowers. **Pkt. 10c; 1/8 oz. 30c.**

See the Double Eschscholtzia in Color on Page 11.

New Annual Hollyhock

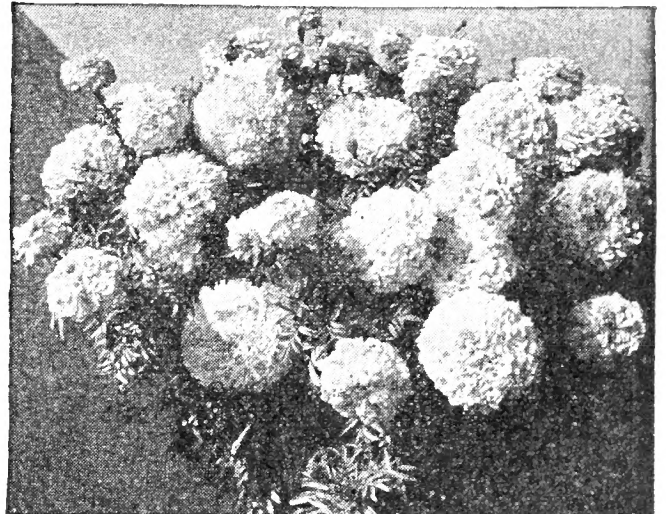

1078 INDIAN SPRING. All-America. This lovely new Hollyhock has semi-double to double fringed flowers borne on tall central spikes 4 to 5 feet tall which when cut are followed by several side shoots bearing more lovely flowers. Blooms in many delightful shades of pink and usually in 5 to 7 weeks from seed. One of the most interesting new plants. **Pkt. 25c.**

A Real Satisfactory Lobelia

1334 BLUE GOWN. A very delightful variety with most excellent habit of growth producing uniform compact plants bearing a mass of deep rich blue flowers. An unusual fine and satisfactory variety for edging or for pots and urns. **Pkt. 15c; 1/8 oz. 40c.**

Most Fragrant Nicotiana

1487 SUAVEOLENS, FRAGRANT WHITE. The most delightful of all Nicotiana varieties, this dwarf white should be in every garden. The upright well formed plants grow 18 to 20 inches tall and produce an abundance of orange-blossom white, very fragrant blooms, for cutting. **Pkt. 20c.**

Marigold New Sunset Giants

Best New Marigolds

1358 SUNSET GIANTS. Flowers measure 4 to 5 inches across. Gigantic, showy and fragrant, they come in a grand mixture of colors from deep orange through golden-yellow, to a delightful shade of primrose-yellow. Plants extremely strong growing, producing 6 to 8 branches of 3 to 6 flowers each. (See color plate Page 31.) **Pkt. 15c; 1/8 oz. 30c.**

1388 ORANGE SUNSET. This deep rich lively orange shade from the Sunset Giants has been the most admired shade in that mixture since it was introduced. It has now been segregated so that you may now grow this color separately. The flowers are the same giant double wavy petalled blooms of the parent and just as freely produced. **Pkt. 15c.**

1367 TOM THUMB GOLDEN CROWN. A dwarf variety growing only 10 to 12 inches tall and fairly covered with large fully double blooms which except for being larger and more double are exact counterparts of Guinea Gold, its parent. Unusually fine for front row of borders. **Pkt. 20c.**

1368 COLLARETTE CROWN OF GOLD. All-America Gold Medal Award. Flowers with outer row of broad petals and centers of short curled and twisted petals forming a delightfully crested bloom of rich orange color and fragrant. The foliage is odorless. (See color plate on Page 30.) **Pkt. 10c; 1/8 oz. 25c.**

1376 DWARF HARMONY. This little beauty is a wonder in the garden as well as in the house as a cut-flower. The flowers are about 1 1/2 inches across. Center is orange-yellow with deep, tubular petals that resemble a Scabiosa and the guard petals are a broad setting of velvety maroon. It blooms early and late, from June to frost. Harmony makes a nice variety to plant in front of the taller, larger flowered Marigolds. (See color plate on Page 32.) **Pkt. 10c; 1/8 oz. 25c.**

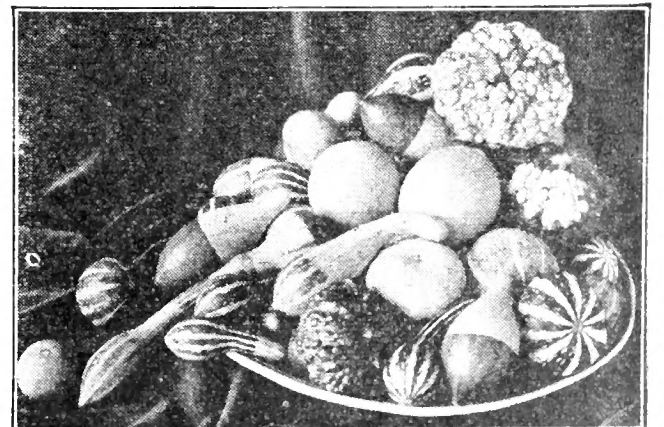

New Color In Phlox

1626 GIGANTEA SALMON GLORY. All-America. The individual florets of this new color are gigantic in size often 1 1/4 to 1 1/2 inches in diameter. The color, a pure salmon-pink with creamy-white eye, makes one of the most delightful color combinations imaginable. Salmon Glory will please every one as a garden subject and as a cut-flower. (See this Phlox in color on page 29.) **Pkt. 25c.**

Small Ornamental Gourds

These small fruited Gourds are fast becoming a nation wide fad. When dried and varnished, they become bright, glistening, highly colored novelties that are most interesting and attractive.

They are very easily grown in any fair garden soil and produce their fruits freely. Allow them to remain on the vine until fully matured and hard, pick them carefully not to bruise them, cure at least two weeks in a dry airy place (not in the sun) and then varnish them. We offer them in many separate varieties on page 17. Many prefer to grow them that way, but the mixture offered here contains all the named varieties shown in color on Page 29 and many other odd sorts.

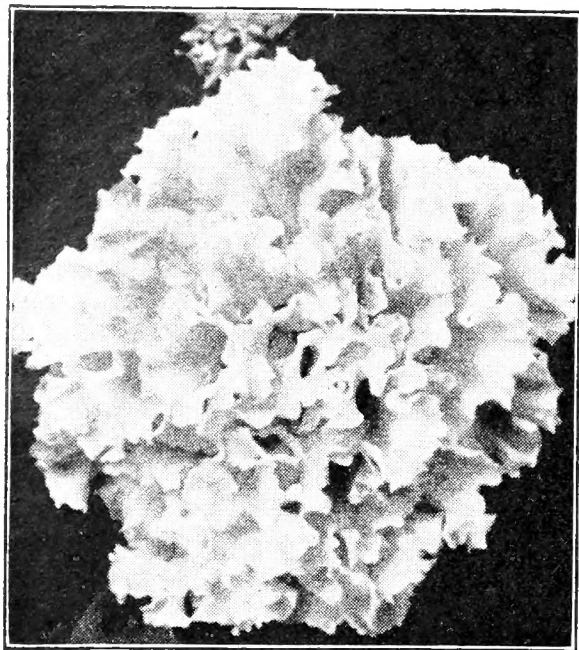

2392 SMALL ORNAMENTAL MIXED. **Pkt. 10c; Oz. 30c; Lb. \$2.75.**

Livingston Daisy, Mesembryanthemum

Try Our All-America Flowers and Novelties. They are all beautiful.

Petunia, Dwarf Double Adorable

More New Petunias

1604-A HOLLYWOOD STAR. All-America 1939. This lovely new Petunia is a charming shade of rich rose with an amber throat. The flower form is unique, distinctly a five pointed star shaped, very novel and attractive. Early, free flowering, Hollywood Star is fairly smothered with its beautiful blooms. See it in full color on Page 2. **Pkt. 25c.**

1613 HEAVENLY BLUE. Not a new introduction but still the best and most popular light blue bedding Petunia known. See it in full color on page 30. **Pkt. 10c.**

1617 ADMIRAL. The most satisfactory deep blue, compact growing Petunia for bedding. The flowers are large, slightly waved and of rich violet-blue, are freely produced on the well formed plants and keep well on the plant without fading. **Pkt. 10c.**

1618 LADY BIRD. All-America 1938. A wonderful new color in Petunias, Lady Bird produces brilliant blooms of bright carmine overlaid with scarlet. Plants are dwarf and bushy, exceedingly fine for bedding or pot growing. Very resistant to hot dry weather. **Pkt. 25c.**

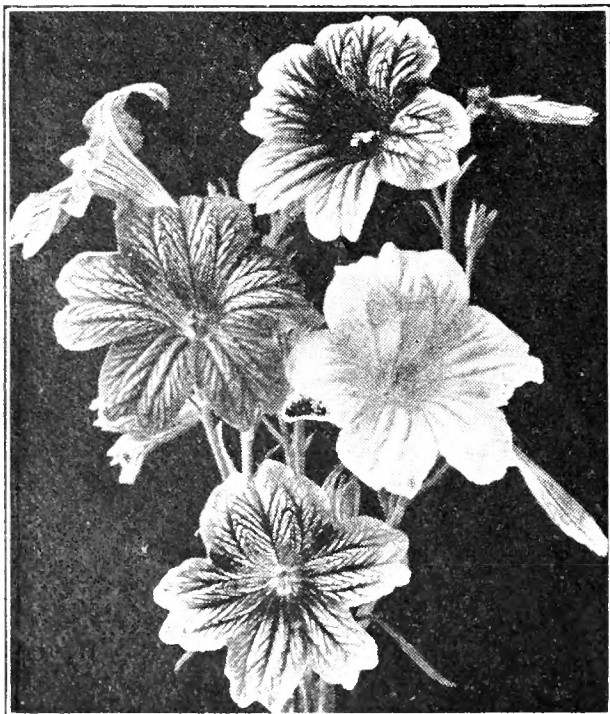

Two Fine New Salvias

1708 BLAZE OF FIRE. Early, dwarf and brilliantly colored, this fine variety produces compact plants 12 to 18 inches tall with rich bright green foliage that is almost completely hidden by the blaze of color produced by its profusion of bloom. **Pkt. 25c.**

1709 ST. JOHN'S FIRE. A new dwarf compact variety coming into bloom a week earlier than Blaze of Fire. Its extreme earliness, brilliance of color and freedom of flower make it most desirable for every garden. See it in full color on page 2. **Pkt. 35c.**

New Dwarf Salpiglossis

1705 DWARF GIANT FLOWERING. This is a new strain with compact, branching plants, 18 to 20 inches tall, making it ideal for bedding purposes. Extremely floriferous, the head of the plant being covered with blossoms, half again as large as the regular Salpiglossis. **Pkt. 15c; 1/16 oz. 25c.**

Salpiglossis, Dwarf Giant

Annual Flower Novelties

Beautiful New Petunias

The new Petunia offerings for 1939 include some of the finest and best varieties that we have yet seen. They are the most deserving of a trial in your garden.

1569 DWARF DOUBLE ADORABLE. This wonderful new Petunia is the result of many years of patient work in bringing it to the ideal that has now been achieved. The plants are dwarf, branching from the base when only an inch or two high, forming a broad low growing plant which produces an abundance of fully double fringed light La France pink blooms. Adorable, is we believe, the finest double Petunia we have ever had the pleasure of offering our garden friends. For bedding it is unexcelled, as a pot or urn plant it gives wonderful effects, and as a cut-flower it is most satisfactory. Adorable, blooms early and continues until frost. **Pkt. 60c.**

1581 SUPER FLUFFY RUFFLES. A Petunia so heavily ruffled and fringed that it has the appearance of being double flowered. Flowers are very large, with large bright throat and almost 100% true to type. A fine color mixture of pink, salmon, rose, crimson, light blue and white, and many intermediates. **Pkt. 25c.**

1583-E BURGUNDY. An All-America Selection. This new Petunia is a deep Burgundy-red and has a rich, velvety sheen. Its white throat is veined in purplish-red which adds greatly to its desirability. Petals about 3 1/2 inches, five lobed and neither fringed nor ruffled. Burgundy is shown in color on Page 32. **Pkt. 20c.**

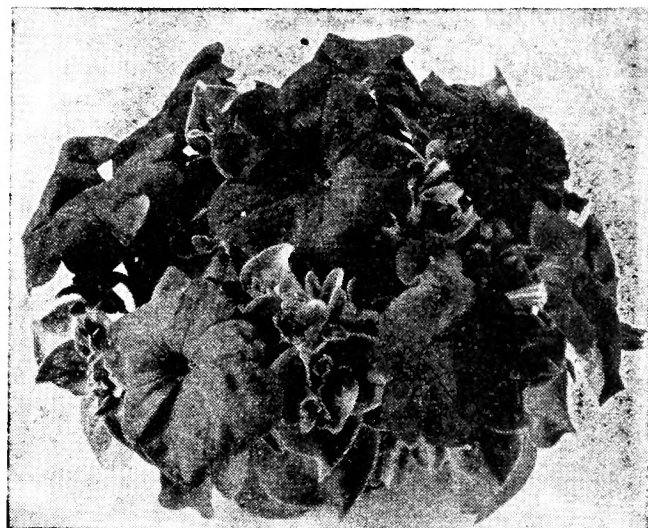

1590-F FRINGED GOTTFRIED MICHAELIS. A dwarf, giant, single fringed Petunia of deep velvety magenta-crimson with dark throat. Plants are of fine habit producing the large blooms very freely. **Pkt. 30c.**

1590-L FRINGED ROSALIND. A beautiful large flowered, exquisitely fringed variety with blooms of delicate rose or apple blossom pink, produced on neatly branched plants. **Pkt. 15c.**

1590-M GOLDEN JUBILEE. A glorious new variety of the large flowered fringed dwarf Petunias. Blooms are large with finely fringed petals of bright carmine tinged with scarlet golden throats marked with light bronze. **Pkt. 30c.**

1603 TOPAZ ROSE. All-America Award. A fiery velvety rose of a brilliance seldom seen. Slightly suffused with gold and with throat of true topaz color. Its fine color and the fact that it does not burn or fade makes this a fine bedding sort. **Pkt. 20c.**

1620-I ROSE CREPE DE CHINE. A marvelous new variety with flowers of rich rose, the petals are soft, gauzy and crinkled, resembling silk crepe. A most interesting and attractive variety and a delightful addition to your garden. **Pkt. 20c.**

Petunia, Dwarf Velvet Ball

A Real Dwarf Petunia

1620-J VELVET BALL. Free flowering and very dwarf, this new Petunia develops into a round compact ball-shaped plant not over eight inches tall with the same breadth. Each plant bearing almost continuously ten to a dozen large blooms of deep velvety blood-red. An ideal variety for edgings. **Pkt. 20c.**

The New Scabiosa

1726 BLUE MOON. This new type has broad wavy petals forming a fully double deep rounded bloom 2 1/2 to 3 inches in diameter. The pin-cushion effect has completely disappeared thus producing a flower of unimagined beauty. The color is a rich deep lavender of great effectiveness. Plants are upright, tall, and produce many flowers on fine stems for cutting. See Color Page 2. **Pkt. 25c.**

A Fine Trailing Plant

2447 THUNBERGIA ALATA. Black-Eyed Susan. A delightful slender growing vine from Africa. Can be easily trailed to a trellis and is very attractive when grown in this way. Unusually good as a trailing vine for hanging baskets, vases, porch boxes, or rockeries. Large single flowers in white, yellow and orange with distinct black eye. Slow to germinate. Blooms from July to October. **Pkt. 8c; 1/4 oz. 25c.**

Three Fine Mixtures

2320 ANNUAL MIXTURE FOR ROCK GARDENS. Low growing and trailing varieties that may be sown directly in the vacant spaces in your Rock Garden and that will quickly fill such spots and add much color. Especially fine to follow early flowering bulbs. **Pkt. 15c; Large Pkt. 40c.**

2321 ANNUAL MIXTURE DWARF BEDDING SORTS. An excellent mixture of dwarf varieties to sow in beds in the garden for bedding effect. Fine to sow early among Tulip plantings where you are not going to lift the bulbs. Will supply masses of colorful blooms until frost. **Pkt. 10c; Large Pkt. 35c.**

2322 ANNUAL MIXTURE FOR CUT-FLOWERS. A grand assortment of the finest cut-flower varieties that will supply you with an abundance of cutting material until frost. Sow very thin and let them grow where they stand. Contains many of the newer varieties. **Pkt. 10c; Large Pkt. 25c.**

Morning Glory, Scarlett O'Hara

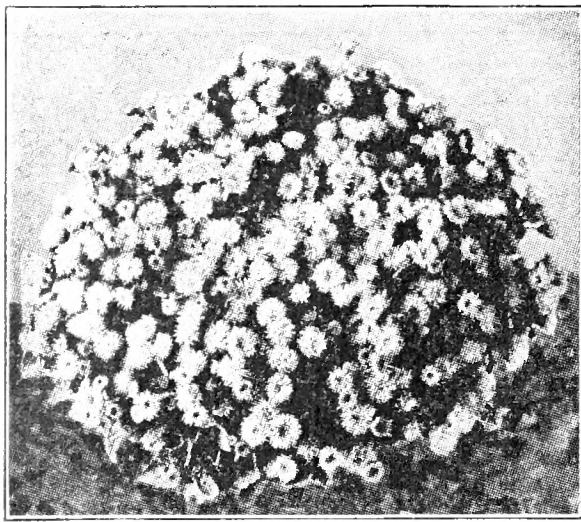

Morning Glories—Ipomea

2425 NEW SCARLETT O'HARA. All-America Gold Medal. Distinct from all present Morning Glories, this grand new variety produces its flowers of rich dark wine red or deep rosy-crimson on fast growing vines with dark green foliage. The bright showy blooms are 3 to 4 inches in diameter and appear in about 2 1/2 months from seed. This variety named for the leading character in "Gone With the Wind" should be in every garden. Start the seed early inside for planting out as soon as warm. See it in natural color on Page 2. **Pkt. 25c.**

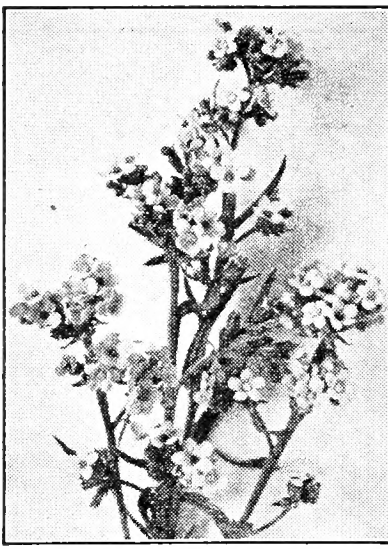

2395 HEAVENLY BLUE. A trellis, arbor or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. The vine is late flowering and the seed should be started in pots indoors. **Pkt. 10c; 1/4 oz. 35c.**

Thunbergia Alata, Black-Eyed Susan

Ageratum, Blue Ball Improved

Anchusa, Blue Bird

Alyssum, Popular Border Plant

Abronia

- 3 ABRONIA UMBELLATA GRANDIFLORA.** Sand Verbena. Fragrant; bright rose with white centers; trails; likes poor, dry, sunny soil. (R.G.) Culture D or E. Pkt. 10c.

Abutilon

- 5 ABUTILON.** Flowering Maple. Ornamental foliage; red, yellow, purple and white, bell-shaped flowers. Fine for bedding or house culture. Culture D or E. Pkt. 20c.

Acroclinium

- 7 ACROCLINIUM DOUBLE HYBRIDS.** Large flowered; 15 inch stems; rich salmon, apricot, pink, rose and cerise with tones to blend; contrasting center. Strawflower for winter bouquets. Culture D or E. Pkt. 15c.

1701 AFRICAN VIOLET, see Saintpaulia page 24.

Agathea

- 12 AGATHEA COLESTRIS.** Blue Marguerite Daisy. Clear, sky blue, daisy-like flowers borne profusely with good soil and sun. Bushy plants 2 to 3 feet tall. Culture D or E. Pkt. 5c.

Ageratum

Valuable edging plant, easily grown and covered with plentiful blooms from midsummer thru frost. Foliage especially attractive. CULTURE D OR E.

- 14 SWANLEY BLUE.** Spreading plants 15 to 18 inches tall and across. Excellent cut-flower. Pkt. 5c; ¼ oz. 25c.
- 17 BLUE BALL.** Dwarf, compact 10 to 12 inch plants with clear blue flowers. Pkt. 8c; ⅛ oz. 30c.
- 16 IMPROVED BLUE BALL.** Rich, dark blue, flowers literally cover each plant. Use in borders to blend with pink Petunias and golden Marigolds, where its low growth of about 8 inches makes rich frame for the bed. See Color Page 30. Pkt. 15c; ⅛ oz. 35c.
- 13 BLUE CAP.** Very dwarf, rich blue flowers cover each 6 inch plant. Grand for edging. Real improvement on other dwarf types. Pkt. 15c; ⅛ oz. 45c.
- 15 LITTLE BLUE STAR.** Small blue flowers with rosy tints. Excellent dwarf variety. Pkt. 10c.
- 18 FAIRY PINK.** Novelty this year. See page 4.
- 17-A KING OF THE BLUES.** Novelty this year. See page 4.

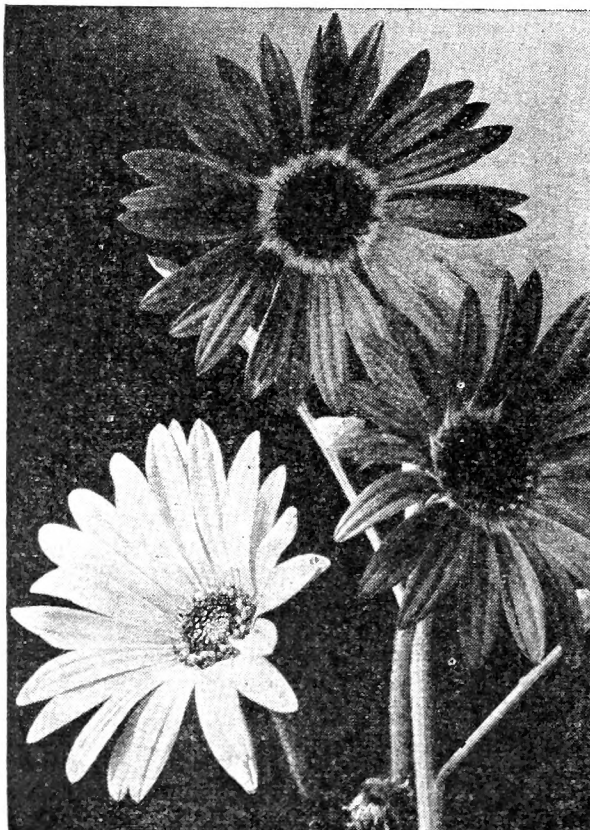

Ammobium

- 34 ALATUM GRANDIFLORUM,** Winged Everlasting. Airy, silvery-white; yellow centered flowers. One of the strawflowers so pretty when dried for winter bouquets. Culture D or E. Pkt. 10c.

Alyssum

Most popular of all flowers for very dwarf, compact borders and edgings. Blooms quickly from seed and continues until frost. Excellent for porch and window boxes. Delicately fragrant. CULTURE D OR E.

- 22 LITTLE GEM, Carpet of Snow.** Best white with most uniform plants. 6 inches tall. Pkt. 8c; ¼ oz. 20c; Oz. 60c.
- 26 LITTLE DORRITT.** Marvelous new type, forms perfect little plants 4 inches tall, completely covered with fragrant tiny white flowers. Pkt. 8c; ¼ oz. 25c.
- 24 PROCUMBENS, Dwarf Bouquet.** Extremely compact, about 2½ inches tall and 12 to 18 inches across. Blooms massed so thickly as to almost hide plants. Grand for rock gardens. (R. G.) Pkt. 10c; ¼ oz. 25c.
- 21 SWEET WHITE, Benthams Maritimum.** Semi-trailing so suitable for boxes and hanging baskets. In the border it spreads to 18 inches or more. White and sweet scented. Pkt. 5c; ¼ oz. 15c; Oz. 35c.
- 23 LILAC QUEEN.** Just enough off-white to be pleasingly noticeable and still not clash with other colors. Much like Little Gem in habit. Pkt. 5c; ¼ oz. 20c; Oz. 60c.
- 25 LUTESCENS.** Creamy-yellow flowers on compact plants 6 to 8 inches tall. Pkt. 10c.
- 27 SNOW CLOTH.** See Novelty page 4.
- 23-A VIOLET QUEEN.** See Novelty page 4.

Arctotis, Hybrida Mixed

Amaranthus

Colorful Foliage Plants. Culture A or B.

- 28 MOLTEN FIRE.** As the name implies the upper leaves are blazing bright red, the lower leaves maroon. Pkt. 15c.
- 30 TRICOLOR.** "Joseph's Coat." Very brilliant coleus-like foliage, the red, yellow and green, beautifully blended. Pkt. 5c.
- 32 PIGMY TORCH.** A new Amaranthus for low borders or beds, 9 to 10 inches high, rich crimson foliage. Pkt. 10c.
- 29 CAUDATUS, "Love-Lies-Bleeding."** Long, drooping, blood-red plumes on tall plants. Pkt. 5c.

Anchusa

- 35 CAPENSIS, Cape Forget-Me-Not.** 18 to 24 inches tall; bears profusion of Forget-Me-Not like flowers; freely branching; blooms all summer and excellent cut-flowers. Culture A or B. Pkt. 5c.
- 36 BLUE BIRD.** Dwarf and compact, 18 inches tall; blooms at top of stems. Vivid Indigo Blue. Pkt. 10c.

For Perennial Anchusa, see page 36.

ANTIRRHINUM, see Snapdragons, page 25.

Arctotis

Arctotis or Lavender Daisy is one of the loveliest Daisies, and most desirable annual for cut-flowers as well as for the garden. This Blue-Eyed African Daisy should not be confused with our Golden African Daisy or Dimorphotoca. CULTURE D OR E.

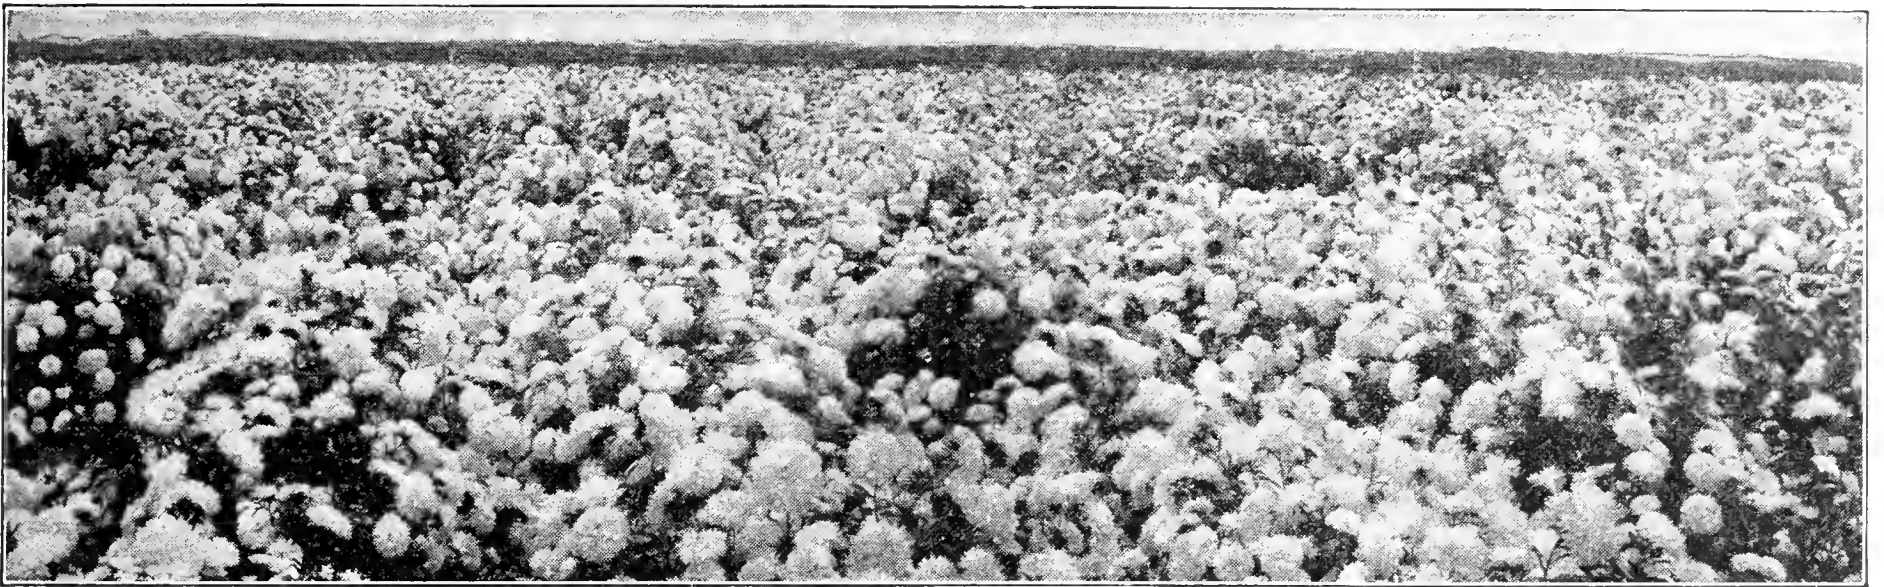

- 129 GRANDIS.** Large, showy; bluish-white with a central disk of steel-blue, reverse of petal, pale lilac. Pkt. 5c.
- 128 HYBRIDA MIXED.** One of the most beautiful novelties offered in recent years. The flowers are like Arctotis Grandis in form but in pink, rose, yellow and orange, with dark centers. Pkt. 10c.

Artemesia

- 132 SACRORUM VIRIDIS, Summer Christmas Tree.** Ornamental pyramidal tree 3 to 5 feet high, like an Evergreen Fir. Rich dark green. Attractive as single specimens or for tall border. Culture D or E. Pkt. 10c.

Asparagus Ferns

- 139 PLUMOSUS NANUS, Lace Fern.** A very ornamental pot plant and much used for cutting because of the graceful feathery foliage. Culture C. Pkt. 15c.
- 137 SPRENGERII, Emerald Feather Fern.** Excellent for hanging baskets, window boxes, etc. Pkt. 15c.

A Field of Templin-Bradley's Wilt Resistant Asters Being Grown for Seed

Templin-Bradley's Glorious Asters

Asters should have a place in your garden if you like plenty of flowers from July right on to frost. Their colors will suit your taste whether it be for white, delicate blues, pinks, salmons, yellows or the brilliant reds, deep purples and crimsons. Even a small bed of Asters will provide you with cut-flowers which will stand up in the home in hot weather. They are in such demand that customers in all parts of the country find ready sale for cut-flowers on the regular flower markets, on wayside stands and among neighbors. The intensive work in breeding which has been carried on by our specialist has resulted in improving the length of stems, the size of flowers and in fixing colors.

A most important development in Asters has been the work in making them wilt-resistant. This has been going on for several years and just as rapidly as we accomplish this important work with a family of Asters, we cease producing non-resistant strains and offer to you only strains which are resistant to Fusarian Wilt. All such are noted under the family name. The enjoyment you will get from growing Asters will be one of your greatest joys in flower growing. The fact that a large number of *America's leading florists* obtain Aster seed from Templin-Bradley each year is the strongest recommendation of quality we can offer you.

Aster Culture D or E—See Page 59

American Branching

Wilt-Resistant Asters. See Color Page 48.

Fully double globular flowers 4 inches across, petals incurved, stems often 2 feet long. Excellent cut-flower from midseason to frost. Branching habit, vigorous plants. Pleasing colors. You will love them.

Price on any above color or mixed, Pkt. 10c; $\frac{1}{8}$ oz. 25c
280 Collection 8 Pkts. 1 each of 8 colors, value 80c, for 55c.

Giant California Sunshine Asters

Called "The most beautiful Aster in the World"

This is a most artistic flower with its single row of outer petals and its tufted center of shorter petals. The color harmony is startlingly beautiful, a dual-tone effect being obtained through the contrasting tints of the disc-like center and the outer row or guard petals. Flowers 4 inches across.

227 Apple Blossom	222 Purple
225 Enchantress Pink	226 Light Rose
224 Lavender	228 White

210 Collection Offer, Value 70c
7 Pkts. 1 each of 7 above colors 50c

Southcote Beauty Single Ostrich-Plume Aster

Single Asters are exceedingly popular because of their adaptability to cut-flower work. Southcote Beauty has graceful flowers, with long, tapelike, curled petals of the ostrich plume type and are produced on long, stiff stems from 12 to 20 inches in length. They are very unusual and will furnish many dainty bouquets. Plants grow 2 to 2½ feet tall.

252 Dark Blue (Almost Purple)	254 Rose (Rich Rose-Pink)
253 Light Blue (Mauve Blue)	255 Scarlet
	256 White
	251 Beauty Mixed (All Colors)

Price on any Color or Mixed, Pkt. 8c; $\frac{1}{8}$ oz. 30c.

257 Collection Offer, Value 40c
5 Pkts. 1 each of 5 colors 25c

Other Asters

281 Heart of France Wilt-Resistant. The finest red Aster, as alluring as the richest Ruby and retains its color to the very end. The petals appear changeable, sometimes showing a glow, sometimes a warm velvety texture. Plants 1½ feet tall and well branched. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

282 Crimson Giant Wilt-Resistant. Immense flowers of brilliant crimson, on stems 12 to 15 inches long. Plants 2½ feet tall. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

285 Giant Branching Phlox Pink Wilt-Resistant. Rich clear light rose-pink. A very lovely Aster for dainty bouquets. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

291 Super Giant Los Angeles Wilt-Resistant. The last word for size and beauty in Asters. The flowers are 6 inches across with graceful, interlacing petals and are really like magnificent Chrysanthemums as the illustration above shows. The color is pure shell pink, a favorite shade in Asters. Plants 2½ feet tall. Pkt. 15c; $\frac{1}{8}$ oz. 25c.

292 Super Giant El Monte All-America. The only really large-flowered crimson Aster. It is a deep crimson, composed of quantities of daintily interlaced, plume-like petals. The flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. Very early and long lasting blooms. Considered the finest Aster yet introduced. Pkt. 15c; $\frac{1}{8}$ oz. 25c.

293 Surprise Golden Salmon Opens pure salmon-yellow, changes to salmon-rose. The blooms resemble the Peony-Flowered Asters, fully double round 3 inches across. Good keeping qualities, making them valuable for bouquets. The plants are long stemmed, 15 inches tall, and bloom profusely in mid-summer. Pkt. 10c; $\frac{1}{8}$ oz. 30c. Color Page 11.

294 Peerless Yellow A delicate shade of yellow in beautifully formed flowers of the American branching type. 2 feet tall, good sized flowers, petals slightly incurved. Pkt. 10c; $\frac{1}{8}$ oz. 35c.

Aster Oddities

Aurora Asters Fully double flowers with attractive crest-like or quilled center and an outer band of broad petals. Splendid for cutting. Height 2 feet. August bloom. 3 Fine Colors.

289 Bright Rose. Rose with Yellow center.
286 Golden Sheaf. Wilt-Resistant. Deep Yellow.
288 Light Blue. Clear Blue, Yellow center.
290 Mixed. Includes all Colors

Price, Any Color or Mixed Pkt. 10c; $\frac{1}{8}$ oz. 30c.

240 New American Beauty Aster

Offer in splendid mixture of all colors. Long stems, large compact flowers. Bloom right up to frost. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

Choice Mixtures

181 Ostrich Feather Wilt-Resistant. A lovely type of Aster with large, full, fluffy flowers of irregularly twisted petals, resembling Ostrich plumes or feathers. Plants 2 feet tall and of robust growth. Long stems make them fine for cut-flowers. Blooms in mid-season. All Colors Mixed. Pkt. 10c; $\frac{1}{8}$ oz. 35c.

246 Astermums Wilt-Resistant. Well named Astermums because the shaggy flowers are really more like Chrysanthemums than like Asters. Plants about 2 feet tall, upright branching habit, flowers large, double, well-formed. Blooms in mid-August. Mixed Colors. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

250 Early Royal Branching Wilt-Resistant. Large, well-rounded double flowers, petals broad, medium long and gracefully curved inward. Plants 2 feet tall, branch near the ground, giving long stemmed flowers for cutting. All Colors Mixed. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

260 King or Needle Wilt-Resistant. An unusual type of distinctive beauty. The plants are two feet tall, strong growers, with long stems crowned with large double flowers 5 inches across. The petals are long and quilled, resembling a Cactus Dahlia. Our mixture contains all the popular Aster Colors. Pkt. 8c; $\frac{1}{8}$ oz. 25c.

298 Dwarf Bouquet These are little gems of flowers. Plants 10 inches high, compact little bushes, covered with small, double flowers 1½ inches across. A great variety of colors, each plant a bouquet in itself. Fine for pots, borders and beds. Mixed Colors. Pkt. 10c; $\frac{1}{8}$ oz. 35c.

299 Lilliput Flowered Also called "Button Aster." A real dwarf small flowered Aster, plants only 12 inches high, bushy and with medium length stems. Prettily formed, flat-topped double flowers with quilled center petals. This type makes wonderful cut-flowers, is very colorful for the garden border and fine for pot plants. Mixed Colors. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

304 Extra Quality Mixed Asters Very carefully prepared, containing all of the separate types we list, and others as well. It will give you a beautiful Aster collection for the price of one packet—early, midseason and late varieties, and all the colors known to Asters. Plant a quantity of this mixture and see what delights are in store for you. Pkt. 8c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 40c.

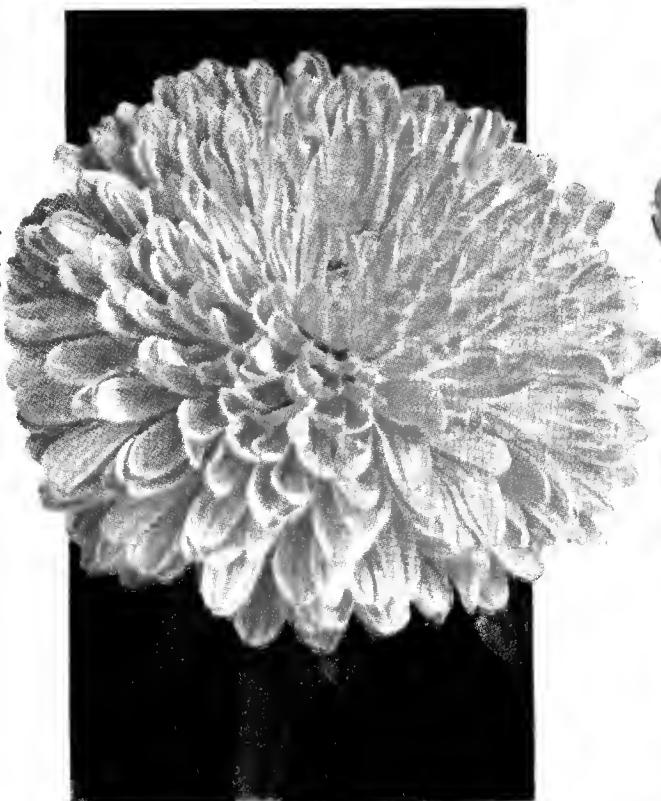

287 Mixed Wilt-Resistant Asters

A splendid well balanced mixture of wilt-resistant strains containing all the colors and types listed on these two pages. This mixture should give you a continuous supply of wonderful blooms for cut flowers throughout the entire season. You will enjoy studying the types. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

Double Balsam

Begonia, Pendula Basket Type

Calendula, Orange Shaggy

Jewel Calendula

Begonias

Tuberous Rooted Begonias

See Color Back Cover.

Generally considered summer bedding plants, also make charming pot plants. Once started, you can keep Tuberous Rooted Begonias indefinitely. All colors and shades except Blue. Single flowers often measure 6 inches in diameter; the doubles, 4 inches. CULTURE D OR E.

334 SINGLE MIXED BEGONIA SEED. Pkt. 40c.

335 DOUBLE MIXED BEGONIA SEED. Pkt. 50c.

336 PENDULA TUBEROUS ROOTED BEGONIAS. Basket Type Mixed. Beautiful drooping double rose and red flowers on graceful stems. Pkt. 50c.

Balsam

Balsam or Lady's Slipper, form nearly symmetrical, tree-like plants with a profusion of wax-like flowers in most brilliant colors. Easy culture, grow 1½ to 2 ft. tall. May be sown in late summer for transplanting in the fall for winter blooming indoors. CULTURE A OR B.

306 DOUBLE ROSE FLOWERED. Great variety of rich colors. Pkt. 10c.

307 CAMELIA FLOWERED. Tightly double as a Camelia and in grand color range. Pkt. 10c.

309 DOUBLE BUSH FLOWERED. See Novelty Page 4.

Balsam Apple

2367 BALSAM APPLE VINE, Momordica. Growing quickly to a height of about 10 feet, this vine bears ornamental fruits of golden-yellow, resembling an apple with bright red interior. Culture D or E. Pkt. 10c.

Bartonia

312 BARTONIA AUREA, Golden Star. Pretty orange-yellow flowers 2 inches across. Plants 12 inches tall with masses of flowers, like patches of polished gold, throughout the summer. Foliage is gray and thistle-like and very brilliant in the sunshine. Will not stand transplanting. Culture A or B. Pkt. 10c.

Black Eyed Susan

2447 BLACK EYED SUSAN, Thunbergia Vine. Slender growing vine from Africa. Attractive in porch boxes, or rockeries. Large single white, yellow and orange flowers with distinct black eye. Slow to germinate. Blooms July to October. Culture D or E. Pkt. 5c.

350 BRACHYCOME, See Swan River Daisy, See Page 16.

Briza

358 BRIZA MAXIMA, Quaking Grass. The prettily shaped seed clusters are carried on such slender graceful stems that they wave in the slightest of air currents. Valuable for winter bouquets. About one foot high. Culture D or E. Pkt. 10c.

Cacalia

401 CACALIA, Tassel Flower or Devil's Paint Brush. Brilliant orange and scarlet flowers with small tassels borne on long stems. Brilliant colors make it admirable for combining in bouquets. Culture A or B. Pkt. 5c.

Ever-Blooming Begonias

Continuous flowering Begonias of great value for bedding and summer seedlings, make attractive winter House Plants. Small, brilliant flowers, in great profusion. Begonia Seed is Extremely Fine. Open packets over white dish to avoid losing them. CULTURE D OR E.

These are not Tuberous-Rooted.

321 SEMPERFLORENS. Mixed Colors. Pkt. 15c.

326 GRACILIS LUMINOSA. Bright Scarlet. Pkt. 15c.

327 GRACILIS PRIMA DONNA. Carmine-Rose. Pkt. 20c.

Single and Double Tuberous Begonias

Browallia

Pretty little flowers, suitable for beds, porch boxes, hanging baskets or for winter-blooming in the house. CULTURE D OR E.

361 ELATA MIXED. Dainty blue and white, 15 inches tall. Pkt. 10c.

365 SPECIOSA MAJOR. Brilliant ultramarine-blue, a rare color, 12 inches tall. Pkt. 15c.

364 SAPPHIRE. Dark blue with white eye, 9 inches tall. Pkt. 15c.

Cactus

Grow them from Seed.

403 MIXED CACTUS. A fine mixture of the many sorts that can be successfully grown from seed under ordinary conditions. Interesting hobby. With good drainage and thoroughly broken up sod, screened, with sand added it is not too difficult. Culture C, D or E. Pkt. 25c.

Calceolaria

404 CALCEOLARIA, Dwarf Giant Hybrids. Odd, pouch-shaped flowers, many with gorgeous spots, bloom heavily on compact, foot tall plants. Seeds minute. Well worth trying if you like to achieve the unusual in your flower growing. Mix good garden soil with Peat Moss and sand. Cover the fine seed lightly. Water lightly and keep moist. Transplant tiny plants into small pots and later into larger. Culture C. Pkt. 30c.

California Poppy

Listed under Popples. See Page 21.

Calendulas

See Calendulas in Color on page 50. If you like a gala atmosphere in your garden, plant Calendulas. Unrivalled for brilliant color and will fill your garden and house with their charming beauty all summer and fall.

By careful plant breeding, Calendulas have been greatly improved in size and color and we offer you a wonderful selection of varieties in all the gay shades of orange, yellow and lemon. They come in double, loose and quilled petal types. 2½ to 4 inches in diameter and 12 to 18 inches tall. CULTURE D OR E.

427 ORANGE SHAGGY, Gold Medal Award. An unusual Calendula, with over-lapping, deeply fringed petals. Rich, glowing orange, shading to lighter orange in the center. Large flowers, 18 inch stems. Excellent bouquet variety. Pkt. 10c; ¼ oz. 30c.

428 JEWEL. A real jewel. Petals regularly and perfectly formed and overlapped so beautifully, and the color of deep orange so sparkling, that it resembles a jewel. Semi-dwarf, free-flowering. Equally desirable for bedding and cut-flower use. Pkt. 10c; ¼ oz. 30c.

419 ORANGE KING. Deep orange with dark center. A favorite with florists and just as fine for the outdoor garden. Flowers are of very good form, fully double and borne on excellent stems. Pkt. 10c; ¼ oz. 20c.

420 SENSATION OR CAMPFIRE IMPROVED. Vigorous growth and strong stems needing very little disbudding to produce the finest flowers. Blooms flat and undoubtedly the largest of any Calendula. Color is brilliant orange with scarlet sheen, and full yellow center. Pkt. 10c.

425 CHRYSANTHA OR LEMON SUNSHINE. Distinct from other Calendulas in form of flower. Large, clear, buttercup yellow. Long, loosely arranged petals, like Chrysanthemums. Long, stiff stems. Pkt. 10c.

441 BALL'S GOLD. A special florist's strain, by many considered the finest of all. A rich golden-yellow lighter than Ball's Orange. Pkt. 15c.

417 LEMON QUEEN. A beautiful clear lemon-yellow. Flowers are large, of excellent form, well rounded, fully double, on tall strong stems. Pkt. 10c.

443 BALL'S ORANGE. A companion to Ball's Gold with same good form and size, but rich orange in color. Extra long stemmed. Pkt. 15c.

423 RADIO. Orange. Distinct from other Calendulas with its quilled, or comet petals, and nearly globe-shaped, showing practically no center until old. Pkt. 10c.

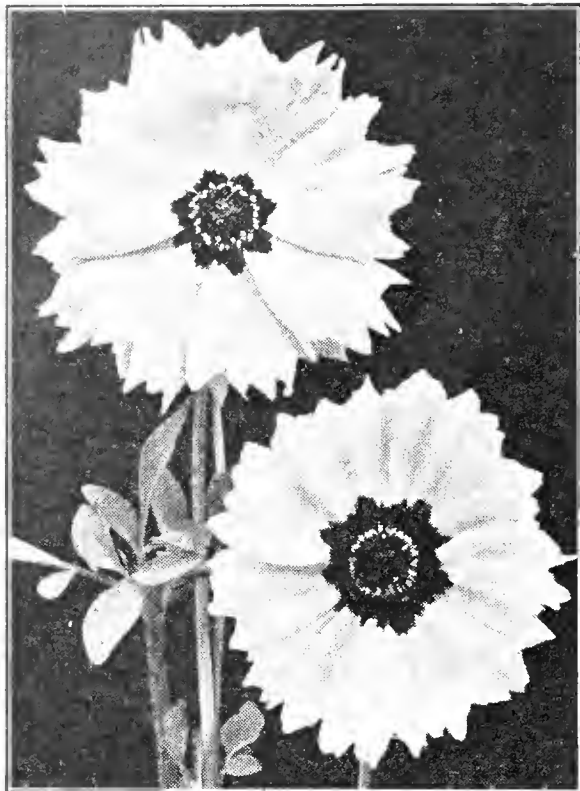

429 NEW CALENDULA ORANGE FANTASY. A new and distinct type of Calendula with outer petals long and beautifully twisted and the inner petals short and fantastically curled and interlaced. Rich bronzy or coppery-orange, petals edged deep mahogany red. Pkt. 25c.

426 PASTEL SHADES CALENDULA MIXED. Dwarfier growing types; especially adapted for bedding or borders. Many shades of apricot, salmon, cream, white, orange and lemon. Pkt. 10c.

430 LEMON SHAGGY. See Novelty Page 4.

431 ORANGE SUNSHINE. See Color Page 50.

416 MIXED CALENDULAS. An excellent mixture of orange, yellow, lemon, and striped varieties that will give many beautiful bouquets, and a very bright showy bed in the garden. Pkt. 5c; ½ oz. 20c.

Calliopsis Golden Crown

Calliopsis

Calliopsis, or Annual Coreopsis is one of the finest midsummer annuals for mass planting or clusters in the garden or border. So profuse and continuous blooming that they will furnish much for cutting and still always maintain a wonderful display in the garden. CULTURE D OR E.

466 TALL MIXED. Produces flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 10c.

469 DWARF DRUMMONDI MIXED. Includes yellow, orange, brown, red, crimson, in many shades and color combinations. Pkt. 10c.

470 GOLD CREST, Semi-Double Drummondii. A leading novelty in 1937. The color is a rich golden-yellow with a reddish-brown zone and comes with a double row of mammoth petals. Pkt. 10c.

465 GOLDEN CROWN. A greatly enlarged variety of the Drummondii type with an extra row of petals which produce a semi-double flower of great attractiveness. The color is a rich shade of orange-yellow or gold enhanced by dark rich colored centers. Stems are 12 to 15 inches long and fine for cutting. Pkt. 25c.

Canary Bird Vine

2372 CANARY BIRD VINE. A pretty and rapid growing climbing vine. Little canary-yellow flowers, with wings half extended. Appear in sprays early and continuously during the season. Culture D or E. Pkt. 5c.

Candytuft

One of the most useful and popular annuals. Completely covered all summer with neat clusters of flowers well suited for bouquets; of dwarf spreading habit, making it especially desirable as a border or edging plant. Prefers sandy loam. Blooms profusely and their fragrance especially commends them as cut-flowers. CULTURE D OR E.

471 GIANT HYACINTH. Very large bold elongated heads of pure white florets. Will grow to 12 or 15 inches in height. Pkt. 10c; 1/4 oz. 25c.

475 UMBELLATA MIXED. An excellent bedding or border variety of Candytuft of dwarf compact growth. Free flowering in shades of white, lavender, rose or crimson. Pkt. 10c; 1/2 oz. 25c.

472 LITTLE PRINCE. Immense flowers of snow-white on sturdy dwarf plants only 6 inches high. Pkt. 10c.

Canna

481 CROZY'S HYBRIDS. Blooms in less than four months from the seed, (hard shelled, so file or nick the coat and soak in warm water a few hours before planting). Start inside, transplanting out when weather is warm. Culture D or E. Pkt. 15c; 1/4 oz. 30c.

Celosia, Thompsonii Magnifica

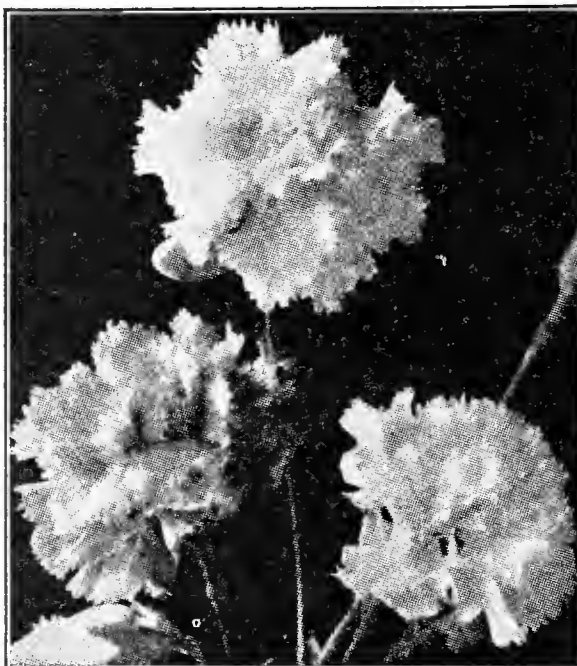

Canterbury Bells

Annual Canterbury Bells. A new strain of this popular biennial flower in which has been developed the ability to bloom in a few months from seed thus making it entirely satisfactory to use as an annual subject. 2 to 2 1/2 feet tall and each plant producing several spikes of bloom. CULTURE D OR E.

486 MIXED COLORS. Blue shades, rose and pink, and pure white. Pkt. 10c.
Perennial Canterbury Bells, See Page 37.

Cardinal Climber

2373 CARDINAL CLIMBER VINE. Attractive and ornamental; dark green fern-like foliage and clusters of fiery cardinal-red flowers 1 1/2 inches in diameter; rapid grower to 10 to 20 feet; blooms all season. Plant on pillars or walls and not as a fence covering. Culture A or B. Pkt. 10c; 1/4 oz. 25c.

Carnation, Marguerite

Carnations

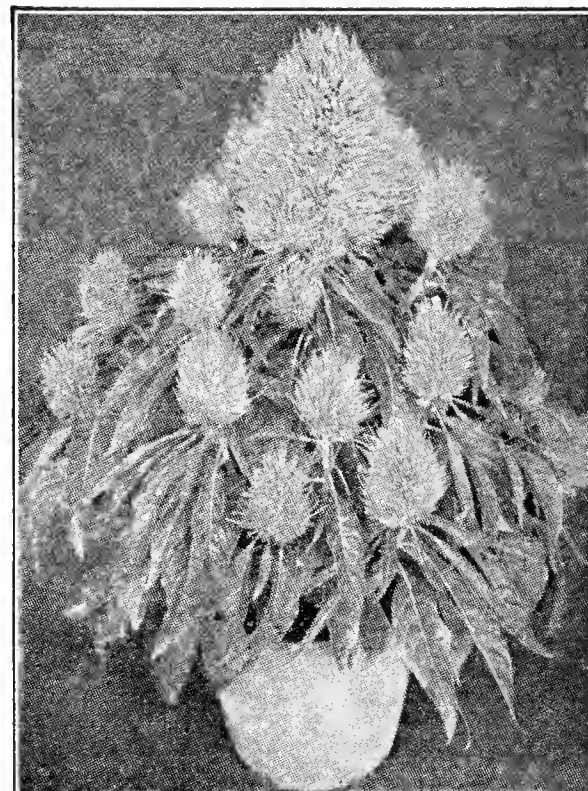

681 DOUBLE MARGUERITE. Lovely, fragrant, produce fine double flowers from seed sown in the garden early in the spring, bloom in four months. When well started, transplant to 12 inches apart. Flowering until late fall and can be potted for winter blooming. Mixed. Pkt. 10c.

Castor Beans

Strong, sturdy-growing, tropical-like, ornamental greenish-bronze foliage plants, desirable for centers for Canna beds and to hide unsightly places. CULTURE D OR E.

1694 ZANZIBARIENSIS. The largest and freest growing of this family. Foliage from bright green to bronze. Pkt. 10c; Oz. 25c.

1695 RED SPIRE. A very showy variety with large bronze leaves and bright crimson seed pods. Grows quickly, 6 to 8 feet high. Pkt. 10c; Oz. 40c.

Celosia, Flame of Fire, See Novelty Page 4

Celosias-Cockscombs

Give Lasting Color To Your Garden

The Celosias include some of the finest and showiest flowers that can be grown in the outdoor garden. Easily raised from seed, either planted directly outdoors or started inside for later transplanting. Make beautiful bouquets. We offer seeds of both the fine feathery type, called Plumosa, and the broad heavier type called Cockscomb. Many like to cut the flowers and keep them in vases over winter. Try It this year. CULTURE D OR E.

Chinese Wool Flowers

501 CHILDSI CELOSIA. Distinct forms of plumed Celosia. Average, 2 feet tall, branching freely, each shoot bearing beautiful ball-shaped flower-heads, resembling a ball of wool. Mixed. Pkt. 10c; 1/8 oz. 30c.

502 CRIMSON 503 PINK 504 YELLOW
Price any above, Pkt. 10c; 1/8 oz. 30c.

Cockscombs

491 CRISTATA. Dwarf Large Flowering. This type forms large heavy combs or heads as illustrated. Our strain is dwarf, 12 to 15 inches, with extra large flowers of crimson, rose or yellow. Pkt. 10c; 1/8 oz. 25c.

493 MIRACLE TALL. Tall unbranching stems, 24 to 30 inches tall, bearing immense solid heads or combs of unusual size and coloring. Colors range from creamy-white thru yellow, orange, pink, red, scarlet and purple. Extra fine Mixed. Pkt. 15c; 1/8 oz. 40c.

494 ROYAL VELVET COCKSCOMB. See Novelty Page 4.

Celosia Plumosas

Ostrich Plume Celosias are of pyramidal form, bearing many graceful feather-like plumes of brilliant reds and yellows. Easy to grow in any garden soil.

513 PLUMED KNIGHT. One of the most wonderful flowers ever grown, the result of over 20 years of patient toil. Produces waving plumes in dozens of color shades—rose, silvery-pink, salmon, red, purple, orange and yellow. Special Packets 25c.

508 MANDARIN. Rich Yellow and Gold.

509 INDIAN CHIEF. Scarlet and Crimson.

507 THOMPSONII MAGNIFICA. Mixed Color.
Price on any above 3, Pkt. 10c.

514 FLAME OF FIRE PYRAMIDALIS CELOSIA. All-America. See Cut and Novelty Page 4.

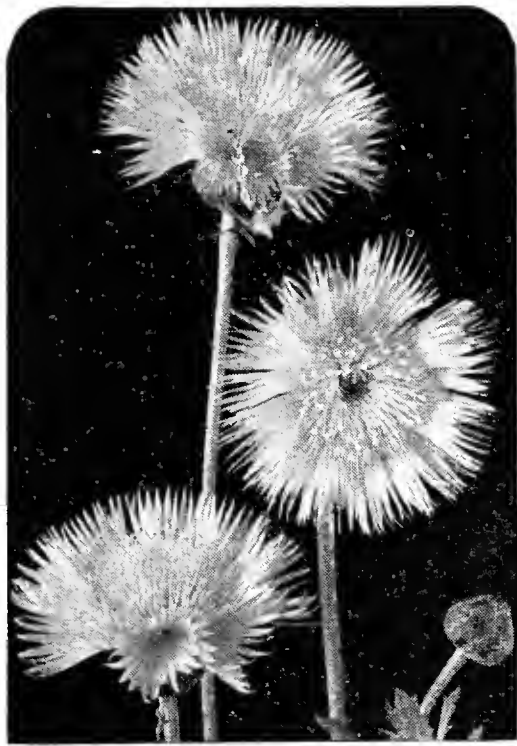

Dwarf Feather Celosias

A new dwarf type which grows but 15 to 18 inches tall and produces a mass of brilliant colored feathery plumes. Excellent for bedding or bordering and supplies unlimited quantities of flowers for cutting.

511 DWARF FIERY FEATHER. Brilliant red. Pkt. 10c.

510 DWARF GOLDEN FEATHER. Old Gold. Pkt. 10c.

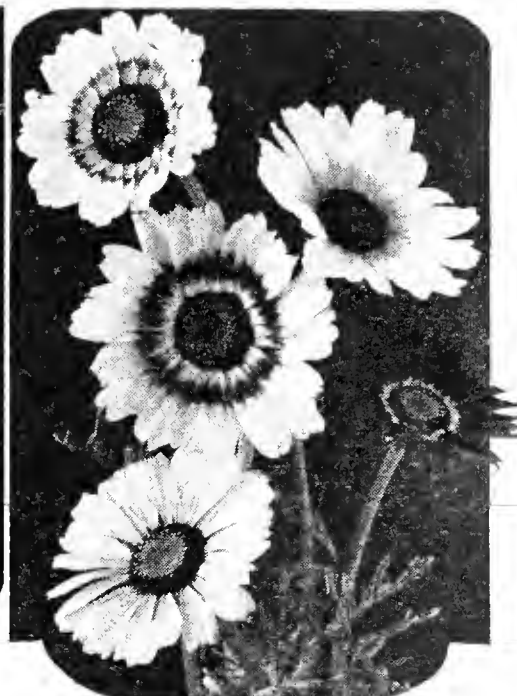

512 DWARF MIXED COLORS. Pkt. 10c.

Giant Sweet Sultans

Double Bachelor's Buttons

Annual Chrysanthemums

Ornamental
Corn →

Centaureas

Bachelor's Button, Double Cornflower Double Bachelor's Button

Centaurea Cyanus, Cornflower. Among our most popular old-fashioned annuals. Easy to grow; make very pretty bouquets and go well with other flowers. Florists grow many of these double varieties for their formal pieces. We offer the double flowering in the following separate colors, CULTURE A OR B:

- 517 BLUE BOY 522 RED BOY
520 BLACK BOY 518 SNOWMAN
519 PINKIE

Price of any Color, Pkt. 10c.

524 COLLECTION, 5 Pkts. 1 Each of 5 Colors, 40c.

516 BEST MIXED DOUBLE. Includes all shades of the double flowered. This mixture will certainly give you some pretty bouquets. Pkt. 10c; ¼ oz. 25c.

536 JUBILEE GEM. See Novelty Page 4.

537 LILAC LADY. See Novelty Page 4.

Giant Sweet Sultans

Sweet Sultans, or *Centaurea Imperialis*. Beautiful long-stemmed sweet-scented flowers with soft, velvety heads, make very enchanting bouquets, and will keep in good condition for several days. Flowers 2 to 2½ inches across the plants, 2½ to 3 ft. tall. CULTURE A OR B.

- 530 AMARANTH RED 531 RICH PURPLE
527 BRIGHT ROSE 526 SNOWFLAKE
529 LAVENDER 528 YELLOW
 SUAVEOLENS

Price any above Color, Pkt. 10c.

535 COLLECTION, 6 Pkts. 1 Each of 6 Colors, 50c.

525 IMPERIALIS MIXED. The above and other shades, in splendid mixture. Pkt. 10c; ¼ oz. 25c.

541 CENTAUREA AMERICANA. American Lilac Basket Flower. Largest of all *Centaureas*. Native variety, bearing large thistle-like blooms of delicate rosy-lilac. Flowers 3 to 4 inches across, under side resembles basket weaving. Plants 3 feet tall. Blooms July and August. Pkt. 10c.

Annual Chrysanthemums

Also called Painted Daisies. Easy growing Annuals, forming pretty bushy plants with a profusion of showy flowers, excellent for cutting. CULTURE D OR E.

558 SINGLE MIXED. Includes Morning, Eastern, Evening and Northern Star, and others in shades of yellow, pink, red and white. Pkt. 5c.

559 DOUBLE MIXED. Splendid assortment of Colors. Pkt. 10c.

560 SINGLE AND DOUBLE MIXED. An excellent mixture for the garden, containing both single and double flowered sorts. Pkt. 5c.

Above Mixtures—Our Own Blends.

Cinerarias

A marvelously beautiful house plant. In full bloom, it makes a solid dome of flowers with only the leaves showing above the pot. Florists use our selected strains of seed in large quantities, which speaks for quality. Sow seeds in May. CULTURE D.

561 GIANT PRIZE SEMI-DWARF. Immense heads of large flowers on compact, well shaped plants about 12 inches tall. A wide range of colors gives you everything. Mixed. Pkt. 20c.

562 MULTIFLORA NANA. When we first introduced this to our indoor growers, our Multiflora Nana immediately took hold so now most Florists grow both. Try it. These Hybrids grow a grand assortment of colors. The individual blossoms are about half the size of Giant Prize, but more of them. Pkt. 20c.

Clarkia

581 CLARKIA ELEGANS. Clarkia resembles sprays of Flowering Almond. Flowers double, pink, rose, red and white; dainty and attractive. Plant some of our grand mixture and you will be pleased with their beauty. Culture A or B. Mixed Colors: Pkt. 10c.

Cleome

591 GIANT ROSE[SPIDER PLANT. A vigorous plant 3 to 4 feet tall and bearing clusters of rose colored flowers of a curiously attractive appearance. The flower stamens resemble spider legs. Cleome is much used as bee pasture. Culture D or E. Pkt. 5c.

Cloud Grass

11 CLOUD GRASS, *Agrostis Nebulosa*. Produces airy graceful heads so pretty for mixing with flower bouquets. 18 to 20 inches tall. Culture D or E. Pkt. 5c.

Coleus

601 EXHIBITION MIXED. Coleus is a plant with richly colored leaves of maroon, green, crimson and yellow. The most popular bedding foliage plant grown from seed. The large variegated leaves of this strain are beautiful. Culture D or E. Pkt. 25c.

603 RAINBOW MIXTURE. Strikingly beautiful colors. Large, variegated leaves. Pkt. 25c.

Corn—Ornamental

600 ORNAMENTAL CORN MIXED. Much interest is expressed in the use of the highly colored, striped and variegated corn which is being so much used in many ways as a decorative subject. A few ears of this bright colored corn, with husks braided together, make a most interesting and attractive decoration for many locations. We offer a fine mixture of the vari-colored and rainbow sorts. Culture, grow same as Sweet Corn. Ounce Packet, 10c; ¼ lb. 30c.

ORNAMENTAL GOURDS, See Color Page 29.

Cup & Saucer Vine

2378 CUP & SAUCER, *Cobea Seandens* Vine. "Cathedral Bells." Rapid growing, grows to 15 to 20 feet, flowers large and bell-shaped, pink to purple. Plum-shaped fruits; start early indoors. Culture D or E. Pkt. 10c.

Cosmos

Our plant breeders have developed strains of *Cosmos* which are so early that they will bloom from seed sown in the open ground. Prior to the introduction of these new strains, many people who wanted *Cosmos* would not try to grow them because the flowers bloomed too late. If you want an extra early start, the seed may be sown indoors and transplanted into the garden later. CULTURE D OR E.

616 SENSATION MIXED. The Sensation type of *Cosmos* is ideal as a cut-flower and, it has already become a favorite for this use. Flowers immense size, 4 to 5 inches across, with broad heavy fluted petals, which overlap, forming a very full single flower. Long strong stems 3 to 4 feet tall. Flowers in 8 to 10 weeks from time seed is sown, blooming from July to Frost. Pkt. 15c.

626 ORANGE FLARE COSMOS. Gold Medal. All-America. A startlingly beautiful flower of vivid orange, blooms in profusion from early summer until late frost. The foliage is light green, and the plants bushy, making a grand and useful annual for a background where height is desired and at the same time providing a wealth of color for the garden and for cut-flowers. See Color Cut Page 11. Pkt. 10c; ¼ oz. 25c.

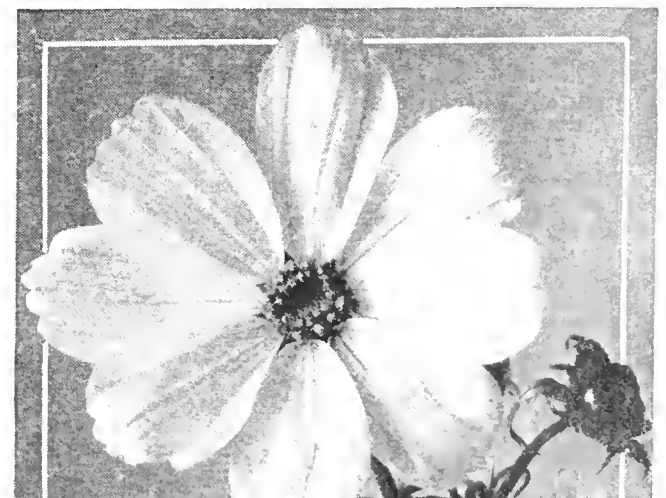

618 DOUBLE CRESTED COSMOS. The flowers are unique and exceedingly pretty. Center double with a row of broad outer petals. We have the earlier flowering strains of doubles, the best strain obtainable. Flowers frequently entirely double or else the disk-florets become tufted or crested. The seed should be started indoors early. Mixed Colors. Pkt. 10c; ¼ oz. 30c.

606 EARLY MAMMOTH SINGLE COSMOS. The best type for the North as it blooms earlier than the late Giants. The flowers are large, in shades of crimson, pink and white. There is no other of the tall Annuals that serve their purpose as well as the *Cosmos*. They are graceful and attractive during all stages of their growth. Mixed Colors, Pkt. 5c; ¼ oz. 20c.

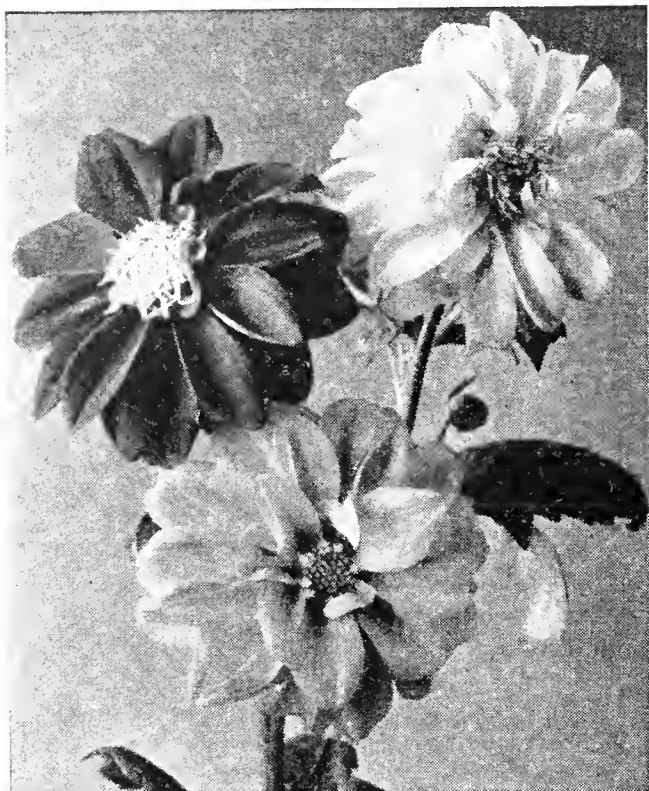

609 CRIMSON 608 PINK 607 WHITE
Price Separate Colors Above, Pkt. 5c.

Early Express Cosmos

612 EXPRESS MIXED. In Early Express *Cosmos*, we have a variety that will bloom in from 45 to 50 days after the sowing of the seed and will bloom continuously from then until frost. The flowers are of medium size and the colors good. Plants 2½ to 3 feet tall. Pkt. 10c; ¼ oz. 20c.

Cosmos Sensation

Dahlia, Double Dwarf Hybrids

648 CUPHEA "Firefly" See Novelty Page 5.

Cyclamen

628 CYCLAMEN MIXED. One of the most charming house plants, blooming freely during the winter and spring. The flowers are fragrant and richly colored. Our strain will give you a mixture of the best colors. **Culture C. Pkt. 20c.**

Cynoglossum

Cynoglossum or Summer Forget-Me-Not. A very desirable annual that blooms in a few weeks from seed. The bushy little plants about 18 inches high are covered with a mass of dainty deep blue flowers, similar to the spring Forget-Me-Nots. Blooms profusely from June through September. It thrives in hot, dry locations where few flowers grow. Makes choice cut-flowers for dainty bouquets. **CULTURE A OR B.**

650 AMABILE BLUE. Pkt. 5c; 1/4 oz. 20c.

651 AMABILE PINK. Pkt. 10c.

652 FIRMAMENT. See Color Page 2.

Cypress Vine

2380 CYPRESS VINE. Dainty, fern-like foliage, star-like flowers, scarlet and white mixed. For small trellises. Good to grow in pots for winter. 15 to 20 feet. **Culture A or B. Pkt. 8c.**

Dahlia Seed

Dahlias are easily grown from seed and although they do not come true to color of the parent, many new and fine varieties are seedlings. Seed started early in the house will bloom the same season. **CULTURE D OR E.**

660 SUPERFINE SELECTED DAHLIAS. This seed has been hand-selected from cross-pollinated blooms of the best named varieties of Decorative and Cactus types, the highest quality possible to secure. **Pkt. 25c.**

659 ORCHID FLOWERING DAHLIA. A new type of a distinctive character, the petals curled and twisted, stems good for cut-flowers. Wide range of colors from white through all the shades known to the Dahlia family. **Pkt. 10c.**

656 DOUBLE MIXED DAHLIAS. Seed taken from the finest double flowers of Cactus, Decorative and Peony Types. **Pkt. 10c; 1/8 oz. 40c.**

New Dwarf Dahlias

The new Dwarf Dahlias grown from seed produce beautiful blooms for cut-flower use. 12 to 24 inches.

658 DWARF DOUBLE HYBRIDS. Dwarf early flowering double and semi-double in wide range of colors. **Pkt. 10c.**

657 DWARF MIGNON DAHLIAS. Sturdy compact little plants only 12 to 15 inches tall. **Pkt. 8c.**

654 ZULU HYBRID DAHLIAS. Dwarf, very dark foliage, flowers double and mostly in the crimson and scarlet shades. **Pkt. 15c.**

653 NEW DOUBLE DWARF HYBRIDS. See Novelty Page 5.

African Daisy, Hybrids

African Daisies

Dimorphoteca Aurantiaca

717 MIXED HYBRIDS. A very beautiful assortment of colors is produced by these new Hybrids. Shades of golden-yellow, orange, salmon, pink, white and others, run riot in a bed of this variety. Excellent cut-flowers. **Culture D or E. Pkt. 8c.**

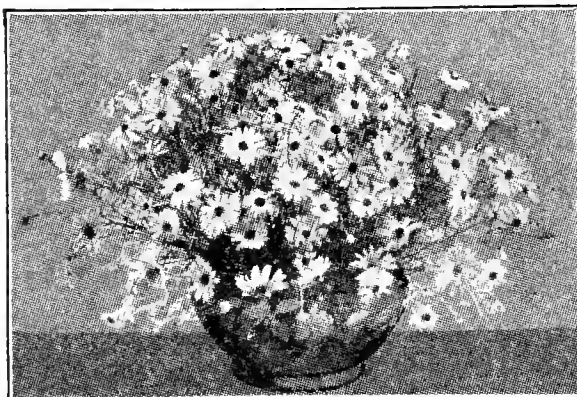

716 GOLDEN STAR. Makes a fine, low border, almost hugging the ground, and spreading out to a width of 8 to 10 inches. Large daisy-like salmon-orange flowers. **Pkt. 5c.**

721 PLUVIALIS RINGENS. Compact plants 8 to 10 inches high, bearing daisies of a most attractive color combination. Petals pure white, center bluish brown with a zone of bright blue. **Pkt. 10c.**

Swan River Daisy

350 BRACHYCOME, Annual *Cineraria Iberidiflora*. Plants 10 inches tall, covered with masses of little Daisy-like flowers in blue, pink and white. **Mixed Colors, Pkt. 10c.**

1399 LIVINGSTON'S DAISY, *Mesembryanthemum Criniflorum*. See Novelty Page 5.

Swan River Daisy, Brachycome

Datura

661 FASTUOSA DOUBLE MIXED. 2 to 3 feet tall, bearing large trumpet or cone-shaped, fragrant flowers, often 6 inches long, in white, purple and yellow. **Culture D or E. Pkt. 8c.**

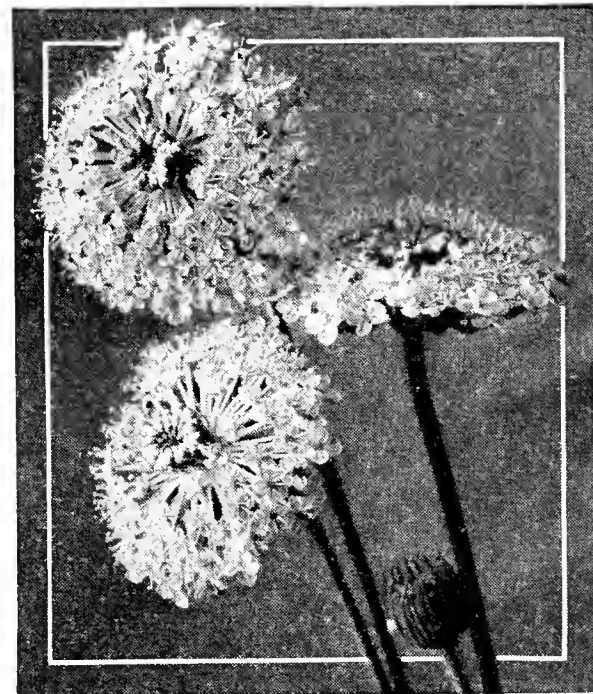

Dianthus

Culture D or E.

685 DIANTHUS LOVELINESS. Bears a multitude of lovely blooms fantastically fringed and deeply lacinated. Rosy-lilac. Desirable for cutting. **Pkt. 20c.**

687 LACINIATUS SPLENDENS. The most striking Dianthus. Flowers over 2 inches across, in brilliant crimson, with large, bold white eye. Free flowering and easily grown. **Pkt. 10c.**

697 TOM THUMB BRILLIANT. Bright scarlet, fully double flower, that will make a brilliant display. 5 to 6 inches tall. **Pkt. 10c.**

Didiscus, Queen Anne's Lace Flower

Didiscus

706 DIDISCUS COERULEUS, Queen Anne's Blue Lace Flower. A shade of heavenly blue that has decided value in bouquets or in the open garden. Flower ball-shaped, a compact mass of dainty individual florets, charming and graceful. Plant the seed early in a cool, rather moist place. **Culture A or B. Pkt. 8c.**

Dusty Miller

538 DUSTY MILLER, *Centaurea Gymnocarpa*. For edgings and borders for taller plants, especially Cannas, Salvias and Geraniums. Leaves silvery-white and fern-like. Desirable for hanging baskets and porch boxes. Grow 12 to 15 inches tall. **Culture D. Pkt. 5c; 1/4 oz. 25c.**

ESCHSCHOLTZIA. See Poppy-California, on Page 21.

Euphorbias

831 SNOW ON THE MOUNTAIN, *Euphorbia Variegata*. Bushy plants growing 2 to 3 feet high, surmounted with broad fleshy green leaves, veined and margined with white. **CULTURE D or E. Pkt. 5c; 1/4 oz. 20c.**

832 ANNUAL POINSETTIA, *Euphorbia Heterophylla*. Similar to Snow on the Mountain but upper foliage marked with red instead of white. Top center leaves later turn to a rich orange-scarlet, giving appearance of the Poinsettia. **Pkt. 5c; 1/4 oz. 25c.**

Everlastings

841 EVERLASTINGS MIXED. We have made a very special mixture of all kinds, types and colors of Everlastings, all those listed as well as many others. You will enjoy this mixture for it will give you many winter bouquets of great variety. **Pkt. 10c; 2 Pkts. 15c.**

See Complete list of Everlastings and Strawflowers under Strawflowers on Page 25.

Euphorbia, Annual Poinsettia

Four O'Clocks Make Excellent Annual Hedge

Four O'Clocks

SS1 TALL MIXED, Marvel of Peru or Mirabilis.

A popular and easy growing annual of bushy habit, 2 feet high, each plant bearing throughout the summer, hundreds of brilliant blooms. The flowers remain tightly closed until four o'clock in the afternoon, when they all open together and the plants become a glowing mass of brilliant colors. **Culture D or E. Pkt. 5c; Oz. 15c; ¼ lb. 35c; Lb. \$1.00.**

877 TALL RED. 879 TALL WHITE.
878 TALL ROSE. 880 TALL YELLOW.

Price, any above separate colors. **Pkt. 10c.**

887 DWARF TOM THUMB STRIPED. Pkt. 10c; Oz. 20c.

Gaillardia, Annual

915 DOUBLE AND SINGLE MIXED. Excellent for bedding. Strong, constant bloomers, from early summer to frost. Flowers showy, on long stems and distinctive, in reds and orange, and rose tinted at the base of petals. Foliage gray-green and abundant. Our mixture contains both singles and doubles. 18 inches tall. **Culture D or E. Pkt. 5c; ¼ oz. 25c.**

Geranium

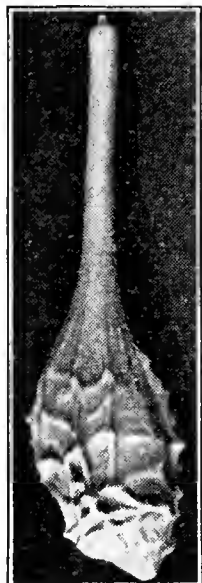

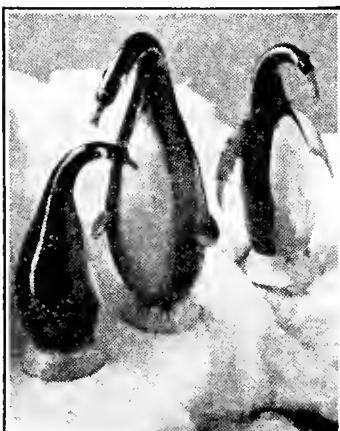

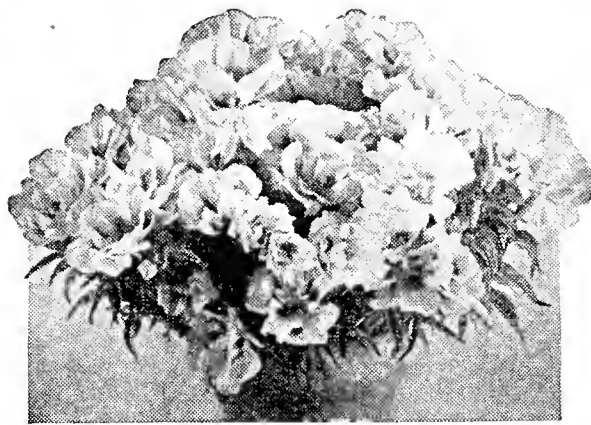

921 GERANIUM. We have an extra nice strain of the largest and finest colored varieties in mixture. They will bloom the first year from seed started in the early spring inside for transplanting outdoors in June. **Culture D or E. Pkt. 15c.**

Gerbera

928 GERBERA, JAMESONI HYBRIDS, or Transvaal Daisy. A half-hardy perennial which we recommend growing as an annual. Start seed indoors very early. Fine house plant, too. Flowers in red, orange, pink, rose and coral, about 3 inches across and borne on long, excellent stems. Will last 3 weeks as cut-flowers. It will be outstanding in your garden. Florists get top prices for these flowers. **Culture D or E. Pkt. 25c.**

Gloxinia

946 GLOXINIA HYBRID EXHIBITION MIXTURE. A mixture in red, purple, rose, white and mottled, unrivalled for variety and color, in this splendid house plant. Large bell-shaped flowers 4 inches across. **Culture D or E. Pkt. 25c.**

Gourd
Cave Man's ClubCalabash Gourds
Decorated as Penguins

Godetia, Dwarf Double Azalea Flowered

Gilias

943 MICRANTHA "Fairy Stars." Exquisitely dainty, charming and attractive for rockery and bedding. Neat and compact, 6 to 8 inches high, literally covered with tiny daisy-like flowers. A riot of color, includes popular pastel shades; rose, pink, orange, yellow, cerise and cream. Excellent for miniature bouquets. **Culture A. (R.G.) Pkt. 10c.**

944 CORONOPIFOLIA HYBRIDS. Tall upright plants, with needle-like foliage, bearing many trumpet-shaped flowers along the sides of the stem at the top. In rich color tones of apricot, salmon, pink, scarlet and yellow, 3 feet tall. **Pkt. 15c.**

Godetias

961 MIXED DWARF DOUBLE AZALEA FLOWERED GODETIA. Beautiful for pots, porch boxes or in the garden. Colors brilliant and when blooming they are simply a mass of color as may be seen in the illustration. Compact. Do well in partial shade in the garden, but best as a pot plant. Have the charm and beauty of an Azalea. **Culture A or B. Pkt. 10c.**

962 TALL DOUBLE SCHAMINI GODETIA. This splendid type grows about 2 feet tall, providing fine long stemmed cut-flower spikes, like Azaleas in beautiful shades of crimson, rose and pinks. **Pkt. 10c.**

955 SYBIL SHERWOOD GODETIA. New and outstanding. A beautiful single flowering variety of most exquisite color, a glorious shade of bright salmon-pink softened by an undefined edging of white. 18 to 20 inches tall, strong stems, free flowering. Foliage practically hidden by the bloom. **Pkt. 15c.**

Gourds, Ornamental

See Gourds in Natural Color. Page 29.

A very novel and interesting Annual climber with ornamental foliage, and singular fruits of many shapes and colors that are attractive for decorations. When ripe, shells can be hollowed out and dried, and are useful for decoration in dining room. See various types of Gourds in pictures below. **CULTURE D OR E.**

2381 APPLE. Apple-shaped, striped and varicolored.

2382 NEST EGG. Egg-shaped, white.

2383 HORNED CUCUMBER. New and attractive.

2384 BICOLOR. Pear-shaped, green and yellow.

2385 BOTTLE. Miniature necked.

2386 FLAT STRIPED. Flat round, green and white.

2387 ORANGE. Color and shape of orange.

2388 PEAR. Varicolored and striped.

2389 SPOON. Ball-shaped with long neck.

2390 TURK'S TURBAN. Brightly colored.

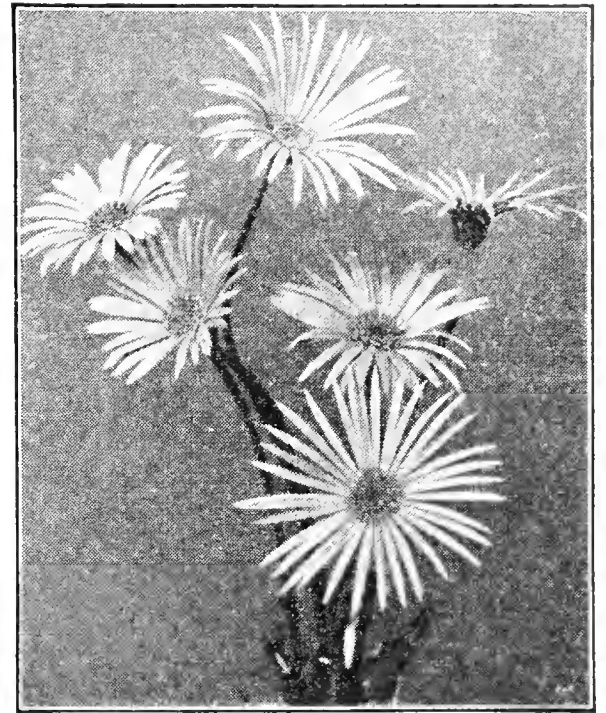

2391 WARTED. Mixed colors and shapes.

2393 CAVE MAN'S CLUB. Large knobby.

2394 CALABASH OR PENGUIN.

2392 SMALL FRUITED ORNAMENTAL MIXED.

Any Above, **Pkt. 10c; Oz. 30c.**

Ornamental Gourds Make Gay Decorations
They are very popular right now.
See color page 29.

Gerbera, Transvaal Daisy

Gomphrena

971 GOMPHRENA, Globe Amaranth. Very showy bush plants, bearing attractive clover-like flowers in rose, purple and white. Another good flower to be dried for winter bouquets. **Culture D or E. Pkt. 5c.**

Gypsophilas

Annual Baby's Breath

Popular Bouquet Flowers. Easily grown Annuals, 12 to 15 inches high. Always useful for combining with other flowers in bouquets or small vases. Make several plantings to have the flowers always in the best condition. **CULTURE A OR B.**

990 COVENT GARDEN. Extra Large Flowered. An improved strain of pure white Gypsophila. **Pkt. 10c; ¼ oz. 20c.**

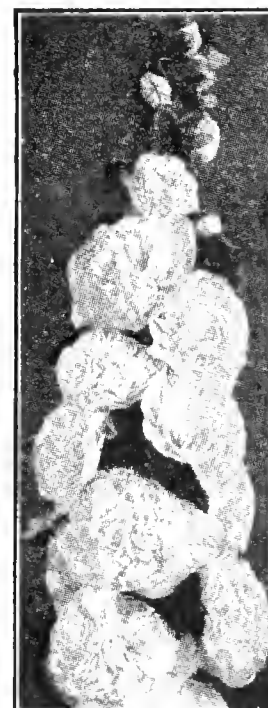

991 PARIS MARKET. Flowers pure white, very small, star-like, produced in feathery sprays. **Pkt. 5c; Oz. 25c.**

Annual Gaillardia

Double Hollyhock
See Next Page.Gilia Coronopifolia
"Texas Plume"

Helichrysum (Strawflower)

Hunnemannia, Sunlite

Grasses, Ornamental

For descriptions, see alphabetical list of annual flowers. This abbreviated list shows all the kinds that can be grown from seed, which we offer.

- 11 AGROSTIS NEBULOSA**, Cloud Grass. Pkt. 8c.
358 BRIZA MAXIMA, Quaking Grass. Pkt. 10c.
1172 JOB'S TEARS or Coix. Pkt. 5c.
1565 PENNISETUM, Fountain Grass or Ruppelianum. Pkt. 10c.

Helichrysum

- 1016 HELICHRYSUM**, Monstrosum Strawflower. The most popular Everlastings. The best known and most desirable because of the great improvement in recent years. This Monstrosum or large double is the best type. The plants grow 2 to 3 feet high and are literally covered with these large double brilliant flowers. In all the gay colors and shades. Mixed Colors. Culture D or E. Pkt. 8c; 1/4 oz. 25c.

Heliotrope

- 1031 HELIOTROPE**, GIANT MIXED. Perfume of this makes it great for bouquets. Pretty house or summer bedding plant, blooms all season. Start indoors, or the seed may be sown right outdoors in May. Lavender, pink and white, in compact, roundish clusters. Culture D or E. Mixed Colors. Pkt. 10c.

Hollyhocks, Annual

The marvelous development in Hollyhocks which enables gardeners to secure blooming plants the first year from seed should place this fine plant in every garden. Sown in April will bloom in August and by starting plants inside they may be brought into bloom much earlier. CULTURE E.

- 1077 ANNUAL DOUBLE SCARLET BEAUTY**. The finest of the doubles. Pkt. 20c.
1076 ANNUAL SINGLE MIXED. All the delightful colors of the popular perennial sorts. Pkt. 10c.
1078 INDIAN SPRING, See Natural Color Page 29.

Hop Vine, Japanese

- 2397 JAPANESE HOP VINE**, Humulus. A rapid climbing vine for verandas, arbors, or screens. Foliage mottled green and yellow. Culture D or E. Pkt. 10c.

Hunnemannia

- 1075 SUNLITE**, Buttercup Poppy. New strain, semi-double flowers, clear canary-yellow, bright as sunlight. Extra row of petals adds greatly to the beauty of the flowers. Sunlite received the Award of Merit from the All-America Selection Committee. Culture A or B. Pkt. 10c.
1074 GOLDEN BUTTERCUP POPPY, Bush Eschscholtzia. Imagine great long stemmed buttercups. Lacy foliage. The only poppy suitable for cutting. Bloom all summer. Pkt. 5c.

Hyacinth Bean Vine

- 2399 HYACINTH BEAN**, DOLICHOS. Rapid growth, makes dense and attractive screen, flowers freely in upright spikes like Hyacinths. Culture D or E. Pkt. 8c.

House Plant Seed

Many of our customers like to grow their own house plants from seeds. It is an interesting hobby in the cold, winter months. For your convenience, if you like this type of growing, we offer here a complete list of those varieties which can be so grown. For descriptions of the separate varieties, please refer to each in its alphabetical listing among the Annual Flower Seeds, pages 8 to 33. The following list is a guide as to what we have in this class.

Impatiens

- 1121 IMPATIENS BEST HYBRIDS**, Sultans Balsam. A charming plant for the house, blooming almost continuously. Light pink to reds, and purple-violet. About 18 inches tall. Satisfactory bedding plant for partial shade. Culture D or E. Pkt. 15c.

Job's Tears

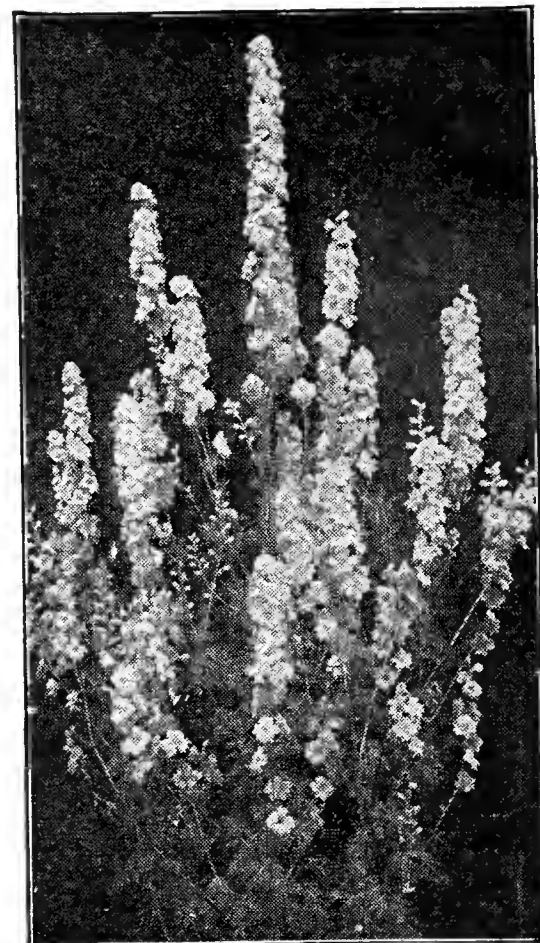

- 1172 JOB'S TEARS**. (Coix) Ornamental Grass. Old remedy for sore throat and teething babies, strung on linen thread worn around the neck. Culture A. Pkt. 5c.

Kochia

- 1228 KOCHIA**, MEXICAN FIRE BUSH, Giant Summer Cypress. Effective decorative plant. It has light green feathery foliage, which changes to crimson in the fall. May be grown as single specimens or as an ornamental hedge, 2 to 2 1/2 feet high with a spread of about 15 to 18 inches. Plant seed where the plants are to stand and thin out later, or start the seed indoors. Culture D or E. Pkt. 5c; 1/4 oz. 20c.
 See Kochia in Natural Color on Page 12.

Lantana

- 1257 LANTANA**, DWARF MIXED. Verbena-like heads, white rose, and orange. Excellent in house and garden. Compact plants 10 inches high. Culture D or E. Pkt. 10c.

Larkspur, Giant Imperial

Larkspurs, Annual

This big family of free-flowering, colorful, long stemmed Annuals will bring you plenty of pleasure in your garden. It stands up well as a cut-flower, too.

In addition to spring sowing of seed, it is possible to make a fall sowing for early blooms the following spring, because the young plants will winter over in your garden.

We are proud of the fact that many of the best Florists in the United States buy their Larkspur Seed from us. CULTURE D OR E.

Giant Imperial Type

Their type of growth allows closer planting without influencing the amount of their bloom. Height 3 to 4 feet.

- 1280 BLUE BELL**. Deep sky-blue. Pkt. 10c.
1274 LOS ANGELES IMPROVED. Brilliant rose on salmon ground. Pkt. 10c.
1284-A GIANT CORAL KING. Beautiful blush-pink with a strong suffusion of coral. Pkt. 10c.
1275 WHITE SPIRE. Pure white. Pkt. 10c.
1276 BLUE SPIRE. Deep oxford-blue. Pkt. 10c.
1284 GIANT WHITE KING. Pkt. 10c.
1279 CARMINE KING. Carmine-rose. Pkt. 10c.
1272 EXQUISITE PINK. Delicate pink. Pkt. 10c.
1282 MISS CALIFORNIA. Deep pink, salmon ground. Pkt. 10c.
1271 MIXED COLORS. A fine mixture including all the above and other rare colors. Pkt. 10c; 1/8 oz. 20c.

Dwarf Larkspurs

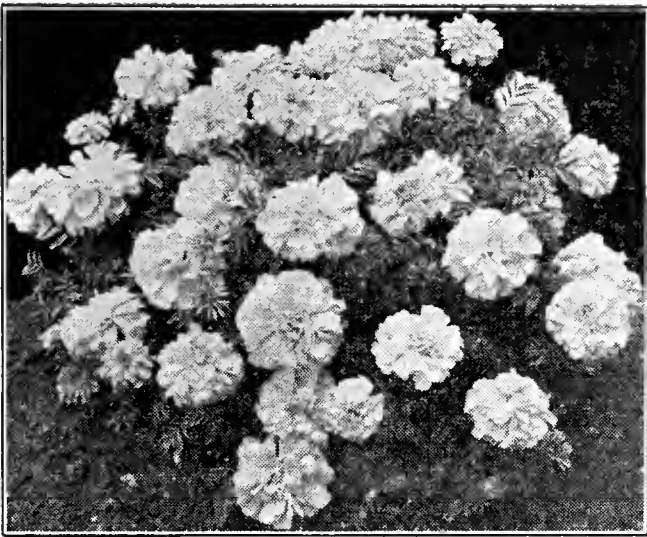

Bedding Varieties

- 1301 EMPEROR**. An improved class, more dwarf and compact in growth, making a fine bedding variety. Plant grows about 2 feet tall, producing an abundance of spikes, bearing double flowers of the stock flowered type. Mixed Colors. Pkt. 8c.
1302 ENCHANTRESS. A beautiful new variety of the Dwarf Emperor class. The compact, bushy plant is literally covered with soft, salmon-pink flowers. For potting or bedding. Pkt. 10c.

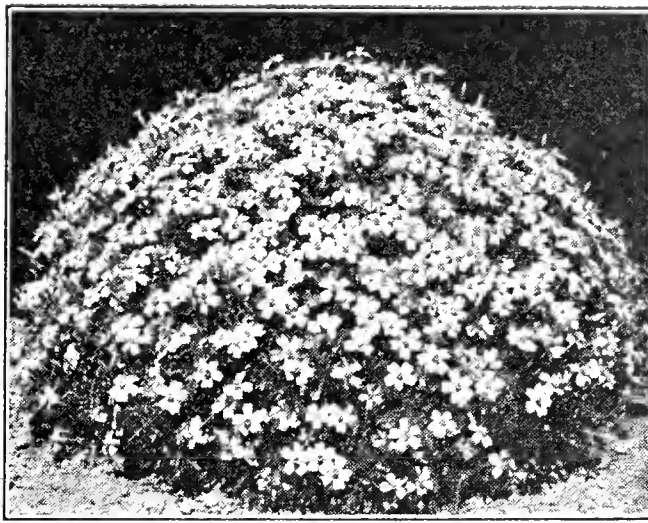

Tall Double Stock Flowered

The plants grow 3 to 4 feet high and bear long cutting spikes of beautiful double flowers.

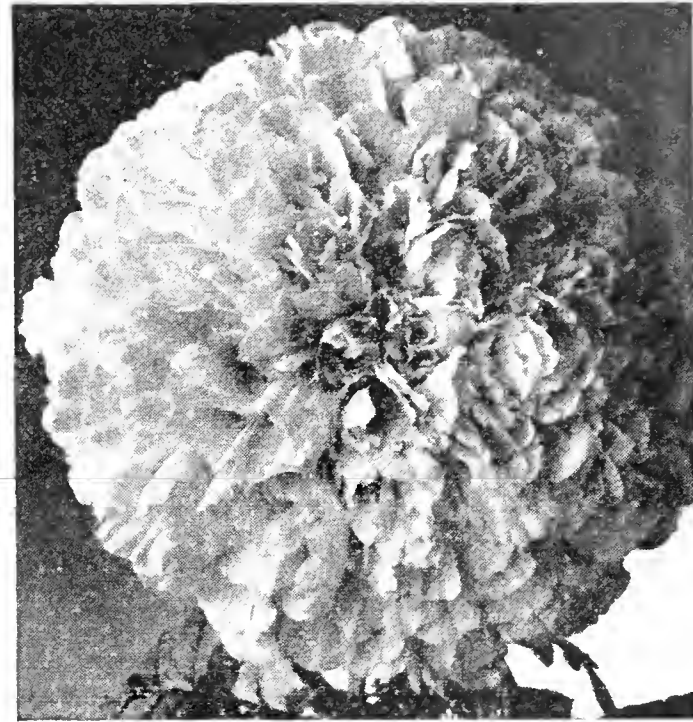

- 1269 LA FRANCE**. Salmon-pink, very large, double and well placed on long stems. Pkt. 10c.
1263 ROYAL DARK BLUE. Rich, deep blue, almost purple. Pkt. 10c.
1270 ROSAMOND. All-America. New pure deep rose, self-colored, fully double. Pkt. 10c.
1267 WHITE. A grand Annual for your white or moonlight garden. Pkt. 10c.
1261 MIXED COLORS. Includes a great variety of colors, blues, reds, pinks and white of the tall double flowered type, considered the best of all. Pkt. 8c; 1/4 oz. 20c; Oz. 60c.

Marigold, Tom Thumb Golden Crown

Marigold Tagetes Border of Gold Golden Gem

Marigold, Sunset Giants
See them in Natural Color on Page 31.

Leptosiphon

- 1319 FRENCH HYBRIDS.** Edging plant only a few inches high. Dense cushions of foliage, surmounted by cream, yellow, orange to brown, lilac and purple flowers. **Culture A or B. Pkt. 10c.**

Linarias

- 1327 FAIRY BOUQUET.** Awarded gold medal by the All-America. Fairy Bouquet is a little beauty. Plants about 8 inches high covered with pretty flowers, like miniature Snapdragons, in a mixture of shades. Blooms quickly from seed. Ideal filler for bouquets, for bedding or potting. **Culture A or B. Pkt. 10c.**
- 1326 MAROCCANA HYBRIDA.** Excelsior Mixed. Like miniature Snapdragons, crimson, gold, pink, rose, maroon, dark blue and chamois. 12 to 18 in. tall, blooms in 8 weeks. **Pkt. 5c.**

Linum

- 1328 LINUM, Scarlet Annual Grandiflorum.** Brilliant flowered 1 to 1½ ft. high, rosy-crimson flowers for pretty beds or borders. **Culture A or B. Pkt. 5c.**

Lobelias, Dwarf and Trailing

- 1335 CRYSTAL PALACE COMPACTA.** This is the best strain of dwarf Lobelia, 5 to 6 inches high, fairly covered with rich deep blue dainty flowers. A fine little border or pot plant and for porch boxes. **Culture D or E. Pkt. 5c; ½ oz. 25c.**
- 1340 BLUE STONE.** Dwarf, compact; large gentian-blue flowers without white eye. **Pkt. 10c. ½ oz. 25c.**
- 1333 EMPEROR WILLIAM.** Uniform dwarf habit, compact plants surmounted and almost completely covered with medium blue flowers. **Pkt. 10c.**
- 1336 SAPPHIRE TRAILING.** A beautiful new strain of trailing Lobelia, so useful for porch boxes and baskets. Strong growing, flowers extra large; deep blue with white eye. **Pkt. 10c.**
- 1334 BLUE GOWN.** See Novelty Page 5.

Lupines—Annual

Easily grown, free flowering Annual, with long, graceful spikes of pea-shaped flowers, richly and variously colored. Fine, dark, glossy foliage. Prefers some shade. Height 2 feet. **CULTURE A OR B.**

- 1344 MIXED COLORS.** Blue, pink, rose and white. **Pkt. 5c; ½ oz. 20c.**

Lupines, New Giants or King

- 1342 KING BLUE.** Rich oxford-blue with a white stripe in the standard of each flower. **Pkt. 10c.**
- 1343 KING WHITE.** Sweet scented, snow-white. **Pkt. 10c.**
- 1349 KING SKY BLUE.** Clear light blue. Fine for your Blue Garden. **Pkt. 10c.**
- 1351 KING HELIOTROPE.** Rosy-purple, white stripe. **Pkt. 10c.**
- 1350 KING MIXED.** Shades of blue, rose and white. Made from above varieties. **Pkt. 10c; ¼ oz. 20c.**

Lupines

RUSSELL LUPINES are Perennials. They are shown in natural color on page 2 and listed on page 35.

Marigolds

Marigolds, as a family, offer you a great deal for your money. You can be sure of plenty of flowers from July on through to frost. They come in every size and a wide range of colors including gold, yellow, orange, mahogany and brown, so they fit into many color schemes when used as cut-flowers indoors. They start easily in the garden from seed or may be started indoors in flats.

The new kinds that have been developed recently, are really novel and distinct and we can heartily recommend them to you. You may find several of them shown in natural colors on the color pages of this catalog, and the very newest, on the Novelty pages. **CULTURE D OR E.**

- 1364 ORANGE ALDDOUBLE.** A new and improved strain of African Marigold in which the flowers are practically 100% double. The plant growth and habit is identical with Orange Prince, but the form and doubleness of the flower in this new strain has reached perfection. **Pkt. 10c.**

- 1365 LEMON ALDDOUBLE.** Similar in growth and characteristics to Orange Alldouble except in color, which is bright lemon-yellow. **Pkt. 10c.**

- 1362 ORANGE PRINCE.** A tall double African variety. Bears large, perfectly double tubular or quilled petalled flowers of a rich deep golden-orange, a single plant often having 50 or more splendid flowers. See Color Cut, Page 30. **Pkt. 10c; ½ oz. 30c.**

- 1363 LEMON QUEEN.** A counterpart of Orange Prince, except in color, which is a soft lemon-yellow. See Color Cut, Page 30. **Pkt. 10c; ½ oz. 30c.**

- 1355 TALL DOUBLE AFRICAN AND FRENCH MIXED TYPE.** The African type has large flowers of a uniform color, yellow or orange and the double are more or less globe-shaped. The French Marigolds are combinations of mahogany, brown, yellow and gold, single and semi-double. **Pkt. 5c.**

- 1359 YELLOW SUPREME.** All-America, Gold Medal. This Marigold is the result of years of careful breeding. It is similar to "Guinea Gold" but of a pure lemon-yellow color, fully Carnation-flowered, nearly 3 inches across, quite early and a very profuse bloomer. Plants 2 feet tall. A grand cut-flower. **Pkt. 10c.**

- 1383 CHRYSANTHEMUM FLOWERED.** These new Hybrids contain many new and distinct types of Marigolds. Flowers vary in size from 2 to 4 inches, some are quilled, other imbricated. Fascinating shades of yellow and orange, plants 3 feet tall. **Pkt. 10c; ½ oz. 25c.**

- 1378 GUINEA GOLD.** All-America, Gold Medal. Brilliant orange, double and semi-double, ruffled, with loose petals. Plants 2 to 2½ feet tall of pyramidal growth. A very popular Marigold. **Pkt. 5c; ¼ oz. 20c.**

- 1375 ALL-DOUBLE ROYAL SCOT.** All-America Selection. A most striking color combination in rich Mahogany and Old Gold. A new strain of Dwarf Striped French. Compact, bushy, uniform, 10 to 12 inches tall. **Pkt. 10c.**

- 1369 MEXICAN DWARF ORANGE.** Grows 15 to 18 inches tall, bears large double flowers of bright orange. Petals broad, deeply crinkled at ends. Flowers 4 inches in diameter and so very double that they resemble oranges. Sow indoors in March and plant outdoors in May. Bloom July until frost. **Pkt. 10c.**

- 1386 GOLDEN WEST.** Fully double flowers of bright rich orange, 3 inches and more across. Loose informal petal formation. Grows 2 to 2½ feet tall and produces many excellent blooms for cutting. **Pkt. 20c.**

- 1387 AFRICAN LITTLE GIANTS.** One of the most delightful Marigold introductions of recent years. Little Giants produce almost a solid mass of fine large blooms on plants 15 to 18 inches tall. Color ranges from yellow to bright orange and the flower type varies from Carnation type to perfect globe. We highly recommend. **Pkt. 20c.**

- 1376 HARMONY, New Dwarf French.** This little beauty is a wonder in the garden as well as in the house as a cut-flower. The flowers are about 1½ inches across. Center is orange-yellow with deep, tubular petals that resemble a Scabiosa and the guard petals are a broad setting of velvety maroon. It blooms early and late, all the way from June to heavy frost. In our Trial Grounds last fall it was actually the last plant hurt by the frost about mid-November. This Harmony makes a nice variety to plant in front of the taller, larger flowered Marigolds. You will certainly like it. See Natural Colors on Page 32. **Pkt. 10c; ½ oz. 25c.**

- 1367 TOM THUMB GOLDEN CROWN.** A dwarf variety growing only 10 to 12 inches tall and fairly covered with large fully double blooms which, except for being larger and more double are exact counterparts of Guinea Gold, its parent. Unusually fine for front row of borders. See Novelty Page 5. **Pkt. 20c.**

- 1368 COLLARETTE CROWN OF GOLD.** All-America Gold Medal Award. Flowers with outer row of broad petals and centers of short curled and twisted petals forming a delightfully crested bloom of rich orange color and fragrant. The foliage is odorless. See Natural Colors on Page 30. **Pkt. 10c; ½ oz. 25c.**

- 1370 LEGION OF HONOR.** A single French Marigold, forming compact bushes 9 inches high. For borders. Golden-yellow with brown markings. **Pkt. 5c.**

- 1374 DWARF DOUBLE FRENCH, Monarch Strain.** Valuable for garden and cut-flowers. The new Monarch Strain shows improvement in its dwarf compact growth, the increased size and doubleness of the flowers and its splendid assortment of colors. Plants 1 ft. high. An All-America. **Pkt. 10c.**

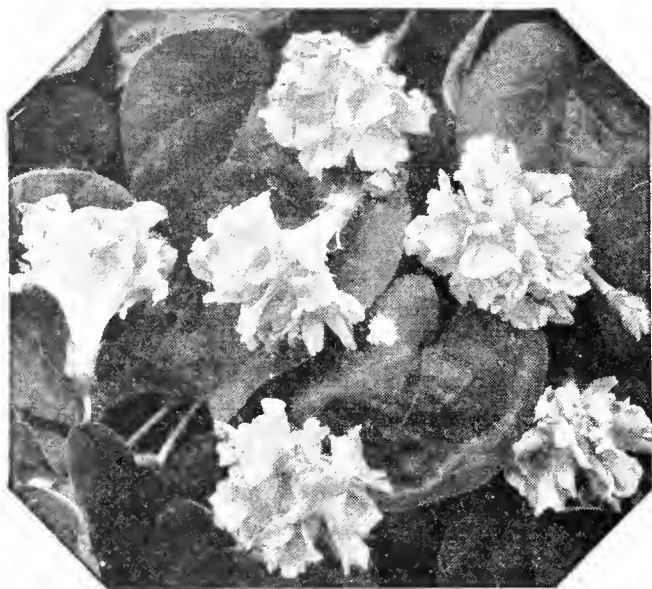

- 1366 DWARF DOUBLE AFRICAN MIXED.** Much more dwarf and compact than the tall sorts. The flowers are large, ball-shaped and in shades of lemon, yellow and orange. **Pkt. 5c.**

- 1380 BORDER OF GOLD. "Golden Gem." Tagetes.** Truly a Golden Gem for your garden. This dainty little flower belongs to the Marigold family and is one that should be in every garden. Dwarf habit, growing 12 to 15 inches tall, forming compact little plants with fern-like foliage of brightest green, and literally covered with a mass of small, single golden flowers from early summer until late frosts. A perfect annual for a "Border of Gold" and one that always pleases. **Pkt. 5c; ½ oz. 20c.**

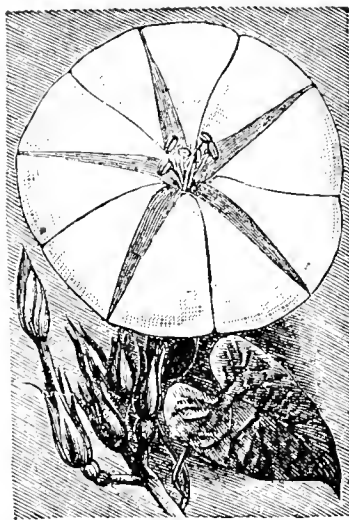

- 1381 LITTLE GIANT, Signata Pumila Tagetes.** The highest development yet attained in a neat, dwarf, really compact strain of this type. Very dainty, with slender foliage, plants 4 to 6 inches high, with a spread of 8 to 10 inches, covered with gay, single, deep orange flowers. An ideal edging plant, a perfect mass of gold. **Pkt. 10c; ½ oz. 25c.**

- 1358 SUNSET GIANTS.** The largest Marigold yet developed. Flowers averaging 5 inches in diameter and when grown for show purposes, sometimes attain a size of 7½ to 8 inches. They are of fairly loose formation, with petals gracefully overlapped, and are definitely sweet scented. The color range includes deep orange, golden-orange, deep golden-yellow, light yellow, lemon-yellow and a delightful new shade of primrose. The plants are extremely robust, usually 3½ to 4 feet tall, with 6 to 8 branches, each bearing 3 to 6 flowers. See in Natural Colors on Page 31. **Pkt. 15c; ½ oz. 30c.**

- 1388 ORANGE SUNSET GIANTS.** See Novelty Page 5.

Morning Glory, Double Rose Marie

Moon Flower

Double Gleam Nasturtiums

Matricarias

Double Feverfew. The small double flowers resembling button Chrysanthemums, are produced in showy clusters. CULTURE D OR E.

1384 CAPENSIS, DOUBLE WHITE. Plants grow from 2 to 3 feet high. For bedding or mixed border. Pkt. 10c.

1385 EXIMIA, GOLDEN BALL. Dwarf, compact, 9 inches high. Edging or border plant. Pkt. 10c.

Matthiola

1391 BICORNIS, Evening Scented Stocks. Lilac color flowers. Emit delicious perfume, 15 to 18 inches high. Culture A or B. Pkt. 5c.

Mesembryanthemums

1396 ICE PLANT, Crystallinum. The foliage and stems are covered with crystal-like formations that glisten in the sun. For hanging baskets, porch boxes and rockeries. Trailing. Culture A or B. Pkt. 5c.

1399 LIVINGSTONE DAISY, Criniflorum. See Novelty Page 5.

Mignonettes

Reseda Odorata. Many folks in a garden will quickly inhale—face light up—exclaim—“What is so fragrant?” All for the unpretentious Mignonette. Combine with odorless flowers to make bouquets. Excellent for bedding and for pots indoors. CULTURE D OR E.

1401 ODORATA GRANDIFLORA. A highly improved strain. Very fragrant. Pkt. 5c.

1402 GOLDEN GOLIATH. Improved spikes of golden-yellow. Compact growth. Pkt. 10c.

1403 NEW YORK MARKET. A select strain desirable for florists, 2 to 2½ feet tall. Flowers red. Pkt. 10c.

1405 BISMARCK. Improved Machet. Reddish shade with dense spikes. Distinct crinkly foliage. Pkt. 10c.

Mimulus

1412 MONKEY FLOWER, Queen's Prize Tigrinus Grandiflorus. Large flowers, resemble grinning monkey's face, white, yellow, golden, rose, crimson and maroon blotched and striped. 10 inches tall. Culture D or E. Pkt. 10c.

Mina Lobata Vine

2418 MINA LOBATA. Rich green leaves, heart shaped, large rich scarlet flowers in sprays, in bud turn to orange. A rapid grower quickly covering a trellis. Culture D or E. Pkt. 10c.

Moonflower Vine

2419 MOONFLOWER. Dense foliage, climbing 20 to 30 feet. Immense white flowers 5 to 6 inches. Open in the evening and on cloudy days. Culture D or E. Pkt. 10c; ¼ oz. 20c.

Oenothera

1508 EVENING PRIMROSE. Flowers in the evening. Fragrant large flowers of buttercup-yellow, bright red calyx; 18 inches high. Culture A or B. Pkt. 10c.

Morning Glories and Ipomeas

To get quicker results from Ipomea and others of the Morning Glory family, it is best to soak the seed in lukewarm water for 2 hours before planting. CULTURE D OR E.

2421 TALL. Climb rapidly, bloom freely all summer and will thrive in nearly any location, on trellis or fence. A mixture of many colors. Pkt. 5c; Oz. 20c.

2422 IMPERIAL. They quickly cover a large area, and bloom profusely. Foliage very desirable and interesting on account of its varied forms and good color. Blooms immense, white to dark purple, solid colors, striped, flaked and spotted. Pkt. 5c; Oz. 25c.

2423 NEW GIANT. This is a recent introduction. Immense flowers in a splendid variety of bright colors. Flowers are twice the size of the common Morning Glories. Pkt. 5c; Oz. 25c.

2424 ROCHESTER BLUE. Quick growing with flowers 4 to 5 inches across, deep violet-blue in the throat blending to an azure-blue and margined with a broad white band at the edges. Pkt. 10c; Oz. 20c.

2405 DOUBLE ROSE MARIE. A beautiful new addition to the Annual Climbing Vines. Vigorous and rapid growing, beautiful double flowers of a delightful shade of deep rose. Rose Marie is early and free flowering. Pkt. 10c.

2395 HEAVENLY BLUE, See Natural Color, page 30.

2425 SCARLETT O'HARA, See Natural Color, page 2.

Nemesia

1456 NEMESIA. Templin-Bradley Hybrids. Compact growth about 1 foot high. May be used as winter flowering plants. This is the best strain; large flowers, creamy-white through orange to carmine. Culture D or E. Pkt. 10c.

Nemophila

1463 NEMOPHILA. “Baby Blue Eyes.” About 8 inches high and producing an abundance of bright blue, cup-shaped flowers in clusters. Very dainty for cut-flowers. Culture A or B. Pkt. 10c; ¼ oz. 20c.

Nicotianas

Flowering Tobacco. A lovely class of fragrant Annuals that bloom freely throughout the summer and fall. Plants are bushy, 2 to 3 feet high and branching. They open towards evening emitting a very pleasant odor. CULTURE D OR E.

1486 CRIMSON BEDDER. New strain, 15 inches tall, well-branched, ideal for bedding. Rich deep crimson, blooms profusely, striking in the garden, as bouquets, or as a pot plant. See Natural Color, page 30. Pkt. 15c; ⅛ oz. 45c.

1483 AFFINIS WHITE, Tuberosc-flowered Tobacco. Continuous and profuse bloomer. Waxy-white flowers, branching, bushy habit. Blooms a few weeks after sowing, 2½ to 3 ft. Pkt. 10c.

1484 AFFINIS HYBRIDS. Like above in growth. Mixture of rose, red, white and blue. Pkt. 10c; ¼ oz. 25c.

1482 CRIMSON KING. Compact, with rich velvety crimson flowers, 2½ feet tall. Pkt. 10c.

1487 SUAVEOLENS, FRAGRANT WHITE. See Novelty Page 5.

Nierembergia

1489 HIPPOMANICA, Dwarf Cup-Flowered. See Color Page 50.

Nasturtiums

For summer display in large or small beds, boxes or borders, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. The more you cut the flowers, the more profusely will the plants produce blooms.

You can grow them in practically any garden soil, in fact, they will grow in soils that are too poor to support any other plants. Plant the seed after soil is warm, covering an inch deep and dropping a couple of seeds every 3 inches. They should not be transplanted. Do not water too freely.

Plant plenty of Nasturtiums this summer and enjoy their glorious colors in the garden and in bouquets where you need gaiety. CULTURE A OR B.

Double Gleam Nasturtiums

1438 GOLDEN GLEAM. Immense double golden-yellow. Flowers 2½ to 3 inches across. Pkt. 5c; Oz. 20c.

1439 SCARLET GLEAM. Dazzling orange-scarlet. Large flowers on long stems. Pkt. 5c; Oz. 20c.

1444 ORANGE GLEAM. Deep glowing golden-orange. Striking color. Pkt. 5c; Oz. 20c.

1445 MOON GLEAM. Beautiful primrose-yellow. For your Moonlight Garden. Pkt. 5c; Oz. 20c.

1446 SALMON GLEAM. Delicate glowing salmon. Unusual color. Pkt. 5c; Oz. 20c.

1450 DOUBLE GLEAM COLLECTION. 5 Pkts. 1 each of 5 Above Colors, Value 40c, 35c.

1440 DOUBLE SWEET SCENTED “GLEAM HYBRIDS.” This mixture of our glorious Gleam Hybrids contains an evenly balanced blend of brilliant colors; orange-scarlet, crimson, cerise, maroon, salmon, golden-yellow, cream-yellow and orange. Flowers large, well formed, double and deliciously sweet scented. Plants semi-dwarf, throwing short runners from the rounded, free-flowering bushes. Stems long, and bear flowers well above the lush green of the foliage, giving the effect of a solid mass of color. Gleam Nasturtiums in Natural Colors, page 31. Pkt. 5c; Oz. 20c; ¼ lb. 60c.

1435 DWARF DOUBLE GEM MIXED. Shades of yellow, orange, scarlet, crimson, cerise, cream, maroon and spotted varieties. Compact, gem-like plants, ideal for edging and border use. These lovely, sweet-scented Nasturtiums created a sensation at the California Exposition in San Diego. Pkt. 10c; Oz. 25c.

Single Dwarf Nasturtiums

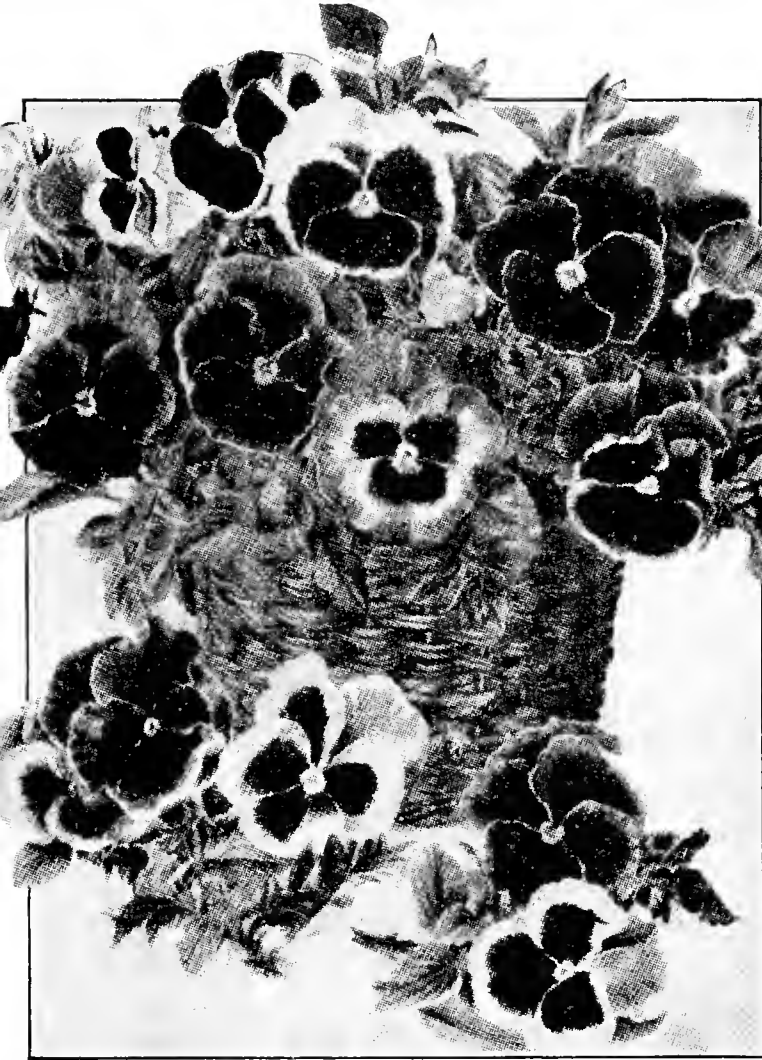

1426 MIXED. These are especially desirable for borders and beds forming neat compact plants 1 to 1½ feet across. This mixture is made from many select named varieties and will give you many beautiful flowers. Pkt. 5c; Oz. 15c; ¼ lb. 40c.

Climbing Nasturtiums

1441 BEST TALL OR CLIMBING. For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors. Pkt. 5c; Oz. 20c; ¼ lb. 60c; Lb. \$1.50.

Nigella

1490 NIGELLA, “Love-in-a-Mist,” or Devil-in-a-Bush. Compact, free flowering, little blue flowers, nestled in feathery foliage, resembling a mist. The seed pods are attractive; 15 to 18 inches high. Easy to grow. Culture A or B. Pkt. 5c.

Templin-Bradley's Supreme Mixture

Pansies

Roggli's Swiss Giants

545 ROGGLI'S SWISS GIANTS MIXED. This marvelous strain of giant Pansies is the result of years of intensive plant breeding by the Roggli Brothers near the Lake of Thun or "Thunersee" in the Swiss Alps. The flowers are of immense size, 3½ to 4 inches across, borne freely on long stems, which make them most desirable for cut-flowers. The plants are exceptionally strong and with the richly colored and beautifully marked flowers, carried well above the leaves. **Culture B. Pkt. 25c; ¼ oz. \$1.00.**

1546 ALPENGLOW. Rich Cardinal and Garnet.
1547 THUNERSEE. "Ullswater." Solid deep blue.
1548 RHEINGOLD. Canary-yellow, brown blotches.
1549 BERNA. Velvety dark violet-blue.
 Any above Variety, Pkt. 25c; ¼ oz. \$1.00.

Paris Giant Pansies

1531 PARIS GIANTS MIXED. A medium priced large flowering strain of Pansies that will please you. They are free flowering and of vigorous compact growth. This mixture contains an assortment of beautiful colors, golden-yellow, brilliant red, violet-blue, deep blue, bronze, white, maroon-black and the lighter colors as shown in Natural Colors, page 31. **Pkt. 10c. ⅛ oz. 30c.**

1526 GIANT EXHIBITION MIXED. Our own blend of which we sell a great quantity to the most critical Pansy lovers. Included are the ruffled types, the striped and mottled, the blotched as well as solid colors are mixed together to make our Giant Exhibition. **Pkt. 15c; 3 pkts. 35c.**

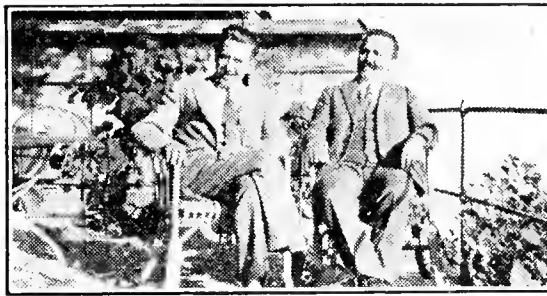

1528 POPULAR BEDDING MIXTURE. Comprising the finest varieties in all colors. Just what you want for a pretty bed. **Pkt. 5c; ⅛ oz. 25c.**

1540 TEMPLIN-BRADLEY'S SUPREME MIXTURE. In this mixture we have thought out the best mixture of Pansies in all the finest types, colors, sizes, markings and substances available. **Pkt. 25c; Large Pkt. 50c.**

1529 ENGELMANN'S RAINBOW MIXTURE. This strain has a greater range of color than any other strain we have ever offered. Furthermore, the flowers are enormous in size, 4 to 5 inches across, plants compact, of vigorous growth, good stems. Colors marvelous. You will find those of bronze and reddish tinge, many with distinct rings, deep blues, purples and light gold and yellow shades as well. **Pkt. 25c.**

1527 MIRACLE PANSIES. American Strain of Mastodon Mixed. This Pansy strain was developed by Steele's Pansy Gardens and is considered the best of the American strains. Hardy, early flowering, huge blooms on long stems; colors beyond description. **Pkt. 15c; ¼ oz. 75c.**

1552 WINTER-BLOOMING GIANT PANSIES. Sometimes called World's Record. A very early flowering hardy strain. Good size and include a splendid assortment of colors. Delicately fragrant. **Pkt. 10c.**

Floyd Bradley and Ernst Roggli, the Pansy Seed grower in Switzerland

California Poppy
Single Eschscholtzia

Pansy Novelties

1554 SHAKESPEAR PANSY. Delightfully quaint little Pansy exactly like those of Shakespear's time. Charming small blossoms in a wonderful array of colors cannot fail to please. **Pkt. 20c.**

1550 CORONATION GOLD. All-America. The largest golden-yellow Pansy with lightly ruffled edges and mild spicy scent. **Pkt. 20c.**

1556 BABY PANSIES. These little dwarfs do not grow over 4 inches tall with compact bushy little plants literally covered with the pretty little blooms in unusual colors. **Pkt. 20c.**

Pennisetum Grass

1565 PENNISETUM, Rueppellianum "Fountain Grass." Ornamental Grass for borders around Canna and Caladium beds or pools. 2½ feet tall. **Pkt. 10c.**

Phacelia

1624 PHACELIA, California Bluebell. Campanularia or Harebell. Neat little bushes, 9 to 12 inches tall, bear all summer pretty gentian bell-shaped blue flowers with white stamens. Easy to grow. **Pkt. 10c.**

Annual Phlox

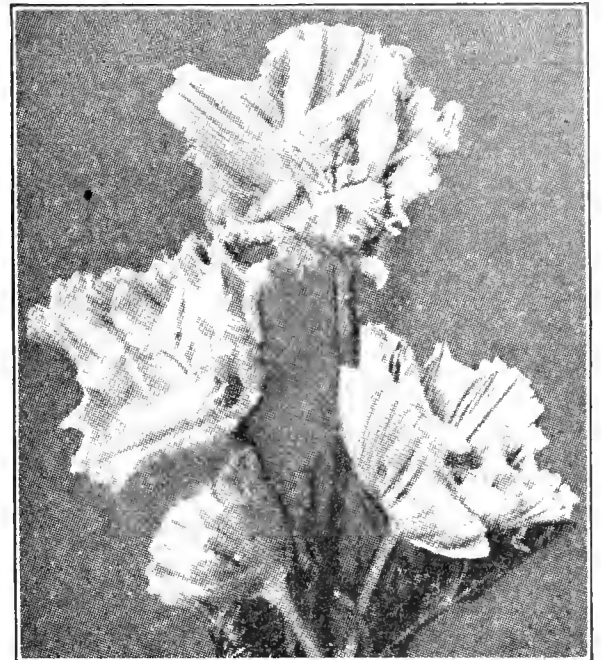

1625 GIGANTEA ART SHADES MIXED. An outstanding new strain of Phlox with flowers 1 to 1½ inches across. Annual Phlox are unrivalled for richness of color, profusion of bloom and compactness. Whether in clumps or masses, they are equally beautiful. The plants grow 9 inches tall and bloom from July to September. Our mixture contains a wonderful range of Art Shades; salmon, apricot, apple-blossom, soft rose, light blue, light mauve, pale violet, all with cream or white eyes. **Culture D or E. See Color Page 31. Pkt. 10c; ⅛ oz. 35c.**

1626 GIGANTEA SALMON GLORY. See Color Page 29.

1627 TALL LARGE FLOWERED MIXED. Phlox Drummondii Grandiflora. Unrivalled for richness of color, profusion of bloom, duration of bloom and general compactness. In clumps or masses looks equally beautiful. Should occupy a prominent place in every garden; plants 12 to 15 inches tall. **Pkt. 10c; ⅛ oz. 25c.**

1630 DWARF COMPACT MIXED. Phlox Drummondii Nana Compacta. For edgings, rockeries and porch boxes. Only 6 to 8 inches tall. **Pkt. 10c; ¼ oz. 30c.**

1628 STARRED AND FRINGED. This beautiful type is quite distinct. The flowers are either star-shaped or fantastically fringed, really two distinct types. Many bright colors. **Pkt. 10c; ⅛ oz. 25c.**

California Poppy or Eschscholtzia
Ramona Hybrids

Poppies, Annual

Poppies will grow most anywhere and you should scatter seed wherever there is any space in your garden, they are so bright. Make several plantings to have fresh flowers throughout the summer. They will not stand transplanting. The Shirley Poppies are all very attractive because of their good sized, beautiful silken flowers. **CULTURE A OR B.**

1651 SWEET BRIAR, Double Shirley. Deep rose-pink, formed like a large double Begonia. Much larger than standard Double Shirley. **Pkt. 10c.**

1652 THE DAZZLER. Double Shirley. Orange-scarlet. **Pkt. 10c.**

1655 DOUBLE SHIRLEY MIXED. Eldorado. Same brilliant shades as the single mixed but last longer. There will be some singles and some semi-doubles. **Pkt. 5c; ¼ oz. 25c.**

1654 SINGLE SHIRLEY MIXED. Silk or Ghost. What you would expect to see in a Chinese garden. Vivid, glistening. **Pkt. 5c; ¼ oz. 20c.**

1649 PEONY FLOWERED DOUBLE. Often 3 to 4 inches across. All colors mixed. **Pkt. 5c.**

1650 TALL SALMON SHADES, IRRESISTIBLE DOUBLE. A new strain. Flowers larger than the Peony and Carnation flowered Poppies, particularly pleasing. **Pkt. 10c.**

1653 FLANDERS FIELD, SINGLE. The beautiful native Poppy that covers the war fields of France and Belgium. A glorious scarlet. **Pkt. 5c.**

1648 TEMPLIN-BRADLEY BRILLIANT MIXTURE. Single and Double. Containing all the colors known to Poppies. **Pkt. 5c; ¼ oz. 15c.**

California Poppy

California Poppy, or Eschscholtzia, is the State flower of California and one of the most attractive low growing Annuals. The foliage is finely cut, fern-like, and silvery-green in color. They start to bloom a few weeks after the seed is sown. **CULTURE A OR B.**

801 GOLDEN YELLOW. Bright golden-yellow shading darker at the base of petals. The original California Poppy. **Pkt. 5c; ¼ oz. 15c.**

802 GRANDIFLORA HYBRIDS. Large flowering in shades of gold, copper, bronze, scarlet, purple and crimson. **Pkt. 5c; ¼ oz. 30c.**

809 DOUBLE MIXTURE. Like little silken flags, beautifully fluted and crinkled, double and semi-double. Rich yellow, orange and salmon color. See Color Page 11. Mixed Colors. **Pkt. 10c.**

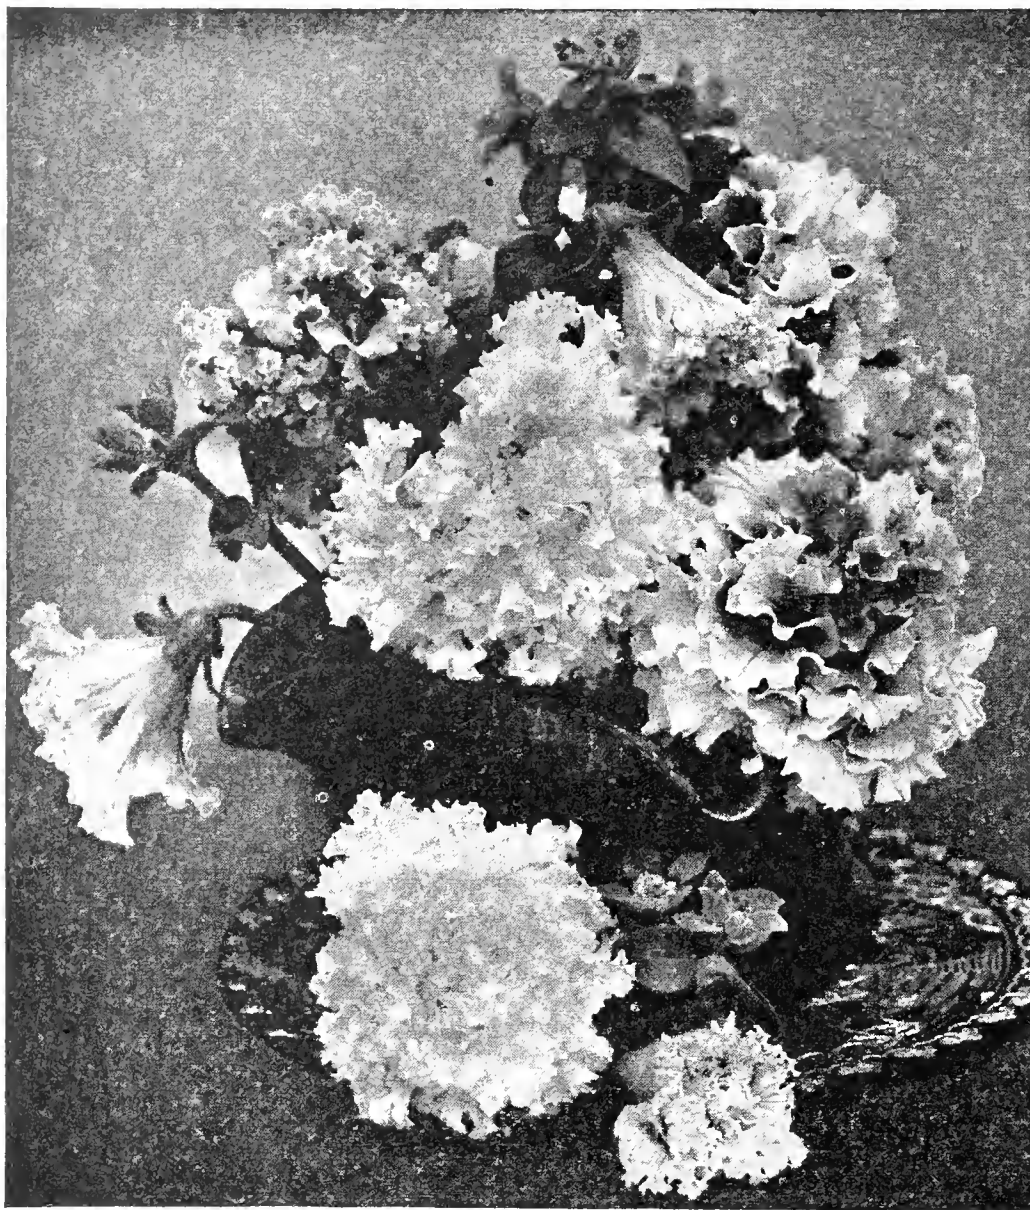

808 RAMONA HYBRIDS. This grand strain contains all the lovely colors, shades and combinations of colors known to the Eschscholtzia family. For type of flower, see cut. **Pkt. 5c; ⅛ oz. 25c.**

Pinks, China and Japan

686 CHINA AND JAPAN PINKS. Popular and satisfactory, easy culture, comprising a large variety of types and brilliant colors, many of them deeply fringed. **Pkt. 5c; ¼ oz. 20c.**

Poinciana

1638 POINCIANA, Bird of Paradise. Gillesii. Stately tall growing plant reaching up 8 to 10 feet. Flowers large, bright and yellow, in trusses. Crimson stamens and pistils, long and incurving. **Pkt. 10c.**

Large Fringed Petunia, Lace Veil,

Double Petunias

Petunia Culture D or E—See Page 59.

For freedom of bloom, variety of color, form and general effectiveness, Petunias have no equal. If only a little care is bestowed upon them, Petunias will produce their handsome sweet-scented flowers in their delicate and gorgeous colors all summer. No other flowers will bloom so freely and as long as Petunias in hot, dry weather. Many of our Petunias are of recent introduction and we recommend that you try some of these new kinds.

For your convenience on these two pages we have grouped separately those Petunias having similar habits of growth or types of flower.

Last summer while visiting our Trial Grounds with a local customer, he said, "If I had known what a wide assortment of Petunias of rare beauty is available, I would have gone in for them this year. Watch me next year."

Many of the leading florists of the United States use our Petunia Seed in large quantities every year. This is one of the best recommendations for the quality because the Florist must make his living from what he grows. You get the best when you buy from us. May we suggest you study these Petunia pages carefully.

All-Double "Triumphant"

Tall Giant Fringed Petunias—14 to 17 inches tall

After years of scientific plant breeding by our Petunia growers in far away Japan, we are now able to offer you strains of Petunia Seed that will produce practically 100% double flowers.

All-Double "Triumphant" are suitable for pot plants and attractive for bedding. The flowers are of immense size, 4 to 5 inches in diameter, exquisitely fringed and ruffled and very double. They are very lovely for cut-flowers and last well in low bowls. The colors we offer you are of enticing beauty.

- | |
|--|
| 1570-A Carmine Rose. Carmine-Rose, striped and blotched with White. |
| 1570-B Pink-Rose. Shades from bright Rose to Pink, often striped with White. |
| 1570-C Purple. Intense velvety Amaranth-Red, overlaid with Royal Purple. |
| 1570-D Purple & White. Bright Purple, variegated with White. |
| 1570-E White, Blue Vein. "Award of Merit" Royal Horticultural Society. |
| 1570-F Venosa. Amaranth-Pink, netted with Aster-Purple, red veins. |
| 1570-G Pure White. Double flowering "Lady of the Lake." |

Price any Above Petunias, Pkt. 75c; 3 Pkts. for \$1.75.

1570 All-Double Triumphant Mixed. Well balanced mixture of the above named varieties and many other bright and intermediary shades. Pkt. 60c; 3 Pkts. for \$1.50.

All-Double "Victorious"

Dwarf Giant Fringed Petunia 10 to 13 inches tall.

This wonderful new Dwarf Compact Petunia "Victorious" produces practically 100% double, beautifully fringed and ruffled flowers that will measure 4 inches across.

This type makes perfect pot plants, and is ideal for porch boxes and bedding where a dwarf compact plant is desired. The plants come remarkably uniform in habit, bloom profusely producing a wonderful display of brilliant and fancy colorings.

Color Descriptions on "Triumphant" above, apply to these.

|--------------------------------|--------------------------|
| 1571-A Loveliness. Clear Pink. | 1571-D Purple. |
| 1571-B Rosy Carmine. | 1571-E White, Blue Vein. |
| 1571-C Bright Amaranth-Red. | 1571-F Venosa. |
| 1571-G Pure White. | |

Price any Above Colors: Pkt. 75c; 3 Pkts. \$1.75.

1571 Mixed All-Double "Victorious" Petunias. Special mixture blended from the above named varieties and many other intermediary shades. Pkt. 60c; 3 Pkts. \$1.50.

All-Double Unusual Types

1572 Peony-Flowered "Dwarf Superb" Very large flowers which are fully double, are born in great profusion on dwarf bush plants 12 inches in height. Many prefer these large non-fringed flowers to the above fringed types. We offer you a well balanced mixture of all the wonderful colors. Pkt. 50c; 3 Pkts. for \$1.25.

1573 Carnation-Flowered "Glorious" The individual flowers of this type are not quite as large as those of the Giant All-double Strains, "Triumphant" and "Victorious," but they bloom more profusely and the flowers resemble carnations. The plants are very compact and branching and only 12 inches tall. We offer you an extra fine color mixture of these Dwarf Glorious Petunias. Pkt. 50c; 3 Pkts. for \$1.25.

Other Giant Double Fringed Petunias

1574 Rose-Pink and White New Double Giant Fringed. This is a beauty. Imagine a great big ball of double Petunia of bright Pink having each petal edged with a frill of pure White. The effect is charming. It comes quite true as to color and doubleness. Pkt. 40c; 3 Pkts. \$1.00.

1575 Super Double Fringed Giant Double Ruffled and Fringed Mixed Petunias. This seed should produce 95% double flowers of immense size and in a wonderful assortment of colors. Pkt. 50c; 3 Pkts. for \$1.25.

1576 Standard Double Fringed Mixture A splendid mixture of all colors, double ruffled and fringed and large flowers that will please you. Pkt. 35c; 3 Pkts. for 90c.

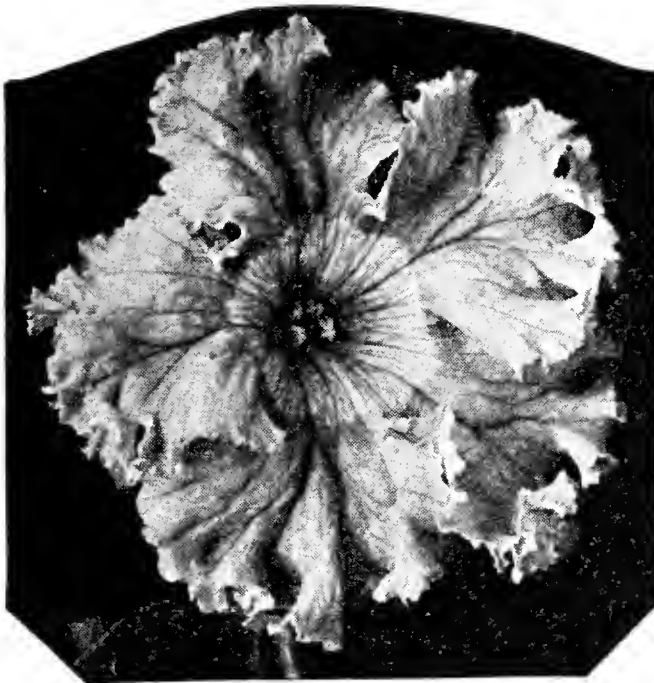

Small Flowering or Lilliput

Double Fringed and Ruffled—10 inches tall

As the name implies, the flowers are comparatively small, normally 2 to 2½ inches across, but they run a large percent double. The plants are quite dwarf and compact which makes them very desirable for bedding and for potting.

1577 Double Rosy Morn "Rosa Bonheur." The flowers are like rosy-pink Carnations. Fine for porch boxes. Pkt. 30c; 3 Pkts. 80c.

1578 Lilliput Double Mixed A mixture of shades of pink, crimson, striped and blotched red and white. Pkt. 30c; 3 Pkts. 80c.

Petunia Theodosia Rose

Large Fringed Single

The fringed varieties combine elegance of form with a great diversity of colors. Flowers 4 to 6 inches across.

- 1582-F Dainty Lady. Soft Yellow.
1582-D Pepita. Deep Carmine blotched White.
1582-C Romany Lass. Coppery-Crimson, dark throat.
1582-G Steel Blue. Medium Blue, veined.
1582-B Theodosia. Rosy-Pink, Golden center.
1582-H Violaacea. Velvety Violet-Blue.

Price any above Variety: Pkt. 20c; 3 Pkts. 50c.

1582-A Mixed Single Fringed. A grand mixture of the above and other beautiful varieties. Pkt. 15c; 3 Pkts. 40c.

1582 Ruffled Monsters Mixed

The flowers are very large and ruffled. Mostly colored in the desirable red and dark shades, neatly marked and veined. Half dwarf and erect in growth. Pkt. 25c.

Giants of California Ruffled and Fringed Petals

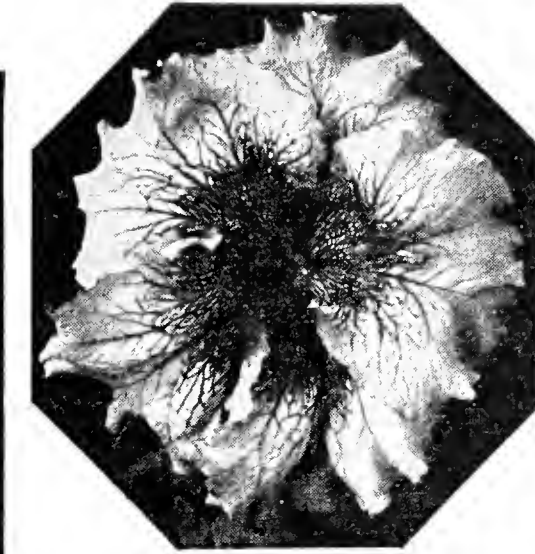

The largest and finest of all single-flowering types of Petunias. The blooms measure 5 to 6 inches across. The petals are ruffled and fringed, the throats are of deep tone, many beautifully netted and veined. We offer you both dwarf and tall types.

1585 Dwarf Giant Rosie A magnificent mammoth Petunia in rich Rosy-Lavender, with deeply netted throat. Makes a wonderful exhibition variety for beds, borders and pots. Pkt. 30c; Large Pkt. 80c.

1586 Dwarf Ramona Strain A superfine mixture containing all light and dark Petunia shades. All flowers will have wide open, well marked throats. Mixed. Pkt. 25c; Large Pkt. 75c.

1584 Tall Giants Mixed Many fine shades of Rose, Pink, Lavender, Purple with veined throats of contrasting color. Mixed. Pkt. 15c; Large Pkt. 50c.

1583E Petunia Burgundy

Petunia Giant of California

Single Petunias

Culture D or E—

Large Fringed Dwarf

Daintily ruffled and fringed flowers 3 inches in diameter in a great variety of color. Plants are bushy and only 10 inches high, excellent for potting and bedding. The daintiest of all Petunias. Our strain comes from Erfurt, Germany, where all plants are hand pollinized.

- 1590-C Gaiety. Rose and White, cheerful color.
1590-F Gottfried Michaelis. Bright Amaranth-Red.
1590-I Lace Veil. Dainty White Creamy throat.
1590-A La France. Clear soft Pink.
1590-D Lilac Queen. Pleasing shade, soft Lilac.
1590-B Setting Sun. Brilliant Rose, Orange tint.
1590-E Silvery Blue. Very soft silvery Lilac-Blue.
1590-G The Vein. White, veined Aster-Violet.
1590-H Violet Blue. Rich and velvety.
1590-J The Art. Crimson rose and white.
1590-K Purple & White. A beautiful combination.
1590 Mixed Dwarf Fringed. Strikingly beautiful is this mixture of these charming Dwarf Fringed Petunias.

Price any Variety or Mixed: Pkt. 30c; 3 for 75c.

Balcony Petunias

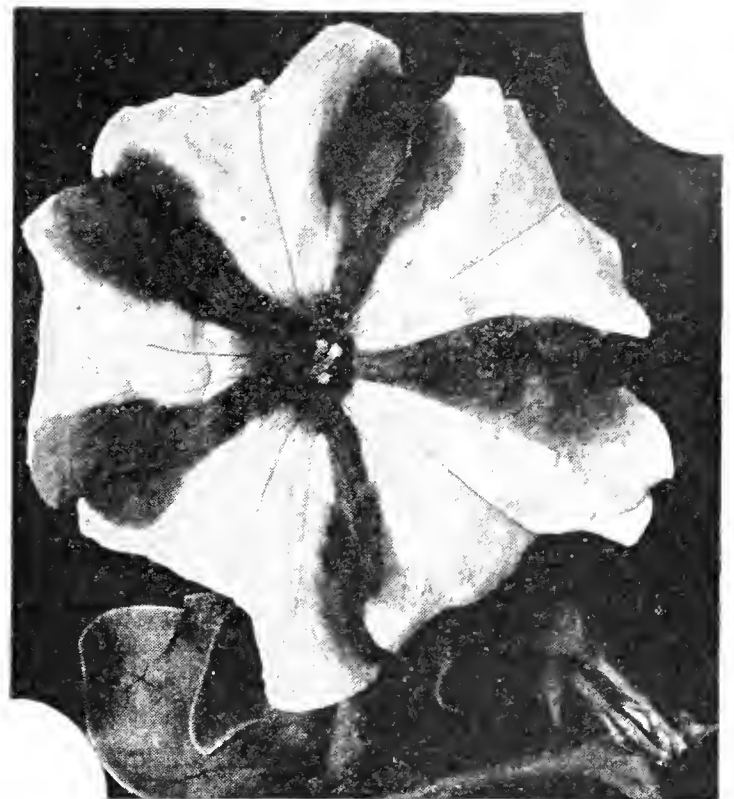

The plants of this group are very free flowering. They are well adapted to bedding as well as for boxes or hanging baskets, but the long pendulous branches make them especially fine for porch or window plantings. Richly colored, with large plain petaled flowers.

- 1592-D Blue 1592-A Rose
1592-B Crimson 1592-F White
1592-E Netted Blue Gem. Steel-Blue, netted Deep Violet.
1592-C Star of California. Blue with White Star.
1592 Balcony Mixed. Made from above colors and shades.

Price any Color or Mixed: Pkt. 10c; 3 Pkts. 25c.

1622 Petunia Parviflora An Oddity for Your Rock Garden

This miniature Petunia makes a mat of lovely green. It is of trailing or creeping habit with a finely cut foliage and almost insignificant tiny Pink flowers. The fact that it delights in a dry, hot situation, makes it useful in spots where nothing else will grow. Pkt. 15c; 1/8 oz. 25c.

Petunia Dwarf Inimitable

Large Plain Petalled

Flowers 3 to 4 inches across, in four choice colors. This type is very suitable for bedding and will produce a beautiful effect through entire summer.

- 1583-C Elk's Pride. Velvety Violet-Purple.
1583-A Pink Glory. Flame Rose-Pink.
1583-B Queen of the Market. Deep Carmine-Red.
1583-D White Cloud. Pure White.
1583 Large Plain Petalled, Mixed Colors.

Price any Color, or Mixed: Pkt. 20c; 3 Pkts. 50c.

Medium Plain Petalled

Extensively used where a mass planting for abundance of color is desired. This type produces a wealth of flowers under all conditions of weather and soil, and the spreading habit of the plants, makes them ideal for covering large spaces.

- 1601 Blue Bee. Rich Violet-Blue.
1596 Carmen Sylva. Violet, white throat.
1599 Flaming Velvet.

- 1600 General Dodds. Velvety blood-Red.
1597 Golden Rose. (Lord Courtney.)
1602 Howard Star Improved. Maroon, White Star.
1595 Luminosa. Tyrian Rose, cream throat.
1598 Rose King Improved. Rich deep Rose.

Price any above: Pkt. 10c; 3 Pkts. for 25c.

1604 Collection 8 Pkts. 1 each of 8 Kinds. Total Value 80c, 60c

1594 Mixed Colors A choice blend of all colors, including the soft tones as well as the more brilliant hues. Pkt. 5c; 1/8 oz. 25c.

1593 DeLuxe Mixed A select blend of all the most alluring colors including the above named and many more of the medium flowered varieties. This mixture will provide you with a glorious array of colors that will thrill you throughout the entire summer. Pkt. 15c; 1/8 oz. 35c.

Portulaca Rose Moss for Hot, Dry Garden Spots

They Thrive in Poor Soil—Bloom Profusely Culture D or E—

Portulaca will provide you with a brilliant floral carpet of adorable little silky rose-like blooms in a grand assortment of colors—Pink, Rose, Yellow, Apricot, Scarlet, Lavender, Cerise, White and variegated. See Color Cut,

It is ideal for edgings, between stepping stones, for rock gardens, for sowing broadcast, in fact, any place where you want color and a low growing annual. Portulaca grows in the hottest spots, even in the poorest of soils and it seeds itself too, which makes it desirable in many locations where you wish to have the same planting more than one summer. Plant Portulaca, even if your garden space is limited, you'll enjoy an edging of these charming little flowers. The foliage is attractive too.

1640 Paris Beauty Single

Beautiful single flowers of brilliant Tyrian Rose on Rosy-Purple. This is a most unusual Portulaca as the flowers are fully twice as large as the Portulaca of our Grandmother's day. You will be thrilled with Paris Beauty. Pkt. 10c; 1/8 oz. 25c.

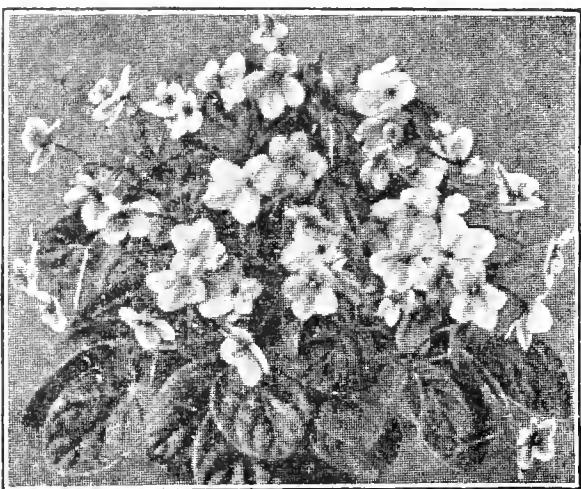

1642 Single Mixed

This mixture is unsurpassed for a carpet bedding where brilliance is desired. Our strain contains a complete assortment of glorious colors, Orange, Pink, Red, Buff, Yellow and White. Sow this seed broadcast in some hot, dry sunny spot and enjoy the colorful effect. Pkt. 8c; 1/4 oz. 25c.

1641 Double Mixed

See this lovely mixture in Color, Page 12. The form of these lovely double, Rose-like silky flowers is shown in cut at right. This grand mixture contains a brilliant assortment of colors. Pkt. 10c; 1/8 oz. 30c.

Double Portulaca
See Them in Color Page 65.

Saintpaulia, African Violet

Primula

1661 OBCONICA. One of the most beautiful Primulas for pot plants and also for the summer border. Fine large flowers in many colors. Start in a light window, using a porous loam but no leaf mold or peat. Culture D or E. Giant Mixed. Pkt. 25c.

Rhodanthe

1693 SWAN RIVER EVERLASTING MIXED. Flowers star-like, dainty, with silken petals, in pink and white. Plants one foot high. Easily grown. Culture D or E. Pkt. 10c.

Rudbeckia—Coneflower

1697 MY JOY. Delightful new and desirable variety of this popular Annual. Attractive flowers of rich orange-yellow, often over five inches in diameter and having a much smaller central cone. Plants are vigorous and strong growing, furnishing fine strong stems for cutting. Culture D or E. Pkt. 10c.

Saintpaulia—African Violet

1701 SAINTPAULIA, Ionantha. A very useful and charming pot plant that is now in very popular demand. Flowers resembling Violets of a very rich violet-blue color enhanced by the golden anthers, which lend a beautiful contrast. Foliage is similar to the Gloxinia. Very easily grown from seed, flowering in six months and continuing all winter. Culture D or E. Pkt. 35c.

Salvias

Scarlet Sage. Salvia is one of the best bedding and border plants. Start seed indoors. CULTURE D or E.

Salvias, Scarlet

1711 HARBINGER. One of the finest Salvias. Will bloom early and continue till frost. About one foot tall, compact, with rich green foliage and vivid scarlet flowers. Pkt. 15c.

1707 BONFIRE, Clara Bedman. Plant of globular form, 1½ to 2 feet tall, upright spikes of dazzling flowers. Uniform growth, profuse bloomer. Pkt. 10c; ½ oz. 35c.

1706 SPLENDENS SCARLET. Most popular bedding variety. A scorching scarlet. Pkt. 10c; ½ oz. 25c.

Two Glorious New Salvias

The new and wonderful Salvias, Blaze of Fire and St. John's Fire should be in every garden this year, and are offered on Novelty page 6, and the latter on Color Page 2.

1708 BLAZE OF FIRE, See Novelty Page 6.

1709 ST. JOHN'S FIRE, See Novelty Page 6.

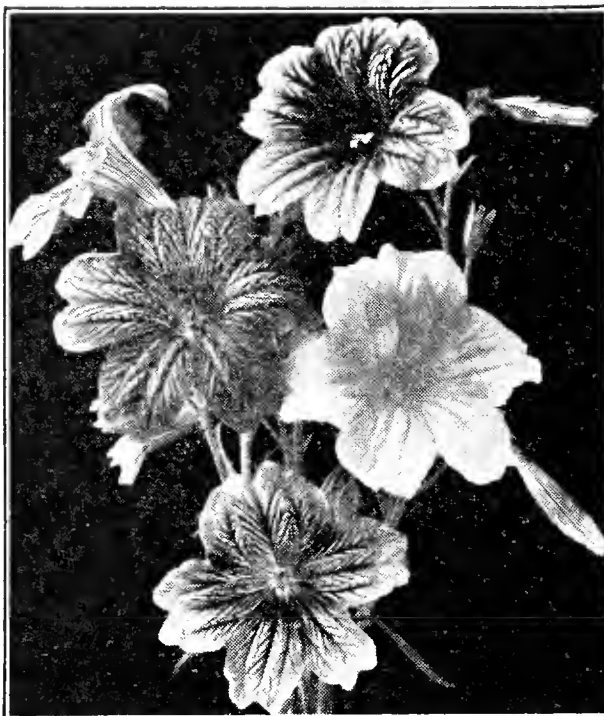

Salvias, Blue

1713 FARINACEA BLUE. This beautiful variety is fine for cutting or for bedding. Tall graceful spikes. Pkt. 10c.

1715 BLUE BEDDER. Strain of Farinacea Blue but more dwarf and compact, free bloomer and deeper in shade. Pkt. 15c.

Smilax

2442. One of the prettiest of all Vines for baskets, porch boxes or conservatory. Lasts several days in bouquets. Culture D or E. Pkt. 10c.

Salpiglossis, Tall Mixed

Salpiglossis

1705 DWARF GIANT FLOWERING. Salpiglossis is an aristocrat in appearance and is prized for its beauty. This is a new strain with compact, branching plants, 18 to 20 inches tall, making it ideal for bedding purposes. Extremely floriferous, the head of the plant being covered with Petunia-like blossoms, half again as large as the regular Salpiglossis. Our mixture contains blue, scarlet, crimson, brown, lilac and many intermediary shades, all beautifully veined with gold. Culture A or B. See Color Page 50. Mixed Colors. Pkt. 15c; ½ oz. 25c.

1703 TALL MIXED. Tall graceful plants 24 inches tall bearing large rich velvety flowers in all the finest colors. Pkt. 10c; ½ oz. 25c.

Sanvitalia

1717 PROCUMBENS, Creeping Zinnias. Hugs the ground. Masses of tiny Zinnia-like flowers in deep, golden-yellow. Excellent for border, edgings around birdbath, wall crevices and Rock Gardens. Blooms all summer. Culture D or E. Pkt. 10c; ½ oz. 25c.

Saponaria

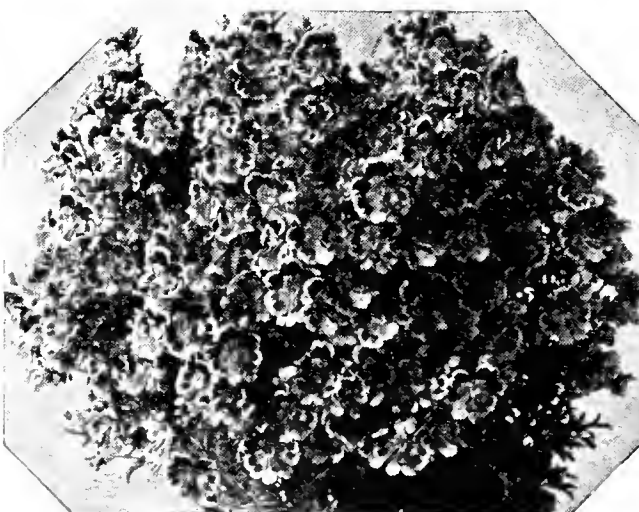

1720 ROSE AND WHITE, Bouncing Bet. 2 feet high and covered with small pink and white flowers, somewhat like large Baby's Breath. Desirable as cut-flowers. Culture A or B. Pkt. 10c.

Scarlet Runner Bean

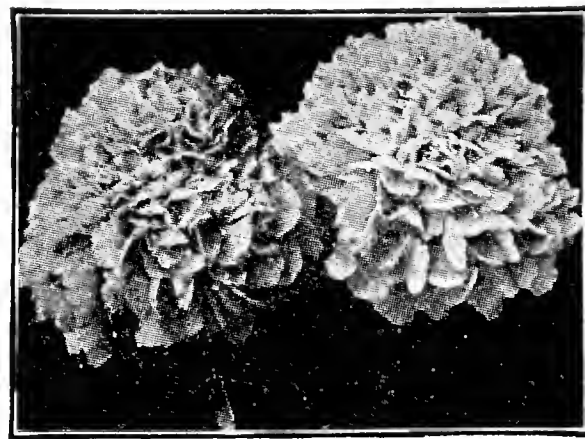

2368. This ornamental Vine grows 8 to 10 feet high, and bears sprays of bright red pea-like flowers, which are followed by pods of edible beans. Culture D or E. Pkt. 5c; Oz. 15c.

Sensitive Plant

1410 MIMOSA PUDICA. Curious 12 inch plants with small pinkish-white flowers. Fern-like foliage, folds when touched. Everybody knows the name, few have seen the plant. Culture D or E. Pkt. 10c.

Schizanthus Excelsior Compactus

Scabiosa, Blue Cockade

Scabiosas

Tall, Large Flowering

The delicate coloring, dainty form and long graceful stems make Scabiosa especially adapted for dainty bouquets. The colors are glorious and we know you will want to grow all of them. CULTURE D OR E.

1736 SALMON BEAUTY. A huge flower of pure salmon color, result of 12 years work, trying to get this grand shade into Scabiosas. Pkt. 15c.

1733 BLUE COCKADE. Lovely azure-blue large, conical flower of great beauty. Pkt. 10c.

1737 ROSETTE. Deep rose, heavily suffused with salmon. Extra large flowers. Pkt. 10c.

1724 PEACH BLOSSOM. Large well formed blooms of delicate pink on fine 12 inch stems. Pkt. 10c.

1725 SHASTA WHITE. The largest flowered and best pure white Scabiosa. One of the best white bouquet flowers. Pkt. 10c.

99 SCABIOSA COLLECTION. For Dainty Bouquets. 5 Colors, 1 Pkt. each of 5 kinds above, Only 35c.

1726 BLUE MOON SCABIOSA, See Color Page 2.

1722 NEW GIANT HYBRIDS. The flowers in this new strain are much larger than the standard Scabiosa, often measuring 2 to 2½ inches across, completely rounded and double. An unusual range of lovely colors. Pkt. 10c; ½ oz. 20c.

Dwarf Scabiosas

1735 TOM THUMB MIXED. Fine for Rock Gardens, only 8 to 9 inches tall. Lovely colors. Pkt. 10c; ¼ oz. 25c.

Schizanthus

Schizanthus, or Butterfly Flower. Charming and dainty, compact and branching, 1½ to 2 feet high, delicate fern-like foliage. Bright range of colors, all bloched and marked. CULTURE D OR E.

1738 CHOICE MIXED. A fine strain containing many beautiful contrasting colors. Pkt. 10c.

1742 EXCELSIOR COMPACTUS FINEST MIXED. Best for pot plants. 6 inches tall, pyramidal in form, free flowering. Colors, pink, rose, cream, white and all pastel shades, as well as darker colors. Pkt. 15c.

1739 GIANT FLOWERING HYBRIDS. An excellent strain for greenhouse growing but also fine for garden use. Wonderful color assortment. Pkt. 15c.

Stocks

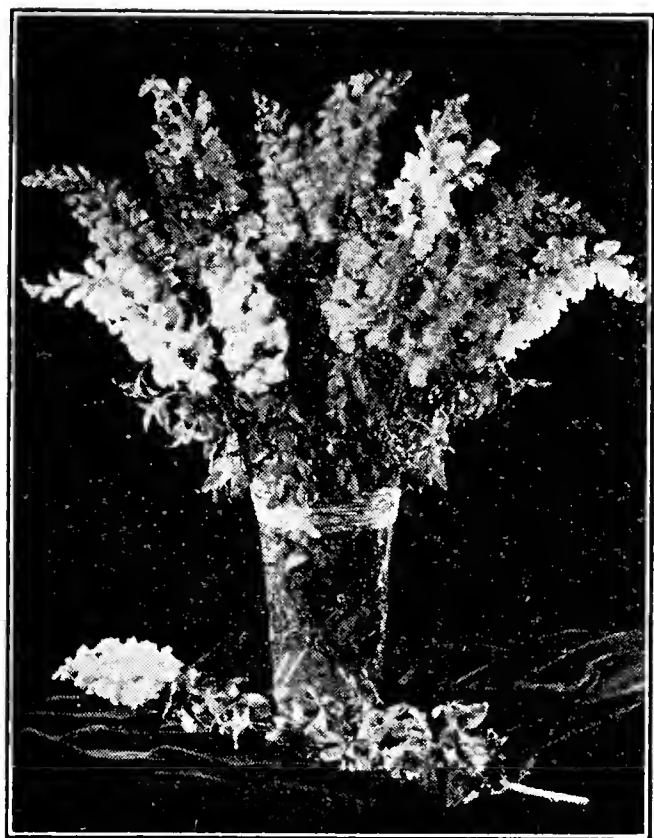

Stocks come in a great variety of soft colors and are very attractive for cut-flowers both by the florist and the home gardener. They bloom in late summer, fall and winter. CULTURE D OR E.

1765 TEN WEEKS. Dwarf, Large Flowered. Mixed Colors. The favorites for bedding, dwarf, compact. Large double flowers. Our strain shows only a few singles. Pkt. 10c; ½ oz. 30c.

1767 GIANT IMPERIAL DOUBLE. Improved Bismarck. Fine for greenhouse, large and branching, long flower stocks, 2½ feet tall. Mixed Colors, Pkt. 10c; ½ oz. 30c.

1791 GIANT EXCELSIOR OR COLUMN DOUBLE. Produce one large flowering spike 3 feet long on each plant. Mixed Colors. Pkt. 20c.

Rust-Proof Snapdragons
45 Giant Mixed Colors

Statice, Sinuata Mixed

Stocks, Giant →
Excelsior, See Page 24

Statice, Suworowi

Statice- Everlasting

Statice, Limonium, Sea Lavender, Beautiful for the garden and for winter bouquets. When dry it retains true colors. CULTURE D OR E.

1753 SINUATA MIXED. Excellent cut-flowers. Bright blue, rose and white. Pkt. 10c; ¼ oz. 20c.

1759 BONDUELLI YELLOW. Strong growing variety, producing many heads of bright lemon-yellow. Pkt. 10c.

1754 TRUE BLUE. This rich deep blue Statice Sinuata makes ideal flowers for winter bouquets. Flowers are lacy and dainty, stems graceful. Pkt. 10c; ¼ oz. 25c.

1760 SUWOROWI. A nice type of Statice from Russia with graceful spikes of soft rose flowers. Easy to grow. Pkt. 10c; ½ oz. 30c.

Snapdragons (Antirrhinum)

The delicacy, purity, variety and size of flowers make Snapdragons most desirable to all, for either garden or greenhouse culture. Speaking of greenhouse culture, brings to mind the fact that many hundred of the leading Florists of America who grow Snapdragons indoors, buy their seed from us because they have found by experience it is the best obtainable. You may as well have the best seed for your garden while you are at it. CULTURE D OR E.

Rustproof Snapdragons

Several years of careful work by our specialist, collaborating with the University of California to fight and overcome the rust which has at times hit Snaps in some parts of the country, is resulting in additions to the resistant strains. This is one of many jobs we are carrying on, relating to plant breeding in the interest of our customers.

Giant Snapdragons Rustproof

Giant or Maximum, is a great advance over the old Snapdragons. Magnificent in size and coloring, fully twice the size of the old types and with a color range that defies description. Plants 3 feet tall. Do not fail to include some of these in your garden.

46 ALASKA. Snow-white

47 APPLE BLOSSOM. Dainty pink.

48 CAMPFIRE. Luminous scarlet.

49 CANARY BIRD. Rich yellow.

50 COPPER KING. Burnish-copper.

51 CRIMSON. Deepest red.

52 FAIR LADY. Silver pink.

53 LOVELINESS. Soft rose-pink.

54 RED CROSS. Rich crimson.

56 SWING TIME. Rose-pink, yellow nose.

57 YELLOW GIANT. Deepest yellow.

45 ALL COLORS MIXED. This mixture includes all the above and many other fine new and beautiful colors.

Any above Varieties, Pkt. 10c; ½ oz. 35c.

58 COLLECTION MAXIMUM SNAPS. 11 Pkts. 1 each of above 11 Varieties, \$1.10 Value, for 90c.

Majestic Snapdragons Rustproof

The Super Majestic Antirrhinum are the very latest development in this popular Annual. Spikes and individual flowers extra large, like the Giant type, the plants semi-dwarf and bushy, 18 to 24 inches tall and a mass of color, making a splendid plant for bedding and borders. They bloom profusely and are fine for cut-flowers. You will like the assortment of rich colors we offer you here.

81 AUTUMN GLOW. Old rose suffused amber.

82 HARMONY. Terra cotta, yellow

83 ORANGE GOLD. Tangerine, orange.

84 MAIDEN'S BLUSH. Blush pink.

85 RED ROCKET. Bright red.

86 ROSE SENSATION. Rose-pink.

87 ROYAL CRIMSON. Garnet-crimson.

Any above packet 20c; ½ oz. 45c.

89 COLLECTION MAJESTIC SNAPS. 7 Pkts. \$1.00.

80 ALL COLORS MIXED. This mixture includes all the above and many other fine new and beautiful colors. Pkt. 15c; ½ oz. 35c.

Medium Snapdragons Rustproof

Medium Snapdragons flower very freely and run about 20 inches tall. Blossoms are the true Grandiflora type, closely spaced and form graceful spikes from seven to nine inches long. Under ideal garden conditions, should produce plants 15 to 18 inches across. Excellent for cut-flowers. A grand range of colors from which to select.

61 CARMINE ROSE.

62 GLOWING SUNSET.

63 INDIAN GIRL. Brownish-orange.

64 RED BOY. Rich scarlet.

65 WILDFIRE. Orange-scarlet.

66 ANTIQUE GOLD.

60 ALL COLORS MIXED. Any above Varieties, Pkt. 8c; ½ oz. 30c.

70 COLLECTION OF MEDIUM SNAPS. 6 Pkts. 1 each of 6 above Varieties, 48c; Value, 35c.

74 University of California Rust-Proof Mixture. Contains a wonderful range of most popular colors. Pkt. 10c; ½ oz. 35c.

Strawflowers Everlastings

Many varieties, not true Strawflowers, can be dried and kept in vases over winter to add color to the home. These are all listed in the Annual Flower Seed pages, alphabetically but grouped here to help those wishing a wide assortment.

7 ACROCLINIUM Pkt. 15c

34 AMMOBIUM Pkt. 10c

971 GOMPHRENA Pkt. 5c

1016 HELICHRYSUM Pkt. 8c

1693 RHODANTHE Pkt. 10c

1754 STATICE, True Blue Pkt. 10c

1759 STATICE, Bonduelli Pkt. 10c

1760 STATICE, Suworowi Pkt. 10c

2130 XERANTHEMUM, Mixed Pkt. 10c

841 MIXED EVERLASTINGS Pkt. 10c

842 STRAWFLOWER COLLECTION. 10 Pkts., 1 Each of 10 above kinds, (All except 841), Value 98c, for 75c.

Solanums

1751 JERUSALEM CHERRY SOLANUM. Ornamental pot plant bearing large, bright red cherries. Culture D or E. Pkt. 10c.

1752 ORNAMENTAL PEPPERS, CAPSICUM, Solanum. Interesting little bushy plants bearing brilliant and curious fruits in many shapes and colors. Pkt. 10c.

Stevia

1761 STEVIA SERRATA. Bushy plants, 2 feet tall, bearing numerous fragrant white flowers. Grow outdoors in summer and indoors in winter, and have the flowers for bouquets with other blooms. Used extensively by florists. Culture D or E. Pkt. 10c.

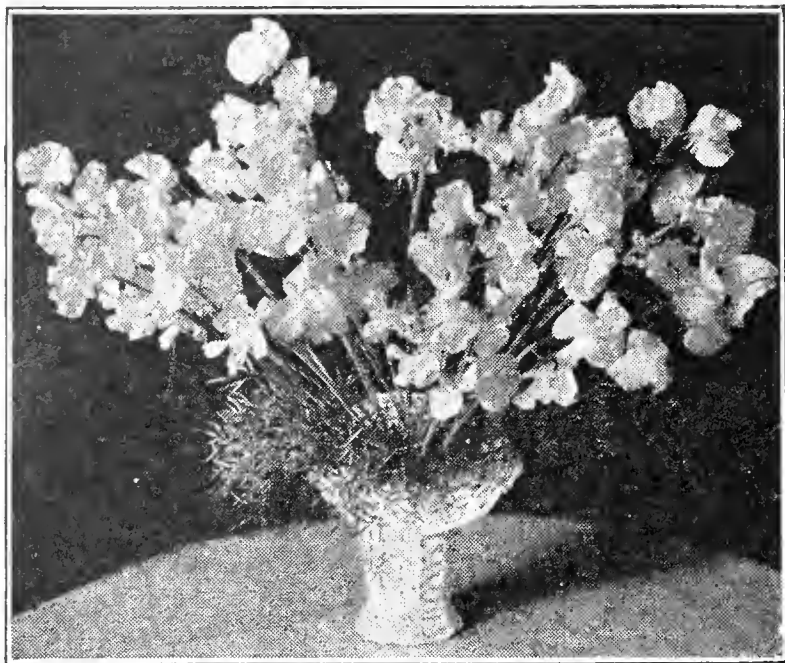

Early Forcing Snaps

For forcing into bloom in the greenhouse during the winter, we have made a mixture of the best florists strains available. This mixture contains all the best shades of pink, rose, gold, bronze, yellow and white. These may also be grown out of doors the same as the other types of Snaps. They produce tall plants and long spikes of large flowers.

95 FLORISTS MIXED COLORS. Pkt. 25c; Large Pkt. 50c.

Dwarf Snapdragons

92 MAGIC CARPET. English Novelty. A grand new dwarf Snap that truly grows into a "Magic Carpet." Most unusual. It is especially useful in the Rock Garden, but is equally suitable to any spot where a low growing trailing form of Annual is to be used. The flowers are of an adorable deep rose shade that blends in so richly with the green foliage, and it blooms profusely, giving a lovely carpet of dainty little Snaps that may also be used for small bouquets. Culture D or E. See Natural Colors on Page 31. Pkt. 20c.

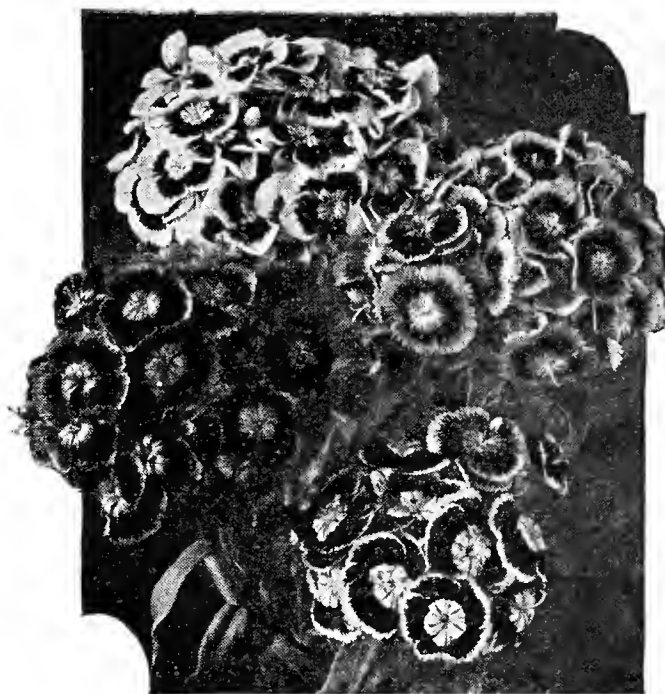

Sweet Pea, Exquisite

Inoculate Your Sweet Peas

Sweet Peas are in the Legume family, as are Peas, Beans, and Lupines. If Legume seeds are inoculated with a good legume bacteria at planting time, the crops will be greatly improved. Nitragin is a really good legume bacteria and the size package we offer is ample for treating the seed required for the average family garden. The cost is so moderate that you really cannot afford to do without it. Try it this year if you have never done it before.

4340 NITRAGIN, Garden Size, Pkt. 10c; 3 Pkts. for 25c.

Sweet Williams

Sweet Peas Most Desirable Varieties of Finest Quality

For distinctive beauty and exquisite fragrance, the Sweet Pea has no rival. You can have Sweet Peas in your own garden just as fine as those of the Florist. Pick the flowers frequently for abundant bloom. One ounce of seed will plant a single row 20 feet long.

Sweet Pea Culture. Prepare a deep trench, removing top soil and loosen subsoil, working into it some well rotted manure, replace top soil, leaving it 4 to 5 inches deep. Sow Sweet Pea seed in bottom of trench, 12 to 15 seeds to the foot for each row, then cover seed with 2 or 3 inches of soil and as vines grow, gradually fill up to the level. Sweet Peas must be sown early in the spring to get the best results, just as early as you can possibly work your soil. This is why many say plant Sweet Peas on St. Patrick's Day.

Plant Sweet Peas twice, both Classes each time, in March and May for early and late Summer flowers.

Summer Flowering Giant Spencers

Same thrifty, vigorous large waved and frilled flowers as the Early Flowering Giant Spencer Sweet Peas, except that they bloom 3 to 4 weeks later. Plant both Early and Summer Flowering varieties and have a double blooming period with a wealth of Sweet Peas for dainty bouquets. See Color Page 50.

- 1829 ANGLO. Yellow, edged pink.
- 1824 BEGONIA ROSE. Begonia-rose.
- 1848 BLACK DIAMOND. Deep maroon-black.
- 1843 CAPRI. Best light blue.
- 1842 CHINESE BLUE. Rich deep blue.
- 1838 ENSIGN. Cornflower-blue.
- 1826 ETHERIAL. Peach and rose.
- 1830 EXQUISITE. Coral-salmon.
- 1839 FLORA. Clear lilac-lavender.
- 1812 GIGANTIC. Large flowered, white.
- 1832 GOLD CREST. Orange and salmon.
- 1834 GOLDEN WINGS. Salmon-orange.

- 1855 VANITY. Deep geranium-pink.
- 1811 WHAT JOY. Primrose, shaded cream.

Price on Any of Above Varieties

Any 1 Pkt. 10c; 3 Pkts. 25c; 7 Pkts. 55c.

1810 SWEET PEA COLLECTION, (See Color Page 50), 6 Pkts. 50c.

1806 SUMMER FLOWERING MIXED. Our mixture contains many choice varieties, the best in their respective colors. They are all large and wonderfully frilled and waved and will give you a splendid assortment of shades and colors in this delightful class of Sweet Peas. Summer Flowering. Pkt. 10c; Oz. 25c; ¼ lb. 60c; Lb. \$1.75.

Sweet Williams, Annual

608 ANNUAL SWEET WILLIAM MIXED. Valuable new Annual, originated by crossing the Perennial variety with the Annual Hedderwigi Pink. Culture D or E. Pkt. 8c; ¼ oz. 25c.

Early Flowering Giant Spencers

Our Early Flowering Giant Spencer Sweet Peas have been bred to bloom 3 to 4 weeks earlier than the Summer Flowering Spencers, and they continue to bloom over a much longer period, too. Sweet Peas thrive best in the Spring and early Summer while the days are moderately cool. If your Sweet Pea vines have suffered in the past from extremely hot weather, try some of these Early Flowering Spencers and enjoy an abundance of bloom before the hot days come. This type is excellent for Winter and early Spring bloom in the greenhouse, too.

- 1930 ANNIE LAURIE. Pure rose-pink.
- 1917 ATTRACTION. Soft salmon-pink.
- 1901 AVIATOR. Dazzling scarlet.
- 1874 BALL'S BLUE. Cornflower-blue.
- 1921 BALL'S ORANGE. Glowing orange.
- 1876 BLUE BIRD. Deep violet-blue.
- 1932 BRIDESMAID. Silvery-pink.
- 1906 COLUMBIA. Salmon, white wings.
- 1875 ELEANOR BLUE. Silver sheen.
- 1939 GIANT ROSE. Deep rose-pink.
- 1891 GLITTERS. Fiery-scarlet.
- 1862 HOPE. Satiny-white.
- 1887 LAVENDA. Fragrant lavender.
- 1936 MAJESTIC ROSE. Rose-pink.
- 1869 MEADOWLARK. Deep cream.
- 1916 MONTEREY. Pink, flushed salmon.
- 1935 MOTHER MACHREE. Coral, golden-rose.
- 1910 MRS. COOLIDGE. Salmon-orange.
- 1923 PROSPERITY. Orange-salmon.
- 1945 RAMONA. Coral and yellow.
- 1915 SATIN ROSE. Amber, salmon sheen.
- 1893 SEQUOIA. Golden-cerise.
- 1885 VOGUE. Rosy-lavender.
- 1943 SHIRLEY TEMPLE. New, sweet and lovely as its namesake. Bright rose-pink. Large flower daintily frilled and fluted.

Price on Any of the Above Varieties

Any 1 Pkt. 10c; 3 Pkts. 25c; 7 Pkts. 55c.

1861 EARLY FLOWERING MIXED. A splendid mixture of the above named varieties and many colors and tones. If you wish a fine lot of Sweet Peas with little space and a limited expenditure, plant these with our summer flowering mixed. Pkt. 10c; ½ oz. 30c; Oz. 50c.

Sweet Wivelsfield

Sweet Wivelsfield is a new hardy Annual, the results of a cross between Dianthus Ailwoodii and Dianthus Barbatius. Free flowering from June to frost. Color includes rich reds and purple, through shades of pinks to white, solid colors and with markings.

700 SINGLE SWEET WIVELSFIELD. Pkt. 10c.

701 DOUBLE SWEET WIVELSFIELD. Pkt. 15c.

Sweet Peas in Special Mixtures

1809 NEW VARIETY MIXTURE. For the Connoisseur. As the name of the collection states, it is made entirely from New Varieties of Sweet Peas, of both the Early and Summer Flowering classes listed on this page. If you wish to have an "Up to the Minute" Garden, this is the mixture you should plant. These wonderful varieties, glorious colors, beautifully waved and frilled flowers, make this the grandest Sweet Pea Mixture possible. Pkt. 25c; Oz. 60c; ¼ lb. \$1.75; Lb. \$5.00.

1808 DE LUXE GARDEN MIXTURE. Here is a mixture that will give you many thrills and a wealth of lovely flowers. We have combined both Early and Summer Flowering Classes, old and new varieties, every color and shade found in Sweet Peas and are giving you a truly De Luxe Garden. Pkt. 20c; Oz. 45c; ¼ lb. \$1.25; Lb. \$3.50.

1807 TEMPLIN-BRADLEY'S MEDAL MIXTURE. If you have a limited amount of space for your Sweet Peas and yet wish to have the best named varieties in the most colorful and gorgeous display of Sweet Pea beauty and daintiness, plant this Templin-Bradley Medal Mixture. We have combined thirty or more choice named varieties of the Butterfly or Orchid Flowering Spencer Summer-Flowering Sweet Peas into this fine mixture. It will give you an unlimited supply of beautiful flowers for dainty bouquets. Pkt. 15c; Oz. 35c; ¼ lb. \$5c; Lb. \$2.25.

Sunflowers

1801 RED. Like immense Gaillardias. Height 5 to 6 feet, flowers 4 to 7 inches across in shades of brown, red, yellow. Culture D or E. Pkt. 5c; ¼ oz. 20c.

1802 DOUBLE CHRYSANTHEMUM. While many come single, a large portion of them will come fully double like big Chrysanthemums. Pkt. 10c; ¼ oz. 25c.

1803 STELLA. Best miniature type. Wealth of golden-yellow, single flowers, all summer. Fine for cut-flowers. Pkt. 5c; ¼ oz. 20c.

4077 MAMMOTH RUSSIAN. The large flowered, tall growing variety. Oz. 5c; ¼ lb. 10c; Lb. 25c; 3 lbs. 60c.

1804 SUNFLOWER COLLECTION. 1 Pkt. each of the above four varieties. 25c Value, for 20c.

Tithonias

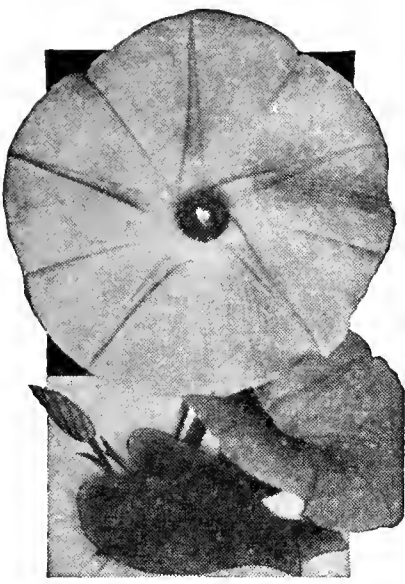

1984 SPECIOSA, GOLDEN FLOWER OF THE INCAS, or Mexican Sunflower. Tall, shrubby, border plant; bears large dazzling orange-scarlet flowers, partially hidden by foliage. Long blooming. Culture D or E. Pkt. 10c.

1983 EARLY FLOWERING MIXED. Improved strain; slightly dwarfed, blooms two weeks earlier. Pkt. 15c.

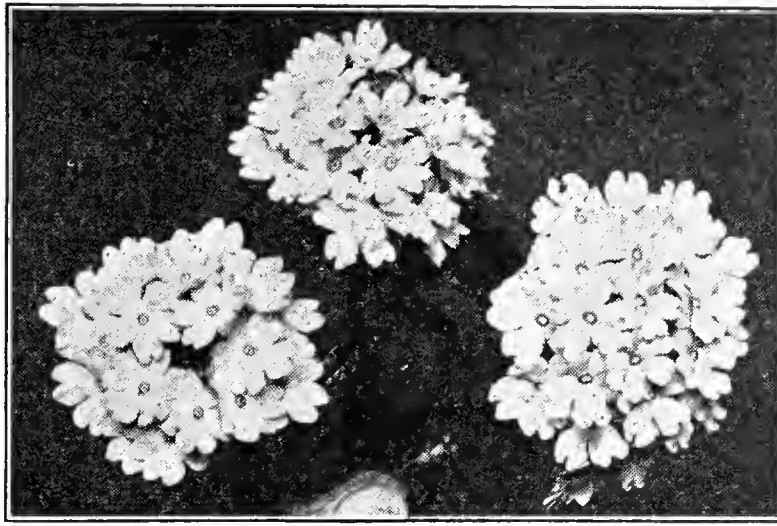

1985 SPECIOSA FIREBALL. Its blaze of fiery color, surmounting the attractive foliage of the tall plants, often 8 to 9 feet tall. Pkt. 25c.

Torenia

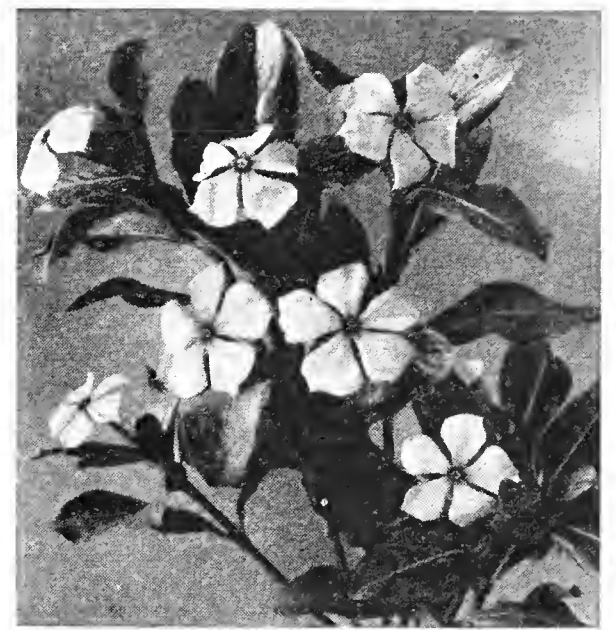

1995 FOURNERI. Bushy plants about 12 inches high, bearing curious blue flowers with bright yellow throat during late Summer and Fall. Fine for beds or for potting and porch boxes. Pkt. 10c.

"Heavenly Blue"
Morning Glory, See Page 30

Verbena, Mammoth Giant, Mixed

Vinca Rosea, Periwinkle

Ursinias

2036 ANETHOIDES. Native of Africa; novelty here. Daisy-like flowers 1½ inches across, of rich yellow, with purple center, above tufts of leaves on long, wiry stems. Remain open all day. Plants 1 foot high. **Culture D or E. Pkt. 10c.**

2037 PULCHRA. This charming new Ursinia is of semi-dwarf habit producing an abundance of rich orange daisy-like blooms. It is especially fine for dwarf borders or carpeting where much color is desired. The beautiful and very refined flowers are very fine for cut-flower use and combine well in bouquet or bowl arrangement. Pulchra prefers a sunny location. **Pkt. 15c.**

Venidium

2046 FASTUOSUM. Gorgeous Daisy from Africa, 3 feet high. Flowers 3 to 4 inches across. 90 days from seed. Orange with purple-black center. **Culture D or E. Pkt. 15c.**

Vine Seeds

Climbing Vines are useful in so many places that you can use many different kinds without clashes of color or habit of growth. You will find all described in the alphabetical listing on the Annual Flower Seed Pages of this catalog, but for your quick reference, we group them here for you.

Verbenas

Verbenas are wonderful for Bouquets. Very free flowering Annuals of low spreading growth, forming a carpet of bright colors when in bloom, from July to frost. **CULTURE D OR E.**

New Giant Verbenas

2077 CRIMSON GLOW. Best deep red Verbena, bears an abundance of rich flowers of solid color. No white eye. Plants are neat, semi-compact in habit and very desirable bedding type. **Pkt. 15c.**

2076 FLORADALE BEAUTY. An All America selection producing extremely large flowers of rose-pink to deep rose-red. **Pkt. 20c**

2070 EYEFUL. All America. Startling beautiful. Medium sized flowers of intense, dazzling scarlet with white eye. Useful for bedding or borders. Well named "Eyeful." **Pkt. 10c.**

2074 BEAUTY OF OXFORD HYBRIDS. Cross between Luminosa and Beauty of Oxford. Individual florets, large, in mammoth heads. From clear rose-pink to rose-red, with a touch of salmon-pink. **Pkt. 10c.**

2051 MAMMOTH GIANTS MIXED. An excellent mixture of Giant Verbenas, of all colors listed above and other distinctive colors. **Pkt. 5c; ½ oz. 25c.**

2071 HYBRIDA GRANDIFLORA MIXED. This Hybrida Grandiflora Mixture contains a riot of gay and lovely colors. It will make a brilliant bed and will provide cut-flowers for your house from July until frost. They are not quite as large as the Mammoth Flowered, but of good size and larger than the Common Hybrids. **Pkt. 5c; ½ oz. 25c.**

Dwarf Erect Verbenas

2065 ERECTA, ROYAL BOUQUET. A new strain of Verbenas of robust compact habit and free blooming. Plants rather upright, 15 to 18 inches tall. Flowers in mixed colors. Can be used for cutting as well as for bedding display. **Pkt. 10c; ¼ oz. 25c.**

Dwarf Compact Verbenas

2069 MIXED HYBRID COMPACTA ERECTA. This new class of Verbenas is entirely distinct from the older forms. The plants are bushy and compact. They are wonderful for borders or bedding. Height 6 to 8 inches. Mixture of very choice varieties. **Pkt. 10c; ¼ oz. 25c.**

Other Verbenas

2061 VENOSA. A splendid bedding type, plants quite erect, one foot high. It is a luxuriant grower and the plants are well covered with bright flowers of purple and heliotrope. Very effective used with Alyssum as a ground cover and background for the Verbenas. **Pkt. 10c; ½ oz. 20c.**

2062 CITRIODORA. Alyosla, Lemon Verbena. A favorite in old fashioned gardens. Has fragrant lemon scented foliage. A tender plant which may be grown in the outdoor summer garden and then potted for indoor garden in the winter. **Pkt. 10c; ¼ oz. 35c.**

Vinca Rosea

2081 PERIWINKLE. One of the finest border plants imaginable. 1½ feet tall, compact and bushy. Dark shiny foliage. White, pink and crimson eye. **Culture D or E. Pkt. 5c.**

Viscaria

2093 BLUE PEARL. An English Novelty. New, free-flowering, pure lavender-blue, lovely for mass planting. 12 inches high, blooms all summer with an abundance of the charming little flowers covering the plant and giving the effect of a blanket of lavender-blue, sow the seed broadcast for a fine flower bed. **Culture D or E. Pkt. 15c; ½ oz. 35c.**

Xeranthemum

2130 XERANTHEMUM. Charming everlasting flower, produce many bright flowers of silky texture. Rose, white and purple, double mixed. Plants 2 feet tall. **Culture D or E. Pkt. 10c.**

Have Every Feature You Want
in a Garden Glove

**All-Leather—DIRT PROOF—Durable

Economical, too—outwear 6 pairs of ordinary fabric gloves, are washable and can be used the year round for garden, housework, yard, painting, furnace, garage, etc. You'll like them.

Sizes for Women (small, medium, large) for Men (small, medium, large). Price, 75 cents a pair, post-paid (2 pair \$1.40.)

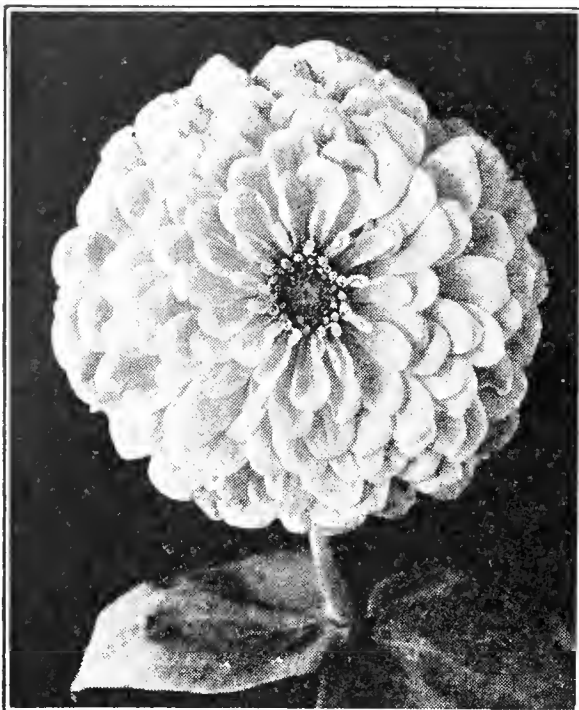

"DOGZOFF"

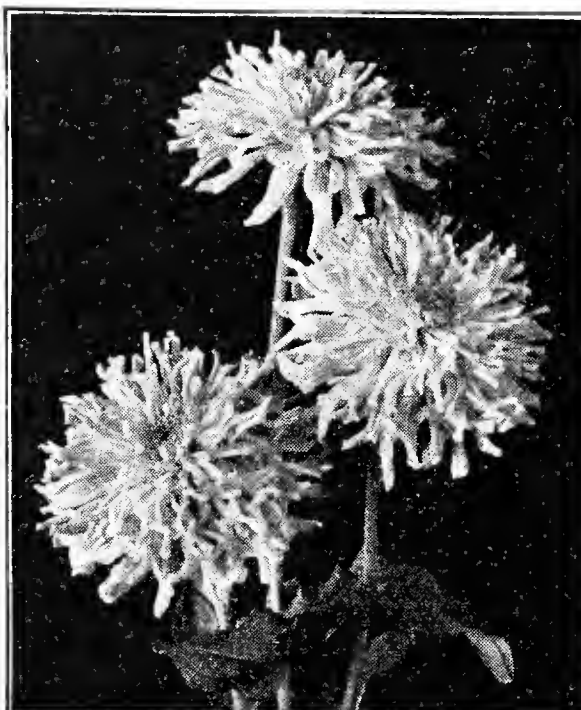

If you are bothered with dogs, cats or rabbits. "Dogzoff" is the spray you need. A most efficient animal repellent, non-poisonous to plants and animals and not offensive to humans.

"Dogzoff" is applied with any small insect sprayer and one application lasts three to four weeks. It will save its cost many times over around the garden and home.

Price for **Season's Dogzoff Supply 69c**

Zinnia Dahlia-Flowered Type

Zinnia, Fantasy Mixed

Plant of Zinnia Linearis

Zinnias

Zinnias will provide an abundance of Gorgeous Color from July until frost. Zinnias, the historical flowers of Old Mexico, have been favorites in every garden for as long as there have been home gardens. In our grandmother's day, Zinnias were gay and colorful but only the common type, small flowers and a few primary colors were to be had. Today, we have Zinnias of huge size, of medium size and the tiny little baby types. Through years of scientific work and intense study, our growers have developed Zinnias that are almost beyond belief in size and beauty of color. We have classified on this and page 33, the many types of Zinnias so that you may order the height and color particularly suited to the spot you wish to plant with these colorful flowers. CULTURE D OR E.

Giant Dahlia — Flowered Gold Medal Strain

The flowers of these Giant Dahlia Flowered Zinnias are immense in size, often 5 to 6 inches across and 3 inches in depth. The colors are marvelous pastel shades, the plants are robust and the flower stems straight and long. They are ideal for large, showy bouquets and for garden beauty. 2½ to 3 Feet Tall. See Flowers in Color on Front Cover.

- *2246 ENCHANTRESS. Rose. Pkt. 10c.
- *2241 CALIFORNIA GIANTS MIXED. All the above colors and other shades are included in this Giant Mixture. Pkt. 10c; ½ oz. 25c.

Collections of California Giants

*2256 12 Pkts. 1 Each of 12 Kinds Total Value \$1.20 90c.

*2257 5 Pkts. 1 Each of 5 Kinds Total Value 50c, for 35c.

Unusual Zinnias

*2221 GIANT DOUBLE ZINNIAS MIXED. This type though not quite as large flowering as the Dahlia Zinnias still are "Giants" borne on plants 2½ to 3 ft. tall. The flower is deeper than the Dahlia Flowered with petals more formally placed. They are great favorites for cutting or garden display. Mixed Colors. Pkt. 8c; ¼ oz. 20c; Oz. 50c.

*1717 DWARF CREEPING ZINNIAS. Sanvitalia Procumbens. A low growing, trailing plant about 6 inches tall and producing a wealth of small double yellow flowers all summer. Very compact. Perfect for Rock Gardens, edgings and stone wall crevices. Pkt. 10c; ½ oz. 25c.

*2286 RED RIDING HOOD ZINNIAS. 12 inches tall, of compact form and covered the entire season with little button-like double scarlet flowers, not over 1 inch across. Highly effective as a border plant. Brilliantly beautiful. Pkt. 10c.

*2295 TOM THUMB ZINNIAS. Only 4 to 6 inches tall. Cute little Zinnias that are suitable for Rock Garden, edging or for pot plant use. The plants are covered with perfect little double flowers of red, orange, yellow, pink, rose and other pastel shades. See cut page 33. Pkt. 10c; ½ oz. 30c.

Unusual Zinnias

*2300 LINEARIS. A Charming Little Zinnia from Australia. Unique and alluring with its pretty little single flowers of golden-orange, with a delicate lemon-yellow stripe through the center of each petal. It is extremely early blooming, commencing to flower when the plants are about 6 inches tall and keeping right on through the season until the late frosts of autumn. It always looks neat, as the newly opened flowers prevent the faded ones from becoming prominent. The plants reach a height of 8 to 10 inches and with plenty of room for development, may have a spread of 2 feet by the end of the season. The flowers are produced in great profusion, literally hundreds being open at a time. Linearis is valuable for border or edging use and is excellent for window boxes, or any place where a dwarf plant is desired. Will flower 6 weeks after seed is sown. Pkt. 15c; ½ oz. 35c.

*2297 STAR DUST FANTASY. Same shaggy-petaled, medium-sized flower as the mixture. The color is a rich, golden-yellow. See Color Page 32. Pkt. 10c.

*2294 FANTASY MIXED. The most fascinating new type of Zinnias introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The cuts show the type of flower. The ranges include the brightest shades of red, yellow and orange as well as the popular pastel pinks and cream. This should be the sensation of the year. Mixed Colors. Pkt. 10c; ½ oz. 25c.

*2291 SCABIOSA FLOWERED. A new and very distinct type of Zinnia growing about 30 inches tall and producing an abundance of flowers in many colors. The outer petals are long and flat. The inner petals are short tubular florets forming a crest or crown somewhat resembling the Scabiosa. Pkt. 10c.

*2299 GAILLARDIA FLOWERED. The charming flowers of this new type remind one of the Double Gaillardia with their delightful color combinations and markings. The flowers are medium sized about 2 inches in diameter and on good stems for cutting. Plants grow about 2 feet tall and produce an abundance of bloom in rose, pink, bronze, yellow, orange, lavender and many combinations. Pkt. 15c.

*2288 TEMPLIN-BRADLEY'S LITTLE JEWELS. These small flowered Zinnias have a charm all their own. They lend themselves to bedding where a brilliant array of colors is needed. The stems are long enough to make the most wonderful bouquets, whether you wish just a tiny vase of flowers or a huge bowl of them. The mixture contains many combinations of colors in red, mahogany, rose, yellow, salmon and gold. Height 18 inches. See Color Page 30. Mixed Colors. Pkt. 10c; ½ oz. 30c.

*2293 DESERT GOLD. For the lover of gold colored flowers, here is a real addition to your gold garden. This Desert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture. Pkt. 10c.

*2292 CROWN O'GOLD MIXTURE. A new development in which each petal is overlaid with a deep golden-yellow at the base while carrying out the individual flower color at the tip. Colors include old rose, cream, yellow, earmine-red and pink. Mixed Colors. Pkt. 10c.

*2298 EARLY WONDER GYPSY. The earliest of all Zinnias. Beautiful burnished-orange of Pumila type in 30 to 40 days from seeding. Plants 15 to 18 inches tall. Pkt. 10c.

*2289 EARLY WONDER MIXED. 12 to 15 inches tall. A new race of dwarf early flowering Zinnias, bearing many flowers on long stems. Shades of salmon, pink, cerise, orange, red and lavender. Pkt. 10c.

*2282 VICTORY QUILLED. Quilled like a Cactus Dahlia. Flowers large on tall plants. Mixed, Pkt. 10c.

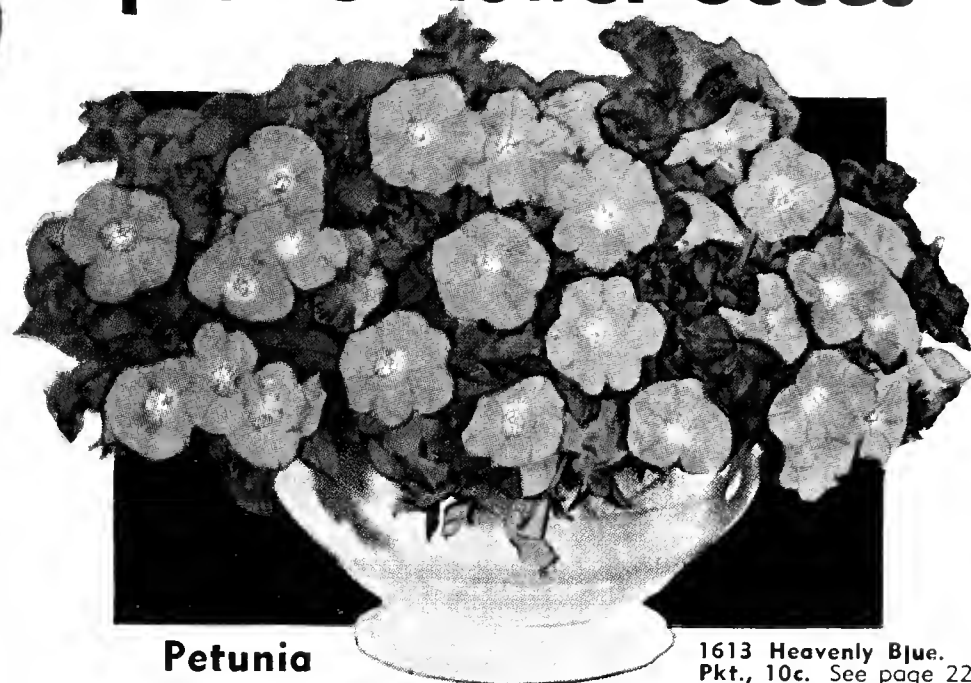

*2283 PICOTEE. The petals are tipped with a contrasting color giving the flowers a very pretty and unusual effect. Mixed, Pkt. 10c.

Actual Scene at Templin-Bradley's

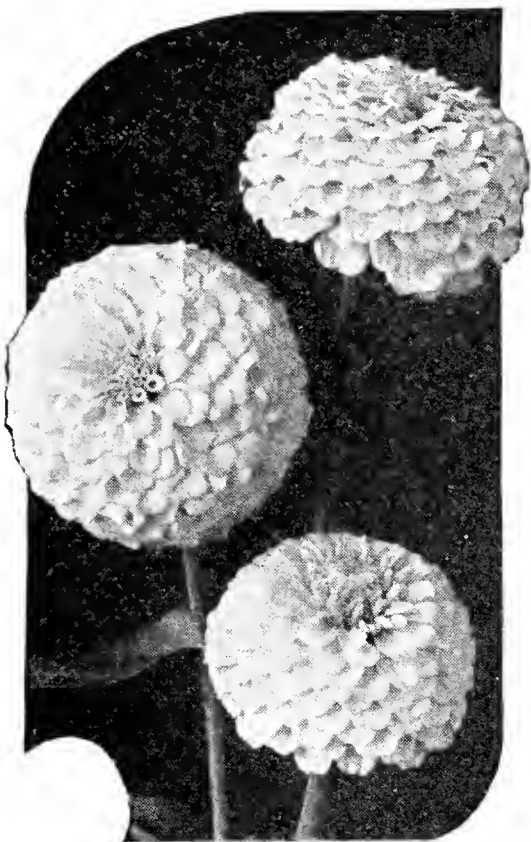

Each spring, in our front yard, at 5700 Detroit Ave., Cleveland, Ohio, we conduct an outstanding Tulip Show. Hundreds of varieties, many never before offered for sale, as well as those well known, are planted here for visitors to study and admire, as thousands do, many from great distances. In the fall, we issue a complete Tulip, Hyacinth, Daffodil and Crocus catalog. Would you like a copy? If so, mention it on your order this spring and it will be mailed about September first. Be sure to see this show if you are near.

More Zinnias

See Page 28 for other Zinnias.

Lilliput or Pompon "Baby Zinnias"

Lilliput Zinnias form pretty little dwarf, compact plants, literally covered with very double flowers 1 to 1½ inches across. They bloom all summer and provide an immense quantity of charming little flowers for miniature bouquets. The colors are lovely, too. 12 to 15 in.

- 2272 CANARY BIRD. Pkt. 5c.
 2277 CRIMSON GEM. Pkt. 5c.
 2278 FLESH PINK. Pkt. 5c.

Pumila Double Zinnias

2261 PUMILA MIXED COLORS. This is the best type for bedding, growing compact plants 1½ feet tall with a multitude of good sized, perfectly double flowers. Pkt. 5c; ¼ oz. 25c.

- 2266 CANARY YELLOW. 2267 PINKIE.
 2262 FIREBALL. 2265 SALMON ROSE.
 2263 GOLDEN BALL. 2264 SNOW BALL.
 Price, Any Above Color: Pkt. 5c.
 2270 PUMILA ZINNIA COLLECTION.
 7 Pkts. 1 each of 7 Kinds 40c.
 Total Value 56c, for 40c.

Pumila Picotee Delight

Really a most delightful Zinnia. This class is the result of crossing Double Pumila with Picotee. The petals of the flowers are fringed and fluted. Each petal of the light colored flowers is tipped with Maroon, while those of the darker flowers are tipped with a lighter color. Florists consider this the best Zinnia for cut-flowers. 2 to 2½ feet tall.

- 2290 SALMON ROSE. Very popular color for cut-flowers. Pkt. 10c.
 2296 GOLDEN RAY. Golden-orange, tipped red, ruffled, curled. Pkt. 10c.
 2287 PICOTEE DELIGHT MIXED. Salmon, cream, buff and lavender, edged with contrasting colors. Pkt. 10c.

Templin-Bradley's Fine Lawn Mixtures

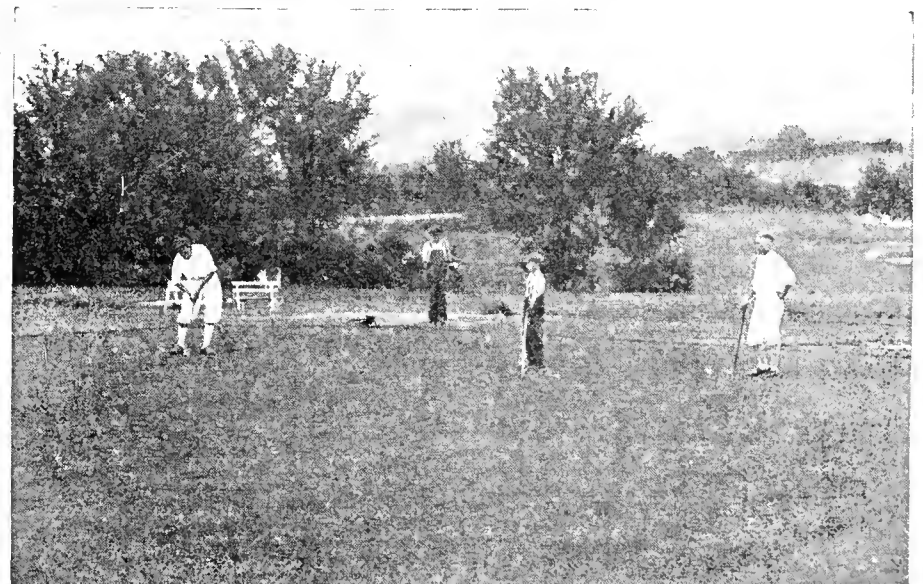

Your lawn is the foundation for all of your other plantings. The trees, shrubs and flowers that you have planted around your home cannot produce the perfect picture of beauty that you desire without the foreground of well-kept lawn. A good lawn is not difficult to produce.

Any one variety of grass alone will make a completely satisfactory lawn, as each variety has its peculiar advantage. Thus when several varieties are blended in the proper proportions, the advantages of all are combined in your lawn. We have spent years of experimental work in securing the proper varieties and proportions to use in each mixture for very best results. One pound of our lawn mixtures will sow 200 to 250 sq. ft. of new lawn. For filling in an old lawn use one-half that amount.

How to Plant a Lawn

Full directions for planting and the care of your lawn will be sent with every 5 lbs. or larger package of seed or will be sent free on request.

Make Your Lawn as Beautiful as This Golf Green

Our Best Regular Mixtures

For Sunny Places

4201 IDEAL MIXTURE. For a fine permanent lawn. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod; Kentucky Blue Grass, Red Top, Fescues, White Clover and Bent Grass, a combination that insures a fine velvety lawn that will withstand the heat of summer and the cold of winter. Lb. 55c; 3 lbs. \$1.55; 5 lbs. \$2.50; 10 lbs. \$4.75; 25 lbs. \$11.00; Postage Paid.

For Shady Places

4202 SHADY NOOK MIXTURE. A special mixture containing varieties that naturally grow in shaded places. Suitable for sowing under shade trees and in shady corners, where the ordinary mixture will not do. The shady lawn must have special care as well as the right kind of seed. Our Lawn Leaflet explains what is necessary. ½ lb. 35c; Lb. 60c; 3 lbs. \$1.75; 5 lbs. \$3.00; 10 lbs. \$5.25; 25 lbs. \$12.50; Postage Paid.

For Quick Growth

4203 QUICK GROWTH MIXTURE. Makes a good lawn quickly. While not composed of as fine or expensive grasses as Ideal, nevertheless Quick Growth contains enough of these grasses to insure a good lawn after the biennial varieties have run out. Contains white clover. Compares favorably with many of the "best" mixtures on the market. Lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.85; 10 lbs. \$3.50; 25 lbs. \$8.50; Postage Paid.

Bent Mixture

4204 SUPERFINE BENT or GOLF TURF MIXTURE. We highly recommend the use of this mixture as it is made up of the best strains of fine leaved grasses suitable for the "Putting Green" or Lawn. It contains a liberal proportion of Bent Grass as well as other varieties to secure a fine velvety sod throughout the season from early spring until late fall. Lb. 80c; 3 lbs. \$2.25; 5 lbs. \$3.75; 10 lbs. \$7.25; 25 lbs. \$18.00; Postage Paid.

Straight Grasses

In addition to the Special Templin-Bradley Blends of the finest Lawn Seed, we also offer you separate named varieties for special purposes.

4222 SUPERFINE KENTUCKY BLUE GRASS. Fine leaved, true perennial, deep green. Lb. 45c; 10 lbs. \$1.00.

4223 SUPERFINE RED TOP. Quick germination, long lasting, narrow leaves. Lb. 45c; 10 lbs. \$1.00.

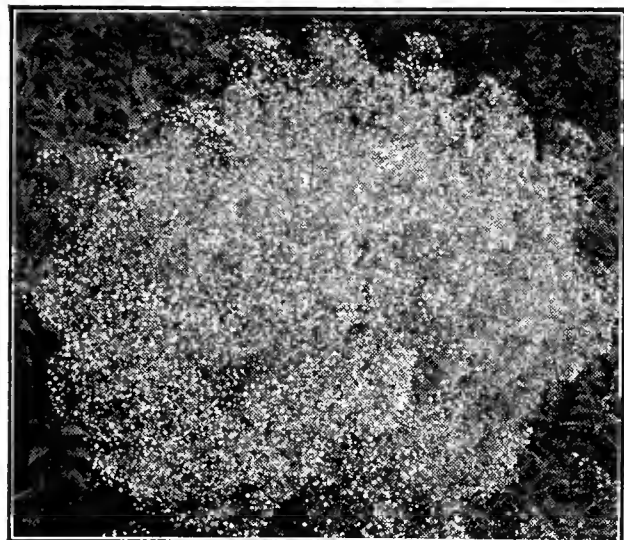

4227 POA TRIVIALIS. Quick growing shade grass, long lasting. Lb. 70c; 10 lbs. \$6.25.

4228 ASTORIA BENT. Best for seed-started Bent Lawn. Dwarf, compact, spreading. Lb. \$1.35; 10 lbs. \$12.50.

4235 PURE WHITE CLOVER. For those who like heavy showing of clover in lawns. ¼ lb. 25c; ½ lb. 40c; Lb. 70c; 5 lb. \$3.25.

All above prices include postage paid.

Perennial Novelties

Gypsophila Oldhamiana

Beautiful Dwarf Anchusa

2534 MYOSOTIDIFLORA. With those who delight in Rock Garden varieties of real merit, Anchusa Myosotidiflora will at once become a favorite. The beautiful rich green foliage completely covers the dwarf plants from which arise many airy sprays of the most delightful forget-me-not blue flowers during April and May and at intervals throughout the summer. Will grow from 9 to 12 inches tall. **Pkt. 20c.**

Novelty Aquilegia

2575 RED RIDING HOOD. This variety is extremely fine short spurred with double flowers of deep old rose and a pure white corolla. The plants bear an abundance of beautiful rich green foliage from which arise numerous tall strong branching stems bearing the delightful pink and white blooms. The plants will average two feet in height and produce their bloom quite early, continuing for a month to six weeks. **Pkt. 15c.**

Grand New Armeria

2595 GIANT PINK. The delightful attractiveness of the Armerias is very well known, but it is difficult to imagine fully the beauty and charm of this new large flowered variety. Its clumps of very attractive foliage are of themselves worthy a place in our gardens and when surmounted by large glistening pink balls of bloom in June and July, they become one of the most satisfactory rock garden and border subjects. Giant Pink certainly deserves a place in your garden. **Pkt. 20c.**

Fine New Carnation

2714 J. M. BRIDGEFORD. A very new development in the hardy perpetual Carnation family, this valuable variety brings new virtues to this popular flower. The habit of the plants is exceptionally sturdy, growing 15 to 16 inches high, each of its strong upright branches bearing a large well formed flower of unusual size. The grand blooms appear in a range of colors heretofore unattained in the Carnation family. Many new and interesting shades adding to its interest and value. Extremely hardy, it will give success under practically all conditions. **Pkt. 30c.**

Novel Euphorbia

2880 POLYCHROMA. A delightful garden subject for the dwarf border or rockery, sending up many crown shoots 10 to 15 inches tall. Each shoot bears an abundance of dark green oval leaves and is surmounted by a close bract of small flowers of a rich butter-yellow. As the flowers open, the surrounding crown of leaves turn to a similar color until the entire top of each branch becomes a glow of bright yellow. A very interesting and attractive variety. **Pkt. 20c.**

Unusual Gaillardia

2892 THE GOBLIN. A really dwarf Gaillardia of compact plant habit which produces an abundance of rich colored bloom on good stems above the attractive foliage. They are a bright red, edged yellow, which add much color in the garden and are fine for cutting. **Pkt. 20c.**

Dainty Gypsophila

2920 OLDHAMIANA. This fine new hardy Gypsophila is similar to the popular Paniculata variety but more erect growing and continuous blooming, bearing flowers until late into the autumn. The flowers have a very slight tinge of flesh-pink which adds to their charm. Oldhamiana is very hardy and is an excellent addition to your hardy garden both for garden effect and for a continuous supply of cutting material. **Pkt. 15c.**

Real garden merit is the test that a hardy perennial plant must pass to assure its acceptance into the gardens of critical gardeners and to assure its permanent acceptance as a member of their garden family. The following comparatively newer varieties have this degree of merit and will please you.

Myosotis, Star of Love

New Delphiniums

Of Great Size and Beauty. See Page 12.

2790 GIANT PACIFIC HYBRIDS. This wonderful new strain produces huge flowers often 2 to 2½ inches in diameter, beautifully spaced on tall well proportioned spikes growing 6 to 8 feet tall. The plants are strong vigorous growers with an abundance of rich green foliage that is comparatively mildew resistant. The tall spikes are on strong woody stems and bear a grace and charm that far surpasses all other sorts. The colors in these new hybrids range from pure white through all the lovely light blues and pastels and include the rich dark blue and violet tones, with both light and dark "bees." The Giant Pacific Hybrids are practically 100% double flowered. **Pkt. 35c.**

Lovely White Delphiniums

2790-F GIANT PACIFIC WHITE. This grand white is a careful color selection from the New Giant Pacific Hybrids and has all the vigor and virtues of the parent strain. The beautiful pure white petals in their graceful double arrangement with large "bees" sometimes pure white and often dark and contrasting, form a most attractive flower. Spikes tall and graceful. **Pkt. 50c.**

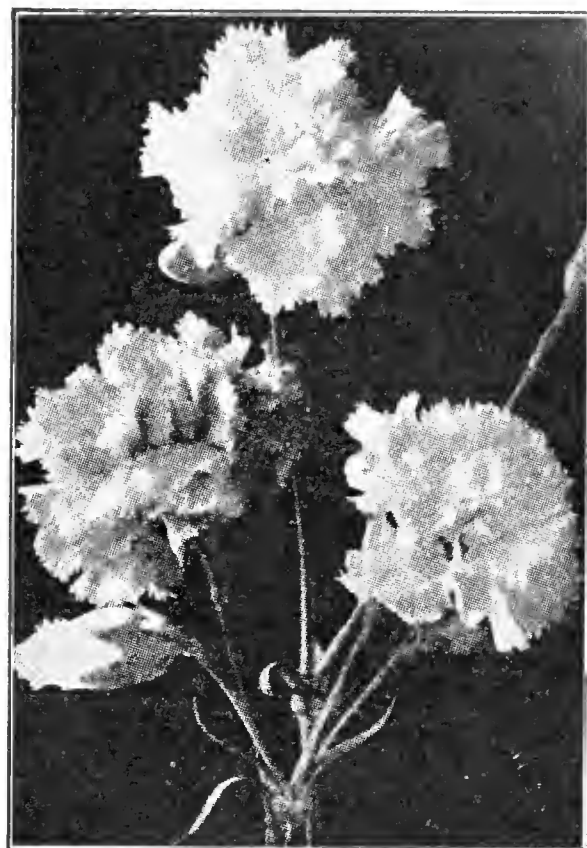

2789 HOODACRES WHITE. This giant new white Delphinium is a marvel of stately beauty with its fine straight spikes 5 to 6 feet tall, of beautiful nicely doubled blooms. Hoodacres resembles the Hollyhoek type in its habit of growth and in its flower and spike form; it is a good vigorous grower and produces excellent flower spikes. The flowers are double with large white "bees," closely arranged on long well formed spikes. **Pkt. 25c.**

Hardy Carnation, J. M. Bridgeford

The New and Beautiful Russell Lupines

See them in full Color on Page 2.

3075 RUSSELL LUPINES. These marvelous Lupines mark a long step forward in the development of this grand family. Years of patient work are back of this fine variety and you can now enjoy them in your own garden. Strong sturdy plants of vigorous growth bearing immense spikes of flowers in multitudes of rich color tones and combinations. The spikes, often 3 to 4 feet long are thickly studded with the brilliant Sweet Pea like blooms in their grand color display. We are offering the originator's own reselected strain in his sealed packets containing full directions for growing. We offer the following size packets: 12 Seeds 25c; 50 Seeds, 65c; 120 Seeds, \$1.25; 250 Seeds, \$2.50.

Most Beautiful Myosotis

3131 COMPACTA STAR OF LOVE. This lovely new strain of hardy Forget-me-not is the result of many years of careful selection. The plant type and habit of growth is a grand improvement in uniform dwarf compactness. Above the beautiful foliage appear multitudes of light graceful flower heads of unusual bright blue. **Pkt. 20c.**

New Dwarf Pentstemon

3193 MINIATURE HYBRIDS. The delightful Gloxinia-like flowers are borne in the most marvelous array of colors imaginable on branched spikes 2½ to 3 feet. The flowers are numerous and closely arranged on the spike, thus being very desirable for cutting. **Pkt. 20c.**

A Useful Pyrethrum

3267 PTARMICAEFLORUM. A most charming and useful plant with silvery white graceful feathery foliage so desirable in bouquets. The plants are neat in habit and will supply a great quantity of cutting material throughout the season. Grows 6 to 10 inches tall and is quite hardy. **Pkt. 25c.**

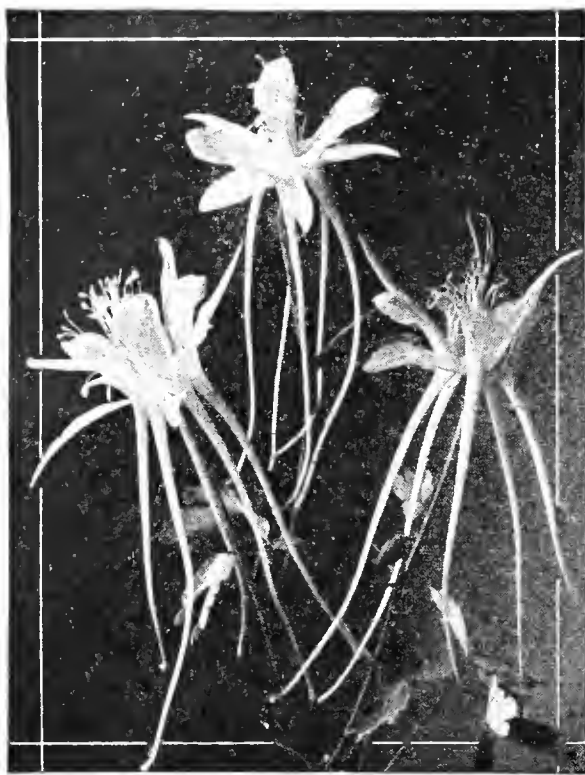

A Grand Little Viola

3452-A. CHANTREYLAND. Among the delightful Viola Cornutas, Chantreyland takes top place. Its beautiful, pure apricot color, fine flower form, abundance of bloom and neat plant habit, all help to make Chantreyland almost the perfect Viola, and it comes exceptionally true from seed. **Pkt. 15c.**

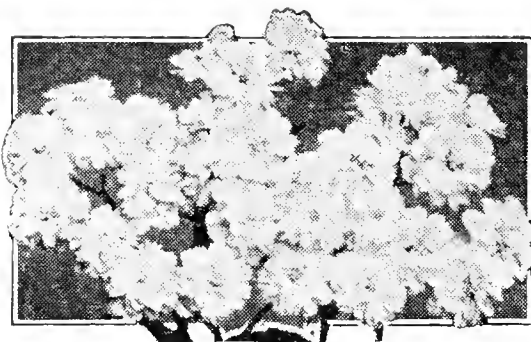

Grand Perennial Mixtures

3471 TALL SORTS. Most desirable varieties for border planting or for cut-flowers. Most all grow 2 to 3 feet tall. Very interesting to grow. **Pkt. 10c; ¼ oz. 35c; Oz. \$1.00.**

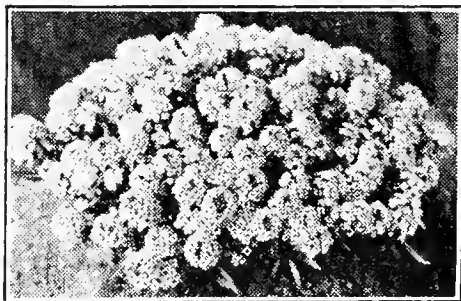

3472 FOR ROCK GARDENS. This mixture includes the varieties that are best for Rock Garden use. All semi-dwarf and low growing and will thrive well in the rockery. **Pkt. 20c; ¼ oz. 25c.**

Aquilegia Longissima

Achillea

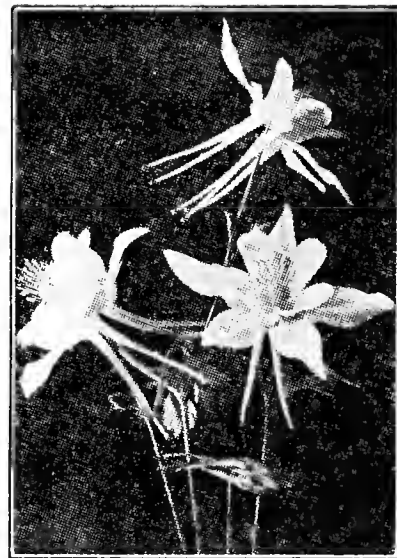

Alyssum Saxatile

Agrostemma

Aconitum Napellus

Dobbie's Aquilegias Hybrid

Perennial Chart

On Page 34

The Best Perennial Seeds

The term Hardy Perennial is used to distinguish that class of plants whose life cycle is not completed within one or two years, but grow year after year, increasing in beauty and size and are hardy enough to withstand the severe weather of the winters. Great Horticulturists and Plant Breeders in many parts of the world have spent their lives developing and improving many varieties of these lovely flowers. Not until trial grounds have proven that we are giving you something that will benefit your garden, do we offer you a new variety or strain. The Perennial Seeds we offer to you on the following pages will please you and will make your garden a thing of beauty for many years.

Growing Perennials From Seed See Culture "F" on page 59

The letters R. G. after the name means the variety is especially fine for Rock Gardens.

Achilleas, Milfoil

- 2505 THE PEARL, Ptarmica Double.** If sown early, Achilleas will bloom the first season. Fully double pure white flowers like little snowballs, all season from spring until fall. Fine for cutting. 2 feet. **Pkt. 10c.**
- 2506 YELLOW, R. G.** Yellow, sweet scented 1½ to 2 feet. **Pkt. 10c.**
- 2507 MILLEFOLIUM ROSEA.** Rosy-red flowers in dense heads and finely cut, deep green foliage. Blooms in June and later. **Pkt. 15c.**
- 2508 TOMENTOSA YELLOW, R. G.** Dwarf, 6 to 8 inches tall, fern-like foliage. Bloom July to September. **Pkt. 15c.**

Aconitum, Monkshood

- Tall spikes of hooded flowers for cutting and garden display. Likes rich, moist soil in partial shade. Slow to germinate.
- 2510 NAPELLUS DARK BLUE.** Flowers July and August. 4 to 5 feet. **Pkt. 10c.**
- 2512 WILSONI.** Violet-blue flowers in September. 5 to 6 feet. **Pkt. 15c.**

Adonis Vernalis

- 2516 ADONIS VERNALIS.** Bright yellow flowers like large Buttercups in April and May. 15 to 18 inches tall, fern-like foliage. After blooming the plants die down to the ground. **Pkt. 15c.**

Agrostemma, Mullein Pink

- 2521 CORONARIA, ROSE OF HEAVEN, Atro-sanguinea, R. G.** Brilliant blood-red flowers like small single pinks, June to August. Sown early will bloom first year. Fine cut-flower, very showy in borders. 2 ft. **Pkt. 10c.**

Allegheny Vine

- 2362 MOUNTAIN FRINGE, Adlumia.** Graceful climber, foliage like Maiden Hair Fern. Reseeds itself. Likes shaded sheltered situation and moist soil. The flowers numerous like Bleeding Hearts, white and purple. 15 feet high. **Pkt. 10c.**

Ampelopsis Veitchii

- 2364 BOSTON IVY.** The best vine to grow on stone or brick walls. Leaves are rich green and form a dense mat. After frost, leaves change to scarlet, orange and yellow. **Pkt. 10c.**

Asphodeline

- 2600 LUTEA, Jacob's Rod.** Stately plants 3 to 4 feet tall. Beautiful foliage, golden-yellow fragrant flowers in June and July. **Pkt. 15c.**

Alyssums, Hardy

- 2528 SAXATILE COMPACTUM, Basket of Gold, R. G.** Masses of golden-yellow flowers in May. Plant and flowers similar to Annual Alyssum. 9 to 12 inches tall. **Pkt. 5c; ¼ oz. 30c.**
- 2529 ARGENTEUM, R. G.** Yellow flowers, silvery foliage. Dense growth, blooms June to August. 12 to 15 inches. **Pkt. 10c.**
- 2530 SERPYLLIFOLIUM, R. G.** A few inches high, silvery-gray foliage, bright yellow flowers. Early blooming. **Pkt. 15c.**
- 2531 ROCK GARDEN SPECIES MIXED, R. G.** The rarer dwarf varieties such as Montanum, Rostratum, Corymbosum etc. Bloom April to August. **Pkt. 15c.**

Anchusa, Bugloss

- 2533 ITALICA GRANDIFLORA.** Bugloss Drop-more. Lovely deep blue trumpet-shaped flowers, borne freely from May to July. Likes partial shade. 3 to 4 feet. **Pkt. 10c.**
- 2534 MYOSOTIDIFLORA, R. G.** See Novelty Page 35.

Anemone, Windflower

- 2511 CORONARIA, ST. BRIGID, R. G.** Among the prettiest of Perennials, and this strain with large, double and semi-double flowers of wide color range is best of all. 1 to 1½ inches across. Flowers in May and June. 1 ft. **Pkt. 15c.**

Anthemis, Golden Marguerite

- 2518 KELWAYI.** Bright golden-yellow, daisy-like flowers on long stems with finely cut foliage. Blooms June to September. 2 ft. **Pkt. 10c.**
- 2519 MONTANA.** White flowers, very fine blooming, nice for massing in the border. Blooms all summer, one foot high. **Pkt. 10c.**

Arabis, Rock Cress

- 2581 ALPINA, R. G.** Blooms in April and May, pure white, fragrant flowers over low carpet-like plants. Fine for edging or bare spaces. 6 inches tall. **Pkt. 15c.**
- 2582 ROSEA, R. G.** A lovely variety of Arabis only an inch or two taller than Alpina. Vivid rose. **Pkt. 20c.**

Arenaria, Sandwort

- 2586 MONTANA.** A very desirable trailing sort of nearly Evergreen foliage, forming a dense carpet of green foliage covered with large white flowers in spring. A fine subject for the Rock Garden. **Pkt. 15c.**

Aquilegias Columbines

- 2556 TEMPLIN-BRADLEY'S LONG SPURRED HYBRIDS.** A selection of the finest long spurred Columbines including the famous strain known as Mrs. Elliott, which has received many awards wherever exhibited. Many rare and pleasing colors. **Pkt. 15c; ⅓ oz. 25c; ⅛ oz. 45c.**

Separate Colors

- 2557 BLUE SHADES.** Very beautiful.
- 2558 ORANGE and SCARLET.** Brilliant.
- 2559 PINK SHADES.** Very delicate.
- 2560 ROSE QUEEN.** Rich darker pink.
- 2561 SNOW QUEEN.** Very fine pure white. Price any Above, **Pkt. 20c.**
- 2565 DOBBIE'S IMPERIAL HYBRIDS.** An English strain sure to charm you with the excellence of the color assortment and the long spurs. **Pkt. 15c; ⅓ oz. 45c.**
- 2564 CRIMSON STAR.** Long spurred, having deep blood-crimson sepals and spurs and white petals, a very delightful and attractive color effect. Plants are erect and vigorous, 2½ feet tall and very free flowering. **Pkt. 20c.**
- 2555 COERULEA.** The Rocky Mountain Columbine. Long blue spurred. **Pkt. 10c.**
- 2566 CHRYSANTHA YELLOW.** Large canary-yellow flowers with long spurs. Blooms from May to August. 3 to 4 feet. **Pkt. 15c.**
- 2567 RED SPURRED (Jaetschui).** Large flowered, yellow with Peach-red, long spurs. **Pkt. 10c; ⅓ oz. 40c.**
- 2562 COPPER QUEEN.** This delightful new addition to the long spurred family is of deep coppered with a straw-yellow corolla. **Pkt. 15c.**
- 2572 LONGISSIMA.** Beautiful American Species received Award of Merit. Its most unusual feature is the very long spurs, often measuring 4 inches in length. Delicate yellow. **Pkt. 20c.**
- 2575 RED RIDING HOOD.** See Novelty Page 35.
- 2571 FINE MIXED.** A lovely mixture of all colors, single and double short spurred varieties. **Pkt. 5c; ¼ oz. 25c.**

Aquilegias for Rock Gardens

- 2569 ALPINA BLUE, R. G.** 12 to 18 inches tall, compact and branching, clear blue. **Pkt. 15c.**
- 2570 COMPACTA ERECTA EDELWEISS, R. G.** Snow-white, blooms in profusion. **Pkt. 15c.**
- 2573 FLABELLATA NANA.** Dwarf White. R. G. A very early flowering variety, growing one foot high. Pure white flowers. **Pkt. 25c.**

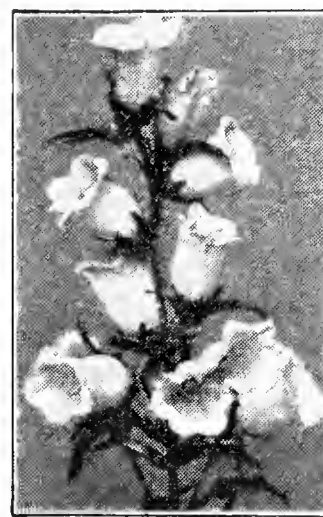

Hardy Aster

Bellis, Monstrosa

Campanula Rotundifolia Olympica

Campanula Medium

Bocconia, Plume Poppy

Armeria, Sea Thrift

- 2591 FORMOSA.** Dwarf, rose-pink flowers, June to July. 24 inches tall. **Pkt. 10c.**
- 2592 MARITIMA SPLENDENS. R.G.** 6 inches high, bright rose flowers, May and June. **Pkt. 15c.**
- 2593 LAUCHEANA. R.G.** 6 inches high. Rosy-crimson flowers, July and August. **Pkt. 15c.**
- 2594 MAURITANICA.** Pink flowers, 2 to 3 inches across, 18 to 24 inches tall. Bloom in June, July and later. **Pkt. 15c.**
- 2595 GIANT PINK. R.G.** New large flowered, attractive foliage, surmounted by large glistening pink balls of bloom in June and July. **Pkt. 20c.**

Asclepias

- 2596 TUBEROSA.** Bright orange flowers, followed by long curious pods containing white feathery seeds. The opened seed pods may be dried for winter decorations. Easy to grow. Start where plants are to stand. 2 to 2½ feet. **Pkt. 15c.**

Asperula

- 2601 SWEET WOODRUFF, Odorata.** Herb, for carpeting shady places, 6 to 8 inches high. May to July, bears sweet-scented snowy-white flowers. **Pkt. 10c.**

Asters, Hardy

- 2602 WARTBURG STAR, Subsoeruleus.** Laven-der-blue with yellow centers. 2 feet high, flowers 3 inches across. Blooms May and June. **Pkt. 15c.**
- 2605 SUBCOERULEUS BLUE. R.G.** Daisy-like azure-blue flowers, golden centers, 2½ to 3 inches across. Blooms June to July, 15 inches. **Pkt. 10c.**
- 2603 LARGE FLOWERED MIXED, Michaelmas Daisy.** Graceful masses of bright flowers. Excellent for cutting. **Pkt. 15c.**
- 2604 ALPINUS MIXED. R.G.** 12 to 15 inches high, flowers rose, lavender and blue. Contains many May and June flowering varieties. **Pkt. 15c.**

Aubretia, Deltoides

- 2607 LILAC BLUE, R.G.** Dwarf, compact plants. Bloom April and May. 6 inches. **Pkt. 15c.**
- 2606 LARGE FLOWERED HYBRIDS. R.G.** 6 inches tall, many colors. **Pkt. 15c.**

Baptisia

- 2613 AUSTRALIS or Wild Indigo.** June and July. Plants 2 to 3 feet, racemes of pea-shaped, indigo-blue flowers. **Pkt. 10c.**

Bellis

- 2617 MONSTROSA DOUBLE MIXED.** Double English Daisy. Large flowered strain. Double, ball-shaped flowers of white, pink, rose and red. April to early June. Most popular for low edgings in cool shady spots. **Pkt. 10c; ½ oz. 40c.**

Bocconia

- 2626 CORDATA JAPONICA, Plume Poppy.** 5 to 8 feet tall, attractive, large plumes of small pinkish-white flowers in July. Fine background. **Pkt. 15c.**

Boltonia

- 2632 LATISQUAMA, False Camomile.** 6 to 8 feet tall, showy, excellent background. Quantities of lavender-pink daisy-like flowers, August and September. **Pkt. 15c.**

Calamintha

- 2634 ALPINA. R.G.** Small blue flowers in June. 6 inches tall. **Pkt. 15c.**

Campanulas

There are few groups of plants which possess such beauty as do the Campanulas. Some are Perennials, others Biennials. They like sunny situations and the seed may be sown any time from spring until August. Sow seed of the Biennials each season. To prolong blooming season, cut off flowers as they fade. Give protection over winter.

Campanula, Canterbury Bells

- Campanula Medium.** Showy plants, 2 to 3 feet high, large bell-shaped flowers.
- 2637 DARK BLUE.** Pkt. 5c.
- 2639 PINK.** Pkt. 5c.
- 2636 MEDIUM SINGLE MIXED.** Pkt. 5c.
- 2644 MEDIUM DOUBLE MIXED.** Pkt. 10c; ¼ oz. 30c.

Campanula, Cup and Saucer

- Campanula Calycanthema.** Flowers tubular bell-shaped with saucer-like petal fringed at base, giving appearance of cup and saucer. Bloom June and early July, 2½ feet tall. Biennials, blooming the second year from seed sown in June.
- 2652 DARK BLUE.** Pkt. 10c.
- 2654 PINK.** Pkt. 10c.
- 2651 CAMPANULA CALYCANTHEMA MIXED.** Pkt. 10c; ½ oz. 25c.

Campanula, Carpatica, Harebells

- 2681 CAMPANULA CARPATICA MIXED.** 10 inches high. Flowers cup-shaped, 1½ inches across, June to October. **Pkt. 10c.**
- 2682 BLUE.** Pkt. 15c.
- 2683 WHITE.** Pkt. 15c.
- 2666 CAMPANULA PERSICIFOLIA MIXED or Peach Bells.** Large bell-shaped flowers of blue or white. 2 feet. June and July. **Pkt. 15c.**
- 2660 TEMPLIN-BRADLEY'S PRIZE MIXTURE.** Splendid mixture of Medium and Cup and Saucer, single and doubles, all available shades. **Pkt. 15c.**

Campanulas for Rock Gardens

- 2693 TURBINATA BLUE. R.G.** Bushy, 15 inches, cup-shaped. June to August. **Pkt. 15c.**
- 2694 PUSILLA BLUE. R.G.** 4 inches. Bell-shaped flowers. June to July. **Pkt. 25c.**
- 2696 ROTUNDIFOLIA BLUE. Blue Bells of Scotland. R.G.** 1 ft. tall. Flowers pendant. June to August. **Pkt. 15c.**
- 2697 ROTUNDIFOLIA OLYMPICA. R.G.** An Alpine. 10 inches. Fairly covered all summer with pretty like blue bells. **Pkt. 25c.**
- 2688 GLOMERATA SUPERBA. R.G.** Pkt. 15c.

Candytuft, Iberis, Hardy

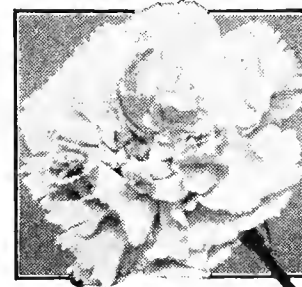

- 2701 SEMPERVIRENS. R.G.** In April and May the low compact plants are covered with white flowers, resembling the Annual Candytuft. Excellent for Rock Garden, naturalizing, or as a border to taller plants in sun or shade and on practically all soils, foliage Evergreen. 8 inches tall. **Pkt. 10c; ½ oz. 35c.**

Cerastium

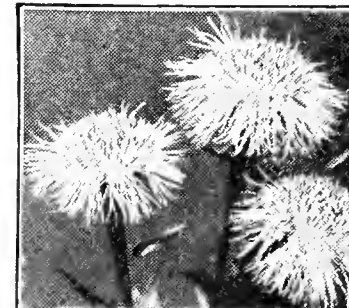

- 2731 TOMENTOSUM, Snow in Summer.** Foliage silvery, creeping, loaded with small single white flowers in May and June. 4 to 6 inches tall. **Pkt. 10c.**

Chelone

- 2736 BARBATUS TORREYI, Turtlehead Shell-flower.** Slender, tube-like, scarlet. July to August. 2 feet. **Pkt. 10c.**
- 2737 HYBRIDA PRAECOX, Turtlehead Shell-flower.** Early large flowers in profusion. Pink, rose and red. **Pkt. 15c.**

Carnation, Chabauds

Hardy Centaurea Montana

Carnations, Hardy

- 2708 CHABAUDS.** Large double and semi-double flowers on stems 16 to 20 inches and in a great variety of colors. For outdoors in north, treat as Annual. Greenhouse strain. **Pkt. 10c.**
- 2709 EARLIEST DWARF VIENNA.** 12 to 15 inches. Pink, yellow, red and purple. Flowers large, and many double. **Pkt. 10c.**
- 2714 J. M. BRIDGEFORD.** See Novelty Page 35.

Carnations, Grenadin

- Valuable class, blooming first year from seed sown early. Large double flowers, good stems, rich colors. 18 to 20 inches.
- 2711 WHITE GOLD.** Pkt. 15c.
- 2703 ROSE-PINK SHADES.** Pkt. 15c.
- 2704 YELLOW.** Pkt. 15c.
- 2705 SCARLET.** Pkt. 15c.
- 2710 GRENADIN, MIXED COLORS.** Pkt. 15c.

Centaureas, Hardy

- 2715 MONTANA BLUE.** Large flat flowers 2 inches across, called Perennial Cornflower or Blue Bottle. June to September. 2 ft. **Pkt. 10c.**
- 2719 MACROCEPHALA.** Large, globular, bright yellow flowers, 2 inches across. Showiest Centaurea. Blooms July to August. 4 ft. **Pkt. 15c.**
- 2720 DEALBATA, Persian Centaurea.** Rose-pink. July to September. Silvery foliage. 1½ to 2 ft. **Pkt. 15c.**

CHEIRANTHUS. See Wallflower, page 42.

Chinese Lantern

- 3204 PHYSALIS FRANCHETI.** Pods bright orange-red, resemble Chinese Lanterns. Make colorful winter bouquets. **Pkt. 10c.**

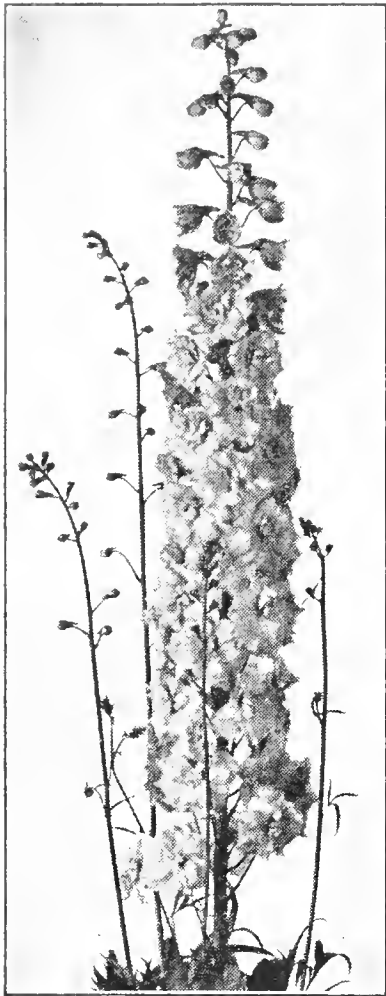

Chrysanthemums, Cascade

- 2747 JAPANESE MOUNTAIN, Single and Double Mixed.** White, yellow, bronze, pink, rose, red and crimson. Single and double, 2 inches across, drooping stems. For hanging baskets or garden. Not absolutely hardy. **Pkt. 15c.**
- CHRYSANTHEMUMS, HARDY.** See Shasta Daisy. Page 12.

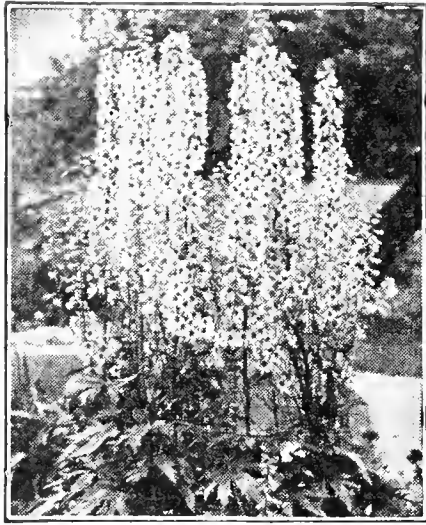

Coreopsis

- 2756 MAYFIELD GIANT.** New strain 3 to 3½ feet tall, masses of extra large golden-yellow flowers on long firm stems. Superior to original semi-double. **Pkt. 15c.**
- 2754 GRANDIFLORA SINGLE.** Large single yellow flowers, fine for cutting. **Pkt. 10c.**
- 2755 GRANDIFLORA DOUBLE.** Improved. Each flower has double row of petals. **Pkt. 15c.**
- 2757 DOUBLE SUNBURST.** If you want something real brilliant in your garden and home, plant some of these. 2 inches across, deep golden-yellow, about 80% double. **Pkt. 15c.**

The letters "R. G." after a name mean that it is especially good for Rock Gardens.

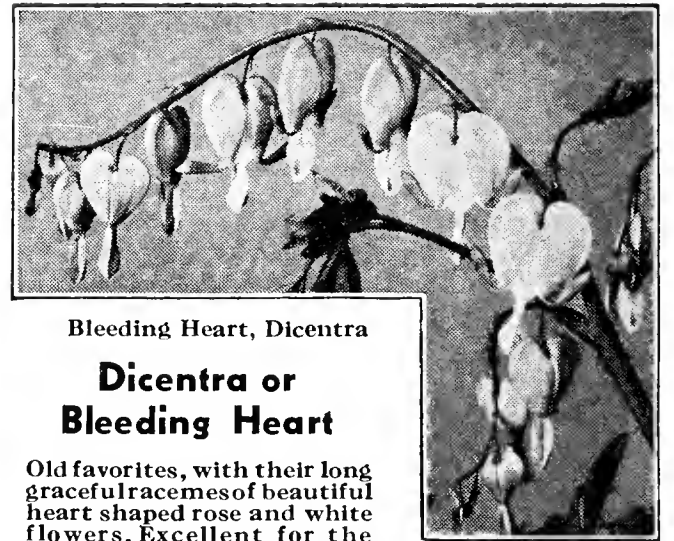

New Delphinium
Hoodacres White

English Hybrids Delphinium

Double Coreopsis
See Page 37

Bleeding Heart, Dicentra

Dicentra or Bleeding Heart

Old favorites, with their long graceful racemes of beautiful heart shaped rose and white flowers. Excellent for the Perennial border and do well in the shade.

2812 SPECTABILIS, Dielytra. At best in May and June. Hardy and easy to grow. 2½ to 3 feet tall. Pkt. 20c.

2813 EXIMIA, Plumy Bleeding Heart. Flowers rosy-pink. Bloom June to September. Lovely foliage, much dwarfer than Spectabilis, only 10 to 15 inches tall. Pkt. 20c.

More Delphiniums

2780 REGAL HYBRIDS. A new and outstanding strain of Hybrids which we believe is the equal of many of the very high priced strains. Large double flowers of the richest color tones and of the finest flower forms yet achieved in the Delphiniums. Plants are vigorous and hardy growing to 6 feet in height. We inspected the field of blooming plants from which this seed was harvested and assure you it was one of the finest displays of Delphiniums we ever saw. If you buy this seed you will certainly have a strain of the finest parentage. Pkt. 15c; ¼ oz. 45c.

2789 HOODACRES WHITE. This giant new white Delphinium is a marvel of stately beauty with its tall straight spikes, five to six feet tall, of beautiful nicely double blooms. Hoodacres resembles the Hollyhock type in a good vigorous grower and produces an abundance of excellent flower spikes. The flowers are beautifully double with large white bees and are closely arranged on long well formed spikes. Hoodacres will fill well, the long felt desire for a good white Delphinium of satisfactory type. Pkt. 25c; ¼ oz. 75c.

2790-F PACIFIC HYBRID WHITE, See Page 35.

2790 PACIFIC HYBRIDS MIXED. See Page 35.

2779 WHITE ICEBERG. A new Perennial Delphinium. Lovely white bloom on spikes 18 to 20 inches long, 3 to 4 feet tall. Plants are strong, healthy and will produce by their second year. Pkt. 25c; ¼ oz. \$1.00.

2787 YELLOW ZALIL. Yellow Delphiniums are rare and Zalil is worth trying. 3 feet tall, flower formation similar to blue kinds. Germinates slowly. Pkt. 15c; ¼ oz. 60c.

2788 SCARLET CARDINALE. Bright scarlet flowers, but dwarfier plants than the other strains, about 2 to 2½ feet tall. Germinates slowly. Pkt. 15c; ¼ oz. 40c.

Chinese Butterfly Varieties

Perfectly hardy and seed sown early will bloom first year. Flowers on loose sprays. Fine for garden display or cutting.

2782 DWARF BLUE BUTTERFLY. Pkt. 10c.

2783 CAMBRIDGE BLUE. Pkt. 10c.

Dictamnus, Gas Plant

2810 FRAXINELIA. Bushy, showy spikes, for cutting. Foliage fragrant. Slow to germinate, once established is practically permanent. Pink and white flowers, June and July. In still, hot weather, leaves give off lemons scented gas, which will ignite in a puff of flame from a match. 3 feet. Pkt. 10c.

Digitalis or Foxglove

Foxgloves are Biennials, so after blooming, cut down and sow more seed each season. Wherever planted Foxgloves give the appearance of dignified beauty. Bloom June and July.

2815 THE SHIRLEY. Finest strain ever introduced, long, large flower spikes, flower heads 3 feet long, covered with big bell-shaped flowers. White and shell-pink to deepest rose, many dotted with crimson or chocolate. 5 to 6 feet. Pkt. 10c; ¼ oz. 25c.

2816 GOOD MIXED. White, pink, rose and mottled colors. Pkt. 10c.

2817 SALMON HYBRIDS. (Lutzii). Attractive, 4 feet tall. Pkt. 15c.

Delphiniums

Their popularity is growing each year because of the stately magnificence of the flower spikes, and beautiful shades of coloring. Belladonna, Bellamosa and Hybrids, grow 3 to 6 feet tall, bloom in June and July, and if cut back and fertilized after bloom, will give more flowers in late summer or early fall. CULTURE F.

2775 TEMPLIN-BRADLEY'S ENGLISH HYBRIDS. (Blackmore and Langdon's Prize Strain.) This strain is the product of many years of patient hybridizing and selection by one of the outstanding horticulturists of England. The best strain seen in Europe's wonderful Delphinium plantings on a personal trip by Mr. Bradley. The recipient of many Gold Medals and Awards. The coloring, all the clear shades of blue with many opaline variations, and the size and refinement of the flowers, are unexcelled. Grow 3 to 6 feet tall. Pkt. 25c; ¼ oz. 40c.

Hollyhock or Wrexham Types

2774 HOLLYHOCK or WREXHAM DELPHINIUM. A distinct new type of Delphinium with massive yet refined spire-like spikes that taper to the tip. The individual florets are very large and closely arranged on the stems. The flowers are in the most beautiful shades of blue, lavender and purple, singles, semi-doubles and doubles. Pkt. 20c; ¼ oz. 40c; ½ oz. 75c.

In Separate Shades

We offer this splendid strain this year in separate shades for the discriminating grower.

2776 ART SHADES. 2777 BLUE SHADES.

2778 DARK BLUE SHADES.

Price, any of Above Shades. Pkt. 25c.

Gold Medal Hybrids

2773 GOLD MEDAL HYBRIDS. A good strain at a low price. These hybrids embrace a nice collection of Hybrid Delphiniums. The shades range from pale lavender to deep indigo-blue, a glorious mixture. Pkt. 10c; ¼ oz. 30c.

2770 BELLADONNA. Most continuous blooming of all, early June until frost. Clear turquoise-blue flowers, delicate, beautiful and most popular. Pkt. 10c; ¼ oz. 35c.

2771 BELLADONNA IMPROVED. Carefully selected strain of Belladonna type, excellent uniformity of type and color. Pkt. 15c; ¼ oz. 35c.

2772 BELLAMOSA. Similar to Belladonna but much deeper and richer blue. Pkt. 10c; ¼ oz. 35c.

Corydalis

2761 CHEILANTHIFOLIA, Chinese Bleeding Heart. Yellow flowers in terminal racemes, fern like foliage. 10 inches high. Does well in shade. April to June. Pkt. 20c.

Crucianella

2764 STYLOSA, Crosswort. R. G. Trailing masses of bright green foliage. Rosy-red heads above foliage, June to September. Pkt. 15c.

Dianthus

Spice or Clove Pinks

Every garden should contain at least a few clumps of these old fashioned fragrant Pinks. Excellent for border, blooming in June. 15 to 18 inches tall.

2796 SEMPERFLORENS. (Florist's Perpetual Pinks.) R. G. Everblooming, many colors, double, semi-double and single. 15 inches. Pkt. 10c.

2801 HIGHLAND QUEEN. R. G. Abundance of lustrous scarlet blooms. June to November. For bedding, borders and Rock Gardens. Pkt. 20c.

2802 SCOTICUS, DOUBLE SCOTCH MIXED. Large, double fringed flowers, spring and early summer. Fragrant. Pkt. 20c.

2798 DOUBLE MIXED COLORS. Fine mixture of all shades. Pkt. 10c; ¼ oz. 25c.

2791 ALLWOODI MIXED. Large, fully double, like Carnations. Blooms June to fall. Splendid colors. 15 inches. Pkt. 25c.

Dianthus

Hardy Rock Garden Pinks

Especially for use in the Rock Garden and they seem to give their best results in such a situation.

2792 ALLWOODI ALPINUS. R. G. Hybrid, diminutive plants. Fine colors, 9 inches. Pkt. 25c.

2793 CAESIUS, CHEDDAR PINKS. R. G. Dwarf, compact, dense green foliage. Rosy-pink, May. 6 inches. Pkt. 10c.

2794 DELTOIDES BRILLIANT. R. G. Compact, crimson, May and June. 4 inches. Pkt. 10c.

2800 NEGLECTUS or Glacier Pinks. R. G. Cherry-red, May and June. 6 inches. Pkt. 25c.

2805 GRANITICUS. R. G. Deep red, May and June. Pkt. 10c.

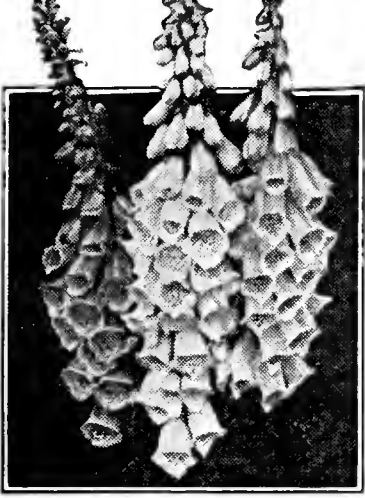

2799 ROCK GARDEN PINKS MIXED. R. G. Best adapted for Rock Garden and border. Pkt. 10c.

Dodecatheon

2826 CLEVELANDI, Shooting Star. R. G. Small Cyclamen-like, drooping lilac flowers. Likes shady, cool moist soil. 1 ft. Pkt. 15c.

Dianthus, Semperflorens, Hardy Pinks

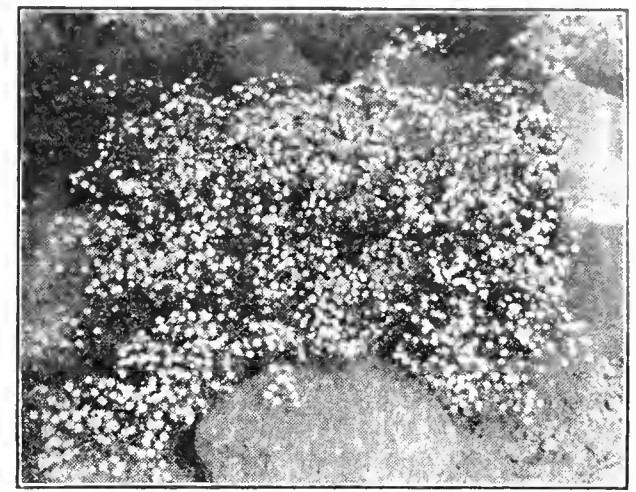

Digitalis, Shirley
See Page 38

Doronicum

Gaillardia Grandiflora Goblin

Gypsophila Repens Rosea for Rock Gardens

Doronicum

Very early blooming, large yellow daisy-like flowers on long wiry stems. Begins to bloom with the earliest bloomers in the spring and continue until mid-autumn.

2831 CAUCASICUM, Leopardbane. A semi-dwarf variety growing 1½ to 2 feet tall and producing its large yellow flowers in profusion. Pkt. 25c.

Echinops

2846 RITRO, Globe Thistle. Bristly metallic-blue flowers, July and August. Popular for winter bouquets. 2 to 3 feet. Pkt. 10c.

Edelweiss

2854 LEONTOPODIUM, Alpinum Alpine Snow-flower. R.G. Famous Edelweiss of Swiss Alps. Silvery-gray leaves, almost flat on the ground. Stalks spring from center, bear 3 to 4 starlike flowers. 4 inches. Pkt. 20c.

Erigeron

2856 SPECIOSUS GRANDIFLORUS, Fleabane. Bright purple Aster-like flowers, all summer. Fine for cut-flowers and border. Pkt. 15c.

Erinus

2859 ALPINUS, Liver-Balsam. R.G. Little plants, rosy-purple flowers, May and June, 4 to 6 inches. Pkt. 15c.

Euphorbias

2879 COROLLATA, Flowering Spurge. 2 feet tall. Pretty white flowers, June to August. Lovely cut-flowers. Pkt. 15c.

2880 POLYCHROMA. R.G. 10 to 15 inches. As small butter-yellow flowers open, leaves turn similar color. Pkt. 20c.

Gaillardias, Hardy

Easily grown, very showy, fine for cut-flowers and almost perpetual bloomers, July to November. If sown early, will bloom the first year. 1½ to 3 feet tall.

2890 BURGUNDY. Solid maroon, tips yellow. Grandiflora type. Pkt. 20c.

2891 MAXIMA. Solid yellows and golds. 2½ to 3 feet. Pkt. 10c.

2889 TANGERINE. Tangerine-orange flowers of good size. Pkt. 15c.

2887 DAZZLER. Immense flowers, golden-yellow, maroon center. Pkt. 10c.

2888 PORTOLA HYBRIDS. Flowers often 3½ inches across. Scarlet, tipped yellow. 2¼ to 3 ft. Pkt. 10c.

2886 GRANDIFLORA MIXED. Combinations of yellow and maroon-red. Rich. Pkt. 5c.

2892 GOBLIN GRANDIFLORA. First really dwarf Gaillardia. Compact, 12 inches tall, closely covered with large showy flowers, red, bordered yellow. Planted in March will flower same year. Pkt. 20c.

Geum, Mrs. Bradshaw

Helianthus

Gentiana

2896 ACAULIS, Blue Gentian. R.G. Bloom in spring. Like moist, shady spots. 4 inches tall. Pkt. 15c.

Geums

The Geums are becoming more popular each year, for their free flowering and attractive plants are a valuable addition to any hardy garden. Very easily grown from seed and produce a continuous supply of flowers for cutting.

2901 MRS. BRADSHAW. Double, bright red flowers 1½ inches across, May and June on stems 18 inches tall. Foliage at base. Pkt. 10c.

2902 LADY STRATHEDEN. Similar to Mrs. Bradshaw in growth, but bright golden-yellow flowers. Pkt. 10c.

2903 PRINCE OF ORANGE. A true rich orange shade, reproduces itself true from seed. Pkt. 20c.

Gypsophilas

Hardy Baby's Breath. A class of hardy Perennial flowers that is almost indispensable to the garden from which cut-flowers are gathered. Gypsophila gives a daintiness to all bouquets.

2914 PANICULATA SINGLE. Immense panicles of white, gauze-like flowers. 2 feet. Pkt. 10c.

2915 DOUBLE FLOWERING. "Snow White." For winter bouquets. Showier than single. Pkt. 20c.

2919 PACIFICA. Tall bushy plants, tiny pink flowers. Blooms after Panicleata, so prolongs cutting period. Pkt. 15c.

2920 GYPSOPHILA, OLDHAMIANA. See Novelty Page 35c.

Gypsophilas for Rock Gardens

2916 REPENS, Prostata. R.G. 6 inches, prefers dry, open place. Graceful, white. Pkt. 10c.

2917 REPENS ROSEA. Pink flowers of dwarf trailing habit. Pkt. 15c.

Hedysarum

2923 CORONARIUM, French Honeysuckle. Border plant, red, fragrant flowers, July. 2 feet. Pkt. 15c.

Heleniums

Large Daisy-like flowers of yellow, bronze and orange with conspicuous centers. For cutting or garden, from August to October.

2932 AUTUMNALE HYBRIDUM PRAECOX. 3 feet. Pkt. 15c.

2933 RIVERTON GEM. Old gold and terracotta, changing to red. 3 to 4 feet. Pkt. 15c.

Helianthemum

2936 SUN ROSE, Mutabile Hybrids. R.G. Ground cover for dry slopes. 12 inches. Pale rose, lilac, white. Blooms June and July. 1 ft. Pkt. 10c.

Helianthus

2939 AUGUSTIFOLIUS, Hardy Sunflower or Autumn Glory. Excellent background, masses of clear golden-yellow flowers in October and November. 5 to 6 feet. Pkt. 10c.

Helleborus

2918 NIGER, Christmas Rose. Delightful pure white flowers, often bloom in snow, continuing through March. 9 inches. Partial shade in summer. Pkt. 15c.

Hesperis

2954 MATRONALIS MIXED, Sweet Rocket. For naturalizing among shrubs or permanent border. Fragrant flowers, white, violet and purple. Similar to Phlox. Blooms May and June. 2 to 3 ft. Pkt. 10c.

Heucheras

2961 SANGUINEA SPLENDENS, Coral Bells. R.G. Compact, 8 to 10 inches high. Stems 18 to 24 inches bear graceful spikes of showiest, bright coral-red flowers. For borders. Fine for cutting during July and August. 2 ft. Pkt. 15c.

2962 SANGUINEA GRANDIFLORA HYBRIDS. Includes white, pink, scarlet and crimson. 2½ ft. Pkt. 15c.

Hibiscus, Mallow

Shrub-like plants 4 to 5 feet high, bearing, August until frost, immense single flowers 4 to 6 inches. Easily grown from seed.

2972 MALLOW MARVELS MIXED. White, pink and crimson. Mixed. Pkt. 10c.

2971 GIANT GOLDEN BOWL or Sunset. Cream-yellow with maroon center. Pkt. 10c.

Hollyhocks, Double

Double Hollyhock is the grandest flower that grows. Its stately beauty makes it grand at the garden gate, stone wall, back fence or any place where you need height, color and grandeur. In addition to its garden use, the individual flowers make perfect bouquets for table display.

Perennial Chart,
Page 34

Lily Seed

- 3041 LILIUM REGALE, Regal Lily.** Easily grown from seed, blooms the third year. One of the loveliest of all Lilies. **Pkt. 10c.**
- 3042 PHILIPPINENSE FORMOSANUM.** A wonderful new Lily, grows easily from seed. At the Arnold Arboretum, seed produced flowering plants in seven months. Similar to Easter Lily, white trumpet-shaped flowers, slightly marked with reddish brown on base of petals. Perfectly hardy. 2 to 3 ft. **Pkt. 15c.**
- 3045 PRAECOX WHITE QUEEN.** A beautiful Lily of the Longiflorum family, producing long snow-white trumpets. Blooms in 12 months from seed. **Pkt. 30c.**
- 3044 TENUIFOLIUM, Coral Lily.** Quantities of small, glossy, scarlet flowers, recurved petals. Perfectly hardy, bloom June and July. Seed slow to germinate but well worth patience. 2 feet. **Pkt. 15c.**

Linarias

- 3047 MACEDONICA, Speciosa Hybrids. R.G.** 3 feet tall, bright yellow, resembling Snapdragons. Foliage silvery. **Pkt. 10c.**
- 3048 ALPINA, Alpine Toadflax, R.G.** Trailing flowers violet-blue, blotched orange, in July and August. 6 inches tall. **Pkt. 15c.**
- 2413 CYMBALARIA, Kenilworth Ivy. R.G.** Trailing vine. Abundance of small lavender flowers in the fall. **Pkt. 8c.**

Linums

- 3055 PERENNE BLUE, Perennial Flax, R.G.** Small flat flowers, azure-blue, May and June. Erect, leafy stems. 1½ to 2 ft. tall. **Pkt. 10c.**
- 3056 FLAVUM, GOLDEN FLAX, R.G.** Yellow, in July and August. 15 inches. **Pkt. 10c.**
- 3058 FLAVUM NANUM COMPACTUM. R.G.** Dwarf strain, 6 inches, golden-yellow, June-July. **Pkt. 15c.**
- 3057 NARBONENSE, R.G.** Azure-blue flowers, white eye in May. Spreading foliage. 2 ft. **Pkt. 15c.**

Lunaria

- 3068 BIENNIS, Honesty, St. Peter's Penny.** Grow for silver pods for winter decorations. Purple flowers in summer. A Biennial. May be grown as an annual. 2 feet. **Pkt. 10c.**

Lupines, Hardy

- Spikes 3 to 4 feet tall of softly colored flowers, individual florets resemble Sweet Peas. Leaves, palm-like, form thick ornamental clumps of light green. Bloom May-June.
- 3080 NEW HYBRIDS MIXED.** Long beautiful spikes of blue, rose, buff, flesh, salmon and white. **Pkt. 10c; ¼ oz. 30c.**
- 3083 DOWNER'S HYBRIDS.** Early and perpetual blooming, fine range of Lupine-colors, bold spikes. **Pkt. 10c.**
- 3081 POLYPHYLLUS SUNSHINE.** Yellow. **Pkt. 10c.**
- 3076 POLYPHYLLUS BLUE.** **Pkt. 10c.**
- 3077 POLYPHYLLUS WHITE.** **Pkt. 10c.**
- 3078 POLYPHYLLUS ROSE.** **Pkt. 10c.**
- 3084 POLYPHYLLUS, Chocolate Soldier.** Golden-yellow and violet-bronze. **Pkt. 15c.**
- 3079 POLYPHYLLUS MIXED.** **Pkt. 10c; ¼ oz. 20c.**
- LUPINE, NEW RUSSELL.** See Novelty Page 38.
- 4340 NITRAGIN.** Inoculate Lupine Seed with Nitragin, before planting, to get better growth of plants. Garden size package, postpaid, 10c.

Lythrum

- 3092 ROSEUM SUPERBUM, Loosestrife.** Erect, graceful red flowers. July and August. 4 to 6 ft. **Pkt. 10c.**

Novelty
Perennials

Lychnis

- 3086 CHALCEDONICA, Scarlet Maltese Cross.** June and July, covered with scarlet flowers. Each forms Maltese Cross. Blooms first year from early sown seed. 2 feet. **Pkt. 10c.**
- 3085 CHALCEDONICA SALMON QUEEN.** Large flowers. **Pkt. 10c.**
- 3087 ARKWRIGHT HYBRIDS.** These attain 2 feet. Large brilliant flowers, orange-scarlet to salmon-pink. **Pkt. 10c.**
- 3088 VISCARIA SPLENDENS, German Catch-fly. R.G.** Bright rose, May-June, 15 inches. **Pkt. 10c.**
- 3089 ALPINA, R.G.** Clusters, rose-pink flowers in April. 6 inches. **Pkt. 15c.**

MATRICARIA, See Page 20. Although Matricaria is a Perennial, it is best grown as an Annual and is listed under Annuals.

Meconopsis

- 3098 BAILEYII, Blue Poppy.** From Tibet. From its root stock, half a dozen leafy stems, 3 feet high with broad sea-green leaves, flowers four-petaled, sky-blue with golden-yellow anthers. Blooms in July. **Pkt. 15c.**

Monarda

- 3106 DIDYMA HYBRIDA MIXED, Bergamot, Bee Balm, Oswego Tea.** Scarlet-crimson, rose and purple. 3 feet high. **Pkt. 15c.**

Myosotis

- 3117 ALPESTRIS "BLUE BALL," Forget-Me-Not.** Compact, globular, regular growth. Flowers deep blue. A gem for bedding in the spring. **Pkt. 15c.**
- 3131 "STAR OF LOVE" COMPACT.** See Page 35.
- 3126 ISOLDE KROTZ.** Heavenly blue, yellow eye. 1 foot high and semi-trailing. Protect over winter. **Pkt. 15c.**

- 3120 EVERBLOOMING PALUSTRIS, Semper-florens.** Blooms all summer. Small blue flowers in clusters on half creeping stems. For carpeting shady and moist places. **Pkt. 10c.**

Nepeta

- 3146 MUSSINI, Mauve Catmint. R.G.** Dwarf, edging plant, blue-gray foliage, pale mauve flowers nearly all summer. 9 to 12 inches. **Pkt. 10c.**

Oenothera

- 3161 YOUNGII, Evening Primrose.** Fragrant, lemon-yellow flowers, 1½ to 2 inches, in clusters. Sturdy plants 1½ to 2 feet tall. **Pkt. 10c.**
- 3163 MISSOURIENSIS, R.G.** 10 inches. Solitary flowers, 5 inches across. June-August. **Pkt. 10c.**

Pentstemons

- 3192 SENSATION GLOXINOIDES.** Resembles Gloxinias. Pink, rose, red, lilac and purple. 2 feet. **Pkt. 10c.**
- 3193 MINIATURE HYBRIDS.** Marvelous array of colors, branched spikes. 3 ft. **Pkt. 20c.**
- 3194 BLUE GEM. R.G.** Dwarf, excellent for the Rock Garden. Blue. **Pkt. 10c.**
- 3195 GRANDIFLORUS MIXED.** Showy. Lilac and pink, May and June. Fine for cutting. **Pkt. 10c.**

Incarvilleas

- 3007 VARIABILIS HYBRIDS, Hardy Gloxinia.** Gloxinia-like flowers, from white and yellow to deep pink all summer. 2½ to 3 feet. **Pkt. 15c.**
- 3008 DELAVAYI.** Rosy-purple in June through summer. Protect over winter. 2 to 2½ feet. **Pkt. 15c.**

Kudzu Vine

- 2410 PUERARIA, "Jack-and-the-Bean-Stalk."** Fastest growing Hardy Vine, often 8 to 10 feet first year from seed, later sometimes 50 ft. in a season. Dense foliage making good shade. Rosy-purple, flowers in small racemes, in August. **Pkt. 10c.**

LATHYRUS LATIFOLUS. See Hardy Sweet Peas, Page 42.

Lavendula

- 3026 SWEET LAVENDER.** Shrubby Perennial 1½ ft. high, gray-green foliage, small blue flowers, July-Sept. Fragrant foliage. Give winter protection. **Pkt. 10c.**

LEONTOPODIUM. See Edelweiss, Page 39.

Lewisia

- 3030 HOWELL, R.G.** Rare, lovely creeper forming rosettes of narrow crinkled leaves. Star-like flowers of apricot streaked rose, 6 inches above foliage. Spring sown seeds will bloom the following year. **Pkt. 25c.**

Liatris

- 3034 PYCNOSTACHYA, Blazing Star, Kansas Gay Feather.** Slender grass-like leaves, thickly covering the stems. Tall, graceful spikes of bright rosy-purple flowers. July-August. 6 ft. **Pkt. 15c.**

Lobelia

- 3061 CARDINALIS, Cardinal Flower.** Flowers intense cardinal-red, 1 inch long, in spikes on erect leafy, unbranching stems. July to September. 2½ to 3 feet. **Pkt. 15c.**

Penstemon Dwarf Hybrids

Primula Polyanthus Perfection

Phlox, Hardy

- 3197 DECUSSATA GRANDIFLORA MIXED.** Lovely colors of Hardy Phlox. Large blooms, 3 foot stems. Slow to germinate, worth waiting for. **Pkt. 10c.**

PHYSALIS. See Chinese Lantern, Page 37.

Physostegias

- 3208 VIRGINIA PINK, False Dragonhead.** July and August. 3½ feet. **Pkt. 10c.**
- 3210 COMPACTA ROSEA. R.G.** 12 to 18 inches. **Pkt. 10c.**

Platycodons

Chinese Bellflower. Five-pointed, bell-shaped flowers in late summer. The separate colors do not always come 100% true from seed. 2½ feet.

- 3222 GRANDIFLORA BLUE.** **Pkt. 10c.**
- 3221 BLUE AND WHITE MIXED.** **Pkt. 10c.**
- 3226 MARIESI DWARF BLUE.** 12 to 15 inches. 3 inches across. **Pkt. 10c.**

Polemonium

- 3236 COERULEUM GRANDIFLORUM BLUE.** Jacob's Ladder. Blooms May to July, erect stems, violet-blue flowers. Leaves clustered at base of stem. Like partial shade. 2 ft. **Pkt. 10c.**

Primulas

Hardy Primroses. Delightful little flowers in all the brilliant colors that mean so much to your garden in April and May. They have few rivals for planting along shady paths or in the Rock Garden. Seed germinate slowly and fall planting is preferable. You will enjoy their beauty.

- 3251 AURICULA ALPINA MIXED.** Yellow, brown and red. Early. 6 inches. **Pkt. 15c.**
- 3252 JAPONICA MIXED.** Very showy, blooms in June. Mixed colors, purple, lilac and pink. 18 to 24 inches. **Pkt. 15c.**
- 3253 CASHMIRIANA.** Large lilac, 1 foot. **Pkt. 20c.**
- 3255 LITTONIANA.** Large spikes, similar to Red Hot Poker. Red, lilac and purple. 2 feet. **Pkt. 20c.**
- 3250 VULGARIS.** True English Primrose. Fragrant canary-yellow, 8 inches tall. **Pkt. 10c.**

Primulas—Polyanthus

- 3248 PERFECTION MIXED.** Select strain of large flowering Polyanthus, containing all available colors and combinations of white, pink, rose, crimson, yellow and gold. **Pkt. 10c.**
- 3247 GIANT MUNSTEAD.** Large flowered, early, includes shades of yellow and white. **Pkt. 15c.**

Ranunculus

- 3278 ASIATICUS SUPERBISSIMA, Buttercup Daisy.** Large semi-double and double flowers. Red and yellow. May and June. Like partial shade. 1 to 1½ foot. **Pkt. 10c.**

Oriental Poppy

Single Pyrethrum

Scabiosa-Isaac House

Poppies, Oriental

Papaver. For a gorgeous display, few flowers can compete with the brilliant Poppies in June and July. Immense silken cups of glowing colors with black blotch at base of petals. If, after blooming, the tops are carefully taken off, not to injure the crown, they often bloom again in the fall. Height 2½ to 3 feet.

- 3176 ORIENTAL SCARLET.** Tremendous cup of brilliant scarlet, purple-black blotches. **Pkt. 10c.**
- 3177 ORIENTAL HYBRIDS.** Some brilliant new shades have been developed, running through orange, salmon to scarlet. **Pkt. 10c.**
- 3178 BEAUTY OF LIVERMERE.** Deep oxblood-red with black throat. 3 feet. **Pkt. 15c.**
- 3179 THE FELTHAM.** New distinct strain with various colors, scarlet, orange, apricot and salmon but with no black blotches. **Pkt. 15c.**
- 3180 MRS. PERRY.** Shrimp-pink or apricot. The best of the pink Orientals. **Pkt. 15c.**

Poppies, Iceland

Nudicaule. Iceland Poppy. Neat little tufts of attractive foliage, Rock Garden favorites. Flowers of tissue-paper appearance, on stems 1 foot long. Fine for cut-flowers.

- 3183 EL MONTE.** Large flowers of tangerine-orange. **Pkt. 15c.**
- 3185 COONARA PINK.** Pink, salmon and apricot. **Pkt. 10c.**
- 3186 FAKENHAM HYBRIDS.** Twice the size of other Iceland Poppies. Bloom later. Many new shades and tints. **Pkt. 15c.**
- 3187 ALPINUM MIXED.** R.G. Miniature in brilliant shades of scarlet, orange, yellow, apricot, pink and white. 6 inches. **Pkt. 15c.**
- 3189 GARTREF STRAIN.** Reselected. Large flowers with dark edges on petals. Shell-pink to carmine, creamy-yellow to gold, amber and apricot. **Pkt. 15c.**
- 3181 SUNBEAM GIANT MIXED.** Lovely mixture of white, yellow, orange and scarlet. **Pkt. 10c.**
- 3190 THE EMPEROR.** Truly regal. Orange, large fluted, overlapping petals, many having extra petals. Strong, straight stems, 18 inches. Blooms first year from seed. **Pkt. 15c.**
- 3191 "THE EMPRESS."** Distinct from all others. Giant flowered, broad petals, deeply fluted or wrinkled. Effect of semi-doubleness. Salmon-rose and pink, never seen before in Nudicaule Poppies, fascinating tones to intrigue the imagination. Blooms from seed the first year. **Pkt. 15c.**
- 3184 SINGLE MIXED.** **Pkt. 5c.**
- 3182 DOUBLE MIXED.** Selected strain. Large percentage double flowers. **Pkt. 10c.**

Romneya

- 3283 COULTERI, Bush Poppy.** California Tree Poppy. Large white, fragrant satiny flowers. June and July. 4 to 5 feet. **Pkt. 10c.**

Rudbeckia

- 3287 PURPUREA (Echinacea) Purple Cone Flower.** Rosy-purple with dark central disk. Blooms September. 3 feet. **Pkt. 10c.**

Platycodon or Chinese Bellflower

Iceland Poppy "The Empress"

Pyrethrum

Low compact growth with lace-like foliage of bright green, quantities of Daisy-like flowers. They bloom during June and July.

- 3261 SINGLE MIXED.** White, rose and pink. **Pkt. 5c.**
- 3262 DOUBLE MIXED.** Percentage of doubles increases as plants become older. White, pink and rose. **Pkt. 15c.**
- 3264 HYBRIDUM GRANDIFLORUM.** Single. Large flowered, fine for cutting. **Pkt. 10c.**
- 3263 ATROSANGUINEUM.** Best strains of dark blood-red. Excellent quality. **Pkt. 10c.**
- 3267 PTARMICAEFLORUM.** See Page 35.

Salvia, Hardy

- 3291 AZUREA GRANDIFLORA, Meadow Sage.** Small tubular flowers, sky-blue, long spikes. August and September. Easily grown. Protect over winter. 4 to 6 feet. **Pkt. 10c.**

Saxifraga

- 3293 MOSSY VARIETIES MIXED, Rock Foll.** R.G. Produce tufts of mossy leaves with white, pink and purple flowers. **Pkt. 25c.**

Scabiosas, Hardy

Quite like the Annuals, though more graceful. Bloom June to September. Give a slight mulch for winter.

- 3297 CAUCASICA BLUE.** Blue Bonnet. Single row of broad petals, center of many tiny florets. Very dainty. Extra long stems. 2½ to 3 ft. **Pkt. 10c.**
- 3306 JAPONICA.** 2 feet high, lavender-blue, long wiry stems. Long blooming season. **Pkt. 5c.**
- 3300 ISAAC HOUSE HYBRIDS.** Improved Caucasica, longer stems, large flowers, light lavender to deep heliotrope-blue. Ruffled and fringed. **Pkt. 10c.**
- 3301 COLUMBARIA PINK.** South African, dwarfier than Caucasica. Short, compact flowers 2 to 2½ inches across on long stiff stems. **Pkt. 10c.**

Sedums

- 3316 ACRE.** R.G. Gold Moss or Wall Pepper. Leaves peppery in taste. In June, covered with small bright yellow flowers. 2 to 3 inches high. **Pkt. 10c.**
- 3317 SPECTABLE.** R.G. Showy Stoncrop. Flat clusters of rosy-red in August and September. Leaves thick and ornamental. 1½ to 2 ft. **Pkt. 20c.**

Sempervivum

- 3321 HEN AND CHICKENS.** Perennial. R.G. A mixture of many sorts which will enable you to raise a fine collection of plants at low cost. Grow 4 to 6 inches high. **Pkt. 25c.**

Silenes

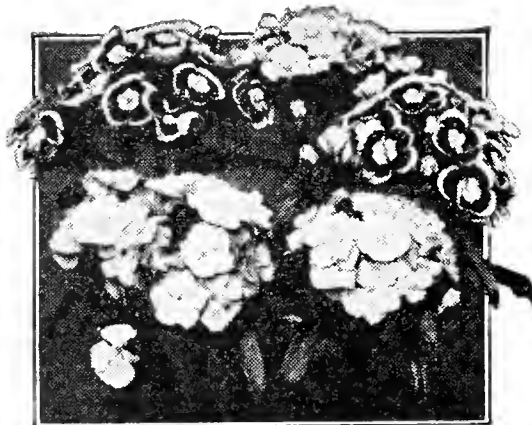

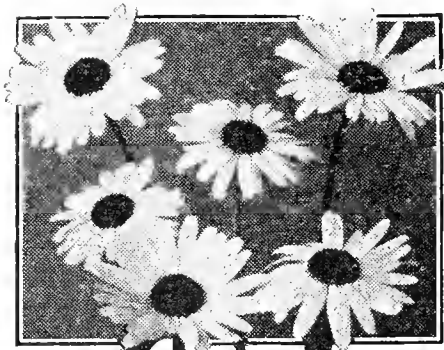

- 3338 SCHAFTA, Catchfly.** R.G. Masses of bright pink double flowers from July to October. Very easily grown from seed. 4 to 6 inches. **Pkt. 10c.**
- 3339 ASTERIAS GRANDIFLORA.** Carmine-scarlet. 1½ ft. **Pkt. 10c.**

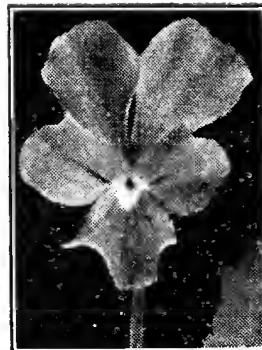

Sidalcea

Sweet Peas, Hardy

A Few Heads of Templin-Bradley's
Giant Sweet William

Shasta Daisy

Viola, Hardy

Trollius, Globe Flower

Shasta Daisies

Chrysanthemums *Leucanthemum*, are of the Shasta Daisy type, so wonderful for garden display or cut-flowers.

2738 BURBANK'S SHASTA DAISY ALASKA. Finest hardy daisy, pure white, 2½ to 3 inches across. July and August. 2½ ft. Pkt. 10c.

2741 DOUBLE SHASTA DAISY. New and unusual, large percentage of doubles, like Asters. Pkt. 30c.

2748 MAWII. New pink Shasta Daisy. 1½ to 2 inches across. Plants 1 foot. Rare. Pkt. 20c.

2739 MRS. C. LOWTHIAN BELL. Largest flowered. June to October. 2 ft. Pkt. 10c.

2741 LACINIATUM MAXIMUM. White, size of Shasta, petals recurved, twisted and fringed giving most graceful appearance. 1½ to 2 ft. Pkt. 10c.

2743 MAY QUEEN. Spring Marguerite. Desirable for its early April bloom. Flowers medium sized and on good stems. 2 feet. Pkt. 10c.

2742 ELDER DAISY. Early. You can cut flowers for Memorial Day. Not as large as Shasta, but more on each plant. 2 ft. Pkt. 10c.

Sidalcea

Spikes 2½ to 3 feet in height, densely covered from July to September with pretty single rosy-pink flowers. Each about an inch across.

3327 ROSE QUEEN. Bright rose. Pkt. 5c.

3328 HYBRIDS. Many shades. Pkt. 10c.

Statice

3346 LATIFOLIA BLUE, Sea Lavender. R.G. Graceful panicles of purple-blue cover the plants in July and August. Prized for winter bouquets. 2 ft. Pkt. 10c.

3347 DUMOSA. Bushy cushions of silvery-gray flowers. Wealth of cutting material. Fine for winter bouquets. 2½ ft. Pkt. 15c.

3348 CASPIA. Long sprays of minute lilac-blue flowers. Fine cut-flowers for summer or winter bouquets. 2 to 2½ feet. Pkt. 15c.

Stokesia

3354 CYANEA BLUE, Stoke's Aster. For the blue garden. Large flowers (3 to 4 inches) of lavender-blue resemble Aster and Cornflower. Bloom July to October. 1 to 2 ft. Pkt. 10c.

Sweet Williams

Dianthus Barbatas, are so well known and popular. Easy to grow, splendid for massing in perennial border, make a gorgeous display during May and June. Plant 15 to 18 inches.

3372 SINGLE MIXED. Pkt. 5c.

3373 DOUBLE MIXED. Pkt. 10c.

SEPARATE COLORS.

3364 SCARLET BEAUTY. Pkt. 10c.

3366 DARK CRIMSON. Pkt. 10c.

3365 WHITE. Pkt. 10c.

3362 HOLBORN GLORY. Giant flowering in many colors with white eye. Pkt. 10c.

3363 PINK BEAUTY or NEWPORT PINK. Watermelon-pink. Large trusses. Pkt. 10c.

3370 SWEET WILLIAM COLLECTION. One pkt. each of 5 above, 50c value, For only 10c.

3361 SINGLE GIGANT MIXED SWEET WILLIAMS. Fine mixture of brightest colors and shades not present in other mixtures, and Margined and Auricula varieties. Pkt. 10c; ¼ oz. 25c.

3375 SWEET WILLIAM DWARF DOUBLE MIXED. Delightful Sweet William. Bushy, compact plants 6 to 8 inches high, branch freely, producing a dozen or more heads of double florets in many brilliant shades and colors. Our strain should produce 85% to 90% double flowers. Pkt. 10c.

Sweet Peas, Hardy

Lathyrus Latifolius. For covering old stumps, fences, etc. Perfectly hardy, increasing in beauty each year. June to August.

3017 WHITE PEARL. Pkt. 10c.

3018 PINK BEAUTY. Pkt. 10c.

3019 SPLENDENS RED. Pkt. 10c.

3022 COLLECTION. 1 Pkt. each of above three colors, 25c.

3016 HARDY SWEET PEAS MIXED. Pkt. 5c; ¼ oz. 20c.

Thalictrum

3396 DIPTEROCARPUM, Meadow Rue. Rosy-purple, August and September, 4 to 5 feet. Pkt. 10c.

Thymus

3399 SERPYLLUM, Mother of Thyme. R.G. Tiny plant, creeping, purple, scented foliage. Fine for stepping stones. Violet, white and rose. 2 to 3 inches tall. June and July. Pkt. 15c.

Tritomas

Red Hot Poker, Flame Flower or Torch Lily. Really Perennials, but roots tender, and should be taken up and stored like Dahlias.

3406 HYBRIDA MIRABILIS. 3 ft. Bright yellow August to late Autumn. Pkt. 10c.

3407 ELEGENS MULTICOLOR. Early flowering Hybrids in a rich variety of shades flaming orange, yellow and scarlet. Pkt. 10c.

3408 PFITZER'S HYBRIDS. Great waxy flowers of rich orange-scarlet, making a splash of vivid color. Pkt. 10c.

Trollius

Globe Flower or Golden Ball. Beautiful gold and yellow Perennials. 18 inches tall, flowers large, double, globe-shaped, 1½ inches across. Bloom in May and June, sometimes a second crop is produced in the fall. Seed sometimes not starting until the year following the sowing.

3404 FINEST HYBRIDS. Rich shades of yellow, gold and orange. Pkt. 15c.

3405 EUROPEUS GOLDEN BALL. Soft, rich yellow. 20 inches tall. Pkt. 10c.

3403 LEDERBOURI. Deep orange. 2 ft. Pkt. 15c.

Tunica

3410 SAXIFRAGA, Coat Flower, R.G. Neat plant for edgings with small, light pink flowers all summer. Resembles Gypsophila. Started early blooms first season. 5 to 6 inches. Pkt. 10c.

Grand Perennial Mixtures

If you want just "lots of flowers" in Perennials, and are not fussy about keeping the varieties separate, here are two dandy Mixtures that will give you quantities of many, many different kinds at very low cost.

3471 TALL SORTS. Most desirable varieties for border planting or for cut-flowers. Most all grow 2 to 3 feet tall. Very interesting to grow. Pkt. 10c; ¼ oz. 35c; Oz. \$1.00.

3472 FOR ROCK GARDENS. This mixture includes the varieties that are best for Rock Garden use. All semi-dwarf and low growing and will thrive well in the rockery. Pkt. 20c; ½ oz. 25c.

Adorable little Pansy-like faces. Beautiful colors.

Valerianas

3426 OFFICINALIS, Garden Heliotrope. Rose tinted white flowers, showy heads, heliotrope odor, June and July. Easily grown, hardy. 3½ ft. Pkt. 10c.

3427 RUBRA MIXED. Old rose and white flowers, June to October. 2 ft. Pkt. 10c.

Veronicas

Speedwell. R.G. Beautiful family, at home anywhere in your garden. Like plenty of sun.

3441 LONGIFOLIA BLUE. R.G. Graceful, slender spikes of lavender-blue from July to September. 2 to 3 feet tall. Pkt. 10c.

3442 SPICATA MIXED. R.G. 1 to 1½ feet tall, blooms in July. Blue, rose and white. Pkt. 10c.

3443 TEUCRIUM BLUE. R.G. Dwarf, 1 foot high. Beautiful Gentian-blue. Pkt. 10c.

3444 REPENS. R.G. Creeping Speedwell. Fine carpet, bedding or Rock Garden plant. Trailing stems and small white flowers. Blooms July and August. 4 inches. Pkt. 15c.

Violas, Hardy

Viola Cornuta, Hardy Tufted Pansies combine the free blooming habits of Pansies with the hardy character of Violets. Will not run out like the Pansy nor are the flowers as large, but produced in profusion during entire season.

3449 JERSEY GEM, CORNUTA HYBRID. Compact plant, deep violet-blue. 8 inches. Pkt. 25c.

3452 APRICOT, CORNUTA HYBRID. Rich yellow, suffused orange. Very showy. Pkt. 15c.

3457 ARKWRIGHT'S RUBY. Bright ruby-crimson with terra cotta shadings. Pkt. 15c.

3450 ADMIRATION. Rich rosy-purple. Pkt. 10c.

3453 ROSE QUEEN. Beautiful rose. Pkt. 15c.

3448 VIOLA CORNUTA MIXED. All available colors in the large flowering varieties. Pkt. 10c.

3460 VIOLA BOSNIACA. Small growing, very desirable for the border or rockery. Purple flowers all summer. 3 inches. Pkt. 10c.

Viola "Gems"

These are the Jersey Gem type of flower as shown in the illustration. Free and long blooming.

3465 LAVENDER GEM. Lavender-blue. Pkt. 25c.

3466 ROSY GEM. Rich deep rose. Pkt. 25c.

3467 WHITE GEM. Pure white. Pkt. 25c.

3468 YELLOW GEM. Bright yellow. Pkt. 25c.

3452-A CHANTREYLAND. Beautiful pure apricot. Fine flower. Abundance of bloom. A perfect Viola. Comes exceptionally true from seed. Pkt. 15c.

Violets, Hardy

Viola Odorata. Fragrant hardy English Violets. Require abundant moisture and partial shade. Seed may be sown in late fall, early spring and transplanted or sown in a cool shady place after cold weather is over.

3458 THE CZAR. Blue. Pkt. 15c.

3459 SNOWFLAKE. White. Pkt. 15c.

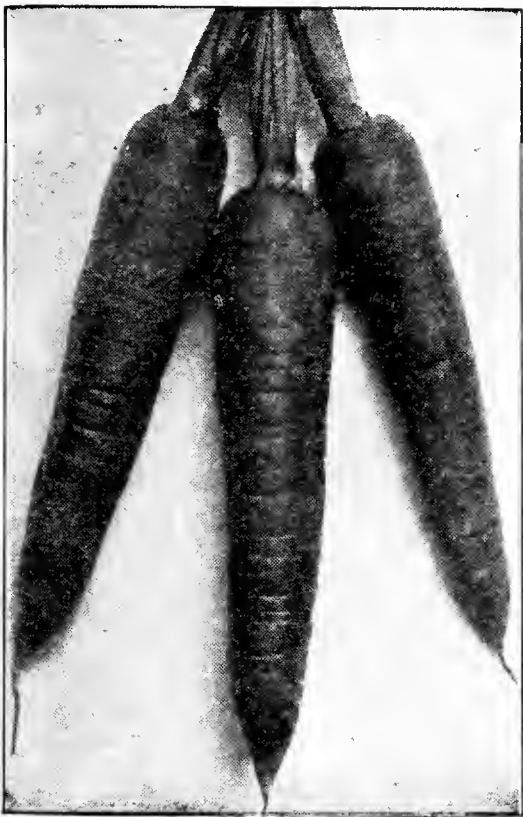

Wallflowers

Cheiranthus. Delightfully fragrant. Bloom in spring. Beautiful flowers in many colors. Protect during winter.

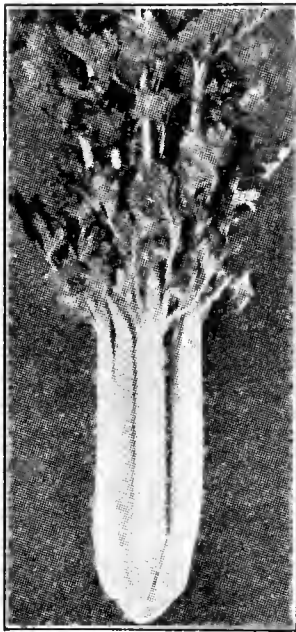

3462 TALL DOUBLE BRANCHING MIXED. Pkt. 15c.

2734 ALLIONI, Siberian Wallflower. R.G. Abundance of dazzling orange flowers. June to July. Excellent for Rock Gardens. 1 ft. high. Pkt. 10c.

2735 LINIFOLIUS, Alpine Wallflower. R.G. Dwarf, for bedding or rock garden. Free flowering June to August. Lilac. 9 inches. Pkt. 10c.

Peas, New Sweetender

Templin-Bradley's New Hybrid Sweet Corn

Vegetable Novelties

Which We Especially Recommend

Among this year's vegetable novelties we offer several very outstanding and most desirable varieties that will add much value to your garden and delight to your table. They are all most worthy and deserve a place in your garden.

New Lettuce

3846 TEMPLIN-BRADLEY'S EARLI-HEAD. An early sure-heading variety with dark green crinkled leaves. Heads are large and compact and produce crisp, solid snow-white hearts of the finest quality. Pkt. 10c; Oz. 25c; 1/4 lb. 75c.

A Top Notch Parsley

3940 PARAMOUNT. A new "triple-curved," variety with rich dark green foliage in thick compact fronds. Plant growth very vigorous and uniform. The finest home garden variety and excellent for bunching. Pkt. 10c; Oz. 20c; 1/4 lb. 50c.

Delicious Tender Peas

3958 NEW SWEETENDER. A fine new garden Pea of the highest quality. Vine 15 inches tall bearing an abundance of thick heavy pods 3 1/2 to 4 inches long in pairs. Peas are large, sweet and tender. Pkt. 5c; 1/4 lb. 15c; Lb. 45c; 3 lbs. \$1.25.

Two Better Radishes

4013 TEMPLIN-BRADLEY'S RED BIRD. This marvelous new Radish of rich scarlet color has almost perfect globe-shaped roots, very small tap-roots and medium small tops. The flesh is solid, crisp and sparkling white and of the finest flavor. Roots of very uniform size, shape and color. Pkt. 10c; Oz. 20c.

4014 BILLIARD BALL. A fine dark scarlet or nearly crimson ball-shaped variety of much merit. Has small top, a complete absence of neck and comparatively small tap-root. Flesh white, crisp and tender. An All-America selection. Pkt. 15c; Oz. 30c.

Two Wonderful New Squash

4062 EARLY PROLIFIC STRAIGHTNECK. Earlier than Giant Summer Straightneck, this new variety is uniformly productive over a long season. Fruits are straight, smooth, of delicate appetizing creamy color, borne on plants of strictly bush type which permits close planting. Ready to use when 4 to 5 inches long. Pkt. 10c; Oz. 15c.

4072 NEW BUTTERCUP. A new type of Buttercup is just the right size for the average family, fruits weigh 3 to 5 pounds. Outside color is dark green, flesh rich orange, untinged with green. The texture of the flesh is smooth, the flavor mild. Pkt. 5c; Oz. 20c; 1/4 lb. 60c; Lb. \$1.75.

Unusual Watermelons

3892 SWIKA or ICEBOX. A very early Melon that will please everyone who likes them small enough to place right in their icebox without cutting. Swika grows 6 to 9 inches in diameter with very thin rind and rich sweet red flesh of wonderful flavor. Pkt. 10c; Oz. 20c.

3903 NORTHERN SWEET. This large early maturing Melon is especially suited to those gardens in the north where other varieties will not mature. The crisp, juicy flesh is marvelously sweet and tasty. Pkt. 10c; Oz. 20c; 1/4 lb. 50c.

Finest Savoy Cabbage

3640 CHIEFTAIN. This new Savoy, earlier than other Savoy varieties, forms medium large heads of the drum-head type, dark olive-green in color, thick, flat and rounded, and very uniformly savoyed. Chieftain produces a much higher percentage of well formed firm heads than has heretofore been possible in the Savoy types. Pkt. 15c; 1/4 oz. 30c.

The Best Garden Carrot

3674 TENDERSWEET. This new Carrot brings us one of the finest medium sized orange fleshed varieties, with uniform shape and well tapered roots. The deep orange flesh is crisp and tender, of finest flavor and of uniform color throughout. They will average 6 to 8 inches in length at maturity. Pkt. 10c; Oz. 25c.

A Delicious Celery

3687 SUPREME GOLDEN. An early strain producing tight, blocky plants of exceptional uniformity. Stems are long, 7 to 10 inches to first joint and plants are very full hearted. Easily blanched, tender and crisp. Pkt. 15c; 1/4 oz. 50c; Oz. \$1.50.

Two De Luxe Sweet Corns

3704 EARLY GOLDEN SWEET. The earliest golden-yellow Sweet Corn maturing 12 to 14 days earlier than Golden Bantam. Has the size, color and fine eating quality of regular Golden Bantam with the added advantage of extreme earliness. The well filled ears, averaging 6 inches long with 12 rows of deep kernels, are produced on stalks 3 1/2 to 4 feet tall. Pkt. 5c; 1/4 lb. 12c; Lb. 35c; 3 lbs. 90c.

3722 ALL-SEASON HYBRID BLEND. A most desirable blending of the best golden-yellow Sweet Corn Hybrids that gives you a long picking season of delicious, sweet, tender, ears. Only the best Hybrids of the highest quality are included. Pkt. 10c; 1/4 lb. 20c; Lb. 50c.

A Grand New Sweet Corn

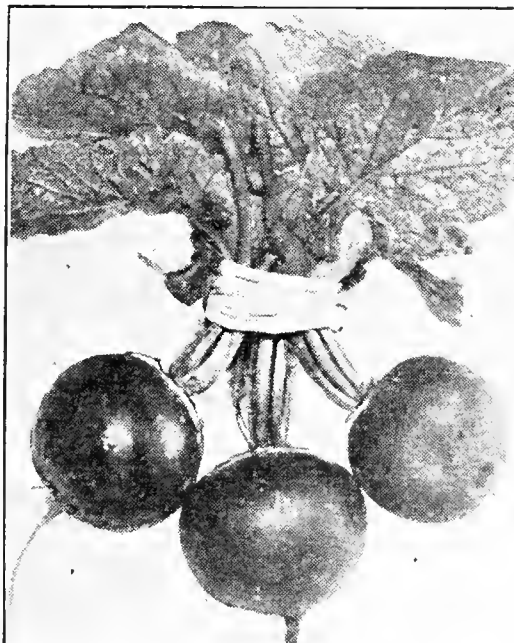

3714 TEMPLIN-BRADLEY'S HYBRID BANTAM. A new Golden Bantam Hybrid, the result of much careful crossing and selection which has produced a very outstanding variety with many most desirable qualities. This new Hybrid is six to ten days earlier than other crosses, stalks 6 to 6 1/2 feet tall, producing uniform ears 7 1/2 inches long with 12 and sometimes 14 rows of rich golden deep kernels. Pkt. 5c; 1/4 lb. 15c; Lb. 50c; 3 lbs. \$1.25.

Fine New Cucumber

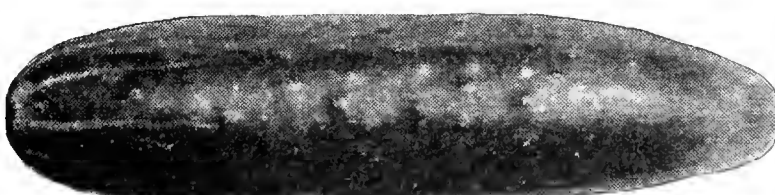

3757 TEMPLIN-BRADLEY'S EVER-GREEN. This fine new Cucumber produced large uniform fruits 6 to 8 inches long, smooth, attractive and of rich dark green color which it holds well to full maturity. Flesh is solid, crisp and tender, and with very small seed cavity. A fine garden variety and a money maker for the gardener. Pkt. 10c; Oz. 25c.

Grand Vegetable Collection Color Page 49

Six of the finest of these new Vegetable Varieties are shown in full color on page 49 and offered in a special low priced collection so that you will try them in your own garden and enjoy their grand quality on your own table. See Page 49.

Beans

To have plenty of Beans throughout the summer plant both early and late varieties every two weeks from early spring through the summer, just as long as there are 45 days left before frost. This will give you plenty of the luscious health-giving Beans for your table and for canning from early summer to late fall.

Culture—Make your first planting as soon as the soil is warm and danger of frost is past. Plant in rows 2 feet apart, dropping the seed 3 to 4 inches apart and 2 inches deep. Cultivate thoroughly but not when the vines are wet. One pound of beans (except Limas) should plant a 100 foot row, 90 pounds will be required for an acre of ground. Bush Lima Beans, one pound will plant 75 hills and 40 pounds will plant an acre.

Dwarf Green Pod

- 3516 TENDERGREEN.** (Round Pod). If you want a wonderfully delicious early Snap Bean, plant Tendergreen. It is long, round, tender, meaty, light green and the finest flavor. Our customers friends tell us it is the best Bean they ever ate. It matures early and the vines are exceptionally strong and vigorous. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3510 FULL MEASURE.** (Round Pod) One of the best varieties. Yields large quantities (even more than Tendergreen) of fine-grained, large, dark green tender pods. Very good table quality. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3507 BURPEE'S STRINGLESS.** (Round Pod). Most popular of the round podded. Early, very productive, tender, fleshy and free from strings. Ready in 50 days. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3509 GIANT STRINGLESS.** (Round Pod) Similar to Burpee's Stringless, but longer, straighter and lighter green. Exceedingly productive. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3515 EARLY RED VALENTINE.** (Round Pod). An excellent and dependable early variety. Fleshy, medium green and average 5 inches. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3508 EARLY BOUNTIFUL.** Best flat-podded stringless variety. 7 inches long, stout, flat and nearly stringless. Light green. Very early, vigorous, hardy, productive. Fine quality. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3511 REFUGEE STRINGLESS.** (Round Pod). Very desirable strain. Light green, stringless and of high quality. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3513 RUBY DWARF HORTICULTURAL.** (Flat Pod). Good for green shell Beans or early as green pod Snap Bean. Plants are productive, pods broad, five inches long. Yellow splashed with red. Equal to Limas in quality. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.

Dwarf Wax Pod Beans

- 3521 SURE CROP WAX.** (Oval Round Pod). One of the best black seeded varieties. Early tender pods 5½ to 6½ inches long, nearly straight and "sure cropper." Pkt. 5c; ¼ lb. 12c; Lb. 30c; 3 lbs. 85c.
- 3525 UNRIVALLED WAX.** (Oval Flat Pod). Extra early, long, slim almost transparent, a little curved at tip, very tender. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3526 WARDWELL'S.** (Flat Pod). Yields heavy pickings of best quality pods. Long, straight, broad, golden-yellow, fleshy, brittle and fine grained. Delicious flavor and tender. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3530 STRINGLESS WHITE WAX.** Davis Wax. (Oval Pod). A favorite because of handsome pods. Excellent eating quality, stringless. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3522 WEBBER or CRACKER JACK WAX.** (Flat Pod). Broad, golden-yellow, gracefully curved. Invariably ready before any other Wax Bean and will yield more than any except Sure Crop Wax. Vigorous, healthy and wonderfully productive. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3523 IMPROVED GOLDEN.** (Flat Pod). Straight, very broad, thick, fleshy and stringless. An early abundant cropper. It is a greatly improved strain of the old style Golden Wax. It will pay you to plant this strain of Golden Wax. Pkt. 5c; ¼ lb. 12c; Lb. 30c; 3 lbs. 85c.
- 3527 STRINGLESS REFUGEE WAX.** (Round Pod). Tender and absolutely stringless. The old Refugee Wax. Early and productive. 5 inches long, very fleshy and curved. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3528 PENCIL POD BLACK WAX.** (Round Pod). Best black-seeded wax variety. Early. Large, 6½ to 7 inches long, straight and entirely stringless. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3529 ROUND POD KIDNEY WAX or Brittle Wax.** An excellent variety that deserves much attention. Handsome pods 5 to 6 inches long, bright, rich yellow in color and absolutely stringless. Hard to equal. Tender, fleshy, yet brittle pods are of the finest quality and are freely produced. Seeds white with brownish-black eye. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.10.

Pole Beans

Culture—Same as Bush Lima Beans except that they must be provided with something to climb upon. If planted in hills, poles will answer the purpose, or if planted in rows a continuous wire or heavy twine trellis is good. Pole Beans yield many more pods per plant than dwarf varieties. One pound will plant 100 hills.

- 3557 KENTUCKY WONDER or Old Homestead.** The most satisfactory green podded Pole Bean. Early, wonderfully prolific, bearing continually until frost. Long pods in clusters. May be planted with corn. Pkt. 5c; ¼ lb. 12c; Lb. 30c; 3 lbs. 85c.
- 3563 KENTUCKY WONDER WAX.** One of the earliest and most productive. 8 inches long, thick fleshy and brittle. Light yellow, seed chocolate brown. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3558 GOLDEN CLUSTER WAX.** Splendid pods 8 inches long, golden-yellow, thick, fleshy and stringless. White seeded. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3559 LAZY WIFE.** Popular for snaps, shell beans or for winter use. Pods in clusters, long, broad, thick, fleshy, green, white seeds. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3561 HORTICULTURAL.** Cranberry, Wren's Egg. Use for shell beans, green or dry. Seed speckled. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.
- 3562 YARD LONG.** Asparagus Bean. Interesting European Novelty. Slim, round edible pods, 2 to 3 feet long. Pkt. 10c.

Pole Lima Beans

- 3546 KING OF THE GARDEN.** A favorite with gardeners because of the great size of pods, which contain 4 to 5 very large fine quality green beans. The vines produce continually until killed by frost. Large white. Pkt. 5c; ¼ lb. 15c; Lb. 35c; 3 lbs. \$1.00.
- 3547 SIEBERT'S EARLY.** The earliest Pole Lima. Vigorous, productive, large curved pods, 5 inches long. Easy to shell, excellent quality. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.

Dwarf or Bush Lima

- 3536 NEW WONDER or Burpee's Improved Bush Lima.** The recognized standard of Bush Lima Bean quality. Large robust, compact, plants; productive. Pods uniformly large, in clusters, maturing in midseason. Large flat Beans of superior quality. Pkt. 5c; ¼ lb. 15c; Lb. 30c; 3 lbs. 85c.
- 3537 FORDHOOK.** Ideal for productiveness and disease resistance, bears large pods in clusters of 4 to 6 well above the ground. Potato Lima type, large, thick and handsome. Early, ready to eat in 75 to 80 days, yet produce over a long period. Pkt. 5c; ¼ lb. 15c; Lb. 40c; 3 lbs. \$1.00.
- 3538 HENDERSON'S EARLY.** The earliest of all Lima Beans. By planting it, gardeners in even the northernmost States, can enjoy Limas from their own gardens. Pods are small but borne so plentifully that the yield is large. Beans of excellent flavor. Pkt. 5c; ¼ lb. 12c; Lb. 35c; 3 lbs. \$1.00.

Field or Baking Beans

- 3552 NEW ROBUST.** Also called "1000 to 1" Field Bean. The best white bean for baking. It has been proven by Experimental Stations that the New Robust out-yields all other white beans. Pkt. 5c; ¼ lb. 10c; Lb. 30c; 3 lbs. 75c.
- 3555 WHITE MARROW.** Large, plump, oval-shaped, white beans for baking. Vigorous vines that are very productive of the highest quality beans. Pkt. 5c; ¼ lb. 10c; Lb. 30c; 3 lbs. 75c.
- 3553 WHITE KIDNEY.** Royal Dwarf. Large upright plants, plenty of dark green pods, about 6 inches long. Seed large, white, kidney-shaped and excellent quality. Use green, shelled or dry. Pkt. 5c; ¼ lb. 10c; Lb. 30c; 3 lbs. 75c.
- 3554 RED KIDNEY.** Like White Kidney except the beans are deep red. Pkt. 5c; ¼ lb. 10c; Lb. 30c; 3 lbs. 75c.

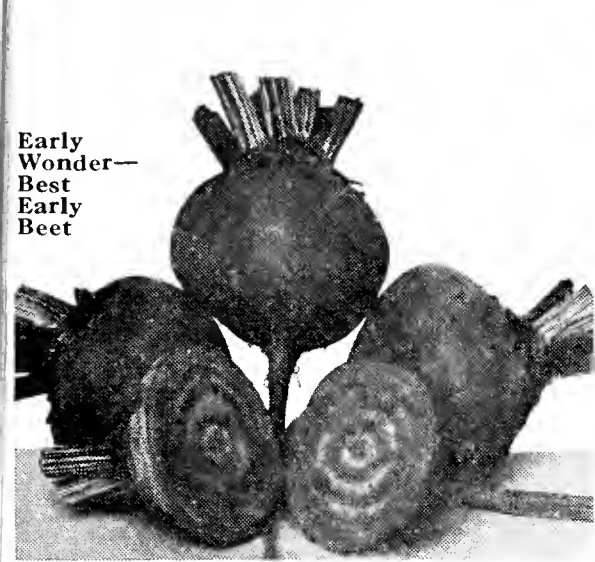

Inoculate Your Beans with

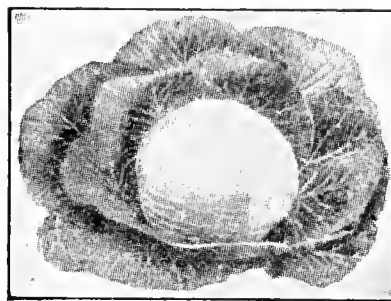

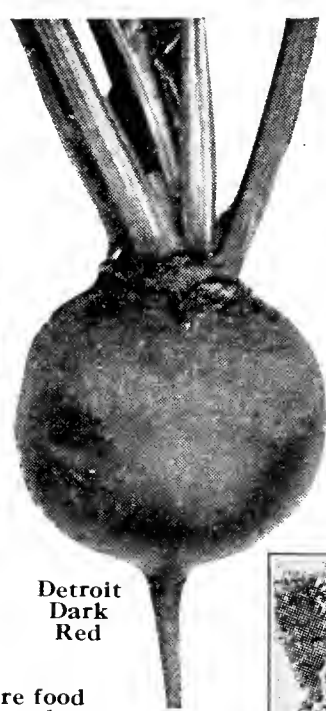

1340 NITRAGIN, Garden Size, Pkt. 10c.; 3 Pkts. 25c.

Asparagus

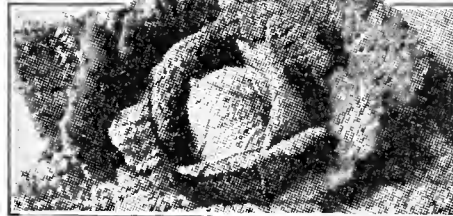

3501 MARY WASHINGTON. Best of the newly developed Rust Proof varieties. A selection from Martha Washington, produces large straight tender green stalks of excellent quality. One ounce should sow a 60 foot row and produce 200 to 300 plants. Pkt. 10c; Oz. 15c; ¼ lb. 30c; Lb. 75c.

Early Wonder—
Best
Early
Beet

Beets

Detroit
Dark
Red

Copenhagen Market

Drumhead Savoy

Early Jersey Wakefield

Chihli Cabbage

Grow your own beets. Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use. Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well.

Table Beet Culture. Beets like well enriched moist soil. Sow the seed 1 inch deep in rows 12 to 16 inches apart, and thin out to stand 4 inches apart. First sowing may be made as early as the soil is in workable condition, later plantings up to July 1st. One ounce should sow a 50 to 75 foot row, 5 to 6 pounds an acre. Packets of the standard varieties will contain about 1/4 ounce.

3576 DETROIT DARK RED. The most popular of all Beets. Beautiful appearance on the table or bunched for market, as it retains its deep red color. Big cropper with small upright tops, permitting close planting. Roots globe-shaped. Skin and flesh, dark blood-red with very little lighter zoning. Excellent winter keeper. Pkt. 8c; Oz. 20c; 1/4 lb. 50c.

3578 PERFECTED DETROIT. All-America. An improved strain with which we are coming close to perfection in uniformity of size and shape of roots and extreme depth of color. Pkt. 10c; Oz. 25c; 1/4 lb. 60c.

3571 EARLY WONDER. A fine Beet for extra early or very late planting as it produces edible roots quickly. Slightly more rounded than Crosby's Egyptian. Color of flesh is deep red, zoned with lighter red. Pkt. 8c; Oz. 20c; 1/4 lb. 50c.

3573 CROSBY'S EGYPTIAN. Improved strain. The standard for early market. Roots flattened globe-shaped. Skin deep red, flesh slightly zoned. Suitable for the most critical market gardeners planting. Much extra work has been done on this to perfect uniformity in shape and color of roots. Pkt. 5c; Oz. 15c; 1/4 lb. 40c.

3579 EXTRA EARLY EGYPTIAN. Very early, valuable for forcing early. Tops small, roots distinctly flat and moderately thick. Flesh dark red with lighter zones. Pkt. 5c; Oz. 15c; 1/4 lb. 40c.

3580 EDMAND'S BLOOD TURNIP. Roots nearly round, dark red. Flesh purplish-red with very little zoning. Pkt. 5c; Oz. 15c; 1/4 lb. 40c.

3581 OHIO CANNER. All-America. A beet that has been especially developed to meet the exacting demands of the canner and which therefore makes an unusually fine home garden variety. Roots very round and uniform and with small tops. Flesh tender, extremely dark red, retaining its color after canning. Slower in growth than Detroit so gives a long period of use in the home garden. Pkt. 8c; Oz. 20c; 1/4 lb. 50c.

Mangel Beets

for Poultry and Stock

One ounce of seed should sow a 75 to 100 foot row. 5 to 6 pounds an acre.

3586 MAMMOTH LONG RED. Heaviest yielding of all Mangels, often 2 1/2 feet long and very heavy. Grows half out of the ground, easy to harvest. Oz. 8c; 1/4 lb. 20c; Lb. 60c.

3589 DANISH SLUDSTRUP. Large oval orange colored roots, more than half above ground. Flesh white tinged yellow. Extremely high sugar content. Valuable dairy beet. Oz. 10c; 1/4 lb. 25c; Lb. 65c.

3588 GIANT HALF SUGAR. The richest of all Mangels in sugar content and feeding value. Ready to harvest earlier than others. Skin rose colored, flesh, white. Oz. 10c; 1/4 lb. 25c; Lb. 65c.

SWISS CHARD or SPINACH BEET, See Page 54.

In Cabbage seed, the best is the cheapest in the long run. Therefore, we offer only the highest quality that it is possible to obtain from the most reliable growers, super strains that cost real money to produce and maintain.

Culture—Sow the seed of early varieties in hot beds or boxes indoors in February and March, transplanting to the open ground in April and May at which time seed of the mid-season varieties may be sown for later transplanting. Seed of the late varieties should be sown in good garden ground early in May and transplanted later. Cabbage should stand 18 to 24 inches apart in rows 30 to 36 inches apart. Cabbage should be thoroughly cultivated throughout the season. An ounce should produce about 2,500 plants, 1/4 lb. enough for one acre.

Early Cabbages

3617 EARLY JERSEY WAKEFIELD. Most popular of the pointed heads. Forms edible head very early, about the same as Golden Acre in season. Absence of large outer leaves allows close planting. Pleasing flavor, distinct from the round head varieties and we strongly recommend it for the home garden. Pkt. 5c; Oz. 30c.

3616 GOLDEN ACRE. Earliest round headed variety, forming one week earlier than Copenhagen market. Absence of large outer leaves permits close planting. Pkt. 8c; Oz. 40c.

3631 PENN STATE BALLHEAD. A greatly improved variety of the Danish type, of exceptionally uniform size and shape. It is a short stemmed very solid head and attractive bright green color. Tender, crisp and fine flavored. Pkt. 10c; 1/2 oz. 25c; Oz. 45c; 1/4 lb. \$1.35.

3619 COPENHAGEN MARKET. The standard early round variety, little later than Wakefield, but much larger and heavier. Heads averaging 8 to 10 lbs. each. Compact habit, few outer leaves permits close planting. Very profitable. Pkt. 5c; Oz. 25c.

Disease Resistant Cabbage

In sections where Cabbage "Yellows" is damaging, it pays to plant strains bred for disease resistance. The seed of the two disease-resistant varieties listed below, is gathered from plants grown on diseased soil and which proved immune.

3623 MARION MARKET. Early. The disease-resistant Copenhagen Market. A few days later, otherwise has all the good points of that variety. Pkt. 10c; 1/2 oz. 30c; Oz. 50c.

3629 WISCONSIN NO. 8 HOLLANDER. Late. A disease-resistant strain of the popular Hollander. Being slightly larger and more leafy than the parent. Heads round, somewhat flattened and more solid, splendid keeping qualities. Practically 100% immune. Pkt. 10c; 1/2 oz. 25c; Oz. 45c.

Broccoli

All restaurants and more homes now serve Broccoli because it has more delicate flavor and easier to grow than its cousin, Cauliflower. An excellent late summer and fall crop. Both heads and leaves near them are tender and palatable.

3601 LARGE WHITE. Large white compact heads, tender and of delicate Cauliflower flavor. Grow like Cauliflower. Pkt. 10c; Oz. 50c.

3602 ITALIAN GREEN SPROUTING. A distinct variety. Like Asparagus, it is very tasty. Grows quickly, producing a bluish-green head in about 90 days. After the head is removed the plant produces branches bearing smaller terminal heads, which may also be used. Pkt. 5c; Oz. 30c.

Cabbages Selected Strains

Late Cabbages

3626 DANISH BALLHEAD. For quality, no other winter Cabbage equals Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. This is the short stemmed strain which is considered the most desirable. Pkt. 8c; Oz. 35c.

3641 DRUMHEAD SAVOY. Leaves finely curled, heads solid. If you have never grown Savoy Cabbage, try it this year. Pkt. 5c; Oz. 25c.

3610 CHIEFTAIN CABBAGE. Earlier than Savoy, medium large drum-head, dark olive-green, thick flat, rounded. Produces high percentage of well formed firm heads. Pkt. 15c; 1/4 oz. 30c.

3628 PREMIUM LATE FLAT DUTCH. Probably more largely grown than any other late variety, because everybody knows it is always reliable. Uniform, large flattened heads of fine quality and a good keeper. Largely grown to supply Kraut factories. Beats all others in tonnage per acre. Pkt. 5c; Oz. 25c.

Chinese Cabbage

While not a true Cabbage, this vegetable is as easily grown as the true cabbage, and is considered by many superior in quality. It resembles celery to some extent in its habits of growth as well as in flavor. Much esteemed for salads. Sow either early for spring crop or in late summer for fall crop.

3618 CHIHILI. Long slender head 15 inches tall, solid and crisp, self-folding, and hearts well blanched, tender and sweet. Early and very sure heading. Superior to Pe-Tsai. Pkt. 8c; Oz. 25c.

3617 WONG-BOK. Short thick heads 8 inches long, firm and tightly folded. Thick hearts, full, crisp and tender, and of excellent quality, self-folding. Much esteemed for salads. Pkt. 5c; Oz. 25c.

Red Cabbages

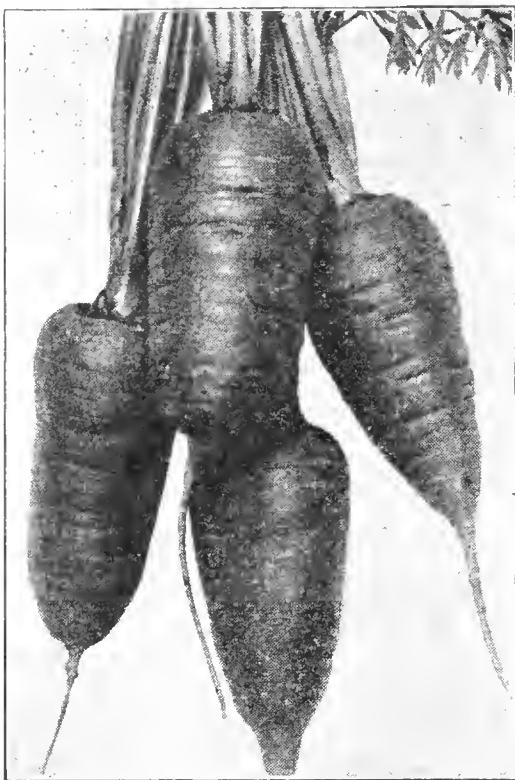

3636 RED DELICIOUS. Early. Hard, solid heads, round and very uniform. Delicious and attractive. Pkt. 10c; 1/2 oz. 25c; Oz. 45c.

3637 MAMMOTH RED ROCK. Late. Largest Red Cabbage. Deep red at the heart. Large, vigorous plant, very hardy with medium length stem. A favorite for coldslaw. Pkt. 5c; Oz. 35c.

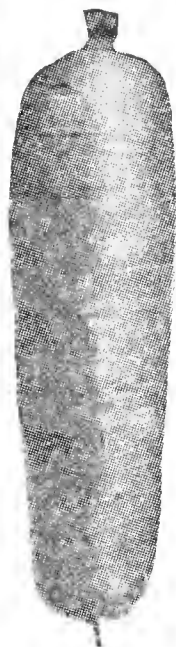

Brussels Sprouts

3612 LONG ISLAND IMPROVED. Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 ft. high. Cultivate same as late Cabbage. Produces tender little heads from October to December. Pkt. 5c; Oz. 25c; 1/4 lb. 75c; Lb. \$2.00.

Our Vegetable Seeds have been bred to grow the highest quality produce.

Danvers Half-Long Carrot

Scarlet Nantes

Chantenay Carrot

Orange Coreless Carrot

Carrots

Culture—For the earliest crop sow seed in April, as soon as the soil is in good workable condition. Later plantings can be made in May and June. The soil should not be heavily fertilized, especially with manure. Cover the seed about $\frac{1}{2}$ inch deep, spacing the rows 12 to 16 inches apart. It is important to thin the plants to stand not closer than 3 inches. One ounce should sow a 200 ft. row, 2 to 3 lbs. an acre.

3666 CHANTENAY or MODEL. A model all around Carrot. Smooth, fine grained, of very good eating quality. When fully developed the roots are about 6 inches long and $2\frac{1}{2}$ inches in diameter at the shoulder. Though medium early, roots may be pulled while small so it gives you baby Carrots with the earliest. An excellent fall and winter keeper. Pkt. 5c; Oz. 10c; $\frac{1}{4}$ lb. 35c.

3670 RED CORED CHANTENAY. Also called "Coreless" Chantenay. A selection from the regular Chantenay with decidedly deeper orange color and with small, very tender cores of almost uniform color with the surrounding flesh, making it very desirable for salads. Pkt. 5c; Oz. 15c.

3662 DANVERS HALF-LONG. The roots average $1\frac{1}{2}$ inches in diameter and 5 to 6 inches long, holding their thickness well to the point. A favorite with market gardeners for bunching as size, shape, color are ideal. Pkt. 5c; Oz. 10c; $\frac{1}{4}$ lb. 35c.

3668 ORANGE CORELESS. This is a beautiful carrot for the home garden and market. In shape it is quite like Nantes but a trifle more tapering, smooth, 7 to 8 inches long and $1\frac{3}{4}$ to 2 inches across at the shoulder. On real good deeply worked soil the roots are longer (10 to 12 inches). Color is orange-red. This Carrot is a remarkably good keeper, yet is tender, with a very small core (practically coreless). Pkt. 10c; Oz. 20c.

3673 MORSE'S BUNCHING. All-America Gold Medal. Developed to fill a demand for a longer and better colored bunching Carrot. Almost cylindrical, rounded shoulders, well stumped, 2 inches in diameter, 9 to 10 inches long. Deep red-orange, roots free from wrinkles. Pkt. 5c; Oz. 15c; $\frac{1}{4}$ lb. 40c.

3674 TENDERSWEET. This new Carrot brings us one of the finest medium sized orange fleshed varieties with uniform shape and well tapered roots. The deep orange flesh is crisp and tender, of finest flavor and of uniform color throughout. They will average 6 to 8 inches in length at maturity. Pkt. 10c; Oz. 25c; $\frac{1}{4}$ lb. 75c.

3672 IMPERATOR. All-America. A beautiful deep, rich orange. Long and smooth, sloping shoulders, tapered to semi-blunt end. 7 to 8 inches long. Orange flesh, tender and with indistinct core. Excellent table quality, attractive market variety. Strong for good bunching. Pkt. 5c; Oz. 15c; $\frac{1}{4}$ lb. 40c.

3661 OXHEART or GUERANDE. Second early, short stocky shape two to three inches in diameter and with abrupt blunt tip. Excellent for shallow or heavy soils. Keeps well. Heavy yielder. Pkt. 5c; Oz. 10c; $\frac{1}{4}$ lb. 35c.

3667 SCARLET NANTES. Tender and delicious, half-long, cylindrical, 6 inches long, slender and fine looking. Orange-red, fine grained and free from core. Pkt. 5c; Oz. 15c; $\frac{1}{4}$ lb. 40c.

3671 LONG ORANGE. Excellent, heavy producing, mid-season variety, 10 inches long, $2\frac{1}{2}$ inches broad, tapering to point. Deep orange. Pkt. 5c; Oz. 15c; $\frac{1}{4}$ lb. 35c; Lb. \$1.00.

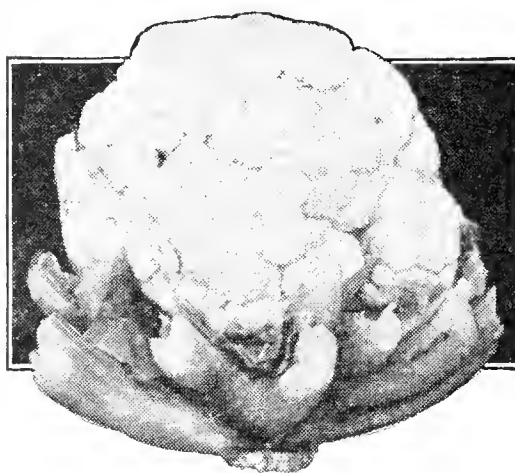

Cauliflower

In Cauliflower seed, the best is by far the cheapest in the long run and we offer you only the best that our growers can produce. We could have Cauliflower seed grown for us at half the prices but you would not get half as good results

Culture—Cauliflower is grown much the same way as early Cabbage, the seeds started in hotbeds or boxes in February or early March. An extra transplanting into other boxes or cold frames before setting outdoors is beneficial. In these set 2 inches apart each way. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun. One ounce will produce 2000 plants, 5 ounces an acre.

3651 EARLY SNOWBALL, "SUPER" STRAIN. Earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. Plants compact, close growing outer leaves, heads solid, medium large and snowy-white. Pkt. 15c; $\frac{1}{8}$ oz. 50c; $\frac{1}{2}$ oz. \$1.50; 1 oz. \$2.75; 2 ozs. \$4.50; $\frac{1}{4}$ lb. \$8.00.

3652 DRY WEATHER or DANISH GIANT. Valuable strain, forming good heads on dry soil and during stretches of dry weather, when other varieties fail. Head beautiful, large, snow-white and protected by large leaves making it easier to "whiten" than Snowball. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. Pkt. 12c; $\frac{1}{8}$ oz. 40c; $\frac{1}{2}$ oz. \$1.10; 1 oz. \$2.00; 2 ozs. \$3.50.

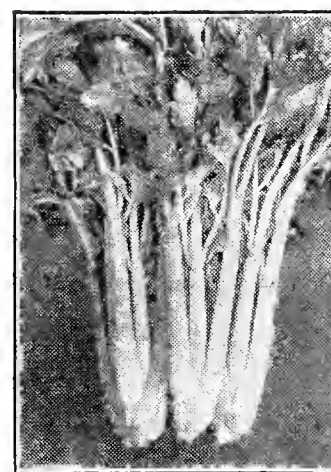

Early Snowball Cauliflower

Chicory

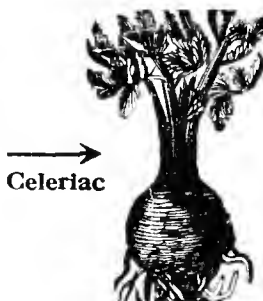

3739 WITLOOF CHICORY, French Endive. Grow your own winter salad. Delicious and appetizing salad. Easily grown. Sow seed in open, June 1st, lift roots in the fall. Pkt. 10c.

Chives

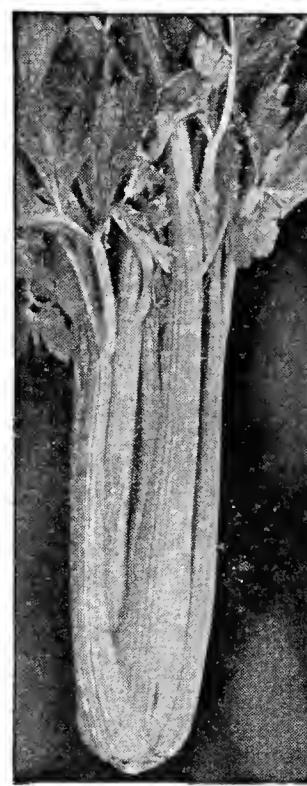

3742 CHIVES. A small perennial plant of the onion family. Leaves have a delicate onion flavor. Used in salads and for flavoring soups, stews, etc. Plant forms a small clump for frequent cutting. Pkt. 5c; $\frac{1}{4}$ oz. 25c; Oz. 75c.

Celery, Giant Pascal

Celeriac

Celery, Golden Plume

Celery

Culture—Sow seeds early in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, or to boxes, setting them 4 to 5 inches apart. When about 8 inches high, and stocky, set them out 6 to 8 inches apart in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. The late crop may be set out in July. One ounce should produce 5000 to 7500 plants, 4 ounces, enough plants for an acre.

3681 GOLDEN PLUME or WONDERFUL. A wonderful new celery, grows quickly, produces semi-dwarf, heavy stalks, thicker than Self-Blanching, with a well blanching solid heart. The flavor is excellent. Not a winter keeper or long shipper. Pkt. 10c; $\frac{1}{2}$ oz. 35c; Oz. 60c.

3682 DWARF GOLDEN SELF-BLANCHING. Original Strain. Dwarf, compact, thick, heavily ribbed stalks, which blanch easily to a clear waxen-yellow. More extensively grown for both home and market than any other variety. Original strain, best quality. Pkt. 5c; $\frac{1}{2}$ oz. 25c; Oz. 40c.

3684 WHITE PLUME. Earliest and most easily blanched celery, hence popular. Branches silvery-white. Pkt. 5c; Oz. 25c.

3685 GIANT PASCAL. Standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. Excellent quality. Golden-yellow heart, fine nutty flavor. Pkt. 5c; Oz. 25c.

3687 SUPREME GOLDEN. Early strain producing tight, blocky plants of exceptional uniformity. Stems 7 to 10 inches to first joint, full hearted. Easily blanched, tender and crisp. Pkt. 15c; $\frac{1}{4}$ oz. 50c; Oz. \$1.50.

Celeriac

3693 LARGE SMOOTH PRAGUE. Turnip-rooted Celery. Solid, roots highly esteemed for serving like parsnips or turnips and flavoring soups, etc. For winter, store same as turnips. Pkt. 5c; Oz. 25c.

Cress

3749 CRESS. Curled or Pepper Grass. A small salad plant. Ready for table in 30 days. Leaves have a very refreshing flavor. Pkt. 5c.

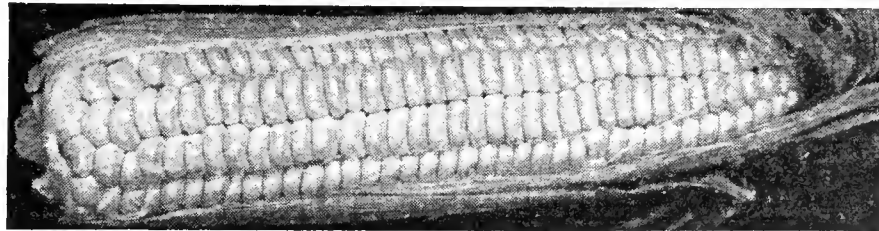

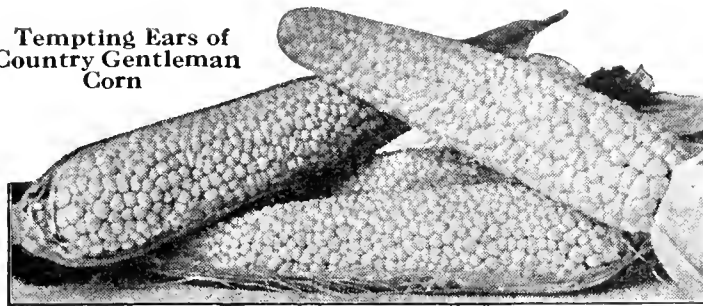

3750 WATER CRESS. For salads or garnishing. May be grown in a stream of water or small pond. Pkt. 10c; $\frac{1}{2}$ oz. 25c; Oz. 40c.

Corn Salad or Fetticus

3746 CORN SALAD or FETTICUS. A delicious salad plant for late fall, winter or spring use. Resembles Spinach, easy to grow. One ounce will sow a 50 foot row. Ounce 20c.

Golden Sensation

Tempting Ears of
Country Gentleman
CornGolden
Bantam

Corn, Sweet

Do you know why home grown Sweet Corn always tastes best? Because within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar and they rapidly deteriorate in flavor. You can seldom buy absolutely fresh Sweet Corn, so unless you have grown your own, you probably do not realize how deliciously sweet it can be.

Culture—A constant supply of Sweet Corn may be had from your garden by planting a succession of early, midseason and late varieties and by planting each of the kinds every week or ten days. Plant when danger of frost is past and the ground is warm, rows 2 to 3 feet apart and 8 to 10 inches apart in row. Corn likes frequent cultivation until the ears are formed. 1 lb. will plant about 300 hills or 400 to 500 feet of row. 12 to 15 lbs. will plant an acre.

3713 BRADLEY'S GOLDEN EARLY MARKET. The earliest large true Sweet Corn of golden color. Ears good size, 12 rows, 7 to 8 inches long, well filled. Early, large and delicious. Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.

3700 GOLDEN BANTAM. The good quality of Golden Bantam is too well known to need long description. Sales show it to be the most popular variety we list. Ears 6 inches long, with 8 rows of broad kernels as sweet as honey. Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 80c.

3708 GOLDEN GIANT. Introduced to combine size and earliness. Cross between Golden Bantam and Howling Mob, producing heavy stalks, two 12 to 14 rowed ears. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c.

3697 WONDER BANTAM. Large, more prolific type of Golden Bantam, 8 to 10 inches long. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3710 WHIPPLE'S EARLY YELLOW. Ears 8 to 10 inches, 14 to 16 rows of deep, tender kernels of very fine eating quality. Ready to use only a few days later than Golden Bantam. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3719 GOLDEN EVERGREEN. A cross between Golden Bantam and Stowell's Evergreen combines the good qualities of both, 8 inch ears, 12 to 14 rows of rich golden-yellow kernels. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

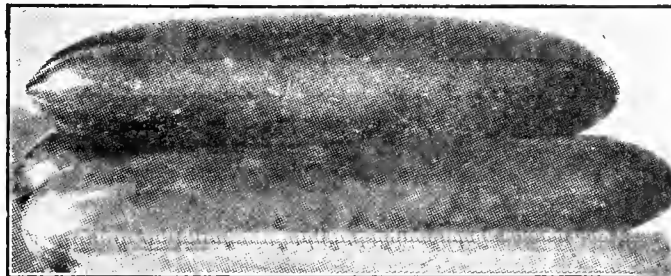

3695 GOLDEN SENSATION. Very early and productive well filled 10 inch ears of fine quality, earlier than Early Sunshine. Kernels rich golden-yellow, sweet and tasty. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3701 EARLY GOLDEN SUNSHINE. 12 rowed, 8 inch ears, 10 days earlier than Golden Bantam. Developed at North Dakota Experiment Station, where earliness and hardiness are necessary. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3718 STOWELL'S EVERGREEN. Select Strain. Standard main crop variety, much used for the home garden, market and canning. Very tender and sugary, remaining in condition a long time. Our stock is the true, deep, broadkerneled strain. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3720 EARLY EVERGREEN. About one week earlier than Stowell's Evergreen. Ears average 7½ to 8 inches long, with 14 to 16 rows of white kernels, deeper and slightly narrower than Stowell's. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3716 COUNTRY GENTLEMAN or "Shoe Peg." Par excellence when quality is desired. The kernels are so deep that there is little room left for cob. Market Gardeners who supply hotels and high class restaurants depend on this for their main crop. The ears are 6 to 7 inches long, small white cob. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

Cucumber Longfellow

3709 BLACK MEXICAN CORN. By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3723 ALL SEASON SWEET CORN COLLECTION. Four varieties, all of highest merit, which if planted at the same time will give you a continuous supply practically all summer. Early Golden Sweet, Templin-Bradley's Hybrid Bantam, Asgrow Golden Colonel and Golden Evergreen. ¼ lb. of each for only 50c.

3704 EARLY GOLDEN SWEET. See Page 43.

New Hybrid Sweet Corn

Increases yield 50% and produces vigorous sturdy and disease resistant plants and enables this kind of Corn to outyield the standard varieties under all sorts of conditions. Stalks are uniform and much larger proportion of marketable ears of even size and shape. Uniform maturity so the gardener can harvest the crop with a minimum of immature or over ripe ears.

3699 GOLDEN CROSS BANTAM. A true hybrid produced by Purdue Experimental Station. Stalks sturdy, ears 8 inches long, 10 to 12 rowed, extremely uniform. Highly resistant to Stewart's disease. Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.10.

3712 KINGSCROST GOLDEN BANTAM. Double cross among four inbred strains. Early, uniform, stalks 4½ feet, ears golden-yellow, 7 inches, with 10 and 12 rows. Very fine quality. Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.

3714 TEMPLIN-BRADLEY'S HYBRID GOLDEN BANTAM. A new Hybrid of outstanding qualities. 6 to 10 days earlier than other crosses, 6 to 6½ feet tall with uniform 7½ inch ears of 12 rows of rich golden deep kernels. Pkt. 5c; ¼ lb. 15c; 1 lb. 50c; 3 lbs. \$1.25.

3715 ASGROW GOLDEN COLONEL. A golden-yellow Country Gentleman, the result of crossing Golden Bantam with Country Gentleman. Stalk and ear growth and maturity time the same as Country Gentleman but with the color and sweet eating quality of Golden Bantam. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.

3722 HYBRID BLENDS. Page 43.

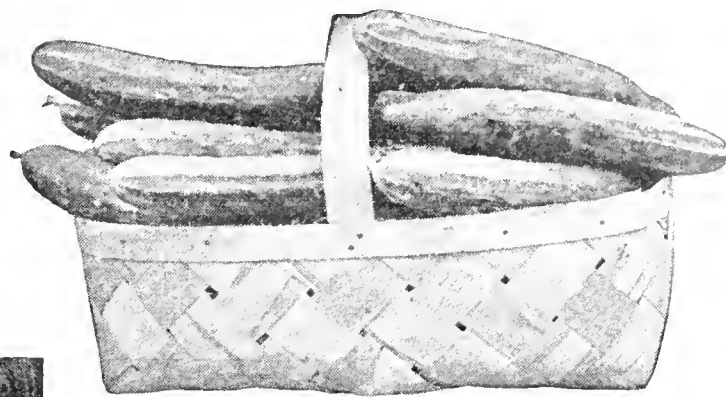

Pop Corn

Culture—Grown like Sweet Corn, but may be planted closer in the row, or hills 18 to 24 inches apart. Allow the ears to mature thoroughly before cutting. One pound will plant 500 to 600 hills.

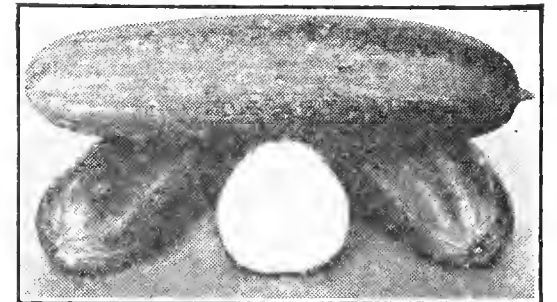

3726 JAPANESE HULLESS, Australian Hulless or Tom Thumb. A dwarf, heavy yielder, peculiar in form, being nearly as thick as long. Kernels similar to White Rice. Its crowning merit lies in its popping quality, fine flavor. Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 75c.

3732 SOUTH AMERICAN MUSHROOM. Also called T.N.T. or Dynamite. Vigorous growth, 6 to 8 feet tall producing two and often three ears, 8 to 9 inches long of deep orange kernels, smooth and round, which pop larger than any Corn known, and of rich creamy-yellow, deliciously tasty. Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 80c.

3734 GOLDEN BABY RICE or Golden Hulless. Small-kerneled, pops entirely hulless, large and flaky. Of finest quality and flavor. Ears medium short and stocky. Pkt. 5c; ¼ lb. 10c; 1 lb. 25c.

Extra Long Green Cucumber

Cucumber, Straight-8

Cucumbers

Culture—Light warm soil best for Cucumbers, although they do well in most any good well drained soil. After frost danger is past, sow seed in hills 4x4 or 4x6 ft. apart. Cover ½ inch deep, 8 to 10 seeds in each hill. Later when danger of insects is over remove all but 3 or 4 of the strongest plants. One ounce should plant about 500 hills, 2 lbs. an acre.

Slicing Cucumbers

3756 IMPROVED WHITE SPINE. Universally satisfactory. More extensively grown than any other. 6 to 7 inches long, 2½ inch diameter. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3757 TEMPLIN-BRADLEY'S EVERGREEN. Uniform fruits 6 to 8 inches, smooth, attractive, rich dark green, which it holds well to full maturity. Solid, crisp, tender. Small seed cavity. Fine garden variety. Money maker for gardeners. Pkt. 10c; Oz. 25c.

3762 LONG GREEN IMPROVED. A model in size, form and color. Uniformly long, smooth, deep green. Money maker for the market gardener and a universal favorite for home use. 12 to 15 inches long, solid and crisp with few seeds. Pkt. 5c; Oz. 20c; ¼ lb. 50c.

3765 LONGFELLOW. Extra long slicer. Excellent new variety, long, slender dark green. 12 to 14 inches by 2½ inches. Color holds well. Pkt. 10c; Oz. 30c; ¼ lb. 85c.

3764 HYBRID WHITE SPINE. Ideal slicing Cucumber. Long, slender, uniform in shape and size. Very few seeds, firm flesh, good keeping quality. Dark green color is held until ripe. Not as long as Longfellow but more certain to do well under poor conditions, so for the home garden it is perhaps preferable to Longfellow. Pkt. 5c; Oz. 20c; ¼ lb. 50c.

3766 STRAIGHT-S. Most outstanding Cucumber developed in past decade. 8 inches long, uniformly cylindrical, deep dark green. Extremely productive, attractive, superior quality. Pkt. 5c; Oz. 15c; ¼ lb. 45c; 1 lb. \$1.40.

3761 EARLY FORTUNE. Good length, rich dark green, well shaped and with thick white flesh and small seed cavity. Improvement over White Spine. Retains its color long after pickling. Pkt. 5c; Oz. 15c; ¼ lb. 40c.

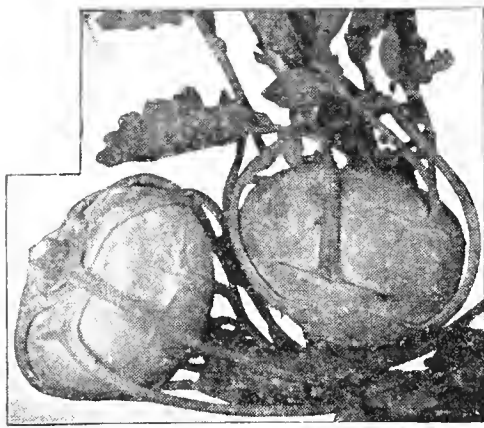

Pickling Cucumbers

3776 CHICAGO PICKLE. Meets the most exacting requirements of critical pickle makers. Right size, shape, color, and heavy yielder. Square ends. Pkt. 5c; Oz. 15c; ¼ lb. 50c.

3775 JERSEY PICKLE. Very prolific and exceedingly popular. Short, smooth, light green, excellent quality. A good slicer as well as pickler. Tapering ends. Pkt. 5c; Oz. 15c; ¼ lb. 50c.

3771 EXPRESS PICKLER. Earliest picking Cucumber, bears heavily small uniform fruits. 3½ to 4 inches. Pkt. 5c; Oz. 20c; ¼ lb. 60c.

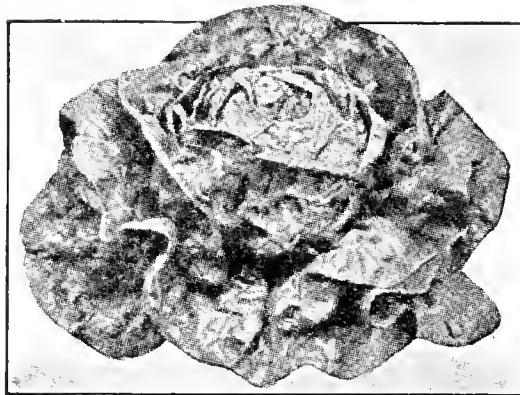

3780 NATIONAL PICKLING. A superior strain developed by Michigan Agricultural College. Straight, symmetrical, 6 inches when mature. Pkt. 5c; Oz. 15c; ¼ lb. 50c.

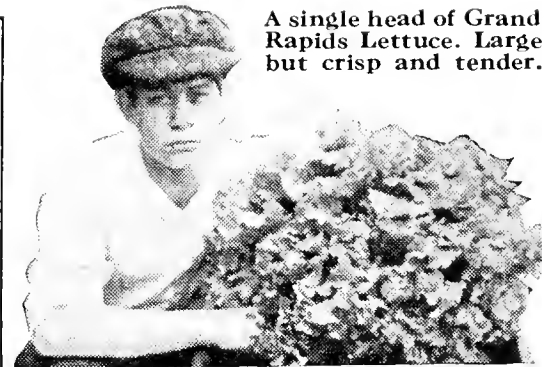

Kohlrabi, White Vienna

New York Spineless Egg Plant

Templin-Bradley's New Earlihead

A single head of Grand Rapids Lettuce. Large but crisp and tender.

Egg Plant

Culture—Egg Plant likes rich moist soil. Start seed early in hot beds or boxes and transplant once before setting out in the open ground when it is thoroughly warm. In the garden the plants may be set 2 feet apart in the rows which are 2½ to 3 feet apart. One ounce should produce 1500 to 2000 plants, 4 ounces enough for an acre.

3781 NEW YORK SPINELESS. Best main crop variety about 10 days later than Black Beauty, but larger and more prolific. Each plant often bears 8 to 10 nice "Eggs" of deep rich purple. Fruits perfectly spineless. Our strain of seed is of Superfine Quality. Pkt. 5c; ¼ oz. 18c; Oz. 50c.

3785 BLACK BEAUTY. Earliest good variety, is best for Northern States. Dwarf growing, fruits 2 to 3 lbs. Holds dark purple color for a long time. Pkt. 5c; ¼ oz. 18c; Oz. 50c; ¼ lb. \$1.50.

Endive

3794 GREEN CURLED. Best known variety. Highly prized as a salad during autumn and early winter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows in last of August. For early summer use, sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3795 BATAVIAN BROAD LEAVED. Escarole. Full hearted. Broad, deep green waved leaves and thick creamy-white midribs. Inner leaves form a cluster head which blanches white, crisp and tender. Pkt. 5c; Oz. 20c; ¼ lb. 45c.

Herbs

Most varieties of Herbs thrive best in sandy soil and some are stronger and better flavored when grown on rather poor soil. Sow as early as possible, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop, the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

3815 MAMMOTH DILL. 2 or 2½ feet. Used for making Dill Pickles. Pkt. 10c; Oz. 15c.

3811 ANISE. Seeds used medicinally and in cooling cordials. Pkt. 10c.

3812 SWEET BASIL. The leaves and tender tips used in soups, stews and sauces. Pkt. 10c.

3813 CARAWAY. Seeds used in confections, cakes and medicinally. Pkt. 10c.

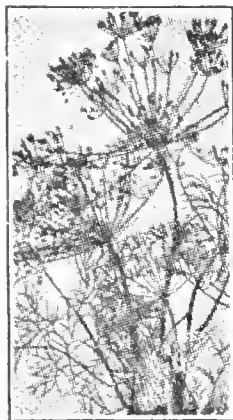

3814 CORIANDER. Seed used for flavoring confections and garnishing. Pkt. 10c.

3816 SWEET MARJORAM. Leaves and tender shoots used for flavoring, green or dried. Pkt. 10c.

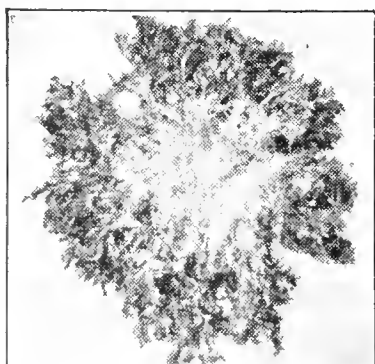

3817 SAGE. Leaves used either green or dried for flavoring. Pkt. 10c.

3818 SUMMER SAVORY. The young shoots, leaves and flowers used for seasoning, especially with String Beans. Pkt. 10c.

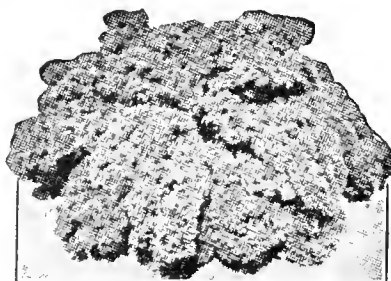

3810 MIXED HERBS. A mixture of these and many other popular varieties. Pkt. 10c.

Dill

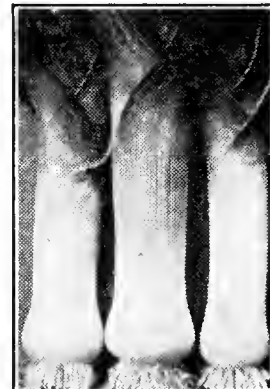

Green Curled Endive

Kale, Dwarf Green Curled

Cos or Celery Lettuce

Leek, American Flag

Lettuce

Culture—To be of best quality, Lettuce should be quickly grown. Likes plenty of moisture and fertility, will stand cool, even cold, soil and weather. Sow seed thickly, covering ⅓ to ¼ inch deep in rows 12 to 16 inches apart, thin as soon as well started to stand 6 to 8 inches apart. Heading varieties need more room and transplanting. Plants for extra early may be started under glass or in a box in a sunny window. Any sunny corner of the garden may be prepared early and a little Lettuce started. One ounce should sow about a 125 foot row and produce around 3000 plants, 3 lbs. will produce enough for an acre.

Head Lettuce

3851 CREAMY HEARTS. (Black Seed) Cabbage heading variety, thick, fleshy, bright green leaves. Hearts golden-yellow, crisp and buttery. Heads somewhat conical when young, but large and round when mature. Fine producer, sure-header. Fine for home garden or market use. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3846 TEMPLIN-BRADLEY'S EARLIHEAD. An early, sure-heading variety with dark green, crinkled leaves. Heads large, compact and produce crisp, solid snow-white hearts of the finest quality. Pkt. 10c; Oz. 25c; ¼ lb. 75c; Lb. \$2.00.

3849 NEW YORK. Los Angeles or Cabbage or Wonderful. (White Seed) One of the largest varieties, forming immense heat-resisting heads. Outer leaves dark green, heart blanches white, crisp and tender. This variety sold by produce men and grocers as Iceberg. Pkt. 5c; Oz. 25c.

3851 IMPROVED HANSON. (White Seed) In table quality is perfection itself. Free from bitter taste. Medium sized, tender, crisp heads. Leaves curly with fringed edges. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3853 TRUE ICEBERG. (White Seed) Large crisp heading variety, very firm and solid. Leaves light green, fringed and wavy with edge tipped bronze. Heart white. Very good flavor, excellent for home garden but not a shipping variety. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3848 BIG BOSTON. (White Seed) Big, tender, cabbage-heading Lettuce. Sure to please the most critical grower. The most popular of all head Lettuces. Medium large, finely shaped with slight tinge of brown on outer leaves. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

3847 TEMLEY EVERGOOD. (White Seed) Forms head quickly, has tender, golden-yellow inner leaves and heart. Delicious. Head medium small, hard and compact. Heads well under almost all conditions. Pkt. 5c; Oz. 15c; ¼ lb. 40c.

3852 CALIFORNIA CREAM BUTTER. Royal Summer Cabbage or German Butter. (Black Seed) Reliable. Heads are rich, creamy-yellow inside, tender buttery flavor. Outer leaves green, spotted brown. Stands hot dry weather. Pkt. 5c; Oz. 15c; ¼ lb. 40c.

3855 MAY KING. Earliest heading Lettuce. Compact, light yellowish-green tinged reddish-brown and the heart blanching a rich golden-yellow of excellent quality. Pkt. 5c; Oz. 15c.

Kale or Borecole

3826 DWARF GREEN CURLED. Quickly grows a mass of tender fleshy green leaves for boiling greens. Pkt. 5c; Oz. 10c; ¼ lb. 25c.

3827 TALL GREEN CURLED SCOTCH. Produces an abundance of dark green heavily curled and wrinkled leaves of excellent quality. Grows 24 to 30 inches tall. Pkt. 5c; Oz. 12c; ¼ lb. 30c.

Curled or Leaf Lettuce

3839 EXTRA SELECT GRAND RAPIDS. (Black Seed) This is the first to reach edible or marketable stage. Big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter, as well as for early crops outdoors. Heads remain fresh several days. Pkt. 5c; Oz. 15c; ¼ lb. 50c.

3841 EARLY CURLED SIMPSON. (White Seed) One of the most satisfactory for early outdoor planting, forming large, loose heads of attractive light yellowish-green. Leaves are ruffled and curled. Always very tender. Pkt. 5c; Oz. 15c.

3840 EARLY PRIZE HEAD. "The Red Lettuce." (White Seed) One of the best thin leafed varieties for home garden. Leaves large, curled or crimped, bright green, tinged with brownish-red at edges, tender, crisp and sweet. Pkt. 5c; Oz. 15c.

3842 BLACK SEEDED SIMPSON. Bunching, non-heading, crisp, light yellowish-green leaves. Grows quickly, fine quality. Pkt. 5c; Oz. 15c.

3857 COS, PARIS WHITE or TRIANON. Romaine or Celery Lettuce. Self-folding, smooth dark green leaves. Heads compact and solid with well blanched interior. Crisp, sweet and tender. Pkt. 5c; Oz. 15c; ¼ lb. 40c.

3860 MIXED LETTUCE. Many plant for Chicken Feed. Bargain packet and very interesting as well. Loose leaf and heading varieties. Pkt. 5c; Oz. 10c; ¼ lb. 30c Lb. \$1.00.

Kohlrabi

Turnip-Rooted Cabbage. Forms bulbs on stem above ground. Use while young, tender, sweet and nutritious. Sow in rows covering ½ inch deep, and thin the plants to stand 6 to 8 inches apart.

3831 EARLY WHITE VIENNA. Bulbs light green, early and tender, with small tops. A good forcing strain. Pkt. 5c; Oz. 20c; ¼ lb. 70c.

3832 EARLY PURPLE VIENNA. Bulbs purple on surface; flesh light green. Few days later than White Vienna, a little larger and more heat resistant. Pkt. 5c; Oz. 20c; ¼ lb. 70c.

Leek

3861 AMERICAN FLAG LEEK. Belongs to the onion family. Fall and winter substitute for green onions. Leaves flat, stems large and bulbous. Pkt. 5c; Oz. 15c; ¼ lb. 50c; Lb. \$1.50.

Templin-Bradley's New Vegetables for 1939

See Page 43 for Descriptions.

It is our pleasure to offer you six new varieties of vegetables for 1939. They will please the most particular gardeners.

Before we permitted a single seed to get out of our hands, these new kinds were tested for eating quality and productivity. The crispness and sparkle of the radish, cucumber and carrot, the tenderness and sweetness and large yield of the peas and corn, and the solid fleshed, low-acid, juicy, heavy bearing new tomato, will make you wish you could enjoy them every day of the year instead of just in season.

These varieties in your garden will give you genuine satisfaction.

KINDLY NOTE

Bradley's Cleveland Banner Tomato is new. This is the second year it has been offered to the public. Tests in many states prove its merit as a wonderfully productive midseason variety. Wisconsin reported it had produced 3.25 tons per acre, after the third picking, August 23rd, which was better than Rutgers. We hope you like it.

Wondermelon

Southport Red Globe

Melons

Muskmelons—Cantaloupes

Culture—Muskmelons delight in warm, rich soil. Do not start outside until the soil and weather are warm, so for extra early crops plant some seed in the hotbed or window box. When it is warm enough to plant outside make the hills 3 x 4 ft. apart. Put ten or a dozen seeds in each hill, covering about 1 inch, and when the plants are well up, thin to three or four plants. Melons left on the vines until they are dead ripe are immeasurably better than any you can buy in the stores. When ready the melons should be a little soft and they will part readily from the stem. One ounce will plant about 60 hills, 2 to 3 lbs. an acre.

3872 SUGAR or HONEY ROCK. Well named, deep orange flesh, delightful flavor that must be eaten to be fully appreciated. Oval, medium in size, not ribbed but finely netted. Flesh deep and well colored to the rind. Rind is extremely tough and the flesh firm, making it a very fine market melon and one that will hold well on the vines until fully ripe. Floyd Bradley likes the sureness of its quality and its flavor better than any other. **Pkt. 5c; Oz. 20c; 1/4 lb. 50c.**

3864 GOLDEN LAKE CHAMPLAIN. Earliest, deep yellow fleshed melon. Its vigorous growth, productiveness, hardiness and good quality have been proven beyond any doubt. Temptingly sweet, nearly round, medium size and heavily netted. **Pkt. 5c; Oz. 15c; 1/4 lb. 40c.**

3865 GOLDEN HEARTS. A Melon to make your mouth water, the deep golden-salmon flesh is so sweet. Medium small, the size in demand for fancy hotel trade, averaging 5 to 6 inches in diameter, yet heavy because of thick flesh and small seed cavity. Ripens right down to the rind. **Pkt. 5c; Oz. 15c.**

3879 OHIO SUGAR. Sweetest Green Fleshed Melon. Flesh thick, tender, yet firm and sugary. Round or slightly oval, distinctly ribbed and netted. **Pkt. 5c; Oz. 15c; 1/4 lb. 40c.**

3870 EXTRA EARLY OSAGE. Our own strain for the gardener who wants the top prices for the earliest Osage, or who wants the first Osage on his own table. A week earlier than Miller's Cream, a trifle smaller and just as good quality. **Pkt. 5c; Oz. 15c.**

3868 OSAGE or MILLER'S CREAM. Sometimes called the Queen of Melons. Medium, large, oval deeply ribbed. Dark green, with lighter bands between the ribs. Flesh very thick, orange-salmon, superb quality. **Pkt. 5c; Oz. 15c; 1/4 lb. 40c.**

3876 IMPERIAL. All-America Award of Merit. Luscious new Melon, orange flesh, netted yellow fruit of Rocky Ford size, excellent flavor and texture. Vine-ripened, keeps indefinitely. **Pkt. 10c; Oz. 20c; 1/4 lb. 60c.**

3866 EMERALD GEM. Right size for your table, sweet as honey. Not large, but very prolific and early. Round, slightly flattened at the ends. Skin emerald-green under the netting. Flesh bright orange-yellow. **Pkt. 5c; Oz. 15c.**

3874 BENDERS SURPRISE. Skin light greenish-yellow, flesh rich salmon, thick and of fine eating quality. Good size, quite uniform oval shape and ripen early. **Pkt. 5c; Oz. 20c; 1/4 lb. 50c.**

3878 ROCKY FORD. The best known green fleshed variety. Rich green, thick, juicy and delicious flavor. Our seed is Northern grown, insuring early maturing crops. **Pkt. 5c; Oz. 15c.**

3885 HONEY DEW. Sometimes called a winter melon as it matures 3 to 4 weeks later than other varieties. Will keep some time in storage. Not adapted to short seasons but where it can be grown to maturity it is certainly delicious. 8 to 10 lbs., nearly round, smooth skin, almost white turning to a light lemon-yellow as it ripens. **Pkt. 5c; Oz. 15c; 1/4 lb. 40c.**

Mustard

3909 SOUTHERN GIANT CURLED MUSTARD. All-America Gold Medal Award. 2 feet high. Fine curled leaves which are very tasty for salad. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c; Lb. 75c.**

Okra or Gumbo

3933 WHITE VELVET. Bears long, slender, white, fleshy pods. Cook like Asparagus or cut up into soups, stews, catsup, etc. Best if used when pods are 2 to 3 inches long. **Pkt. 5c; Oz. 12c; 1/4 lb. 25c; Lb. 70c.**

Watermelons

Even in the northern states it is now possible to grow your own Watermelons. Early varieties ripen in about 75 days.

Culture—Watermelons are grown very much like Muskmelons, but the hills require more space, 6x6, or 6x8 ft. After the soil and weather is warm drop a dozen seeds in each hill, covering one inch deep and later thinning out to the three strongest plants. Cultivate as long as possible before the vines cover the ground. One ounce will plant about 30 hills.

3901 WONDERMELON. Improved Kleckley's Sweets. Best for general use. Shape and color of Kleckley's Sweets. Larger, tougher, stronger rind and of unsurpassed sweetness and flavor. Medium early. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c.**

3902 STONE MOUNTAIN. Finest quality, claimed to be sweetest of all large sized Melons. Round, dark green, with medium thick rind and flesh of rich crimson, solid and free from stringiness. Prolific, matures in 90 days. **Pkt. 5c; Oz. 12c; 1/4 lb. 35c; Lb. \$1.00.**

3895 KLECKLEY'S SWEETS. For short distance shipping or market, of uniformly large size. Exceptionally sweet and luscious, crisp and of bright scarlet. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c.**

3898 HALBERT'S HONEY. Medium large, oval, dark green, flesh bright crimson, sweet and melting, without trace of pulp. Rind very thin, flesh ripens uniformly throughout. White seeded. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c; Lb. 75c.**

3900 TOM WATSON. One of the old favorite varieties but still retaining its popularity. Long green, heavy and of large size. Flesh light red and of fine quality. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c.**

3903 NORTHERN SWEET. This large early maturing Melon is especially suited to those gardens in the north where other varieties will not mature. **Pkt. 10c; Oz. 20c; 1/4 lb. 50c.**

3894 COLE'S EXTRA EARLY. Harris Early. The best variety to grow where seasons are short, as it is ready to eat 10 days earlier than the late varieties like Tom Watson. Medium size and nearly round. Skin mottled dark and light green, flesh dark red and very sweet. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c.**

3907 NEW WINTER. Round, pale yellow when ripening, bright red, sugar-sweet flesh. Take the Melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving Day. **Pkt. 5c; Oz. 12c; 1/4 lb. 35c.**

Citron

3908 CITRON, RED SEEDED. Make delicious preserves. Cultural directions printed on packet. **Pkt. 5c; Oz. 10c; 1/4 lb. 25c; Lb. 75c.**

White Onions

3917 SOUTHPORT WHITE GLOBE. The most attractive white. Globe shaped, clear, transparent skin, flesh crisp, fine grained, mild flavor. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

3925 WHITE WELSH. Best for early green onions, forming fine long white onions of excellent quality and of fine appearance when bunched, forming no bulb. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

3921 WHITE PORTUGAL or Silver-skin. Medium size, flattened, pure white. Most widely planted white variety. Flesh fine grained, firm, hard, long keeping. Much planted for sets. **Pkt. 5c; Oz. 25c; 1/4 lb. 75c.**

3929 EXTRA EARLY WHITE BARLETTA. One of the earliest. Grown for pickling but makes good bunching onion. Bulbs small, almost round at pickling stage, becoming slightly flattened as they mature. Flesh white, mild and sweet. Skin silvery-white. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

Onions

Grow plenty for early green onions and big bulbs for cooking in fall and winter also. A small space will yield lots of onions and they are easy to grow. The first requisite is good seed, the second, early sowing.

CULTURE—Get your onion seed in as early as possible. Cover in rows 1/4 to 1/2 inch deep, the rows 12 to 16 inches apart. Thin the young plants to stand about 2 inches apart or more, depending on the variety and the richness of the soil. Onions like a rich moist loam and will develop more and larger bulbs per foot on that kind of soil. One ounce should sow a 150 ft. row, 4 to 5 lbs. per acre.

Yellow Onions

3914 PRIZETAKER. A splendid large growing variety for fall markets or home use. With favorable conditions they may be grown from seed to weigh two pounds or more. Handsome straw-yellow skin, resembling the imported Spanish Onion. The flesh is mild and tender. **Pkt. 5c; Oz. 20c.**

3913 SWEET SPANISH or VALENCIA. A variety that will grow immense bulbs in your own garden as tender and sweet as the imported Spanish Onions. Globe shaped with light yellow skin and pure white flesh, mild and sweet. Better keeper than the original Spanish types. May be started indoors and transplanted, or started in the garden. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

3918 YELLOW GLOBE DANVERS. Extensively grown for market, in the great onion growing sections. Bulbs flattened, globe-shaped, good size, bright straw-yellow. Flesh white, tinged yellow. Slightly earlier than Southport. **Pkt. 5c; Oz. 15c.**

3922 OHIO YELLOW GLOBE. Almost perfect globe sometimes slightly oblong in upper half and flattish at the bottom. Deep yellow. Firm, hard flesh. Excellent keeping qualities. Popular all over the country. Trifle later than Danvers. **Pkt. 5c; Oz. 15c; 1/4 lb. 50c.**

3923 SOUTHPORT YELLOW GLOBE. Excellent late or main crop variety similar in size and shape to the other Southports, but rich yellow. Flesh white, mild flavor, fine keeping quality. Heavy producer. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

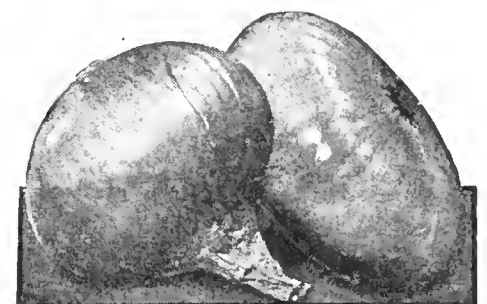

3927 YELLOW DUTCH or STRASBURG. Bright yellow somewhat flattened, with mild, sweet flesh and fine keeping qualities. Popular for growing yellow onion sets. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

3924 EBENEZER or JAPANESE. Excellent for producing sets, exceptional keeping quality. Deep but flattened, medium size. Dark yellow skin, with firm flesh. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

Red Onions

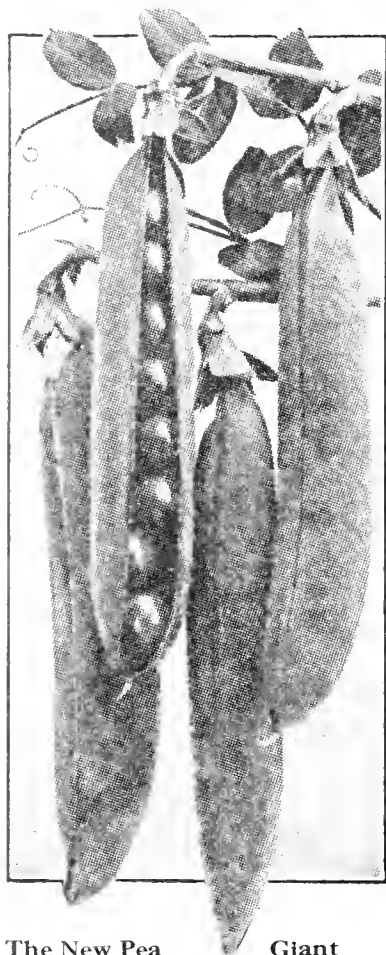

3916 RED WETHERSFIELD. For winter markets. Deep purplish-red, flesh white, sometimes slightly tinged pink, mild and sweet. **Pkt. 5c; Oz. 20c.**

3915 SOUTHPORT RED GLOBE. For fall or winter markets. Excellent keeper. Medium size, globe-shaped, slightly oblong, deep purplish-red in color. **Pkt. 5c; Oz. 20c; 1/4 lb. 60c.**

Early CropperNott's
Excelsior

Grow Your Own
Peas—Enjoy Their
Sweet Flavor.

Hundredfold

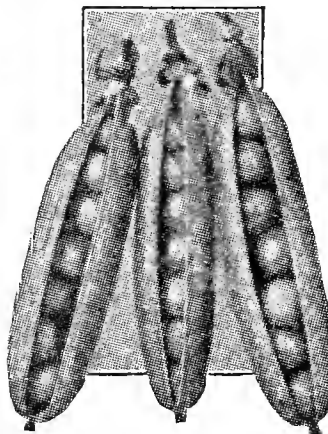

Note the mass of nodules
on the roots.

Peas

Peas from your own garden picked only an hour or two before eating are twice as sweet as those you would purchase. Try them and you will be convinced.

Culture—A Planting should be made every 10 days from earliest spring until hot weather. Another planting in late summer for fall, often gives good results. The extra early smooth seeded varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties a little later. One pound should sow a 50 foot row, 120 to 180 lbs. an acre.

Extra Early Alaska

Early Tall Peas

As the varieties in this group grow 2½ to 3½ feet tall, they are better when given supports on which to grow. As a rule they bear more pods over a larger period than the real dwarf varieties.

3968 THOMAS LAXTON. The best quality and heaviest yielding of all early tall Peas, only a few days later than Alaska, 2½ ft. tall. Pods long, broad, handsome, packed full of delicious sweet Peas. You can pick enough for a nice meal in short order. Outyields Gradus by 25%. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.25.

3967 FIRST-IN-MARKET. Extra-early, smooth white seeded. 2½ ft. Well filled pods 2 to 2½ inches long. Pkt. 5c; ¼ lb. 10c; Lb. 35c.

3972 GIANT EARLY CROPPER. Exception to the rule that larger podded require longer season. Practically as early as Alaska, ready for edible pods in about 8 weeks. The seed is smooth and hardy and can be planted extra early. The pods are large, dark green, 4 inches long and usually contain 7 large, sweet, light green Peas. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3979 MORSE'S MARKET. Best early mid-season Pea for home gardens and market. Vines robust, 24 to 30 inches tall. Pods 5 to 5½ inches long and ¾ to ¾ inches broad, straight, pointed, smooth, dark green and well filled with 8 to 11 Peas. Received an Award of Merit. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3966 EXTRA EARLY ALASKA, or Earliest of All. Hardest extra early. Very productive. Smooth, bluish-green, very fair quality. Height 2½ ft. Pkt. 5c; ¼ lb. 10c; Lb. 35c; 3 lbs. 90c.

3970 GRADUS. An early variety of very fine quality, bearing very profusely, pods averaging 4 inches in length, filled with 6 to 9 Peas, exceedingly sweet and tender. Vines are vigorous, growing 3 to 3½ feet tall. Peas are ready to use in 55 to 60 days. Seed large and wrinkled. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3969 WORLD'S RECORD. Improved Gradus. Superb quality. Heavier, sure yielder. 2 to 2½ ft. tall, pods dark green 3½ inches long. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

Parsnips

Culture—Parsnips are easily grown. Seed is slow to germinate. Soil should be worked fine and seed covered not more than ½ inch. Keep surface moist to prevent crusting over the seed. Thin out to stand 3 inches apart. One ounce should sow a 150 ft. row, 5 to 6 lbs. an acre.

3944 LARGE SUGAR. Improved Hollow Crown or Guernsey. Very productive. Large white roots, tender and sweet. Generally considered the best. Pkt. 5c; Oz. 12c; ¼ lb. 35c; Lb. \$1.00.

3945 SHORT THICK. Decidedly distinct with short thick roots, only 6 to 8 inches long in the thickened part. Desirable for shallow soil and easy to pull. Flesh tender and sweet. Pkt. 5c; Oz. 15c; ¼ lb. 45c.

Early Dwarf Peas

3958 NEW SWEETENDER. A fine new Pea of highest quality. 15 inches tall. Abundance of thick, heavy pods 3½ to 4 inches long in pairs. Large, sweet and tender. Pkt. 5c; ¼ lb. 15c; Lb. 45c.

3971 HUNDREDFOLD. An early large podded dwarf variety, 18 to 20 inches tall. A strain of Laxtonian and to be preferred to Laxtonian or Blue Bantam. Pods 4 inches long, 6 to 8 large dark green Peas of excellent quality. Ready for picking in about 60 days, only a few days later than Progress. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.25.

3953 LAXTON'S PROGRESS. Perhaps the best of the Laxtonian group. It is a few days earlier than Hundredfold. Pods, 4 inches long, 7 to 9 peas, curved, pointed, 10 to 20 inches tall. Edible Peas in 8 to 9 weeks after planting. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.25.

3955 NOTT'S EXCELSIOR. Early, dwarf, wrinkled, sure cropper, pods very freely produced and they bear well, even under adverse conditions. A very fine, highly bred variety of sturdy, compact growth, 15 to 18 inches high. Pods chock-full of luscious peas of unusually sweet flavor. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3956 LITTLE MARVEL. A very fine early dwarf wrinkled Pea, with blunt very dark green, 3 inch pods, filled with good quality Peas. Only 15 inches high. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.25.

We have discontinued Laxtonian, Peter Pan and Blue Bantam, considering Laxton's Progress and Hundredfold the best of the group. If you have been growing either one of these three, you may safely shift to Progress or Hundredfold and you will be more than pleased.

3952 MAY MORN. The seed will stand cold, wet soil. It pods up quickly, so it is possible to have May Morn in edible stage before any other large podded high quality Pea. 15 to 18 inches tall, broad 4 inch pods. Pkt. 5c; ¼ lb. 15c; Lb. 45c.

3973 NEW GIANT WONDER. Similar to Nott's Excelsior, though even better as it is not susceptible to wilt. Vines 15 to 18 inches tall. Pods plump, straight, blunt-ended, 3 inches long and thickly filled with large round Peas, deliciously sweet and delicately flavored. Pkt. 5c; ¼ lb. 15c; Lb. 45c; 3 lbs. \$1.25.

3957 SUTTON'S EXCELSIOR. Only a few days later than Nott's Excelsior, but larger podded and of greater total productiveness. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

Peanuts

Culture—Plant the same time as corn, in rows 2½ ft. apart. Drop the shelled nuts 8 to 10 inches apart, cover 1 inch deep. When the plants are nearly full grown throw earth up to them. This will cause the nuts to form.

3948 EXTRA EARLY SPANISH. With this variety it is possible even in the North to mature a nice crop of peanuts. Nuts not extremely large but solid and sweet. Plant on light sandy soil in full sunshine. Pkt. 10c; ¼ lb. 20c; Lb. 50c.

Inoculate your Peas, Beans and Sweet Peas

All Legumes, plants that bear their seed in pods, form a partnership at the base of the roots with bacteria that are able to secrete nitrogen and give it to the plant.

Peas, Beans and Sweet Peas belong to the Legume family and therefore should be inoculated with NITRAGIN to stimulate the germs. The Bacteria will form on the roots like lumps or nodules, making more productive crops.

NITRAGIN is an old reliable Inoculator and is used by Agricultural Colleges. It is packed in a rich soil-like granular medium, easy to mix with your seed. Inoculate for Good Yield.

4340 Garden Package Plenty for a family garden 10c

Edible Podded Peas

3981 MAMMOTH MELTING SUGAR. Height 4 feet. Well deserves its name. Cook and eat pods and all when half grown, same as Wax Beans. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3982 DWARF GRAY SUGAR. Height 30 inches. Similar to Melting Sugar, dwarf, 2¾ to 3 inches in length. Round and gray. Pkt. 5c; ¼ lb. 10c; Lb. 35c; 3 lbs. 90c.

Main Crop and Late Peas

3975 TELEPHONE. Old favorite, very large pods, 4 to 5 inches long, 8 to 10 very large Peas of delicate light green color, excellent quality. 4 to 4½ feet tall. Very vigorous and productive. Fine second early variety. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3977 DAISY or DWARF TELEPHONE. Quite similar to Telephone in all respects except height of vine and maturing time. 2 feet tall. Pods 4 to 4½ inches long, 8 to 9 large dark green Peas. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3974 ALDERMAN, BEST TALL MAIN CROP. 3½ feet. Telephone type, but darker green. Robust and productive. Large size and unsurpassed in quality. Best of the large main-crop varieties. Pkt. 5c; ¼ lb. 12c; Lb. 40c; 3 lbs. \$1.10.

3978 IMPROVED STRATAGEM. Large pods. Telephone type. Sturdy vines 2½ feet tall. Ideal late variety. Long pointed pods, average 4½ inches. Pkt. 5c; ¼ lb. 10c; Lb. 35c; 3 lbs. 90c.

Parsley

Culture—Parsley seed is slow to germinate and soaking a day before sowing will hasten growth. Cover only ¼ inch deep and do not let the soil crust over the surface. Thin the plants to stand 4 to 6 inches apart, and you can start cutting the leaves as soon as they are sizable. Make several sowings of Parsley seed to have a continual supply of fresh leaves. One ounce should sow a 150 ft. row. Our standard packets will contain ⅛ to ⅓ ounce of seed.

3936 LINCOLN GREEN PARSLEY. Finest curly strain. Seed carefully selected from exhibition plants. Plants compact. Pkt. 8c; Oz. 15c.

3937 CHAMPION MOSS CURLED. For garnishing soups or stews. Our strain is extra nice fine curled. Pkt. 5c; Oz. 12c; ¼ lb. 30c; Lb. \$1.00.

3939 PLAIN LEAVED. Leaves flat and deeply cut but not curled. Deep green. Used for flavoring and drying. Pkt. 5c; Oz. 10c.

3938 TURNIP ROOTED. Edible roots resembling small Parsnips. Used in flavoring soups, etc. Foliage like plain Parsley. Pkt. 5c; Oz. 12c.

3940 PARAMOUNT. A new "triple-curved" variety with rich dark green foliage in thick compact fronds. Plant growth very vigorous and uniform. The finest home garden variety and excellent for bunching. Pkt. 10c; Oz. 20c; ¼ lb. 50c.

Ruby King Pepper

Perfection Pimiento

Harris' Early Giant Pepper

Peppers

Culture—Start early in hot bed or boxes in the house. Cannot stand cold. Do not plant in the

open until May 15th, or all frost danger is past. Space 18 to 24 inches apart each way, keep well cultivated. Any good garden soil if not too dry will grow Peppers. Do not plant Hot varieties next to Sweet ones. One ounce should produce 1500 plants, one packet enough for family garden.

3989 HARRIS' EARLY GIANT. Very large, produces enormous fruits maturing earlier than other large varieties. Sweet; produces big crops, even in the north. 5 inches high and 3½ inches thick, deep green turning to brilliant red, flesh thick with sweet, pleasant flavor. **Pkt. 5c; ½ oz. 30c; Oz. 50c.**

3986 RUBY KING. We have an improved strain of this popular variety. Very heavy bearer, thick meat and mild flavor. Average 5 inches long, dark green when young, ruby red when mature. **Pkt. 5c; ½ oz. 25c; Oz. 45c.**

3988 CALIFORNIA WONDER. Flesh, ¼ to ¾ inch thick. Blocky shape, square cross section. Some weigh a pound. Deep green. Reaches full growth with late sorts, marketable fruits ready with earlies. Fruits of fine quality, free from pungency, sweet and tender. **Pkt. 10c; ½ oz. 30c.**

3991 HUNGARIAN LONG HOT WAX. Early for canning and pickling. Light yellow when young, turning red. 2 to 3 inch diameter, 6 to 7 inches long, thick flesh. **Pkt. 10c; ½ oz. 30c; Oz. 50c.**

3984 TOMATO SALAD, SUNNYBROOK. Like a Tomato in appearance, smooth, round and bright scarlet. Exceptionally mild, sweet and very thick meat. **Pkt. 5c; ½ oz. 25c.**

3985 PERFECTION PIMIENTO. Bright crimson, medium size and shape, ideal for stuffing. Flesh very thick, fruit smooth. **Pkt. 5c; ½ oz. 20c.**

3993 LONG RED CAYENNE. Large type, early maturing. 4 inches long, 1¼ to 1½ inches in diameter and tapering. **Pkt. 5c; ½ oz. 25c; Oz. 45c.**

3990 OSHKOSH. Very fine yellow, uniform, smooth, slightly ribbed, heart-shaped fruits. Semi-dwarf, very productive. Medium sized, rich bright green, maturing canary-yellow. One of the finest salad peppers. **Pkt. 5c; ½ oz. 30c; Oz. 50c.**

3995 CHINESE GIANT. Early, prolific, large shapely fruits, 5 to 6 inches through and 4½ to 5 inches deep. Bright green. **Pkt. 10c; ½ oz. 30c; Oz. 50c.**

3992 SMALL HOT VARIETIES. Mixture excellent for pickling peppers, sauce, etc. **Pkt. 5c; ½ oz. 20c; Oz. 40c.**

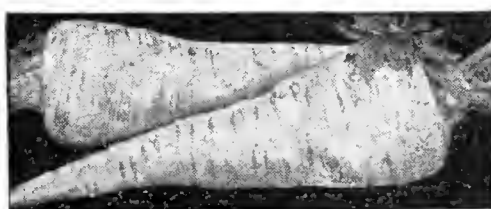

3987 RED CHILI. Small, hot peppers, yellowish-green, changing to rich red. Fruits 2 to 2½ inches long, ¾ to 1½ inch thick, tapering. **Pkt. 5c; ½ oz. 30c; Oz. 50c.**

3983 PEPPER, KING OF THE NORTH. Early, heavy bearing, enormous fruits, dark green color turning deep red. Flesh thick, mild and sweet. One of the very best home garden varieties. **Pkt. 10c; ½ oz. 30c.**

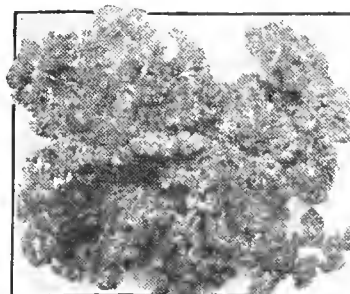

3994 WORLD BEATER. A fine variety, early and large. Fruits freely produced 3 to 3½ inches through by 4½ to 5 inches long. **Pkt. 5c; ½ oz. 25c; Oz. 45c.**

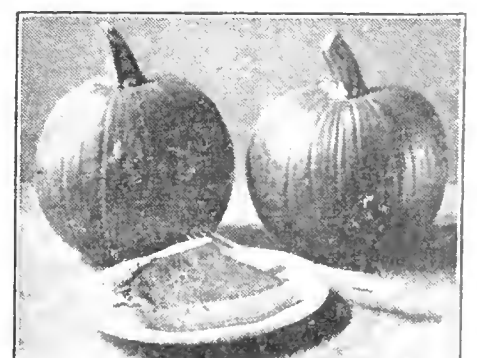

Sparkler White Tip Radish

Large Sugar Parsnips

Parsley, Lincoln Green

Small Sugar Pie Pumpkin

Radishes

CULTURE. Radishes are easily grown in nearly any soil but to be at their best they should grow quickly. For this purpose a light sandy loam is perhaps the best, rich but not recently fertilized with stable manure. A freshly manured soil produces ill shaped and often wormy roots. Sow as early as soil can be worked ½ inch deep, the rows 12 to 16 inches apart. One ounce should sow a 100 ft. row, 8 to 10 lbs. an acre.

4005 EXTRA SELECT SCARLET GLOBE. Strain grown from transplanted roots, as nearly 100 percent perfection as possible. Fine scarlet color, sparkling white flesh, tops just large enough for bunching. This is a beautiful oval rooted type, you will be delighted with the uniformity of the roots as you pull them. **Pkt. 5c; Oz. 15c.**

4006 FRENCH BREAKFAST. Beautiful Radish of true olive shape. Color bright carmine with clear white, in lower portion. **Pkt. 5c; Oz. 10c.**

4004 EARLIEST SCARLET GLOBE. Most popular of the extra early Globe. Rapid growth, brilliant scarlet. Regular strain. **Pkt. 5c; Oz. 10c.**

4003 SAXA. Ready sometimes in 20 days from seed. Bright scarlet, round as a marble, smooth, very little tap root and small top. Flesh crisp and juicy. **Pkt. 5c; Oz. 10c; ¼ lb. 25c.**

4007 SPARKLER, WHITE TIP. Very early, globe shaped. Bright scarlet with distinct white tip. Our strain shows distinct white base, so it is pretty for bunching. **Pkt. 5c; Oz. 10c; ¼ lb. 25c.**

4008 CRIMSON GIANT GLOBE. Giant Butter. Not ready as quickly as other round varieties but it grows larger, often 1¾ to 2 inches in diameter, and still crisp and firm. **Pkt. 5c; Oz. 10c.**

4010 GLOWING BALL. All America. This new forcing Radish is well named. It is a bright fiery scarlet-red with a suffusion of orange, making it an unusual brilliant color. It has a perfect round shape, a small top and a threadlike tap-root. **Pkt. 5c; Oz. 15c; ¼ lb. 35c.**

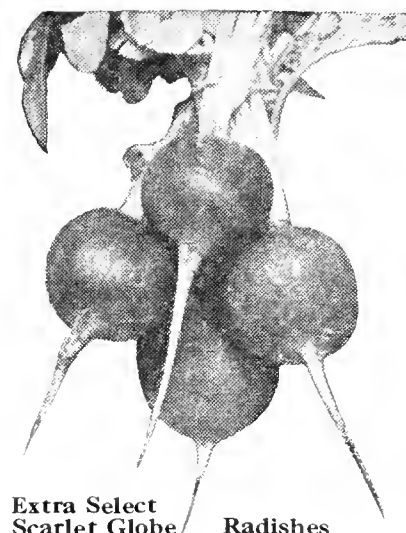

4015 BRIGHTEST LONG SCARLET. Flesh pure white, crisp, tender and mild. Roots long, slim, bright scarlet with white tips, averaging about 6 inches in length. Small tops and quick maturing. **Pkt. 5c; Oz. 10c; ¼ lb. 25c.**

4016 LONG WHITE ICICLE. The finest White Radish grown. Long slender roots which remain tender and crisp until grown. Matures early, has small top which permits close planting. **Pkt. 5c; Oz. 10c.**

4012 COMET. This wonderful new Radish is perfectly ball shaped, bright scarlet, with thin tap-roots. If left in the ground, Comet grows a larger size than other strains and still remains solid and crisp when other Radishes become pithy. **Pkt. 10c; Oz. 20c; ¼ lb. 60c; Lb. \$1.75.**

Rhubarb

4038 VICTORIA. Easily grown from seed. Sow in early spring, transplanting in early fall to permanent location. Do not pull the stalks the first year after transplanting, thus allowing the plants to become well established. **Pkt. 10c; Oz. 20c; ¼ lb. 50c; Lb. \$1.50.**

Extra Select Scarlet Globe Radishes

4013 TEMPLIN-BRADLEY'S RED BIRD. This marvelous new Radish of rich scarlet color has almost perfect globe shaped roots very short tap-roots and medium small tops. The flesh is solid, crisp and sparkling white and of the finest flavor. Roots of very uniform size, shape and color. **Pkt. 10c; Oz. 20c.**

4014 BILLIARD BALL. All America. A fine dark scarlet of nearly crimson ball-shaped variety of much merit. Has small top, a complete absence of neck and comparatively small tap-root. Flesh white, crisp and tender. **Pkt. 15c; Oz. 30c.**

Winter Radishes

It is possible for you to have delicious crisp, solid Radishes for winter and spring. They make tasty salads and can be used as a boiled vegetable. Just sow the seed in June or July. Thin out plants to stand 4 to 6 inches apart in the rows. Keep the Radishes in box of sand in cool place.

4024 CHINA ROSE. Olive shaped, white flesh.

4026 LONG BLACK SPANISH. White flesh.

4027 ROUND BLACK SPANISH. White flesh.

4025 CELESTIAL or MAMMOTH WHITE CHINA.

4023 MIXED WINTER RADISHES.

Prices on all above: **Pkt. 5c; Oz. 15c; ¼ lb. 35c; Lb. \$1.00.**

Pumpkins

Culture—Grow same as winter Squash. One ounce should plant 25 hills, 8 seeds per hill; about 3 pounds an acre.

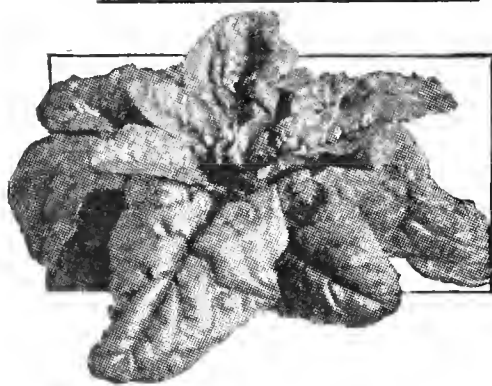

3996 SMALL SUGAR PIE. Is so well known as the best Pie Pumpkin, it requires little description. The fruit is small to medium, with solid fine grained flesh. **Pkt. 5c; Oz. 10c; ¼ lb. 30c.**

3998 JUMBO, or King of Mammoths. Fruit enormous size, often 150 to 200 pounds. Grow a few for the County Fair. Fair quality for pies and great for stock food. **Pkt. 5c; Oz. 15c; ¼ lb. 40c.**

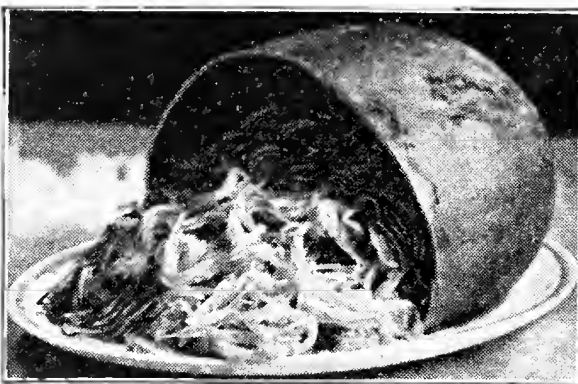

3999 CONNECTICUT FIELD or BIG TOM. Grown so often in corn fields as feed for cows. Fair Pie Pumpkin also. Vines bear well. Large Pumpkins with hard reddish-orange shell. **Oz. 10c; ¼ lb. 25c; Lb. 75c.**

4000 WINTER LUXURY. Very popular and satisfactory for the home garden, producing abundantly. Slightly oval 10 to 12 inches in diameter. 8 to 10 pounds. Skin golden-russet and finely netted. Flesh thick, sweet and rich creamy-yellow. **Pkt. 5c; Oz. 15c; ¼ lb. 45c.**

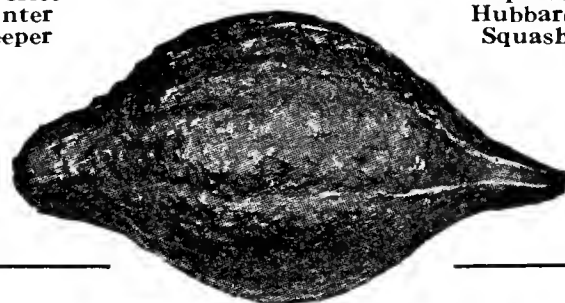

Make several plantings of radishes and enjoy them all Summer.

Reselected Bloomsdale
Savory Spinach

Salsify

Squash, Golden Macaroni

Favorite
Winter
KeeperImproved
Hubbard
SquashBush
Scallop

Crookneck

Acorn, Squash
Table
Queen

Salsify

Culture—Salsify is grown very much like Parsnips though the rows may be spaced a little closer. Do not plant in freshly manured soil as this has a tendency to produce ill shapen roots. One ounce should plant a 50 ft. row.

4041 MAMMOTH SANDWICH ISLAND, Vegetable Oyster. In soup it has a delicious oyster flavor. Fine fried in butter or boiled and made into fritters. Perfectly hardy and may remain in the garden for spring use. Dig early in the spring, however, before growth starts. **Pkt. 10c; Oz. 25c; ¼ lb. 75c.**

Spinach

There is no more healthful vegetable than Spinach and it is so easy to grow that everyone should plant it.

CULTURE—Sow the seed in April for spring use, in August for fall use and in September for wintering over. Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin plants to four inches apart in rows. Spinach delights in cool, moist weather. One ounce should sow a 100 ft. row, 10 lbs. per acre.

4049 RESELECTED BLOOMSDALE SAVOY. Valuable variety, vigorous, rapid growing, hardy plants, compact. Leaves large, thick, fleshy and savoyed or crumpled. Produces first leaves quicker than any other variety. Big crop in 6 weeks after early spring sowing outdoors. **Pkt. 5c; Oz. 10c; ¼ lb. 20c.**

4052 VIKING. All-America Award of Merit. A new Spinach of outstanding quality. Meritorious, medium to dark green, long standing, giant leaved. Far above the average in quality. Comparable to Nobel Giant Leaved, though darker green and larger leaved. Smooth leaved in summer but inclined to crumple in cool weather. **Pkt. 5c; Oz. 10c.**

4047 LONG STANDING BLOOMSDALE. Not quite as early as Reselected but stands 2 to 3 weeks longer. Heat resistant. Dark foliage. **Pkt. 5c; Oz. 10c.**

4045 PRINCESS JULIANA. Ten days later than Bloomsdale. Distinctly long standing. Slow to develop flower stalks. Large, crumpled, rich dark green leaves. For spring or fall planting. **Pkt. 5c; Oz. 10c; ¼ lb. 20c.**

4046 KING OF DENMARK. Trifle earlier than Long Standing Bloomsdale and remains in condition longer. Plants large, flatter and more spreading. **Pkt. 5c; Oz. 10c; ¼ lb. 20c.**

4050 NOBEL GIANT LEAVED. All-America. Best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth, good texture. Season between Bloomsdale Savoy and Long Standing Bloomsdale. Round Seeded. **Pkt. 5c; Oz. 10c.**

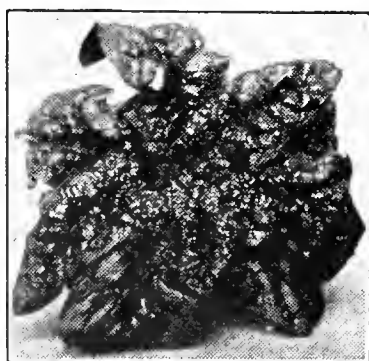

4048 NEW ZEALAND. Tetragonia or Everbearing Spinach. The only variety that will give you good cuttings of Spinach greens all summer without going to seed. Fine quality. This is an entirely distinct species, with smaller leaves, produced in very great abundance. **Pkt. 5c; Oz. 12c; ¼ lb. 30c.**

Mustard Spinach

3912 TENDERGREEN. Japanese plant of Mustard family which has become popular for its quick production of edible crop of excellent, mild, tender, mustard-like greens. Large green leaves ready in 4 weeks from planting and are prepared and used the same as Mustard or Spinach greens. **Pkt. 5c; Oz. 10c; ¼ lb. 25c; Lb. 75c.**

Sunflower

4077 MAMMOTH RUSSIAN. Best egg producing food known for poultry. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry house, where the hens can reach them. **Ounce Pkt. 5c; ¼ lb. 10c; Lb. 25c; 3 lbs. 60c.**

Spinach, Princess Juliana

Swiss Chard

Squashes

Of the small bush varieties, 1 oz. will plant about 40 hills, 2 to 3 lbs. per acre. Of the large seed winter varieties like Hubbard, 1 oz. will plant 15 to 20 hills, 3 to 4 lbs. per acre.

Summer Squashes

4055 COCOZELLE. Italian Vegetable Marrow. Most delicious summer squash grown. Bush type of plant, without runners, fruit long and slender, marbled with light and dark green. Use when 6 to 8 inches long. Cook like other summer squashes or slice and fry in butter. **Pkt. 5c; Oz. 15c; ¼ lb. 45c; Lb. \$1.00.**

4057 GIANT SUMMER CROOKNECK. Largest and one of the earliest summer varieties. Very productive, large, deep, orange, warty fruits often 2 feet long. Flesh thick, firm and tender. **Pkt. 5c; Oz. 15c; ¼ lb. 45c; Lb. \$1.00.**

4062 EARLY PROLIFIC STRAIGHTNECK. Early, uniformly productive until frost. Fruits straight, smooth and creamy color on plants of bush type which permits close planting. Use when 4 to 5 inches long. **Pkt. 10c; Oz. 15c.**

4060 GIANT SUMMER STRAIGHTNECK. This novel squash has the "crook" taken out of the neck, having all the good qualities without the defects of its parent, Golden Giant Summer Crookneck. It is much easier to pack. The mature fruits measure 18 to 20 inches long, deep orange in color, thickly warted, with deeper flesh and thicker more meaty neck than the old "Crookneck" type. **Pkt. 5c; Oz. 15c; ¼ lb. 45c; Lb. \$1.00.**

4058 YELLOW BUSH SCALLOP. Golden Custard. A mammoth strain of the Yellow Bush Scallop. Fruits are round and flat with scalloped edges, rich golden-yellow and with thick tender flesh of finest quality. Very early. **Pkt. 5c; Oz. 15c; ¼ lb. 45c; Lb. \$1.00.**

4061 EARLY WHITE BUSH SCALLOP. Patty Pan or Cymling. Very early, fruits flattened and scalloped, about 8 inches in diameter, comparatively smooth on the surface and creamy-white in color. Flesh white, tender and sweet. **Pkt. 5c; Oz. 12c; ¼ lb. 35c; Lb. \$1.00.**

Swiss Chard

No other vegetable will produce more nutritious greens from a small space than Swiss Chard or Spinach Beet. It grows rapidly forming large leaves with broad flesh stems and mid-ribs. Sow the seed in April or May and thin the plants out to stand 8 inches apart.

3596 LUCULLUS. Very large heavily crumpled, thick leaves and creamy-white stalks. **Pkt. 5c; Oz. 15c; ¼ lb. 35c.**

3597 LARGE WHITE RIBBED. Dark Green. Has enormous leaves not quite as crumpled as Lucullus and pearly-white stalks extremely thick and broad. **Pkt. 5c; Oz. 20c; ¼ lb. 45c.**

Turnips and Rutabagas

CULTURE—For the early crop sow as early as possible, covering ½ inch deep in rows 8 inches apart, thinning when small to stand 6 inches apart. Seed for the main crop of winter Turnips is started in July. Sow either in drills or broadcast. One ounce should sow a 150 foot row, 1½ lbs. an acre if drilled, 3 lbs. if broadcast.

4137 PURPLE TOP WHITE GLOBE. Handsomest and most desirable variety. Our strain selected for smoothness, depth of roots and uniformity. Flesh fine grained and firm. **Pkt. 5c; Oz. 10c.**

4138 EXTRA EARLY WHITE BALL. The earliest Turnip. Medium size, crisp, tender, pure white and almost perfectly round. Produced six weeks from seed. **Pkt. 5c; Oz. 10c; ¼ lb. 25c.**

4135 EXTRA EARLY PURPLE TOP MILAN. Flat, smooth, medium size, few leaves. Flesh white and sweet. Best for early spring planting, suitable for fall planting. **Pkt. 5c; Oz. 10c.**

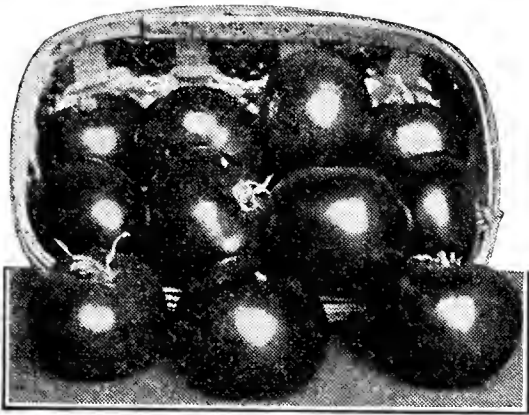

4136 PURPLE TOP STRAP-LEAF. Superior for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine. **Pkt. 5c; Oz. 10c; ¼ lb. 25c.**

4139 GOLDEN BALL or ORANGE JELLY. Delicate and sweetest of yellow-fleshed Turnips yet introduced. Medium in size. Uniformly smooth and solid. **Pkt. 5c; Oz. 10c; ¼ lb. 30c.**

Rutabagas

4145 AMERICAN PURPLE TOP. American Swede. Produces uniformly large, globe-shaped roots. Purple above ground and yellow below. Solid, rich yellow, fine-grained and sweet. **Pkt. 5c; Oz. 12c.**

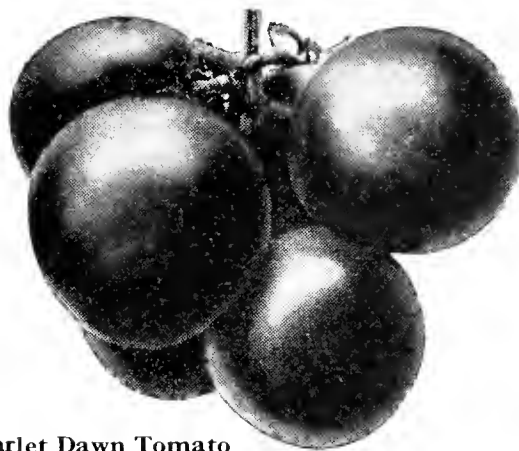

4147 EARLY NECKLESS. Yellow Purple Top, 15 to 20 days earlier than others. Excellent quality, fine appearance, roots round, slightly flattened and neckless. **Pkt. 5c; Oz. 12c; ¼ lb. 35c.**

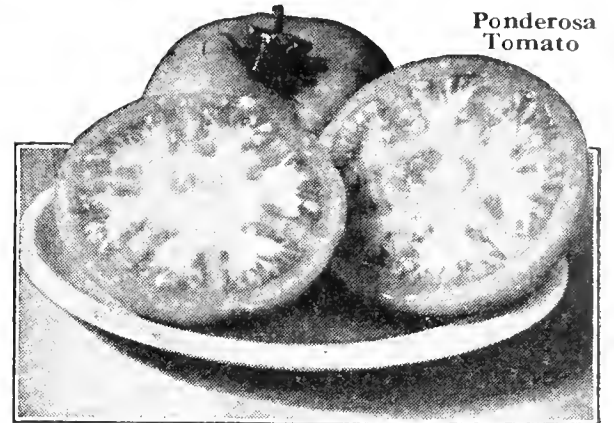

Tomato, Acme

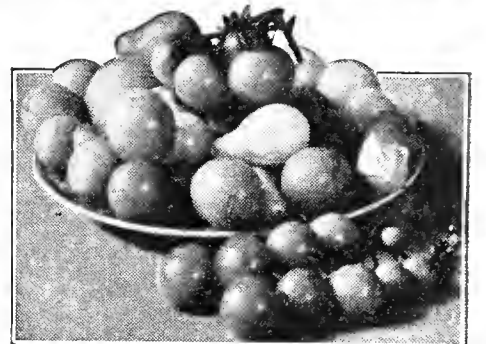

Everbearer Tomato

Scarlet Dawn Tomato

Ponderosa Tomato

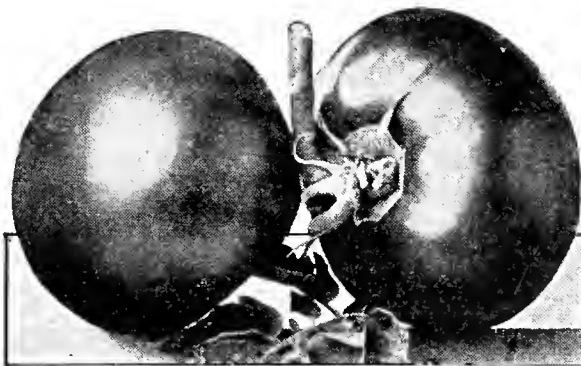

Small Fruited Preserving Tomatoes

Tomatoes

CULTURE. Tomato seed should be started early, by March or early April in hot beds or in boxes or pots in the house. An extra transplanting into other pots or cold frames is beneficial for root development before finally setting outdoors, when it is warm. Do not crowd Tomato plants. You want short stocky plants rather than tall spindly ones. One ounce should produce 2500 to 3000 plants. If set 36 x 24 inches apart you will need about 7200 per acre.

Scarlet Fruited Tomatoes

- 4084 SPECIAL STRAIN EARLIANA.** Seed from Crown Fruits. This strain has been especially selected for depth, smoothness and uniformity of fruit and yet is earlier than the regular strain. Super fine quality. **Pkt. 10c; ½ oz. 30c; Oz. 50c.**
- 4083 EARLIANA, REGULAR.** **Pkt. 5c; ½ oz. 25c.**
- 4081 EVERBEARER.** Long bearing season. You can pick as early as Earliana, and yet keep on picking for a long season after. **Pkt. 5c; ½ oz. 25c; Oz. 40c.**
- 4082 BURBANK.** Bright red fruits, medium size, smooth, well formed and ripening evenly all over. **Pkt. 5c; ½ oz. 25c; Oz. 45c.**
- 4087 RED RIVER.** An extra early. Developed at North Dakota Experiment Station. The most solid and meaty early sort ever. At a Canadian Station it outyielded all other sorts. Fruits slightly flattened, smooth, bright scarlet with solid meat of splendid flavor. **Pkt. 10c; ½ oz. 30c.**
- 4089 BONNY BEST.** Right after the Earliana. One of the very best scarlet varieties for home garden or market. Fruits round, smooth, medium size and ripen evenly. Flesh firm, very productive. **Pkt. 5c; ½ oz. 20c; Oz. 35c.**
- 4097 NEW STONE.** King of the Reds. Main crop variety. Uniformly large size, smooth and very solid, and of best table quality. Fine for canning. **Pkt. 5c; ½ oz. 20c; Oz. 35c.**

Bradley's Cleveland Banner

The Tomato of the Year

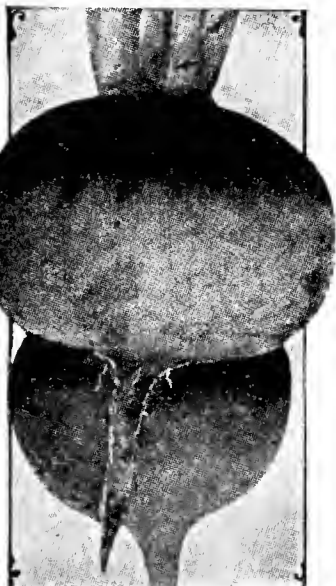

- 4088 BRADLEY'S CLEVELAND BANNER.** Never before have we experienced as much real pleasure in offering a new variety as we experience in offering this wonderful new Tomato originated by Mr. William E. Vail of Yorktown Heights, N. Y., the originator of several excellent varieties which today are well known to almost all Tomato growers. It is with a great deal of pride that we offer to discriminating gardeners this latest result of Mr. Vail's farsighted and painstaking work which he personally has named for Mr. Bradley. In our trial growings and in the propagation fields this marvelous tomato has excelled all other comparable sorts to the extent that it truly deserves the attention of every gardener. The large uniform smooth dark crimson fruit ripen ten days ahead of other midseason sorts and continue in full fruit until frost. The slightly flattened globe-shaped fruits are very solid and meaty with very little acid content, making an ideal variety for canning or slicing. A vigorous grower, heavy producer and a fruit of fine appearance and excellent quality. Bradley's Cleveland Banner is destined to take its place among leading Tomato varieties. **Pkt. 15c; ½ oz. 40c.**

Disease Resistant Tomatoes

- 4094 SCARLET DAWN.** Wilt-resistant, rust-resistant. Wonderful new Tomato of the deep Marglobe red color, globe-shaped, earlier and rounder than Pritchard, Scarlet Topper. Received Honorable Mention at the Cornell and the Connecticut Experimental Station trials as well as in the All-America. **Pkt. 10c; ½ oz. 40c; Oz. 75c.**
- 4095 MARGLOBE.** Disease Resistant. Introduced by the U.S. Dept. of Agriculture for its resistance to "wilt" and "nail head rust." Scarlet fruited main crop variety; result of cross between Marvel and Globe; retains best characteristics of each. **Pkt. 8c; ½ oz. 25c; Oz. 45c.**
- 4091 PRITCHARD, or Scarlet Topper.** All-America Gold Medal. Disease resistant variety developed by the late Dr. Pritchard of U.S. Dept. of Agriculture. Plant comparatively small but branching and a true self topper. Fruits medium size, smooth, solid, heavy, globe shaped, rich dark red both outside and in. Ripens only a few days later than Earliana. Superior Tomato in yield and quality. **Pkt. 8c; ½ oz. 25c; Oz. 45c.**
- 4101 RUTGER'S.** Disease Resistant. Improvement over Marglobe. Brought out by New Jersey Experimental Station where it was heaviest yielding variety. Almost round in shape, ripens from the inside out, bright red and wonderful quality. **Pkt. 10c; ½ oz. 30c; Oz. 50c.**
- 4099 BREAK O'DAY.** Another wilt-resistant Tomato produced by Dr. Pritchard of the U.S. Dept. of Agriculture. Same color, shape and size as Marglobe but earlier. Bright red, extra early and deep globe shaped. **Pkt. 8c; ½ oz. 30c; Oz. 50c.**

Yellow Fruited Tomatoes

- 4120 YELLOW OXHEART.** Has all the qualities of the Oxheart with its big heavy meaty fruits. Rich golden-yellow. **Pkt. 10c; ½ oz. 40c; Oz. 75c.**
- 4118 GOLDEN COLOSSAL.** The best yellow Tomato. Large Ponderosa and like it in every way except color. Very sweet. Fine for preserving. **Pkt. 10c; ½ oz. 35c; Oz. 65c.**

Small Fruited Tomatoes

- 4123 SMALL PRESERVING.** A mixture comprising Red and Yellow, Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves and canning. **Pkt. 8c; ½ oz. 25c; Oz. 45c.**

Purple-Pink Tomatoes

- 4103 ACME.** Popular purple, early ripening, medium size, slightly oval and smooth. Reddish-purple with deep scarlet flesh which is solid and meaty. **Pkt. 5c; ½ oz. 25c; Oz. 40c.**
- 4111 BEAUTY.** Popular purplish-pink for medium early or main crop. Vines vigorous, heavy bearing, fruits medium to large, solid, very smooth, excellent flavor, and ripen well around the stem. **Pkt. 5c; ½ oz. 25c; Oz. 40c.**
- 4110 LIVINGSTON'S GLOBE.** Most popular purple-pink sort for market and canning. Vigorous grower, heavy producer of firm solid fruits, which are very deep, large and heavy. **Pkt. 5c; ½ oz. 25c; Oz. 45c.**
- 4108 PONDEROSA.** Largest and heaviest Tomato grown. Glowing purple-crimson. Considered by many the best table variety. **Pkt. 5c; ½ oz. 40c.**
- 4112 OXHEART.** Oxheart is very large and heavy with thick flesh and few seeds. **Pkt. 10c; ½ oz. 40c; Oz. 75c.**

Peat Moss Improved Granulated

An organic material that contributes humus content to the soil. It assures moisture to the soil, is capable of absorbing 12 times its weight in moisture. Peat Moss lightens heavy clay soil, binds sandy soil, is free from weed seeds or fungus growth of any kind. It is clean, odorless and pleasant to work with. Makes fine winter mulch, is fine medium for packing and storing dahlias and other tubers, roots and fruit. Economical to use. One large bale will spread 300 sq. ft. Splendid for lawn top dressing.

F.O.B. Cleveland by Freight or Express
Large Bale, 20 bushels. 180 lbs. Ea. \$1.25.

Have Every Feature You Want

Templin-Bradley's Selected Gladiolus

A Rainbow of Color for Your Garden

Gladiolus Bulbs fit into any garden, large or small in such a beautiful, stately manner that it is small wonder people everywhere consider them really indispensable. For the beginner, we offer bulbs at so modest a cost that you can have plenty of them for very little money. For the true Gladiolus "Fan," we offer the latest, prize winning varieties that have attracted the attention of expert growers at last summer's shows in all parts of the United States and Canada, and at prices you can afford to pay.

There is just one way to produce Gladiolus Bulbs for our customers and that is the careful way. The care we use has proved its worth ever since we started production in a big way in 1915 and if you could talk with any or all of our customers we know you would get nothing but good reports on the genuine satisfaction they have all experienced when they have planted Templin-Bradley bulbs.

Order from our assortment of Gladiolus Bulbs and you will have the best in your garden next summer.

CULTURE: Plant the bulbs or "corms" as they are called, in trenches or in holes about six inches deep and from six to eight inches apart, covering them with loose fine earth, pressing it down well around the bulb. Gladiolus bulbs do well in any good, well drained garden soil, providing it is in a sunny location. Plant the first bulbs right after the last frost in the spring, plant more every two weeks until July 1st and you will have flowers from mid-July until the first frost next Fall.

Gladiolus Mixtures Each year we receive many letters telling of the great pleasure and satisfaction our customers have had from our Gladiolus Mixtures. These letters praise the very high quality and splendid assortment, the health, vigor and free blooming of the Gladiolus bulbs. We are justly proud of the mixtures we offer you here.

Superfine Mixture

This excellent mixture is made from the popular well known varieties. They are all large blooming size bulbs equal to those in the Glory Mixture, except that the varieties are not quite as new.

Superfine Gladiolus Mixture, 12 for 35c; 25 for 65c; 50 for \$1.15; 100 for \$2.00.

Glory Mixture

A fine mixture of selected varieties of recent origin. This Glory Mixture has brought immense pleasure to thousands of our customers during the past few years. You will like these for cut-flowers.

Templin-Bradley's Glory Mixture, 12 for 50c; 25 for 80c; 50 for \$1.40; 100 for \$2.75.

Garden Beautiful Mixture

This mixture is made for those who wish the very best available in Gladiolus Mixtures. The color array will please you and you will be delighted with the varieties we give you. If sold separately by name, you would have to pay many times the price we ask in mixture. **Garden Beautiful Mixture, 12 for 70c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.**

New Top-Notch Gladiolus

We offer you here some of the finest of the large flowering Gladiolus that have been introduced in recent years. Plant any of them or all of them and you will have flowers of which you may well be proud.

Gladiolus Group "A"

RED CHERRY. A beautiful, bright, cherry-red, wonderfully ruffled. Distinctive character that will add to the charm of your Gladiolus planting. **3 for 17c; 6 for 30c; 12 for 50c.**

BETTY NUTHALL. Slightly ruffled flowers of warm, coral-pink with orange throat and light featherings of carmine. One of the best recent introductions. **3 for 12c; 6 for 20c; 12 for 35c.**

CADILLAC. A warm and pleasing shade of golden, apricot-yellow, shading to apricot-rose toward edge of petals. **3 for 35c; 6 for 60c; 12 for \$1.00.**

CHARLES DICKENS. A purple-violet of great richness and depth of color. Blooms are freely produced on long spikes often 5 feet or more tall. A very popular variety of attractive color and form. **3 for 17c; 6 for 30c; 12 for 50c.**

MILDRED LOUISE. Large florets 5½ inches across and 19 to 22 per spike. Beautiful, triangular shaped, salmon-pink upper petals with lower petals tipped strawberry-pink, blending to pinard-yellow in the throat. **3 for 17c; 6 for 30c; 12 for 50c.**

MOROCCO. The darkest of all the red gladiolus. Well for medium large blossoms of beautiful, deep, velvety red, almost black. **3 for 25c; 6 for 40c; 12 for 65c.**

PFITZER'S TRIUMPH. Very large, wide-open flowers of deep orange salmon, overcast scarlet, with small, velvet-red marking in throat. **3 for 17c; 6 for 30c; 12 for 50c.**

WURTEMBERGIA. Fiery scarlet with rich, creamy throat. The most dazzling red that tops them all for color. Immense blooms, 10 to 12 on a spike. **3 for 30c; 6 for 50c; 12 for 85c.**

5501 Group "A" 1 bulb each of above 50c
8 Glads, Value 67c for

Gladiolus Group "B"

BAGDAD. Smoky old rose, somewhat darker toward the edge and lighter in the throat. There is a faint, creamy blotch marked with pink, tho it is practically a smoky self color. Six to eight or even more immense blooms open at a time. Florets 7 inches or more across. **3 for 17c; 6 for 30c; 12 for 50c.**

COMMANDER KOEHL. The wing petals form a triangle 6½ inches across. Dark red, warm shade of glowing brilliancy. **3 for 25c; 6 for 40c; 12 for 65c.**

GOLDEN DREAM. A pure, rich, golden yellow flower with a throat slightly striped with wine and anthers showing a wine stripe. One of the very best yellow Glads ever procured. **3 for 12c; 6 for 20c; 12 for 35c.**

HEAVENLY BLUE. Delicate lavender blue with tips of petals daintily shaded violet. Faint blotch of violet on lower petal. **3 for 30c; 6 for 50c; 12 for 85c.**

MAID OF ORLEANS. Splendid new milky-white with distinct ice cream hue in throat. Tall spike with eight to ten large, well arranged open flowers. **3 for 25c; 6 for 40c; 12 for 65c.**

MISS ALAMEDA. Deep salmon-pink with distinctive carmine blotch. Spikes carry eighteen or more buds with six or more open at one time. Early mid-season and one of the best for indoor forcing. Florists find it a sensation. **3 for 55c; 6 for 85c; 12 for \$1.35.**

PAUL PFITZER. A velvety violet-red of great depth of color. Heavily ruffled. **3 for 30c; 6 for 50c; 12 for 85c.**

RED PHIPPS. Warm, light red. A charming color with 8 or more large florets open at a time. Fine for cut-flowers. **3 for 25c; 6 for 40c; 12 for 65c.**

5502 Group "B" 1 bulb each of above 75c
8 Glads, Value 86c for

Gladiolus Group "C"

DREAM O'BEAUTY. A large, rose-red, the shade that is so popular. A tall, strong grower that is fine for the garden and as a cut-flower. **3 for 25c; 6 for 40c; 12 for 65c.**

RED LORY. A new carmine-rose with purplish blotch, of the grand Exhibition type. You will find this in few Gladiolus Collections, so if you like unusual colors, be sure to plant it. **3 for 25c; 6 for 40c; 12 for 65c.**

MARY FREY. A delicate, lavender-pink almost a lilac tone, soft and pleasing. An excellent cut-flower and good garden variety. **3 for 17c; 6 for 30c; 12 for 50c.**

PELEGRINA. Intense violet-blue with deep purple shadings. The richest and loveliest of all blue Glads. **3 for 17c; 6 for 30c; 12 for 50c.**

PRIMROSE PRINCESS. A royal princess. It is a rich, deep yellow, just the color for cut flowers where artistic beauty is desired. **3 for 12c; 6 for 20c; 12 for 35c.**

TIP-TOP. A wonderful, warm scarlet-red. Large, tall-growing novelty carrying 7 to 8 wide open, flat flowers of the real Pfitzer type, at one time. Mid-season. **3 for 40c; 6 for 75c; 12 for \$1.25.**

TROUBADOUR. Bright, violet-purple. A rich, vivid color new in Glads. Excellent flowers and a real addition to your Glad collection. **3 for 30c; 6 for 50c; 12 for 85c.**

MR. W. H. PHIPPS. A delicate, La France pink, overlaid with salmon-rose. Lower petals lightly striped and splashed with ruby. Large flowers and long spikes. **3 for 17c; 6 for 30c; 12 for 50c.**

5503 Group "C" 1 bulb each of above 55c
8 Glads, value 73c for

Gladiolus Group "D"

MRS. E. J. HEATON. Warm, glowing salmon pink with cream throat. Tall, vigorous grower that withstands heat and drought and will open six florets in the field. Good growth habits. **3 for 55c; 6 for 85c; 12 for \$1.35.**

MRS. P. W. SISSON. A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes. **3 for 12c; 6 for 20c; 12 for 35c.**

MOTHER MACHREE. Grape-lavender, overlaid toward the edges of petals with salmon-pink and slate, giving it a smoky effect. Tall spike with 8 to 12 open blooms. **3 for 25c; 6 for 40c; 12 for 65c.**

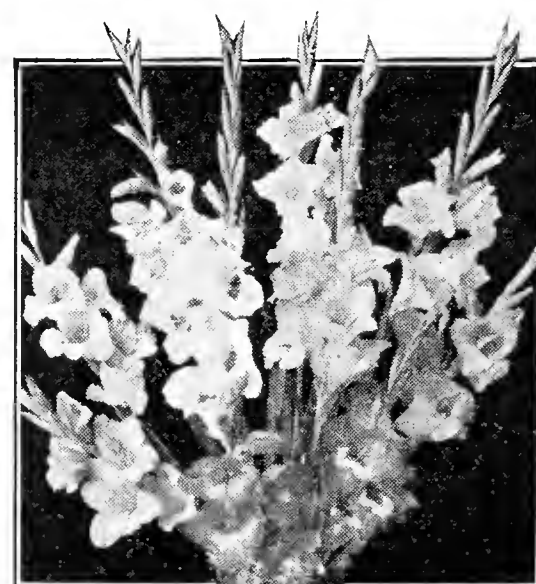

RUFFLED GOLD. Yellow throughout except for faint markings of red in throat. Beautifully ruffled. **3 for 25c; 6 for 40c; 12 for 65c.**

PICARDY. Soft apricot-pink, with feathering of deeper shade in throat. Very large individual florets often 6 inches across. Petals heavy substance and beautifully frilled. 7 to 10 flowers open at a time. Perfect color, a giant in size. **3 for 12c; 6 for 20c; 12 for 35c.**

SONATINE. Atlas-rose with small, cherry-red blotches. Florets exceptionally large, having very broad petals. Grows to a height of 5-6 feet. **3 for 25c; 6 for 40c; 12 for 65c.**

VEILCHENBLAU. A large flowered Gladiolus of richest Iris blue coloring. An exceptionally vigorous grower. **3 for 25c; 6 for 40c; 12 for 65c.**

Tuberous Begonias

Single and Double in Many Colors
For The Garden or Window Boxes

If you long for a beautifully colored flower which is different from any other class, Tuberous Rooted Begonias will please you. There are two classes—singles which often grow six inches or more across and doubles up to five inches.

The rich, velvety, crinkled foliage is prettier than any other begonia. They do best when direct sun does not hit them from ten to three in mid-summer. But they should not be grown in total shade. Colors are variations in pink, yellow, orange, red and crimson. You will seldom find two of exactly the same shade if you plant a hundred bulbs, so the more you plant the more interesting they become.

LONG LIFE

Every year, customers tell us of having kept their Begonia bulbs for many years by digging them in the fall and storing them in fruit or potato cellars.

EASY TO GROW

Tuberous Begonias are easy for the home gardener to handle and florists make big money in growing them. I start mine in shallow boxes of soil in the house about a month before time to set them out in the garden. This permits about three leaves to get fully formed by the time danger from frost has passed. I should hate to have to do without Tuberous Begonias and I know you will feel the same way after you have tried them. You can plant them in the garden or in porch and window boxes.

Single Begonias

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

Rose or Pink Orange, Salmon
Shades of Yellow Red and Scarlet
Dark Crimson

Price any color. Each 25c; 3 for 65c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

5009 Set of 5 colors, not separately labeled, for \$1.00

Single Superfine Mixed. Doz. 1.50

Double Begonias

The flowers often 4 inches across are like big, double roses and of the most adorable colors. If placed in low bowls, they make artistic bouquets.

Pink or Rose Orange, Salmon
Shades of Yellow Red and Scarlet
Dark Crimson

Price any color. Each 25c; 3 for 65c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00

5033 Set of 5 colors, not separately labeled 1.00

Double Superfine Mixed. Doz. 1.50

5040 5 Singles & 5 Doubles Not Separately Labeled for Only \$1.50

TEMLEY'S
Watch-em-Grow
PLANT FOOD

Will Solve Your House Plant Problems

You Feed Your Pets--Don't Starve Your Plants

Easy To Apply and the Results Will Please You

The 50-Cent Can

Potted plants and ferns soon use up food in the soil. With small applications of Watch-em-Grow at regular intervals, applied according to directions, plants will continue luxuriant, healthy, new growth and produce their beautiful bloom regularly.

Watch-em-Grow is a clean odorless powder, quickly dissolves in water and is applied as you water the plants. No trouble, no bother and no mess. When potting plants a teaspoonful of Watch-em-Grow mixed with a gallon of soil will supply sufficient food for the plants for six or eight months.

4300 8 oz. Can, 50c.

The Plant on Right Had Watch-em-Grow

See Tuberous Begonias in Colors on Back Cover.

Beautiful Dahlias

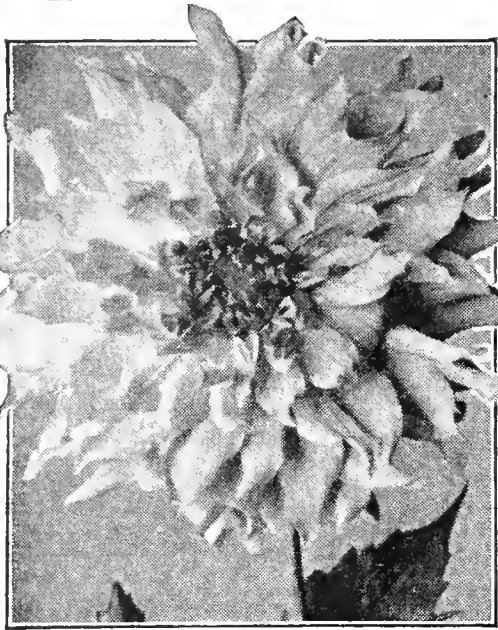

By careful breeding, new forms, giant size and remarkable colorings have made the old types of Dahlias obsolete and today there are hundreds of splendid new varieties, worthy of a place in any flower show. We offer you the following varieties at moderate prices. They have been carefully grown to bring out the best in each variety. Instructions for growing, packed with each order, free.

DOLLAR BOX. This Dollar Box will contain ten good dahlias which would cost much more if bought separately. Many choice types and colors will be included. One of these collections planted in your garden will give you plenty of cut flowers for your house and show in your garden from early August until frost.

5472 Ten Unnamed Dahlias \$1.00.

A FINE COMBINATION. Here is a beginner's collection of our fine dahlias of striking colors, all large flowering, no two alike which will include the four leading types of Show, Peony-Flowered, Decorative and Cactus. Each tuber is worth much more than the 12½¢ represented in one-fourth the collection price.

5473 4 Different Dahlias for 50c.

Dahlia Jane Cowl

Five Grand Dahlias

CALIFORNIA IDOL. Fine grower with a deep flower of clear glistening yellow, a true pastel shade. Ranks with the very largest, growing to 14 inches or more. It won California Gold Medal. **Each 75c.**

JANE COWL. Glorious golden-buff and old gold, blending into rich apricot and deep rose at center. Jane Cowl has everything it takes to make a perfect Dahlia, mammoth blooms, plenty of them, good stems, husky plants and sure grower. Truly a striking Dahlia. **Each 25c.**

JERSEY'S BEAUTY. Most beautiful and satisfactory pink Decorative Dahlia in existence. Delicate eosine-pink, rare and rich coloring. Flowers of fine substance and keeping qualities for cut-flowers and borne on extra fine healthy plants. **Each 25c.**

KEMP'S WHITE WONDER. I. D. Sensational white, seedling of Ft. Monmouth. Long twisted and curled petals; many measure 12 inches across. Stems stiff and erect. **Each 50c.**

PRIDE OF STRATFORD. A very large cadmium-orange Decorative. A very good bloomer on fine stems and blooms are fully double from beginning to end of season. **Each 25c.**

5405 Set of 5 Above Dahlias
Value \$2.00 For Only \$1.50

Five Favorites

HUNT'S VELVET WONDER. Special award of merit at the New York Show. An excellent keeper for so huge a flower. Color, rich, bright violet-burgandy which under some lights looks royal purple. Disease resistant, striking foliage, excellent stems. **Each 60c.**

JERSEY'S BEACON. Decorative. Chinese scarlet with a paler reverse. **Each 25c.**

KATHLEEN NORRIS. A gigantic formal Decorative of rose-pink deepening to mallow-pink. A prize winner. **Each 50c.**

MRS. IDA DE VER WARNER. Giant Decorative Dahlia in beautiful orchid-lavender. Perfectly formed flower on long stiff stems, ideal for cut-flowers. A prominent grower once said that if he had room for only one Dahlia in his garden, it would surely be Mrs. Ida de ver Warner. **Each 25c.**

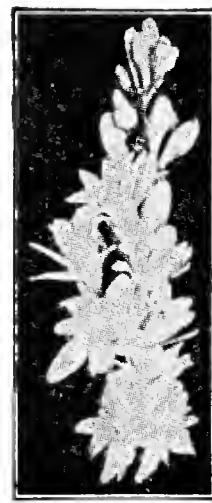

SAGAMORE. A fine exhibition Decorative of enormous size and depth of bloom. Bright amber-gold slightly suffused salmon-rose and buff, deepening in color to the center. One of the finest of the Autumn shades; very fine bloomer and good keeper. **Each 25c.**

5406 Set of 5 Above Dahlias
Value \$1.85 for Only \$1.35

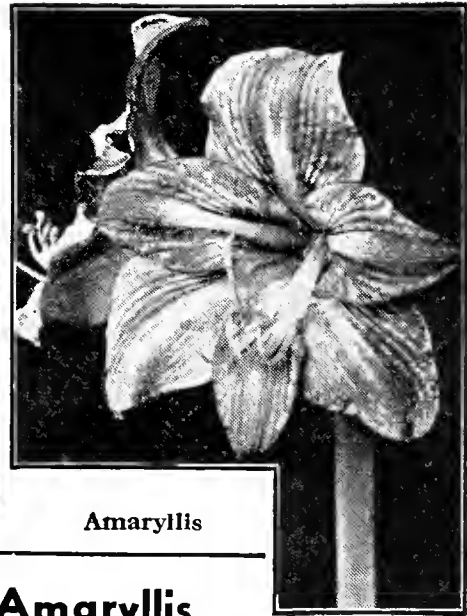

5407 Set of 10 Above Dahlias Value \$3.85 for Only \$2.50.

A FREE GIFT If you order both above Collections at the special price of \$2.50 we will send you free, one Dahlia Tuber of:

ZION'S DELIGHT. Achievement Medal winner. Many petalled, rich red informal Decorative. Long stiff stems never pendant. Wonderful substance. **Each 25c.**

Double Tuberose

Amaryllis

Amaryllis

Imported Dutch Strain

GIANT HYBRIDS. These are the finest of all the Amaryllis for pot growing. Many rich colors from rose and white to deep maroon, both self colors and variegations. Large lily-like flowers. We cannot separate the colors, so if a variety is wanted, the more you order the greater variety you will get. Strong Bulbs. **Each 50c; 3 for \$1.25; 6 for \$2.25.**

CULTURE. Pot Amaryllis in 6 inch pots with good garden soil. Add a bit of bone meal. Keep in a dark, warm place 4 to 5 weeks for rooting. Then to a sunny window for flowering period. Give plenty of water from the beginning.

Double Tuberose

DWARF PEARL. One of the most delightfully fragrant and beautiful of the summer flowering bulbs. A long succession of bloom may be secured by starting them in pots or box of peat moss or in a hot bed and setting them in the garden as soon as weather permits and also planting other bulbs directly in the garden at the same time. Dwarf habit, large flowers. Each bulb produces a spike of beautiful waxy-white flowers. If planted in the garden in May they will produce their delightful bloom in August and September. Strong bulbs. **3 for 25c; 6 for 40c; 12 for 75c.**

NITRAGIN

Inoculator

For Peas, Beans, etc.

4340 NITRAGIN. Garden size Pkt. 10c; 3 Pkts. 25c.

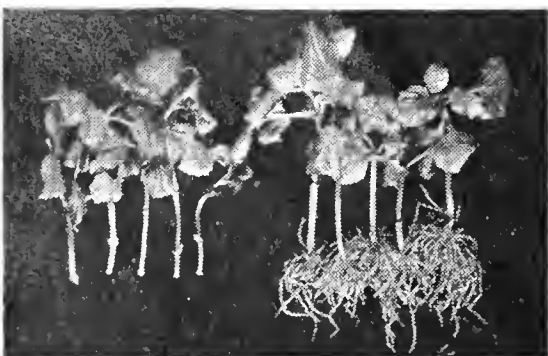

HORMODIN

"Hormodin" is a root-forming chemical to stimulate rapid root growth when propagating plants from cuttings. "Hormodin" is especially valuable in giving you a surer and more sturdy "catch."

20 B.T.L. Units \$1.10; 60 Units \$2.00; 240 Units \$7.00; 480 Units \$13.00; 960 Units, \$24.00. Prices Postpaid.

Each package contains a calibrated measure, complete directions and treatment Chart.

NOT TREATED

DAHLIA

TREATED

Fungicide—Insecticide—Plant Simulant

Complete Protection against Plant
Insects and Diseases

Mildew and Black Spot diseases are easily controlled with Tri-ogen. Complete protection against all diseases and insect pests. Easily applied acts as a stimulant, producing vigor in growth with resultant luxurious blooms. Applied weekly, from early until late frost, makes it possible for the amateur to achieve the success comparable to the professional.

The Templin-Bradley Co., Nationwide Seedsmen and Nurserymen, Cleveland, Ohio

Helpful Hints About Starting Your Flower Seeds

Fill flat to top with sifted soil and scrape level

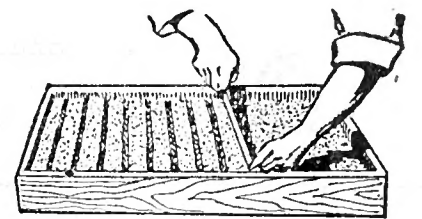

Firm seed bed by tamping lightly with brick or board.

This new feature of the Templin-Bradley catalog is presented as a service to those trying unfamiliar flower seeds for the first time.

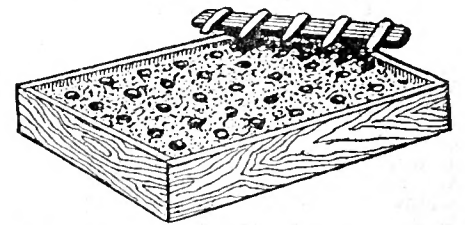

On pages 4 to 33, under the name of each family of Annual Flower Seeds, you will find whether we recommend Culture "A," "B," "C," "D," "E," or "F." All of these cultures are given below.

The majority of the Perennial Seeds offered on pages 35 to 42 should be started by following Culture "F" below. However, after Cultures "C," "D" and "E" below, a few varieties of Perennial Seeds are listed which should be started under those recommendations.

If you find these Cultural suggestions of value to you, let us know by card or letter or a notation on your order. If, on the other hand, you do not think it worth while, we would appreciate knowing that, too.

Sow seed in shallow rows and barely cover. Merely press very fine seed in the surface

An easy, time-saving method of making holes for transplanting seedlings.

A Start seed in open garden April to June where plants are to stand. Wait until danger of frost is past and soil is warm. Soil should be loamy and worked fine. If soil is heavy it is advisable to sow in seed bed (See culture "B") and transplant to permanent place. Very small seed should merely be pressed in or barely covered. Coarse seed should be covered to about four times its diameter. In either case, firm the soil over seed to bring up moisture. Soil should not be allowed to become hard and dry at any time, but too much water may cause "damping off." Lay a piece of burlap or newspapers over seed bed to hold moisture and prevent baking of soil before tiny plants appear above the surface. When the little plants come up, pull out some and transplant if they stand too thickly so they have a better chance to develop. Keep soil loose around the plants.

B Sow outdoors from April to June, then transplant. Prepare seed bed in the open, of loose, loamy soil, raised slightly above surrounding surface. Surround the bed with a wooden curb to prevent rain washing across it. Its width should not be more than four feet so it can be worked easily. If possible use spot sheltered from strong winds, but shady locations are not recommended as seedlings should have full sun. Sow seed in rows five inches apart. Otherwise follow instructions in culture "A" above. Transplant seedlings when they make true leaves which are second pair that show or they may be left until larger before being moved.

C Start seed in cold frame or flat or florists' pot outdoors April to July. This culture is for slow germinating seeds. Some require a year to germinate. Use soil described in culture "D." Firm soil and broadcast seed which should be covered about four times its diameter. Use shaded location with free circulation of air. In spring, summer and fall water often enough to prevent soil from drying out. Mulching with peat moss helps to retain moisture. Over the winter place in protected spot outdoors and cover with leaves. Remember such seed requires considerable time, so do not disturb too quickly. It will eventually grow if given time enough and soil, moisture, etc., are correct. If moss forms on soil, sprinkle fresh soil over top. When seedlings produce true leaves, transplant.

The following perennial seeds require "C" culture

Aconitum	Dictamnus	Penstemon
Adonis	Helleborus	Phlox
Baptisia	Lobelia	Polemonium
Cerastium	Meconopsis	Primula
	Oenothera	Statice

D Start seed indoors in April or May in box or regular florists' pot. Place receptacle in south window so it may have sunlight most of the day. Box should have holes in bottom for drainage. After covering drainage holes in pot or box with broken pottery, fill with mixture of half sand and half black loam. This is regular potting soil, which may be obtained from florists. Firm the soil. Place pot or box in water so that it soaks up from below, or use a fine spray that does not wash soil. Place in dark room, covering with piece of burlap or newspaper until the plants appear, when receptacle should immediately be placed in full light. To conserve moisture cover pot or box with glass. When moisture collects on glass, wipe it off and prop up one end of glass to allow circulation of air during the day while sun shines. A minimum temperature of 50 degrees at night and 75 degrees during the day give best results. At no time should soil be allowed to dry out. Transplant seedlings to other flats when they get their second set of leaves, setting them at least two inches apart, or they may be placed in small pots or in a border or seed bed outdoors.

The following perennial seeds require "D" culture

Arenaria	Edelweiss
Armeria	Heliopsis
Doronicum	Wallflower

E Sow in cold frame or hot bed in April or May. It is recommended that seed be sown in flats, which are placed in the frame. If hot beds are heated with manure, do not sow seeds until temperature of newly made bed has dropped to 90 degrees. It is important that watering and ventilation be closely watched. On sunny days in spring always keep one end of sash open to prevent overheating which would cause spindly growth. Soil should never be allowed to dry out. Transplant seedlings to other flats when they have made their second set of leaves. Plant two inches apart each way. They may also be transplanted to soil in hot bed or in open ground if not too early in season.

The following perennial seeds require "E" culture if not started indoors as in culture "D"

Arenaria	Edelweiss
Armeria	Heliopsis
Doronicum	Wallflower

Good Seeds Carefully
Handled Make Good Gardens.

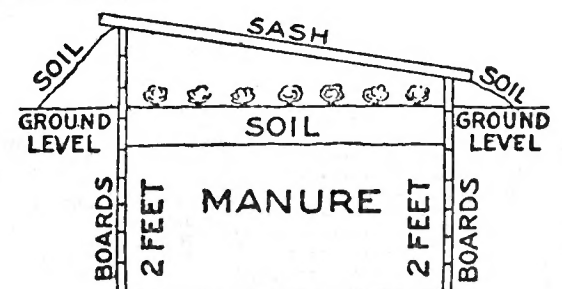

Templin-Bradley Seeds
are good seeds.

F Sow seed thinly in cold frame or flat or florists' pot outdoors in April after frost danger is past and any time up to August or September 1st. Use soil as described in culture "D." Broadcast seed which cover about four times its diameter and press in with edge of board. Place in cool, shaded location and keep soil moist. After germination supply bottom moisture and when seedlings get second or third set of leaves, transplant to more room. When they reach height of five or six inches and develop a fair root system, transplant to permanent place. The problem with seed started in mid-summer is that weather is usually so hot and dry and moisture supplied evaporates so rapidly, it is difficult to get good germination and quick growth. If you have a cool, moist spot to start seed or you provide means of gentle sprinkling and shading, you will be safe in starting then. Cloth or newspaper over the receptacle until plants appear, holds moisture and prevents baking. Plants of seeds sown in late summer really should be carried over first winter in cold frame for proper protection.

All perennial seed not listed under "C," "D," or "E" requires "F" culture.

THE HOT-BED

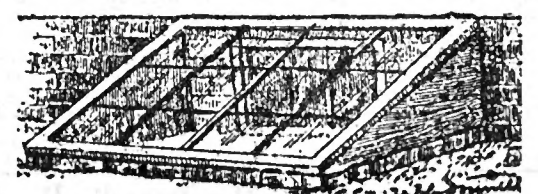

A hot-bed is really a miniature greenhouse and will enable you to start some plants from six weeks to two months earlier than otherwise. The cut below will give you quite a clear idea of the construction.

Showing the construction of a small hot-bed.

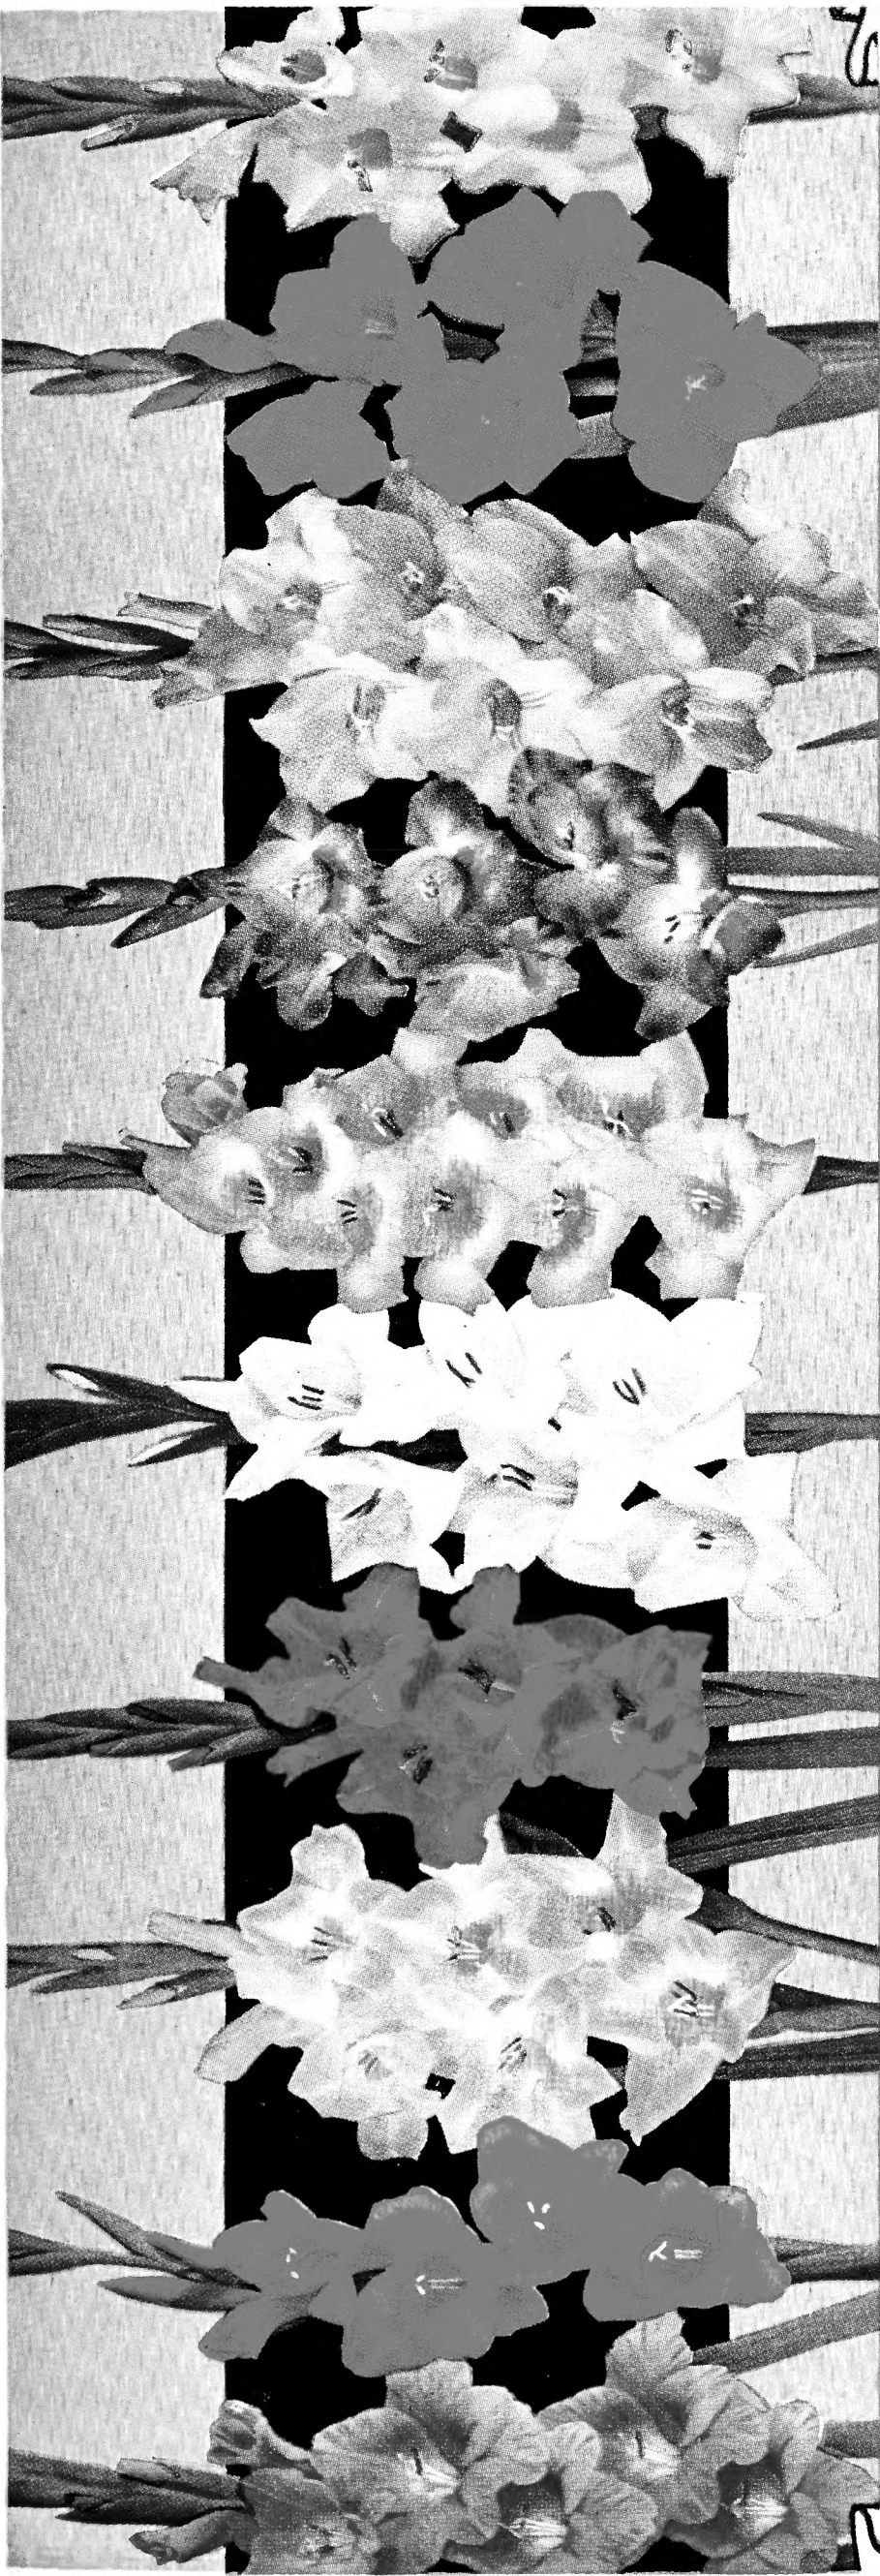

COLD FRAMES

One fine place to build a cold frame is right against a basement window of the house. Build it without a back and so arranged that the window can be opened to let heat from the basement get in.

A cold frame against a basement window.

Lawn Seed

In addition to the Special Templin-Bradley's Blends of the finest Lawn Seed, we also offer you separate named varieties for special purposes.

4222 SUPERFINE KEN-TUCKY BLUE GRASS.

Fine leaved, true perennial, deep green. Lb., 45c; 10 lbs., \$4.00.

4223 SUPERFINE RED TOP.

Quick germination, long lasting, narrow leaves. Lb., 45c; 10 lbs., \$4.00.

4227 POA TRIVIALIS.

Quick growing shade grass, long lasting. Lb., 70c; 10 lbs., \$6.25.

4228 ASTORIA BENT.

Best for seed-started Bent Lawn. Dwarf, compact, spreading. Lb., \$1.35; 10 lbs., \$12.50.

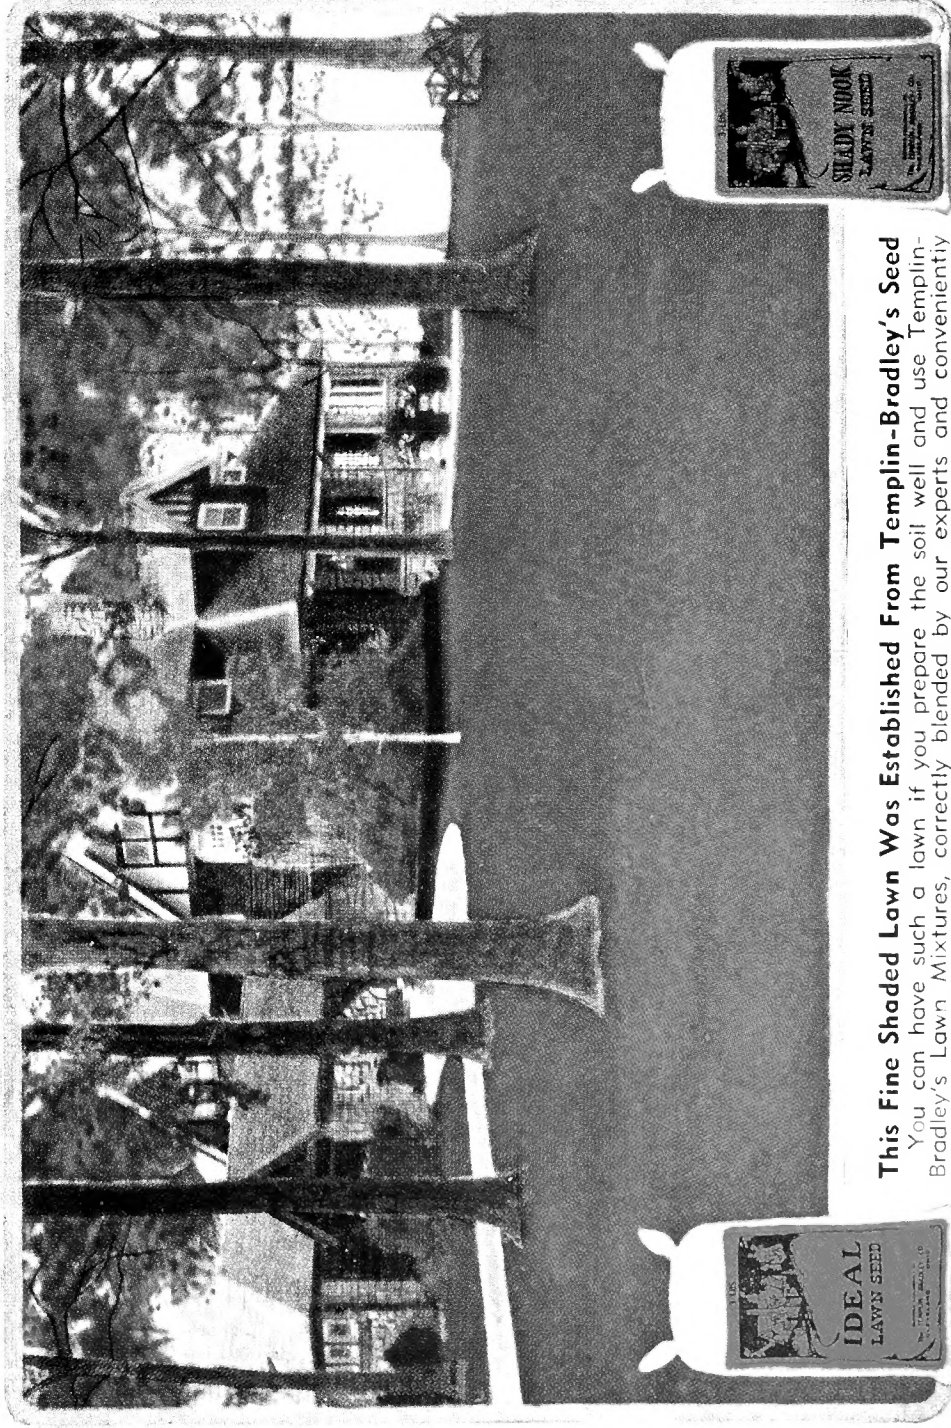

4235 PURE WHITE CLOVER.

For those who like heavy showing of clover in lawns. 1/4 lb., 25c; 1/2 lb., 40c; lb., 70c; 5 lbs., \$3.25.

All above prices include postage.

For our own special blends: IDEAL for sunny places, QUICK GROWTH for quick results and SHADY NOOK for shady places, see page 33.

TEMPLIN-BRADLEY'S FINE LAWN MIXTURES AND SEPARATE GRASSES FOR SPECIAL PURPOSES

This Fine Shaded Lawn Was Established From Templin-Bradley's Seed

You can have such a lawn if you prepare the soil well and use Templin-Bradley's Lawn Mixtures, correctly blended by our experts and conveniently packed for you. For more lawn seed information and prices, see page 33.

SPECIAL OFFER ABOVE 10 KINDS

50 Glad Bulbs for \$1.00

5 Each of 10 Leading New Varieties Shown in Color Above. Each Variety Separately Labeled. The Most Valuable Assortment You Can Buy.

DREAM O' BEAUTY. A large rose-red, the shade that is so popular. A tall, strong grower that is fine for the garden and as cut flowers.

GOLDEN DREAM. A pure golden yellow flower. The deep throat is slightly striped wine and the anthers carry a wine stripe. The best yellow to date.

GIANT NYMPH. A variety you will all want. A delicate Lalande-pink with creamy yellow throat. Very large and wide open flowers, long spikes and flowers well arranged on the stem. Often grows 6 feet tall.

DR. F. E. BENNETT. Large flower of peach-red overlaid with flame-scarlet. Throat speckled ruby and white.

HELEN WILLS. Large, clear white. Vigorous, straight spikes. A Blue Ribbon winner.

BETTY NUTHALL. Slightly ruffled flowers of warm coral-pink with orange throat and light featherings of carmine.

BAGDAD. Smoky old rose, somewhat darker toward the edge and lighter in the throat, creamy blotch marked with pink, though it is practically a smoky self-color.

BERTY SNOW. Large flowers of soft lavender with a slight tinge of pink. Excellent substance and well spaced on a good spike. Eight or more open at once. A flower of unusually delicate beauty.

ORANGE QUEEN. Large, wide open flowers of pure apricot-orange. Many fine flowers on good stems.

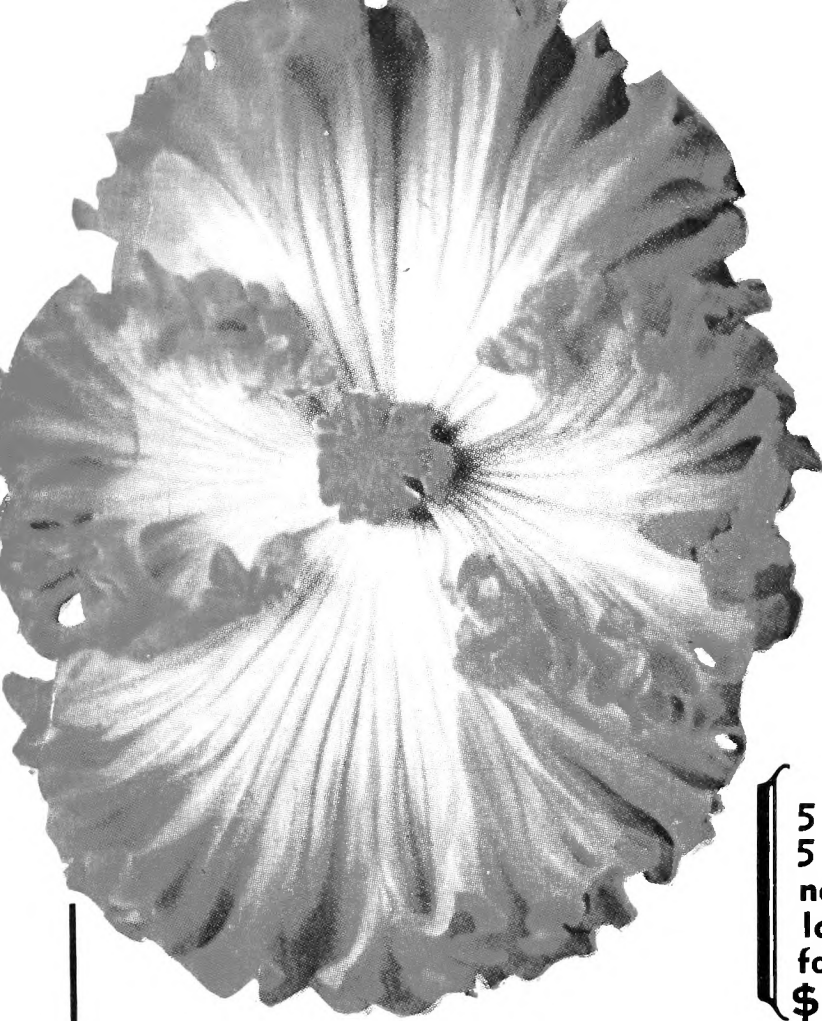

MRS. P. W. SISSON. A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes.

You Are Offered In This Unusual Collection Show Winning Varieties Carefully Grown, Clean and Healthy Blooming Size Bulbs

5991 50 Glad Bulbs for \$1.00

5 Each of Above 10 Varieties, Labeled

Not Sold Separately At This Low Price

TEMPLIN-BRADLEY'S

Tuberous Rooted Begonia Bulbs

Single and Double in Many Colors. Easy to Grow. For the Garden Window and Porch Boxes.

Single Begonias

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

5009 Set of 5 Colors \$1.00
Not separately labeled

Double Begonias

The flowers, often 4 inches across, are like big, double roses and of the most adorable colors. If placed in low bowls, they make artistic bouquets.

5033 Set of 5 Colors \$1.00
Not separately labeled

**5040
5 Singles and
5 Doubles,
not separately
labeled
for only
\$1.50**

See page 57
for complete
listing of separate
colors and types

All good, blooming-size bulbs, big and vigorous enough to give you excellent results. We do not guarantee definite shades, as they vary in color.
